

## Monash University Policy

<b>Policy Title</b>	Electronic Security Alarms Policy
<b>Date Effective</b>	23 March 2017
<b>Review Date</b>	23 March 2020
<b>Policy Owner</b>	Director Services, Buildings and Property Division
<b>Category</b>	Operational
<b>Version Number</b>	2.0
<b>Content Enquiries</b>	F-SPolicy@monash.edu
<b>Scope</b>	<p>This policy applies to all staff and students of:</p> <ul style="list-style-type: none"> <li>• Monash University at the university's Australian campuses, Residences and off-campus facilities; and</li> <li>• Monash College Pty Ltd business units at the university's Australian campuses.</li> </ul>
<b>Purpose</b>	<p>To ensure that all electronic security alarm system equipment and monitoring is effectively applied, managed and maintained within Monash University environments.</p> <p>The primary use of electronic security alarm systems is to protect persons and property by providing a means to deter, deny and/or detect unlawful behaviour. Where University property contains critical assets, highly confidential or sensitive information or supports the performance of tasks that may be accompanied by a higher than usual 'security' related risk, consideration should be given, as part of a total security solution, to the benefit/s of installing a suitable, monitored alarm system.</p> <p>All sections of the university community have a responsibility to consider their own environmental security issues and are encouraged to seek professional advice from the university's security services regarding the most appropriate security solutions, including electronic alarms.</p>
<b>POLICY STATEMENT</b>	

Monash University seeks to protect people and assets on university premises in the most effective manner possible including, where necessary, through the provision of suitable electronic alarm systems, monitoring and associated physical support. This policy provides the direction for planning, installing and using electronic security alarms at Monash University Australian facilities.
