RANKED 73 IN THE WORLD

GS World University Rankings by Subject 2016.

RANKED 67 IN THE WORLD

GS World University Rankings 2016.

Monash Business School is one of the few business schools in Australia, and the only one within the Group of Eight, with the esteemed “triple crown” accreditation of AACSB, EQUIS and AMBA.

ACCRREDITED

Our courses are accredited by professional bodies such as:

GLOBAL
AUSTRALIA | CHINA
INDIA | ITALY | MALAYSIA
SOUTH AFRICA

EMPLOYABILITY

Leaders from the world’s most successful companies consistently rate Monash as a preferred university from which to hire graduates.
(Ranked 53 in the world in 2014)

RESEARCH EXCELLENCE

MONASH IS RANKED ‘WELL ABOVE WORLD STANDARD’ IN EIGHT BROAD FIELDS OF RESEARCH:
Chemistry | Engineering | Economics | History | Law
Medical and health sciences | Philosophy and religion | Technology

Excellence in Research for Australia (ERA) 2015 report.

MONASH IS A FIVE-STAR-PLUS INSTITUTION

This means we are not just world-class, but an elite destination to which the very best students and faculty worldwide aspire.

GOOD UNIVERSITIES GUIDE 2015

The Good Universities Guide 2015 awarded Monash five stars for:
Staff qualifications | Student retention | Research grants | Research intensity

Define your professional path with graduate study from Monash. Whether you want to change careers or reinforce your knowledge in your current field, there’s a course to help you achieve your goal. Choose from a range of professional entry or expert master’s courses – all designed to add to your professional capabilities – as well as research options in more than 150 fields of study.

But it’s not just about the course. You are at the centre of everything we do. We offer you careers counselling, academic support, health and wellbeing services, professional development opportunities and family support. We can even help you find somewhere to live. You can also take advantage of academic support services and modern study facilities designed specifically for graduate students.

GLOBAL RECOGNITION

Monash courses are recognised and accredited by Australian and international industry bodies for professional practice in specified fields. Graduate with a qualification that will advance your career in areas such as business, engineering, IT, law, education, architecture, medicine, health or pharmacy.

CHOICE AND FLEXIBILITY

Tailor your course to suit your needs – full-time or part-time, on-campus or off-campus, at home or overseas.

You can do coursework or a research project, with the flexibility to study when and where you choose, and benefit from working with industry along the way.

OVERSEAS STUDY OPPORTUNITIES

At Monash we believe that the educational experience is extended through collaboration, challenging the status quo and traversing uncharted territory. As a global university with a presence on four continents, you have access to more international exchanges, internships and collaborative research programs. We have locations in Italy, Malaysia, India and China, and partnerships and alliances with universities in North America, Europe, the UK, Asia and Africa.

At Monash we believe that the educational experience is extended through collaboration, challenging the status quo and traversing uncharted territory. As a global university with a presence on four continents, you have access to more international exchanges, internships and collaborative research programs. We have locations in Italy, Malaysia, India and China, and partnerships and alliances with universities in North America, Europe, the UK, Asia and Africa.

RESEARCH EXCELLENCE

Monash is home to advanced equipment and research platforms such as the largest wind tunnel in Australia, which is leading the way for aeronautical and wind noise research, the unique $6 million electron microscope (EM) which aims to transform the way we view the human immune system and FishCore which is home to the largest zebrafish facility in the southern hemisphere – leading platforms for learning and testing your ideas.

As a member of the Group of Eight, Monash is a research-intensive university. This research informs our course development which focuses on meeting the needs of industry and society today and tomorrow.

GAIN CREDIT FOR PRIOR LEARNING

Many of our master’s programs offer you block credit on the basis of your education background.

1-YEAR PROGRAMS
- I WANT TO UNDERTAKE A MASTER’S PROGRAM IN THE SAME DISCIPLINE
  - I HAVE A FOUR-YEAR HONOURS QUALIFICATION
  - 48 CREDIT POINTS

1.5-YEAR PROGRAMS
- I WANT TO UNDERTAKE A MASTER’S PROGRAM IN THE SAME DISCIPLINE
  - I HAVE A THREE-YEAR UNDERGRADUATE QUALIFICATION
  - 72 CREDIT POINTS

2-YEAR PROGRAMS
- I WANT TO UNDERTAKE A MASTER’S PROGRAM IN A DIFFERENT DISCIPLINE
  - I HAVE A THREE-YEAR UNDERGRADUATE QUALIFICATION
  - 96 CREDIT POINTS

GRADUATE COURSES ARE OFFERED IN BOTH COURSEWORK AND RESEARCH MODES

PROFESSIONAL ENTRY MASTER’S COURSES (COURSEWORK)

These courses are specifically designed to prepare you to enter a regulated profession such as law, accounting or teaching. These courses can take two to four years to complete, depending on the discipline.

Some of these areas can also be studied at an undergraduate level; however, a professional entry master’s course is ideal if you make the decision to enter a different field to that of your first course.

EXPERT MASTER’S COURSES (COURSEWORK)

These courses allow you to extend expertise gained through your undergraduate degree, or add breadth to your knowledge and skills within a new or complementary field. If you complete a four-year Honours bachelor’s degree, you can usually complete an expert master’s degree in the same discipline in just one year, meaning you graduate with both a bachelor’s and a master’s degree in five years.

See page 14 for a full list of coursework courses.

RESEARCH

Monash offers research-based graduate courses in most disciplines. These courses offer you the opportunity to pursue your passion in a supportive environment while working with some of the brightest minds. A graduate research degree can take between one and four years of full-time study.

See page 93 for a full list of research courses.

STUDY MODES

We know you have many priorities and commitments. That’s why we offer flexible study modes to allow you to build your study around your life.

Most courses are offered in both full-time and part-time study modes. Some units are offered in intensive block mode (usually Thursday to Sunday) allowing you to arrange a short break from work to complete a unit, and some are offered outside business hours. It’s whatever works best for you.

OFF-CAMPUS (DISTANCE LEARNING)

You don’t have to be at Monash to study with Monash. Through our online distance learning, you can study with Australia’s biggest university without ever having to set foot on-campus. It’s the perfect option if you need to balance university with work, family and other personal commitments. You’ll study the same units and gain the same qualification as you would if you were on-campus. It includes a combination of print study material and electronic communication.

Please note: Studying off-campus with Monash doesn’t entitle you to apply for an Australian student visa.
ACADEMIC SUPPORT

During your studies, you can access academic support programs to improve your written and oral expression, reading, listening and note-taking skills. Tutors are available to guide you through research methodology, conference presentation and the best way of submitting academic papers.

monash.edu/counselling/academic-support

MONASH CONNECT

Monash Connect is your one-stop-shop for student support. Staff can advise you on anything from admissions, enrolment, fees, academic support, language support, scholarships and more. Student service centres are located on all Australian campuses.

monash.edu/connect

MONASH POSTGRADUATE ASSOCIATION (MPA)

As a Monash graduate student you’ll automatically become a member of the Monash Postgraduate Association, which provides services for graduate students including:

- social functions such as lunches, coffee clubs and question-and-answer sessions
- newsletters and publications including Compass, the MPA guide to graduate programs and a weekly MPA email news bulletin
- advice, advocacy and mediation on issues that graduate students may encounter during their study
- representation on Monash University and faculty committees
- seminars to help you make the transition from successful study to a successful career, with topics such as publishing, time management, career management and writing skills.

mpa.monash.edu

GRADUATE RESEARCHER DEVELOPMENT

All graduate research students have access to training, seminars and other opportunities that build skills in areas such as leadership, innovation, publication, project management, communication and negotiation.

E-RESEARCH SERVICES

The Monash e-Research Centre helps researchers efficiently manage their projects and data. The centre can give you advice, information and assistance to help you identify, specify, develop and configure IT tools, data management systems and practices to meet your needs.

platforms.monash.edu/eresearch

DEDICATED GRADUATE LEARNING SPACES

In 2016, we have two new study lounges purpose-built for graduate students.

The Graduate Student Hub is designed for all graduate students and is open from 7am until midnight. It features:

- a workspace with private and group study areas
- pods for meetings and group study
- a lounge area and kitchen
- a seminar room which hosts up to 80 guests.

The PhD Hub is a 24/7 lounge available to students of the Monash Doctoral Program.

MONASH PROFESSIONAL PATHWAYS

Offering a 12-week internship and work-readiness training, the Professional Year Program from Monash Professional Pathways helps you obtain the skills and experience that employers demand.

Fees apply.

monashprofessional.edu.au

LIFE SUPPORT

CAREER GUIDANCE

Take advantage of our career development programs and individual career counselling as well as career seminars and employer information sessions where many of Australia’s leading companies go to attract new talent.

monash.edu/careers

FAMILY SUPPORT

Monash Family and Childcare supports Monash students with children or families. They can offer you advice on childcare, primary school, playgroups, school holiday care and other child and family support issues.

monash.edu/childcare

MONASH SPORT

Get active and connect with the Monash Sport community, which offers a wide range of group fitness classes, gym memberships, aquatic activities and competitive or social sports such as tennis, badminton and basketball.

monash.edu/sport

WELLBEING

Each Monash campus features a health, wellbeing and development hub with health and wellbeing counsellors, medical practitioners, student advisers and a team of people from different faith communities to support you in all facets of university life – from accommodation and financial aid to life balance issues. Information and advice is available on issues including:

- settling into life in Australia
- cultural adjustment
- student visas
- health care
- finding your way around campus
- study and life balance issues.

monash.edu/health-wellbeing

DISABILITY SUPPORT SERVICES

If you have a disability or medical condition that impedes your study, the Equity and Diversity Centre will help you reach your full potential. Eligible students can access services such as learning support, assistive software or equipment loans.

monash.edu/equity-diversity

Monash provides 24-hour security patrols, security escorts and a night-time security bus between our Clayton and Caulfield campuses.

monash.edu/safety-security

monashprofessional.edu.au
Even before we became the global university we are today, our researchers looked beyond traditional boundaries, discovering new ways of approaching the fields in which they worked. It’s why a Monash education is respected around the world. Things that we now take for granted wouldn’t exist without the initial work of Monash researchers:

**FIRST IN-VITRO FERTILISATION PREGNANCY**
Professors Alan Trounson and Carl Wood achieved the world’s first IVF pregnancy in 1973. The Trounson and Wood team went on to accomplish Australia’s first (and the world’s fourth) successful IVF birth in 1980.

**FIGHTING INFLUENZA**
In 1986, a team from our Faculty of Pharmacy and Pharmaceutical Sciences (formerly the Victorian College of Pharmacy) designed and synthesised the anti-flu drug Relenza, which first became available in Australia in 1999 and is now used globally.

**NOBEL PEACE PRIZE**
In 2007, eight scientists from Monash University shared in the prestige of the 2007 Nobel Peace Prize, awarded jointly to the Intergovernmental Panel on Climate Change and former US Vice-President Al Gore. We judge our research not only by its academic excellence, but by the impact it has on the communities we engage with and serve.

**BUILDING STRONGER, LIGHTER PLANES**
Professor Xinhua Wu and her team at the Monash Centre for Additive Manufacturing (MCAM) are creating an aluminium alloy that will make aircraft 30 to 40 per cent lighter, twice as fuel efficient and still structurally sound. So significant is this project that they’re working in close partnership with Microturbo, the European Space Agency and Bombardier.

**HELPING THE BLIND TO SEE**
The Monash Vision Group (MVG) draws on the capabilities of Monash University, The Alfred hospital, and industry partners MiniFAB and Grey Innovation to develop bionic eye technology that connects to the primary visual cortex. This means that patients unable to make use of current retinal implants because of damaged optic nerves or physical trauma to the actual eyes may now have the opportunity to see again.

**PRINTABLE BODY PARTS**
A partnership between Monash and the CSIRO, Australia’s peak scientific organisation, aims to create 3D printable human body parts. Bioprinters use a scan of an individual’s tissue sample and different types of stem cells to produce replacement tissue for damaged organs, new discs for spinal injuries or multilayered skin for burns victims. This technology could also be used to create new body parts for cancer or accident victims.

**A SUSTAINABLE FUTURE**
Clean water and sanitation are essential parts of the United Nations 2030 Agenda for Sustainable Development. The Monash Sustainability Institute draws together researchers and experts from a wide range of disciplines to investigate how to build water-sensitive cities and better manage our water resources. Initiatives involve high impact policy development and fieldwork across Australia and the world, often in partnership with industry, government and not-for-profit organisations.

Some of our research is currently focused on empowering Indigenous communities to adapt to climate change, and supporting developing Asian cities to transition to more sustainable, resilient and liveable conditions through the uptake of advanced water technologies, policy development and social practices.
As part of my research, I travelled to New York to conduct archival research, and then presented at a conference in Austin, Texas.

JESSICA TAFT
PhD graduate (Faculty of Arts)
Live on campus at Monash for a convenient, focused and supportive environment designed to allow the disciplined study necessary to complete a graduate-level course.

Monash Residential Services offer specific floors dedicated to graduate students. Some buildings have dedicated graduate lounges and other facilities that foster collegiality and recognise the needs of our more mature students.

All of this is situated at the heart of campus life where residents have access to recreational facilities and ease of living with a supermarket, banks, cafes, restaurants, parks, libraries, sporting facilities and a cinema all close by.

Monash on-campus accommodation is available at Clayton and Peninsula campuses. We recommend you book early to secure your place.

**OFF-CAMPUS ACCOMMODATION**

If you’re not interested in living on campus there are plenty of off-campus options.

If you need help deciding or advice on how to get started, contact us. We will be happy to help you with any queries you have – such as advising on costs, your rights and responsibilities and how to choose a suburb with convenient access to your home campus. We can also help you find the best accommodation if you have a family or partner to consider.

**DID YOU KNOW?**

Living on-campus is less expensive than comparable private rentals.

Prices start at $230 per week. This gets you a fully furnished apartment with all utilities included. Accommodation scholarships based on academic achievement are available to help offset living costs.

monash.edu/scholarships

monash.edu/offcampus
Our Campuses

Monash has four Melbourne-based campuses, as well as teaching locations in the Melbourne CBD. We have a campus in Malaysia; a joint graduate school in China; a learning centre in Italy; and a research centre in India. We also deliver awards at other locations with partners such as Laureate International in South Africa.

Each Monash campus has its own personality, but all are designed with you in mind with transport links, food outlets and dedicated graduate learning spaces.

Monash has four Melbourne-based campuses, as well as teaching locations in the Melbourne CBD. We have a campus in Malaysia; a joint graduate school in China; a learning centre in Italy; and a research centre in India. We also deliver awards at other locations with partners such as Laureate International in South Africa.

Each Monash campus has its own personality, but all are designed with you in mind with transport links, food outlets and dedicated graduate learning spaces.

CLAYTON

Designed to give you everything you need all in one place, Clayton is our largest campus with more than 24,000 students. Shops, banks, cafes, restaurants, parks, libraries and leisure facilities are all on campus so you can balance your daily tasks with study time.

Clayton is also home to the CAVETO and the Monash Wind Tunnel. It is situated at the heart of the Australian Manufacturing and Materials Precinct and is next to the Australian Synchrotron – facilities critical to the various graduate studies you might undertake at Monash.

CAULFIELD

Caulfield, our second-largest campus, is a hive of collaboration and creativity for fine arts, design and architecture, business and journalism. Cafes, sporting facilities and a new library surround the newly developed Campus Green and Sound Shell, a local point for student gatherings. Next to the campus you’ll find a large supermarket and a variety of restaurants.

Caulfield train station, a public transport hub, is just metres away taking you to the city in less than 20 minutes.

PARKVILLE

Parkville, our specialist pharmacy and pharmaceutical sciences campus, is in the heart of Australia’s top health and biomedical precinct. Our neighbours include major hospitals, the Walter and Eliza Hall Institute, the Howard Florey Institute, CSL Limited, the Ludwig Institute for Cancer Research and CSIRO’s Division of Health Sciences. It’s also home to our research arms, the Monash Institute of Pharmaceutical Sciences and the Centre for Medicine Use and Safety.

Surrounded by parks, it’s a short tram ride from central Melbourne and within walking distance of the vibrant inner-city suburbs of Carlton and Brunswick, which have contributed much to Melbourne’s artistic and multicultural soul.

PENINSULA

A small, community-focused campus, Peninsula is strategically located next to some of Victoria’s major teaching hospitals. Choose from select courses in health sciences, business and education. Outside the classroom, studying at Peninsula allows easy access to Mornington Peninsula beaches, national parks and great food.

MELBOURNE CBD

Study law at the heart of the Melbourne legal precinct. All graduate law courses are taught at the Monash Law Chambers located at 555 Lonsdale Street, within walking distance of the Magistrates’, County and Supreme courts. The Law Chambers provides independent study spaces specifically designed for working professionals.

DID YOU KNOW?

Some Medicine, Nursing and Health Sciences courses are taught at off-campus locations with partner institutions such as The Alfred Hospital, Box Hill Hospital, Monash Medical Centre and at the School of Rural Health, Churchill in Eastern Victoria.
COURSEWORK OFFERING

**ART, DESIGN AND ARCHITECTURE**

- Architecture 20
- Design 38
  - Advanced studies in design
  - Collaborative design
  - Interaction design
  - Multimedia design

ACCOUNTING

RANKED TOP 30 IN THE WORLD

This course allows you to focus on specific fields of accounting practice and develop the high-level expertise that’s in high demand.

Our forward-thinking curriculum, for accounting graduates only, connects research and practice to give you a deep understanding of the latest applications. You’ll align your professional learning with your career goals or interests, with specialist studies in financial accounting, forensic accounting, auditing management accounting, and accounting information systems. You may be eligible for exemptions towards Chartered Institute of Management Accountants papers.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ELIGIBILITY
(OR EQUIVALENT AUSTRALIAN QUALIFICATION TERMINI)
B.Econ (Accounting) (Honours) OR Bachelor’s degree in accounting OR Graduate Certificate in Accounting

DURATION (YEARS)
1.5

ACCOUNTING, PROFESSIONAL

RANKED TOP 30 IN THE WORLD

You’ll explore all aspects of business, financial and management accounting in this course, as well as gaining the skills to work in the profession.

The course is well-suited to recent graduates and professionals in the early stages of their careers who have a bachelor’s degree in another field and are seeking a complementary professional accounting qualification.

You’ll develop a strong understanding of key concepts and gain expertise in current business practices, and you may qualify for membership with leading accounting institutions and industry bodies, such as CPA Australia, the Institute of Public Accountants, and the Institute of Chartered Accountants Australia.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ELIGIBILITY
(OR EQUIVALENT AUSTRALIAN QUALIFICATION TERMINI)
Bachelor’s degree in accounting

DURATION (YEARS)
1.5

ACTUARIAL STUDIES

RANKED TOP 30 IN THE WORLD

As a Master of Actuarial Studies graduate you’ll be ready to practice as a professional across actuarial or risk management fields.

Designed for technical, mathematical and scientific graduates, and professionals in the early stages of their careers, you’ll broaden your knowledge of key mathematical learning constructs and gain the skills and professional values to become an effective actuary.

The course deepens your understanding of specialist areas of actuarial practice and may include exemptions for Parts I and II of subjects of the Institute of Actuaries Australia.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ELIGIBILITY
(OR EQUIVALENT AUSTRALIAN QUALIFICATION TERMINI)
Bachelor’s degree in a related field OR Bachelor’s degree in any field + relevant expertise OR Bachelor’s (Hons) degree in any field + relevant expertise

DURATION (YEARS)
1.5

INTAKE
February and July

ENTRY REQUIREMENTS
You must have:
A minimum bachelor’s degree (Australian Qualification Framework level 7) in a related discipline.

AND either:
A bachelor’s honours degree (AQF level 8) in a related discipline.

OR
A graduate diploma (AQF level 8) in a related discipline with at least a grade average of 70 per cent in level-four units.

OR
A bachelor’s degree (AQF level 7) in a related discipline, with at least a grade average of 70 per cent in level-three units, and at least three years’ full-time equivalent of relevant professional work experience accompanied by high-level written skills.

ADDITIONAL
This department will individually consider each application. You may need to participate in an interview. The following must be provided before an application can be assessed:
• a CV showing relevant industry experience
• academic transcripts of relevant degrees
• a statement of purpose (500 words) outlining reasons for undertaking the course and your area(s) of interest
• examples of high-level written skills (for example, detailed project reports, evaluation and/or research reports, journal articles).

INTAKE
February

* A related discipline could be in the areas of nursing, social work, medicine and psychology such as health, research, teaching, law, policy, sport, health and human resources.

** Examples of high-level written skills include detailed project reports, evaluation and/or research reports, journal articles.

† QS World University Rankings by subject 2016.

2. Even if you are eligible for a shorter course duration you may elect to complete the longer duration.

3. For example, by a relevant graduate certificate or work experience.

NOTE
This is the annual average fee per 48 credit points of study in this course for 2016.

If you’re looking to develop your career in economics or econometrics, this course gives you the analytical and technical skills you need for the profession, as well as a solid grounding in commerce.

You can build your knowledge in one of three specialisations: applied econometrics; applied economics and econometrics, or business economics.

With a comprehensive theoretical and practical curriculum across your chosen field, you’ll develop expertise in applied economic and econometric tools. You’ll also have the opportunity to undertake independent research in your specialisation.

**INTAKE**
February and July

**ENTRY REQUIREMENTS**
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

**SPECIALISATIONS**
**APPLIED ECONOMETRICS**
This gives you the econometric and statistical analysis tools required in the business, economics and finance sectors. You’ll develop skills in econometric techniques across applied econometrics, time series analysis, financial econometrics, macro-econometrics and micro-econometrics, and be able to design and implement applied econometric projects for the government and business sectors.

**APPLIED ECONOMICS AND ECONOMETRICS**
You’ll gain the economics and econometrics skills to address important economic policy questions. You’ll learn how to use economic or related theory and econometric models for assessing economic and public policies, and develop the knowledge and research experience to seek jobs in the private, public or institutional sector as an economist.

**BUSINESS ECONOMICS**
You’ll gain advanced knowledge of the theories explaining and analyzing economic policies – focusing on how individuals, households, firms and governments interact and how economies work, with an emphasis on economic regulation and policy. Designed for those who want to develop expertise in applied economic tools and to undertake independent research, the specialisation extends your knowledge of economic analysis in the global economy, and focuses on areas of business strategy, competition policy, economic policy, project evaluation, pricing, and risk and regulation.

---

**APPLIED FINANCE**
Are you a finance professional keen to add to your skills?

The Master of Applied Finance lets you align your learning with your career aspirations through advanced studies in global financial markets, funds management, financial planning, money market dealing and business forecasting.

The course covers specialist areas of finance instruction, and is a CFA Program Partner of the CFA Institute, which awards the international CFA Financial Analyst Designation qualification.

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. Only if you are eligible for entry credit can you choose to take the course for 2016.
3. Related fields include linguistics, applied linguistics, language study, or teaching, translation and interpreting, TESOL, and speech pathology.
4. For example, by a relevant graduate certificate or work experience.

SPECIALISATIONS

APPLIED LINGUISTICS

This gives you a string understanding of language structures and use across a variety of languages. You’ll explore the sounds and grammar of Australian English and how these differ from other English varieties and languages around the world. You’ll also explore how we use language differently according to context, and how it varies between social groups.

TEACHING WORLD ENGLISHES FOR INTERNATIONAL COMMUNICATION

This provides a detailed knowledge of the teaching and use of English as an international language. It looks at the spread of English around the world, including socio-cultural, conceptual and ideological considerations. It addresses issues such as the speaker’s identity, the teaching of English as an international language, and the use of English as a common language in international professional contexts.

BIOETHICS

Taught through the Monash University Centre for Human Bioethics (one of the world’s top eight bioethics centres), you’ll work with passionate staff who are active, prominent contributors to public and professional discussions about a variety of issues in the field.

ARCHITECTURE

The Master of Architecture is ideal if you have completed undergraduate studies in architecture and want to be equipped to address the growing challenges of the evolving built environment.

You will be trained as an integrated urban professional with the vision to design progressive architecture that responds to the dynamic needs of contemporary society and speculate about the future of our built environment.

The Master of Architecture meets the academic requirements for registration as an architect in Australia.

INTAKE
February

ENTRY REQUIREMENTS

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in architecture with a minimum 60 per cent Weighted Average Mark in the final year of the degree. This qualification must have been completed within five years of the proposed commencement of the master’s program.

Your application should be accompanied with a folio (four projects, no more than 20 images) of recent, original work, clearly numbered with a corresponding list of details attached and a current academic and professional curriculum vitae. The application process will be conducted in two stages, with your folio and CV being reviewed before being shortlisted for an interview. Those who have successfully completed the Bachelor of Architectural Design at Monash University will automatically progress to the Master of Architecture but need to complete a new application for administrative purposes.

DID YOU KNOW?
The Monash Centre for Human Bioethics is home to the World Health Organization (WHO) Collaborating Centre for Bioethics – one of six such centres worldwide.
Master of Biomedical and Health Science

COURSE CODE: M6003

2016 FEES p.a.
$24,900

The Master of Biomedical Science (Preliminary) is designed for those interested in research in medical, nursing and health sciences.

SPECIALISATIONS

- CARDIOVASCULAR DISEASES
- STEM CELLS
- POPULATION HEALTH
- INFECTIOUS DISEASES AND EPIDEMIOLOGY

ENTRY REQUIREMENTS

Selection is based on previous academic achievement. If you have not previously completed a Bachelor's (Hons) in a related field, you may apply for and complete the longer duration.

- Bachelor's degree in a related field with a 60% average mark
- Bachelor's (Hons) in a related field with a 70% average mark
- Bachelor's (Hons) degree in any field with a 60% average mark
- Certificate or diploma in cognate field + relevant expertise

DURATION

1 year full-time
2 years part-time

INTAKE

February and July

You'll be required to carry out a prescribed research project and internship under the supervision of an academic staff member. You'll also take up to 48 credit points of study in coursework such as a literature review and/or statistics classes, and is specified by the enrolment department. The most should embody the results of your research, which will embody the results of your investigation, demonstrating independent thought and your ability to carry out research in that discipline. If you've graduated with only a bachelor's degree in a relevant field and haven't attempted per cent of relevant third-year units, or appropriate additional training and experience.

You'll be required to deliver a major research thesis. This is the annual average fee per 48 credit points of study in this course for 2016.
The forward-thinking, industry-focused Master of Business emphasises personal development, ethics, corporate governance and social responsibility.

Your leadership and interpersonal skills will be a focus, transforming the way you operate in professional contexts. Designed for recent graduates, the course will give you the expertise you need to enter the corporate world, and provides you with a broad-ranging master’s degree in business. Alternatively, specialise in a business field of your choice.

**SPECIALISATIONS**

**BUSINESS ETHICS AND SOCIETY**
You’ll investigate the role of businesses as ethical and social leaders. You’ll gain an understanding of the ethical and social issues businesses face, and develop your critical engagement and leadership capabilities. You’ll learn how to manage diversity, inclusiveness, and work-life balance, and apply them within managerial roles in the private, public and not-for-profit sectors.

**COMMERCIALISATION**
You’ll develop the skills to commercialise scientific and technological projects. Covering venture finance, patenting, innovation and wealth pathways, you’re provided with a comprehensive business-focused setting to help you develop business and entrepreneurial acumen. This specialisation is aimed at those with a background in science or technology who are keen to develop their commercialisation expertise.

**INFORMATION TECHNOLOGY**
Focusing on current practices and emerging IT strategies in business contexts, you’ll be introduced to the management, creation, storage, retrieval and dissemination of business data in organisation-wide frameworks. You’ll also gain a high-level understanding of project management.

**LAW AND RESPONSIBLE BUSINESS**
Regulatory issues are important in the business environment. You’ll learn how legal and social responsibility considerations affect business decision-making, as well as the legal issues affecting other business functions such as corporate governance, taxation, marketing, corporate social responsibility and human resources.

**MANAGING HUMAN CAPITAL**
This gives you an understanding of the theoretical and practical issues of managing people in labour markets. The units focus on strategic and operational people management issues, as well as the broader international context facing today’s managers. Also covered are industrial relations, consulting, public sector management and general people management issues.

**MARKETING**
You’ll focus on the central concepts of marketing for business. You’ll learn foundation concepts as well as more advanced strategies for buyer behaviour, integrated marketing communication, marketing research, relationship marketing, innovation, planning, and assessing marketing performance.

**PRODUCT MANAGEMENT**
You’ll acquire the practical skills required by project managers working in global environments. Focusing on modern approaches to project management, study areas include business and project finances, designing business processes, technological tools for project management, and other organisational functions.

**QUANTITATIVE BUSINESS ANALYSIS**
You’ll develop the advanced quantitative skills required to carry out statistical analysis in business, economics and finance. You’ll also develop skills to report on the findings of your quantitative analysis.

**RISK MANAGEMENT**
You’ll explore current practices and emerging strategies for applying enterprise-wide risk management (EWRM) in complex business structures, and be introduced to the latest practices that allow the management of risk to be a value driver for business prosperity and survival.

**SUPPLY CHAIN MANAGEMENT**
You’ll focus on current practices and emerging strategies to improve supply chain performance. You’ll study the strategic management of supply chains, as well as their design and optimisation, while covering the relevant business processes, managing innovation, and sustainable operations management.

**SUSTAINABILITY**
Focusing on current practices and emerging strategies to improve corporate sustainability, you’ll gain insights from the perspectives of governance, ethics marketing and management, and develop skills in business and sustainability issues, environmental governance and corporate sustainability management.

Monash Business School is one of the few business schools around the world to have achieved the esteemed ‘triple crown’ of business school accreditations.
The Master of Business Information Systems course prepares you for a career in business-focused IT areas such as IT management, project management, business information systems, information systems, information management or knowledge management.

The program covers the IT business spectrum, from supporting business operations through to supporting managers’ decision-making. ITI get you ready for roles such as business analyst, systems analyst or project leader, or as an information manager, archivist or librarian.

The course features core studies in IT project management and offers specialist units in business information systems and a wide range of elective choices. You can either complete a specialisation, or finish the general form of the degree without a specialisation.

In your final semesters you can choose to complete an industry experience project or research thesis. You can also take units at Monash’s Prato Centre, and apply for a scholarship place over summer.

In your final semesters you can choose to complete an industry experience project or research thesis. You can also take units at Monash’s Prato Centre, and apply for a scholarship place over summer.

You can choose from a range of business information systems units to focus your studies in areas of interest including business intelligence, user experience design and business process modeling.

2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.

3. Relevant fields include information systems, basic programming, basic database theory, systems analysis and design plus an understanding of major enterprise IT applications and their architecture.

4. For example, by a relevant graduate certificate or work experience.

**INTAKE**

February and July

**SPECIALISATIONS**

**BUSINESS INFORMATION SYSTEMS**

The general form of the course gives you the skills to solve organisational information problems. It caters for students who’d like to be business analysts, information systems consultants and IT managers. You’ll learn about IT principles, systems analysis and design, enterprise architecture and systems, IT management and governance, and project management. You can choose from a range of business information systems units to focus your studies in areas of interest including business intelligence, user experience design and business process modeling.

**LIBRARY AND INFORMATION SCIENCE**

Librarians and information specialists manage information in a range of contexts. They analyse needs, evaluate information sources, and organise and synthesise information into targeted products, as well as train clients in the use of products, services and systems. They’ll find work opportunities in commercial, government and community sector organisations, for information consultancies, and as independent information brokers.

**ARCHIVES AND RECORDKEEPING**

Archives and recordkeepers advise and manage the records of organisations, for information consultancies, and as independent information brokers. Records managers and archivists ensure vital records of social and organisational activity are created, managed and made available to business for accountability, corporate memory, enterprise knowledge and cultural purposes. Work settings include most major public and private sector organisations, and archival institutions. As a knowledge manager you’ll develop strategies and processes to manage organisational knowledge and information flows to improve performance.

**INFORMATION MANAGERS**

Business information systems student

"I really enjoyed the units that were giving the business perspective of IT. Those units that considered IT as a resource and an enabler of competitive advantage for the business made me realise the level of impact that IT decisions have in an organisation."

Jorge Gomez

Business information systems student
BUSINESS LAW
RANKED TOP 30 IN THE WORLD

This course is designed for non-law graduates and those who need specialist legal knowledge in regulatory, compliance or risk-management positions.

You’ll develop a deep understanding of the legal environment and its effects on business practice in corporate governance, financial regulation, Asian and international business, human resources and workplace relations, marketing and taxation.

The course offers a distinct business perspective on legal issues and developments, and is ideal if you’re looking to advance your legal literacy.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

1. Selection is based on previous academic achievement. For further details see study.monash/courses. You will be ranked and selected based on your entire academic record.

2. Even if you are eligible for a shorter course duration you may elect to complete the longer duration.

3. For example, by a relevant graduate certificate or work experience.

BUSINESS LAW AND
PROFESSIONAL ACCOUNTING

This advanced double degree will develop your skills to address the wide range of legal issues in contemporary business.

You’ll focus on specific fields of accounting practice alongside study of the legal environment and its effect on business practice in corporate governance, financial regulation, compliance and taxation.

It’s a course designed for those who need specialist legal knowledge in their roles, such as those in regulatory, compliance or risk-management positions, and who want to combine this knowledge with an advanced accounting qualification.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

1. Selection is based on previous academic achievement. For further details see study.monash/courses. You will be ranked and selected based on your entire academic record.

2. Even if you are eligible for a shorter course duration you may elect to complete the longer duration.

3. For example, by a relevant graduate certificate or work experience.

CLINICAL EMBRYOLOGY

This course gives you the essential skills necessary to positively contribute to human infertility clinical services.

Theoretical and practical skills are presented in the broad context of the regulations and the ethical considerations that apply to human IVF, both nationally and internationally, along with the quality control procedures required for maximum success for IVF patients. The guidelines, protocols and regulations that steer and control human infertility services are also presented. Along with attending lectures and self-directed study, you’ll have continual practical skills training, and also take on a minor research project. You’ll not only get the practical skills to work in an IVF laboratory, but also gain a greater understanding of research applications in the field of reproductive or developmental biology. Research-related tasks form part of the overall assessment for specific coursework units.

INTAKE
February

ENTRY REQUIREMENTS
You must have one of the following:

- An Australian undergraduate degree (or equivalent) in a related discipline, including a medical degree, veterinary science degree, science degree (with honours, second-class or above).

- A science degree (without honours) and at least one-year-equivalent professional experience in embryology or reproductive biology.

- An Australian undergraduate degree (or equivalent) and a Graduate Diploma in Reproductive Sciences from Monash University with at least 70 per cent;

- An Australian undergraduate degree (or equivalent) and a graduate diploma from another institution deemed by the faculty as equivalent to the Monash University Graduate Diploma of Reproductive Sciences with at least 70 per cent. All applications are assessed on academic merit and relevant experience.

ADDITIONAL
A CV, work reference letters and a 250-word statement of purpose outlining your area of interest and the reason why you’d like to complete the course. If you want to study off-campus you’ll be expected to provide evidence of your ability to meet the course’s practical requirements.

1. QS World University Rankings by subject 2016.
**CLINICAL PHARMACY**

**RANKED TOP 30 IN THE WORLD**

The Master of Clinical Pharmacy is for pharmacists wanting to advance their skills in the provision of clinical pharmacy services to patients with complex clinical needs.

The course has a focus on evidence-based practice and quality use of medicines, with the learning experience student-driven and patient-focused. You can select units related to various areas of pharmacy practice, or choose a more research-focused stream in which you’ll undertake a practice-based research project.

**INTAKE**

$11,200

This is the annual average fee per 48 credit points of study in this course for 2016.
COMMUNICATIONS AND MEDIA STUDIES
RANKED TOP 40 IN THE WORLD

As the most established program of its type in Australia, the Master of Communications and Media Studies has a long record of success. The program draws strongly on specialist expertise and focuses on fostering industry-ready graduates.

You’ll be introduced to the latest developments and research in communications and media – including in social and online media – always with a view to real-world application. The course features guest professional speakers in conjunction with industry-focused field trips to media outlets in Sydney, Melbourne and Shanghai.

You’ll have the opportunity of industry internships in Australia and overseas. For example, students in our program have recently completed internships with the United Nations in New York, and with Shandong Television in China.

The course is ideal for those working or seeking employment in communications and media industries (for instance, electronic journalism, public relations, or tourism marketing), as well as those keen to expand their expertise for teaching purposes or further study.

Providing you with a professional qualification, and offering a combination of theory and professional experience, this course equips you with all you need to start a rewarding career as a counsellor.

It suits those from a range of professions, such as human resources, health, social welfare and education, and is taught by academics with extensive experience working as counsellors and psychologists.

It draws on the latest thinking and approaches to counselling and psychotherapy to develop your understanding of the mental health issues that arise across a lifetime.

You’ll examine the various forms of professional counselling, including online and distance counselling, child and adolescent counselling, and individual, couples and group counselling.

The ethical and professional issues faced by counsellors will be introduced, and creative approaches to counselling will be examined, including play therapy and art therapy. You’ll also gain in-depth knowledge of contemporary cognitive-behaviour therapies.

The ethical and professional issues faced by counsellors will be introduced, and creative approaches to counselling will be examined, including play therapy and art therapy. You’ll also gain in-depth knowledge of contemporary cognitive-behaviour therapies.

You’ll complete 300 hours of professional experience, which includes contact and non-contact hours. Non-contact hours include any counselling-related duties associated with the placement centre that don’t involve counselling clients. Contact hours include face-to-face, telephone, group and online counselling.

Master of Counselling graduates work across many fields, including careers counselling, education, child and family services, child protection services, health policy, family counselling, health services management and rehabilitation counselling.

CULTURAL ECONOMY

Cultural economy helps you understand how the cultural and the economic fit together.

The Master of Cultural Economy program builds on the recognition that contemporary culture is a growing economy. Music, film, new media, computer games, publishing, music, the visual and performing arts, tourism, crafts, design and fashion all offer dynamic careers now and in the future. Policymakers at city, national and international levels understand that the benefits of the cultural economy go beyond monetary value and are essential for social wellbeing.

As part of your course, you’ll have the chance to take part in a study tour to Shanghai, where you’ll be immersed in the cultural economy of Asia’s new global metropolis. By building networks with local researchers, policymakers and businesses, you’ll carve out opportunities for careers in the field.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

COURSE CODE: A6004

Cultural Economy student

"I hope to implement what I’ve learnt in my degree into the ‘real world’. I want to try my hand at all kinds of roles relating to the arts and urban development. I’d also like to work overseas at some point – there’s exciting things happening in Asia and the Middle East that I’d love to be involved in. I want to be part of changing people’s ideas and opening them to new possibilities."

CATHLEEN HOWELL
Cultural Economy student

DATA SCIENCE

Data scientists extract the gold from big-data assets. Their insights drive innovation, transformation and competitive advantage in business, industry and government, and their expertise is sought-after worldwide.

The Master of Data Science readies you for a career in the field, giving you the skills in data management, analytics and processing. You’ll cover statistical and exploratory analysis, data formats and languages, processing of massive data sets, and management of data and its effects in an organisation and community. An optional data analytics stream allows those with an analytic bent to also develop machine learning skills.

In your final semesters you can choose to complete an industry experience project or research thesis. Additionally, you can also apply for a scholarship place over summer in the Monash Industry Team initiative (MIT).

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

COURSE CODE: C6004

GRADUATE DIPLOMA OF DATA SCIENCE

The rise of big data has changed how organisations do business. From data curation and management to processing and analysis, data scientists play a major role in helping organisations harness the information to solve real-world business problems.

We have the greatest expertise in data science theory and practice of any university in the Asia-Pacific region. So whether you’re already a data scientist and want to formalise your qualifications, or have an analytic bent and want to transfer your skills to data science, the core and optional units of this course are for you.

This full online course allows you to take one unit every two months, equivalent to half-time study, giving you the flexibility to combine study, work and family.

INTAKE
January, March, May, July, August, October

ENTRY REQUIREMENTS
The entry requirement is successful completion of an undergraduate degree with IT-related studies, including university-level maths or statistics; or any undergraduate degree, including university-level maths or statistics, plus two years of work experience in IT or data science.

NOTE: This course isn’t available to international students who are holders of an Australian student visa for study overseas. However, holders of some other categories of Australian visa living in Australia, and students studying off-campus by distance learning between this option is available and being outside of Australia, may be eligible for this course.

COURSEWORK
A professionally focused program of advanced study in contemporary design practice, the Master of Design course includes specialisations in interaction design, multimedia design and collaborative design.

You can also take a range of units from across these three to construct an advanced studies in design specialisation. This program is ideal for those keen to enter the expanding fields of professional design engagement, or design practitioners aiming to upgrade their expertise. You’ll be trained in advanced design thinking and processes that’ll equip you to create design solutions that engage experiential, communication, object and spatial contexts.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ELIGIBILITY (IN EQUIVALENT AUSTRALIAN QUALIFICATION TERMS) * (YEARS) DURATION
Bachelor’s degree in any field 1 2
Bachelor’s degree in any field + relevant expertise 1.5
Bachelor’s degree in any field + relevant expertise (CHULIN YANG
Bachelor’s degree in any field + relevant expertise 1

1. Selection is based on previous academic achievement. Applicants must provide a current curriculum vitae. Applicants applying to do entry credit are required to submit a document which outlines the scope, original work, clearly numbered with a corresponding list of details what is required, and to identify your preferred specialisation.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields may include graphic design, communication design, visual communications, interior design, material architecture, exhibition design, interaction design, user experience design, multimedia design, motion and animation, web design, industrial design or product design.
4. For example, by a relevant graduate certificate or work experience.

SPECIALISATIONS

INTERACTION DESIGN
The interaction design specialisation develops your skills in the design of contemporary artefacts, products and services that engage with interactive, user-focused technologies and processes. These can include, but aren’t limited to, health and medical equipment, ‘smart’ furniture, educational toys, wearable technologies, information kiosks and transport systems. You’ll use a diverse range of interactive processes, including the application of advanced technologies; electronics and programming; physical and virtual interface manipulation; engineering and material fabrication; and rapid prototyping. The specialisation gives you an understanding of the relationship between interactive activities, products and human behaviour.

MULTIMEDIA DESIGN
Multimedia design develops your skills in digital communication environments. This includes designing for the web, motion and animation; and interactive touchscreen devices and surfaces. Emphasising an advanced knowledge of existing and emerging digital design processes and systems, this specialisation embraces projects of varied scale, from hand-held smart devices to large public interactive screens. It develops your ability to build a communication narrative, use multimedia processes to fill community and business needs; and understand the end-user’s engagement with projects or products such as websites, apps and other screen-based media.

COLLABORATIVE DESIGN
Collaborative design places you conceptually and practically at the intersection of interior, graphic and industrial design practice. The program will set you design challenges involving image, text, products, communication environments. This includes: designing for the web, motion and animation; and interactive touchscreen devices and surfaces. Emphasising an advanced knowledge of existing and emerging digital design processes and systems, this specialisation embraces projects of varied scale, from hand-held smart devices to large public interactive screens. It develops your ability to build a communication narrative, use multimedia processes to fill community and business needs; and understand the end-user’s engagement with projects or products such as websites, apps and other screen-based media.

ADVANCED STUDIES IN DESIGN
This pathway allows you to construct, with approval, an individual program of study from across interaction design, multimedia design and collaborative design. This enables you to tailor your unit choices while addressing the fundamental principles of advanced design practice and thinking. It’ll inspire you to connect research and practice across the design disciplines, and to become a thoughtful design practitioner. You’ll broaden your knowledge of key design constructs, deepen your professional learning in design areas of interest, and advance your capacity as a design professional.

“...believe that interaction design has the potential to change the world. Although this is a big statement, I’ve already seen my designs influence people bit by bit, and that small progress always motivates me to move forward.”

CHULIN YANG
Design student
This graduate course equips you with the professional and personal qualities for future dietetic practice in a variety of workplace settings. It integrates academic teaching and learning with clinical, population health, food service, research and management experience, and is carried out in both academic and professional practice placement settings (for example, clinical, food service, community nutrition and public health nutrition). Professional practice placements may be in an urban or rural setting.

**INTAKE**

Master of Dispute Resolution

**COURSE CODE**
L6011

**FOR NON-LAW GRADUATES**
If you're interested in dispute resolution, this course will help advance your career in this developing area of expertise.

It's a course suited to those working, or who want to work, as a dispute resolution practitioner, including as an arbitrator or mediator. You'll receive a thorough theoretical and practical grounding in law and the advanced skills required to work in this field. You'll gain in-depth knowledge in areas of dispute resolution in the courts and alternative dispute resolution methods. You'll also explore contemporary law issues, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives.

**INTAKE**
- **February and July**

**ENTRY REQUIREMENTS**
A bachelor's honours degree (or equivalent) in a relevant discipline, including education, management, psychology, human resources, business administration, industrial relations, communications or another relevant discipline, as determined by the faculty.

- OR

A bachelor's degree (or equivalent), plus either a graduate dipole (or equivalent) in law or a related discipline, including education, management, psychology, human resources, business administration, industrial relations, communications or another relevant discipline, or a graduate certificate (or equivalent) in law or a related discipline, including education, management, psychology, human resources, business administration, industrial relations, communications or another relevant discipline as determined by the faculty.

- OR

A bachelor's degree (or equivalent) in a relevant discipline, plus sufficient relevant work-based experience or professional learning to provide the equivalent of a bachelor's honours degree in one of those disciplines, as determined by the faculty.

You'll be assessed on your entire academic record, with a credit average (or equivalent) preferred. As a general rule, those who don't have a credit average or are relying on relevant work experience to satisfy entry requirements will need to have worked for at least two years, although the required period may be shorter where the work experience has been supplemented by other relevant learning.

**DISPUTE RESOLUTION**
RANKED TOP 30 IN THE WORLD

**FOR NON-LAW GRADUATES**
If you’re interested in dispute resolution, this course will help advance your career in this developing area of expertise.

Designed to develop your professional expertise and advance your career in education, this course addresses the professional learning needs of educators, educational administrators, managers, policymakers and others interested or involved in learning and education, both locally and internationally.

It looks at learning in schools, workplaces and community, and connects research and practice to make you a stronger thinker, an engaged practitioner and an advanced specialist. You’ll broaden your knowledge of key learning constructs and deepen your understanding in specialist areas.

You can graduate with a generic, broadly applicable qualification by choosing general education studies and selecting units to suit your requirements, or choose one of the specialisations and gain a qualification highlighting your particular expertise.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

EDUCABILITY

2. Even if you are eligible for entry credit you do not need to take it.
3. You may apply for and complete the longer duration.
4. Related fields include, counselling, education, psychology, social work.
5. For example, a relevant graduate certificate or work experience.

FLEXIBLE DELIVERY
A flexible course delivery allows you to continue working while completing the course. You can choose a fully online offering, or to combine it with attendance at face-to-face workshops if you’re able and interested.

SPECIALISATIONS

ADULT LEARNING
This focuses on ways to lead and develop learners and their learning – in workplaces, communities and local, global and virtual spaces. You’ll be offered ideas and approaches to enable participation and learning, through formal and non-formal means, and to expand practice and skill development in communities. You’ll look at contemporary theories, approaches and concepts around lifelong learning and participation.

You’ll identify local and global trends and practices in adult education, and develop strategies to design engaging learning activities for adults. As a graduate you’ll be well-positioned to manage, deliver and administer learning in workplaces, communities, tertiary and vocational education.

DIGITAL LEARNING
This focuses on the issues regarding digital technology in education, and applying technology practices for learning. Aimed at professionals in school, tertiary, workplace or community settings, you’ll learn how best to design, facilitate and assess the use of digital technologies in teaching and learning.

INCLUSIVE AND SPECIAL EDUCATION
This addresses the emerging worldwide need to build the expertise of professionals in the early childhood sector. Your ability to lead educational work, innovative curriculum, teaching and policy, and professional learning in early childhood contexts will grow through your studies, and you’ll be ready to pursue senior roles in early childhood education, policy, leadership and management.

EDUCATIONAL LEADERSHIP AND POLICY
In this specialisation you’ll focus on leadership practices and policy development in educational contexts. It’s suited to those interested in leading educational initiatives and institutions, and expanding their knowledge of how to lead educational organisations. You’ll evaluate the factors that contribute to maintaining and sustaining such organisations, including human intellect, knowledge, values, emotion, learning, and organisational culture and climate. On graduating you’ll have developed your capability to improve organisations’ problem-solving and decision-making processes.

DID YOU KNOW?
This course doesn’t provide a recognised initial teaching qualification. If you’re seeking an initial teaching qualification, refer to the Master of Teaching course.

ENERGY PATHWAY
The Graduate Certificate of Education Studies provides a pathway into the Master of Education for those who may not meet the direct entry requirements for admission into the Master of Education. See page 45 for more information.
EDUCATIONAL AND DEVELOPMENTAL PSYCHOLOGY

Educational and developmental psychologists focus on how people develop and learn throughout their lifetime. They work with individuals, families, groups and organisations, and have varying roles such as school psychologist, guidance officer, and child and adolescent counsellor. They conduct psychological and educational assessments and instructional planning for exceptional children, adolescents and adults.

The Master of Educational and Developmental Psychology, accredited by the Australian Psychology Accreditation Council, is a fifth and sixth-year sequence in psychology that prepares you to practise as an educational and developmental psychologist in settings including schools, health and welfare services, care facilities and business.

You’ll develop an advanced understanding of, and the skills associated with:
• human developmental stages and processes throughout the lifetime
• psycho-educational assessment and treatment approaches for problematic or atypical development
• advanced therapeutic counselling processes and the cycle of affective intervention and change
• contemporary models of exceptionality and inclusion
• evidence-based intervention and treatment programs for psychological problems and psychopathology across the lifetime
• contemporary research and theories of abilities, personality and psychopathology
• ethical, cultural and professional issues
• administering and reporting a range of essential psycho-educational assessment instruments for assessing abilities, personality and adjustment of children through to adults.

You’ll apply theory to practice with 1000 hours of supervised professional experience in a range of settings. In a research thesis, you’ll develop an evidence-based approach to psychology, carrying out reviews and scientific investigations relevant to the theory and practice of educational and developmental psychology.

As a graduate, you’ll be qualified to register as a psychologist with the Psychology Board of Australia (PBA). You’ll also meet most requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

INTAKE
February

ENTRY REQUIREMENTS
A fourth year of psychology study from any course accredited by the Australian Psychology Accreditation Council (APAC), which may be a graduate diploma or bachelor’s honours degree, with at least a distinction average in fourth-year psychology. These qualifications must have been completed within the past 10 years. Those with international qualifications will need to have their qualifications assessed by the Australian Psychological Society (APS).

In addition, you must provide evidence of demonstrated suitability for work as a professional psychologist determined by completion of a supplementary form and satisfactory referee reports (one academic and two professional), relevant voluntary or paid work experience, and an interview.

Applicant checks:
• a Working with Children Check (before placement)
• provisional registration with the Psychology Board of Australia (before commencing study, and maintain such registration throughout the period of enrolment). You must also meet the English language requirements of Monash and of the Psychology Board of Australia (PBA). Consult the PBA website to ensure you meet these requirements. www.psychologyboard.gov.au

PROFESSIONAL RECOGNITION
Our psychology courses are accredited by the Australian Psychology Accreditation Council (APAC). Professional accreditation ensures those graduating from the courses hold degrees recognised by employers, and adhere to state and national accreditation standards.

GRADUATE CERTIFICATE OF EDUCATIONAL RESEARCH

This course is aimed at high achievers wanting to take on a graduate research degree such as a research master’s degree or a PhD, but who don’t meet the eligibility requirements of previous research experience or feel they don’t have sufficient previous research experience.

It’s designed as a pathway course to prepare you to undertake research at a graduate level. You’ll learn about research methodology, research design and research ethics as you plan and conduct a research study that can lead to a graduate research course.

Completion of this course to a high standard positions you to start a PhD or master’s by research in the field of education.

INTAKE
January and July

ENTRY REQUIREMENTS
A four-year Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in an education discipline or a relevant area with a credit average.

ADDITIONAL
A 100–200 word research proposal and a detailed CV listing qualifications, work experience and details of two recent referees.

GRADUATE CERTIFICATE OF EDUCATION STUDIES

Designed to introduce you to the field of education at a graduate level, this course is suited to those with a first qualification in a discipline other than education. It’s also a pathway for students who don’t meet the entry requirements for the Master of Education.

It gives you an understanding of concepts and issues in education, locally and globally, and you’ll build your knowledge of major theoretical and professional debates in specialist areas.

Through your studies you’ll:
• learn the foundational concepts and traditions in education
• gain an understanding of recent issues and debates in policy and practice
• apply critical perspectives in your evaluation of substantive and contemporary issues and ideas

• show analytical skills in evaluating, synthesising and communicating academic concepts
• build confidence in academic practice at an advanced level.

Course completion allows you to pursue education-related careers and/or further study in education. Credit will be granted for equivalent units in the Master of Education (DECO2).

INTAKE
February and July

ENTRY REQUIREMENTS
An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) with a pass average. Alternatively, those with five years’ relevant full-time informal learning, with a recommendation letter (such as a reference from an employer), will be considered on a case-by-case basis.
The Master of Advanced Engineering offers flexibility to complete your master’s degree in just one year, or you can choose a two-year option.

It is the key transitional stage in your career, transforming you into a global leader. Gain a depth of knowledge, mastering the crucial skills to become a leading contributor in your field.

It’s designed to extend your knowledge in your chosen specialisation (in chemical, civil infrastructure systems, transport or water), energy and sustainability, electrical, materials or mechanical engineering, and advance your leadership and complex problem-solving skills in a cross-cultural environment.

The two-year program retains all the features of the one-year program, but has an additional year, allowing you to further deepen your skills in the engineering field.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experiences you will be eligible for entry credit which reduces the duration.

ENGINEERING, ADVANCED

RANKED TOP 30 IN THE WORLD

The Master of Advanced Chemical Engineering course includes study areas such as advanced reaction engineering, process design and optimisation, conversion of bioresources into fuel, materials and specialty chemicals, and nanostructured membranes for sustainable separations and energy production, with an emphasis on the latest developments.

You’ll develop skills vital for chemical engineers in industry and research.

CIVIL ENGINEERING INFRASTRUCTURE SYSTEMS RANKED TOP 30 IN THE WORLD

As a Master of Advanced Civil Engineering (Infrastructure Systems) graduate you’ll be ready to work in the area of infrastructure engineering and management. The course will provide the knowledge associated with interfacing both structural and geotechnical designs for infrastructure systems. You’ll be equipped with the advanced skills necessary for managing the challenges posed by ageing, and leading designs of complex infrastructure systems. The course suits new graduates, professionals and managers who are keen to upgrade their existing design and management skills, as well as to develop theoretical and applied knowledge in infrastructure engineering and management.

CIVIL ENGINEERING WATER RANKED TOP 30 IN THE WORLD

The Master of Advanced Civil Engineering (Water) allows you to focus on water resources engineering and management. This program deals with surface and ground water flow, stormwater management, water quality, flood forecasting and mitigation. It’s designed to give you skills to meet the challenges posed by changing climatic conditions on water resource management. It’s suited to new graduates, professionals and managers who are keen to upgrade their existing design and management skills, as well as to develop theoretical and applied knowledge in water resources engineering and management.

CIVIL ENGINEERING TRANSPORT RANKED TOP 30 IN THE WORLD

The Master of Advanced Civil Engineering (Transport) program addresses transport engineering and management, traffic engineering, intelligent transport systems and transport planning, and responds to the growing need for engineers with awareness of the characteristics of transport, including its technological, economic and social impact. You’ll also look at state-of-the-art transport engineering, and how it can solve problems in the planning, design, management and operation of transport facilities. It’s a course suitable for new graduates, professionals and managers who are keen to upgrade their existing design and management skills, as well as to develop theoretical and applied knowledge in transport engineering and management.

ELECTRICAL ENGINEERING

The Master of Advanced Electrical Engineering gives you a broad introduction to advanced techniques in signal processing, communications, digital systems and electronics. The units have been chosen around the common theme of embedded systems – special-purpose computing systems designed for specific applications. They’re found just about everywhere, including in consumer electronics, transportation systems, medical equipment and sensor networks. The course will mix theory and practice, and includes hands-on learning in laboratories and team-based design projects.

ENERGY AND SUSTAINABILITY (MALAYSIA ONLY)

If you’re a qualified engineer keen to deepen your knowledge in the energy and sustainability area, the Master of Advanced Engineering (Energy and Sustainability) is for you. The course builds foundations in general engineering through engineering analysis and entrepreneurship units. You can major in this program by examining the energy and sustainability area from a multidisciplinary perspective. You can also choose elective units such as environment and air pollution control and smart grids to further enhance your knowledge, or undertake a minor research work to pursue a topic of related interest.

MATERIALS ENGINEERING RANKED TOP 50 IN THE WORLD

Most modern engineering projects are multidisciplinary in nature and require a range of skills and perspectives to accomplish the task. The Master of Advanced Mechanical Engineering course takes a systems approach to the design, monitoring and performance of complex mechanical engineering systems in the fields of renewable energy, aerospace, buildings, transportation, and biomedical devices. The systems approach also informs the course – four discipline-based core units are vertically integrated so that common problems are examined from different perspectives, culminating in a sustainable systems unit.

4 RANKED TOP 30 IN THE WORLD.
ENVIRONMENT AND SUSTAINABILITY

Our future hangs in the balance. Humanity is developing at a speed causing widespread environmental, economic and social challenges for sustaining life on Earth. It’s vital for us to change and adapt in all aspects of how we work and live.

If you’re future-conscious and want to transform society through sustainable solutions, this is your chance to learn the skills you’ll need. You’ll give the training, language and tools to be a leader in a rapidly growing field. You’ll explore the trends, issues and science underlying global sustainability problems, and learn how to evaluate, analyse and collaborate across sectors to influence, motivate and effect positive, sustainable change.

Get hands-on, real-world experience through an internship, interdisciplinary or research project to help drive innovation, and be taught by global and professional experts from multiple disciplines and sectors, who are leading the environment and sustainability agenda in Australia and internationally.

Combine your industry experience or previous study with a strong foundation in understanding sustainability challenges, and use it to advance sustainability solutions in your sector. You’ll have the skills to provide strategic leadership in policy formulation, governance and regulatory advice, management and capacity-building in sectors as diverse as business, government and not-for-profits.

LEADING THE REGIONAL RESPONSE TO THE UNITED NATIONS’ SUSTAINABLE DEVELOPMENT GOALS

Monash Sustainability Institute’s Sustainable Development Program supports Australian and regional leadership in the implementation of the UN’s Sustainable Development Goals (SDGs).

Working with a range of national and international stakeholders, they create insights into how the SDGs can be made more scientifically and locally meaningful, with a focus on Australia-appropriate solutions.

They co-ordinate the Australia-Pacific regional network of the Sustainable Development Solutions Network (SDSN), a rapidly growing and influential global network of universities and other organisations that aims to mobilise scientific and technical expertise in support of sustainable development problem-solving.

monash.edu/sustainability

IF YOU’RE FUTURE-CONSCIOUS AND WANT TO TRANSFORM SOCIETY THROUGH SUSTAINABLE SOLUTIONS, THIS IS YOUR CHANCE TO LEARN THE SKILLS YOU’LL NEED.

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields include business, environmental science, humanities, science or social sciences.
4. For example, by relevant further studies or work experience.

SPECIALISATIONS

CORPORATE ENVIRONMENTAL AND SUSTAINABILITY MANAGEMENT
This specialisation explores the complex mix of social, ecological and economic sustainability challenges faced by organisations. It equips you with the skills to implement strategies and initiatives to address these challenges.

ENVIRONMENTAL POLICY AND GOVERNANCE
You’ll gain the skills to understand governance to enable societal and governmental change, and responsible action to support sustainability. Enriched with the knowledge of world leaders from environmental and social sciences, and through case studies, you’ll explore the dynamic processes of environmental governance and implementation.

ENVIRONMENTAL SECURITY
You’ll gain an understanding of the scientific knowledge needed to guide the sustainable use, management and protection of the natural environment. You’ll also develop the literacy needed to interpret and translate scientific evidence about environmental security for a range of stakeholders.

INTERNATIONAL DEVELOPMENT AND ENVIRONMENT
Examine how environmental change, economic transformations and institutional practices interact to reshape social and ecological vulnerability, resilience and sustainability. You’ll develop the skills to analyse the causes of poverty, disadvantage and environmental change, and to plan and implement international development projects and programs.

LEADERSHIP FOR SUSTAINABILITY
You’ll gain the theoretical insights, analytical skills and practical capacities to guide, influence and lead processes that result in positive social, environmental and economic outcomes. You’ll develop the literacy and core skills to analyse complex situations, identify effective intervention points, create novel solutions and collaboratively design processes of influence to effect change.

COURSE CODE: S6002

SUSTAINABILITY MANAGEMENT
This course is part of an interdisciplinary approach to preparing students to work in a rapidly growing field. You’ll explore the trends, issues and science underlying global sustainability problems, and learn how to evaluate, analyse and collaborate across sectors to influence, motivate and effect positive, sustainable change.

You’ll have the skills to provide strategic leadership in policy formulation, governance and regulatory advice, management and capacity-building in sectors as diverse as business, government and not-for-profits.

Get hands-on, real-world experience through an internship, interdisciplinary or research project to help drive innovation, and be taught by global and professional experts from multiple disciplines and sectors, who are leading the environment and sustainability agenda in Australia and internationally.

Combine your industry experience or previous study with a strong foundation in understanding sustainability challenges, and use it to advance sustainability solutions in your sector. You’ll have the skills to provide strategic leadership in policy formulation, governance and regulatory advice, management and capacity-building in sectors as diverse as business, government and not-for-profits.
Do you have an aptitude and passion for mathematics and statistics, a keen interest in finance and insurance, and want to work for a major financial organisation in finance, insurance or the money market?

This course gives you a deep understanding of the financial world, and the ability to speak its language. Combining theory with hands-on practical skills, via an industry placement or research project, the program ensures you’ll graduate with the skills increasingly sought-after by banks and other financial institutions.

It offers advanced training in the core areas of stochastic, financial and insurance modelling, statistical analysis and computational methodology, as well as in a range of elective topics from economics, econometrics, finance, mathematics and probability.

As a graduate of this course you’ll be able to pursue specialist careers in research departments within banks, insurance and consultancy firms, or derivatives of valuation and portfolio management within investment houses.

DEGREE AWARDED
Master of Financial Mathematics
COURSE CODE: S6001

You’ll gain the advanced expertise that’ll make you highly sought-after in the forensic medical, dental or science fields.

Building on your qualification in medicine, dentistry, biomedical science or radiography, you’ll be able to apply your knowledge in the interests of justice and will learn to make high-level, independent judgments in the forensic setting; gain sound knowledge of medico-legal principles; gain the skills to clearly communicate medico-legal issues to the justice system; prepare effective and objective medico-legal reports; critically evaluate the ethical and legal issues arising in forensic medical practice; and interpret wounds and injury patterns. You’ll have the necessary attributes to work in the fields of forensic medicine, dentistry or science within the parameters of the justice system.

You may be able to take an alternative exit from the program with a Graduate Diploma in Forensic Medicine or Graduate Certificate in Forensic Medicine, provided you’ve met the requirements.

INTAKE
February and July

ENTRY REQUIREMENTS
A Bachelor of Medicine and Surgery or a Bachelor of Dentistry, and at least three years’ experience in clinical or dental practice.

OR

Proof of medical or dental registration and clinical experience in your own country, and satisfactory proof of English language skills via an IELTS or TOEFL.

OR

Bachelor of Biomedical Science (Hons) and two years’ experience in a laboratory setting.

OR

Bachelor of Science (Hons) and current employment within a recognised forensic institute for at least two years.

OR

Bachelor of Radiography and Medical Imaging (Hons) or equivalent, and currently employed in radiography practice for two years.

ADDITIONAL

Proof of medical, dental registration, or registration as a radiographer with relevant registration board.

SPECIALISATIONS

CLINICAL FORENSIC MEDICINE
Clinical forensic medicine covers a wide range of activities at the intersection of medical practice and the law. These medico-legal services overlap many other medical specialty areas – paediatrics, gynaecology, clinical toxicology, emergency medicine, psychiatry, dentistry and forensic pathology. However, clinical forensic medicine discipline has become home to the issues inherent in child and adult sexual/physical assault, traffic medicine and custodial medicine. The services are provided by clinicians working either exclusively in the field of clinical forensic medicine, or in the other medical specialties, including general practice.

FORENSIC ODONTOLOGY
Forensic odontology covers the handling, examination and evaluation of dental evidence that will be presented in the interest of justice. It covers activities such as human identification (including mass-fatality victim identification), bite mark analysis, craniofacial trauma analysis, age estimation (of both the living and the deceased), child abuse and dental malpractice. As a forensic odontologist your expertise will be called upon across the medico-legal spectrum, and you’ll work closely with forensic pathologists, clinical forensic medical practitioners, forensic anthropologists and forensic scientists.

FORENSIC MEDICAL SCIENCE
Forensic medical science covers disciplines including forensic toxicology and pharmacology, mortuary technical science, forensic imaging and forensic aspects of molecular biology. As a forensic toxicologist you’ll be concerned with the analysis and interpretation of body fluids for the discovery of forensically relevant drugs (either illicit or prescription), the results of which will apply to cases involving both the living and dead. Forensic toxicologists need a solid understanding of forensic pathology and death investigation, as most of the work is carried out in a coronal environment. As a mortuary scientist you’ll work with forensic pathologists in conducting the forensic autopsy, and be responsible for evidenction and reconstruction of the deceased, the safe collection of forensic samples, and for the ethical and respectful treatment of the deceased. Mortuary science increasingly involves understanding advanced imaging modes, and appreciating the capabilities of fields such as forensic anthropology, molecular biology and, particularly, forensic pathology, and death investigation systems and protocols.

GOVERNMENT LAW AND REGULATORY PRACTICE

RANKED TOP 30 IN THE WORLD*

FOR NON-LAW GRADUATES

The world of government law and regulatory practice offers diverse career opportunities. This course is aimed at those working with or within government and regulatory bodies, including careers in federal, state or local government. It gives you a thorough theoretical and practical grounding in government law and regulatory practice, and the academic skills needed to working in those fields. You gain in-depth knowledge and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives.

INTAKE

February and July

ENTRY REQUIREMENTS

A bachelor’s honours degree (or equivalent) in a relevant discipline, including government, regulation, social work or another relevant discipline, as determined by the faculty, with a minimum credit average.

OR

A bachelor’s degree (or equivalent), plus either a graduate diploma (or equivalent) in law or a cognate discipline, including government, regulation, social work or another relevant discipline, or a graduate certificate (or equivalent) in law or a related discipline, including business, economics, commerce or another relevant discipline as determined by the faculty.

OR

A bachelor’s degree (or equivalent) in a relevant discipline, including government, regulation, social work or another relevant discipline, plus sufficient relevant work-based experience or professional learning to provide the equivalent of a bachelor’s honours degree in one of those disciplines, as determined by the faculty.

You’ll be assessed on your entire academic record, with a credit average (or equivalent) preferred. As a general rule, those who don’t have a credit average or are relying on relevant work experience to satisfy entry requirements will need to have worked for at least two years, although the required period may be shorter where the work experience has been supplemented by other relevant learning.

HEALTH ADMINISTRATION

The course provides the academic preparation for managers in health care and public health, and those aspiring to such a career.

This includes managers in the broad range of health care organisations, from central agencies, health insurers, non-government organisations and the various health provider organisations. You’ll receive structured learning in key management disciplines including policy, organisational theory, financial management, human resource management, economics and marketing, with an emphasis on health care organisations and specific health-focused domains such as epidemiology, biostatistics and managing the patient process. The course takes an adult-learning approach, encouraging self-directed learning, independent research and enquiry, reflection from practice, and peer learning with guidance from experienced academics.

INTAKE

January, March, May, July, August, October

ENTRY REQUIREMENTS

An Australian undergraduate degree (or equivalent) in a related discipline, including health sciences, business, commerce, economics or law, and two years’ work experience or qualification/experience or satisfactory substitute that the faculty considers to be equivalent, and a minimum of two years’ industry/management experience.

The minimum industry experience is needed for you to apply complex theories and knowledge to professional practice in health care and public health management. It also enables you to positively contribute to the peer learning incorporated into the course.

ADDITIONAL

The following must be submitted before an application can be assessed:

- A CV showing relevant industry experience
- Academic transcript(s) of relevant degrees
- A statement of purpose (250 words) outlining reasons for undertaking the course and your areas of interest.

DEGREE AWARDED

Master of Health Administration

COURSE CODE: ME087

Monash Online

2 years (part-time only)

$24,000

This is the annual average fee per 40 credit points of study in this course for 2016.

HEALTH CARE PRACTICE, ADVANCED

RANKED TOP 40 IN THE WORLD*

Are you a medical practitioner, nurse, midwife, occupational therapist, physiotherapist, radiographer, radiation therapist, a primary health care practitioner or manager?

The Master of Advanced Health Care Practice is a pathway for professionals like you to gain a master’s-level qualification that enhances your undergraduate degree – and provides the widest range of options for the future.

This course is interprofessional, and you’ll complete a common module – essentials of advanced health care practice and research. This reflects the collaboration required in practice to deliver the highest-quality health care.

INTAKE

February and July

ENTRY REQUIREMENTS

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

EXEMPTION (YEARS)

Bachelor’s degree in a related field

1.5

Bachelor’s degree in a related field (or equivalent)

1

Bachelor’s degree in a related field plus sufficient relevant work-based experience or professional learning to provide the equivalent of a bachelor’s honours degree in one of those disciplines

1

1. Selection is based on previous academic achievement. There are specific requirements for each specialisation – for further details see http://www.apha.unimelb.edu.au/academics/.

2. Even if you are eligible for entry credit you do not need to take it. You may apply to and complete the longer duration. Not all specialisations are available for study in a 1.5 year duration.

3. Where you have postgraduate qualifications that make them eligible to register to practice and be engaged in clinical practice.

4. For example, by further relevant studies offered through the Allied Health Care Group or the Department of General Practice.

SPECIALISATIONS

CLINICAL MIDWIFERY

This is designed to prepare experienced registered (in their country of origin) midwives for senior management, education, and professional and specialist leadership roles in a range of midwifery settings. (Note: this is only the specialisation currently offered by Interprofessional Learning, visa holders to study on campus in Australia.)

CRITICAL CARE

This is aimed at consultants or registrars keen to develop knowledge across key areas of critical care practice. Your core modules will cover essentials of communication, conflict management and leadership, ethics, medicolegal principles, evidence-based medicine, clinical and practice guidelines, systematic reviews, quality improvement, benchmarking, patient safety and risk management. Electives will include clinical research methods, health systems management and leadership, and quality improvement. Critical care skills sets will be offered in extracurricular support, including ICU, echocardiography and ultrasound, and airway and ventilation management including bronchoscopy.

PRIMARY HEALTH CARE

Designed for those working within interprofessional primary health care teams, this is an entry level qualification that enables medical practitioners, nurses, allied health professionals and primary health care administrators and managers to gain an understanding of, and skills in, the delivery of contemporary, sophisticated primary health care. Your units give you an understanding of the principles of general practice and primary health care, chronic disease management, evidence-based prevention and health promotion, education in health care practice, and a range of special interest units addressing diagnostics, therapeutics and interprofessional health practice. A research project in an area of your interest can also be undertaken.

OCCUPATIONAL THERAPY

This assists occupational therapists to deepen their knowledge and practice in advancing human occupation, health and wellbeing; to develop knowledge and skills for leading the management, design and delivery of health and community health care practice, and to take on a program of study designed to develop advanced occupational therapy practice roles, such as in hand therapy, using adaptive and assistive technology, and addressing the needs of children with disabilities and their families.

RADIOGRAPHY/CT RADIOTHERAPY

This suits radiographers keen to develop their skills in advanced elements of patient care, evidence-based radiography practice, clinical leadership and modality-based practice. There’ll be an emphasis on image interpretation and patient assessment, with two streams available – one in general radiography, the other in CT radiography.

RADIATION THERAPY

This is designed for radiation therapists keen to hone their knowledge and skills before assuming advanced practice roles in radiation therapy planning and treatment. Your key topic areas include international and local perspectives on radiation therapy service provision, patient care and the management of radiation-induced side effects, radiation therapy imaging, and advances in radiation therapy for breast cancer.

RANKED TOP 40 IN THE WORLD*

DEGREE AWARDED

Master of Advanced Health Care Practice

COURSE CODE: M6201
The Master of Health Professional Education is designed for health professional educators keen to study contemporary, evidence-based educational practices, apply the literature to their current practices and, where appropriate, to undertake educational research.

You’ll be guided in the planning, conduct and completion of educational research and development projects. To enrol directly into the course you’ll need to study the foundation units from one of our graduate certificates in the initial year of study.

INTAKE
February and July

ENTRY REQUIREMENTS
You must be a graduate from any health-related or education profession who’s engaged in teaching or educational development or health-related disciplines. You may have completed the Graduate Certificate in Health Professional Education (course code M4009), or an approved equivalent, before proceeding to the master’s program. If you have a grade point average above 70 you’ll be considered eligible for this direct enrolement. You’ll be required to study the foundation units from our graduate certificate program at the beginning of the master’s course.

HUMAN RESOURCE MANAGEMENT
RANKED TOP 40 IN THE WORLD

The human resource management field is diverse and complex, requiring both general and specialist skills for roles across many industry sectors. In this course you’ll focus on areas of contemporary HR practice to advance your expertise and career.

Our innovative curriculum combines research and the latest thinking to give you highly focused, specialised knowledge. You’ll develop a deep understanding of the core principles, including change and talent management, industrial relations, HR planning, leadership, employee development, recruitment and consulting.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ADDITIONAL
• a CV showing relevant industry experience
• academic transcript(s) of relevant degrees
• a statement of purpose (250 words) outlining reasons for undertaking the course and your area(s) of interest.

“I hope to spend some time working overseas to broaden my experience at a global level. I’ve had exposure to operations in the Asia-Pacific region, and I believe it’s critical to gain a wider knowledge of how businesses operate outside Australia.”

ALLISON ARANDEZ
Business student

HEALTH SERVICES MANAGEMENT
RANKED TOP 40 IN THE WORLD

If you’re working or planning to work in middle or senior management roles in health care, this is for you.

Your core units cover law for health systems, critical leadership and management, improving health care quality, financial issues in health care management, foundations health policy, epidemiology and biostatistics, reform and development of health services, and a health services management case study.

You can choose your electives from units offered in our Master of Public Health or other approved master-level management units. You can also exit the course early with a Graduate Certificate in Health Services Management (course code M6006), or our Graduate Diploma in Health Services Management (course code M6007), if you meet the requirements.

INTAKE
February and July

ENTRY REQUIREMENTS
An Australian undergraduate degree (or equivalent) in an appropriate discipline, with at least 60 per cent average and relevant professional experience or qualification/experience or satisfactory substitute that the faculty considers to be equivalent.

ADDITIONAL
• a CV showing relevant industry experience
• academic transcript(s) of relevant degrees
• a statement of purpose (250 words) outlining reasons for undertaking the course and your area(s) of interest.

GRADUATE DIPLOMA IN HUMAN RESOURCE MANAGEMENT
RANKED TOP 40 IN THE WORLD

In this course you’ll address the key areas of contemporary HR practice and increase your capacity to influence change and make logical judgments.

It’s best-suited to those who want to pursue graduate studies in HR, as well as HR professionals keen to formalise their education in the field.

INTAKE
February and July

ENTRY REQUIREMENTS
An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution). You’ll be ranked based on your entire academic record with an overall average of 55 per cent preferred, and two years of work experience required.

DEGREE AWARDED
Graduate Diploma in Human Resource Management
COURSE CODE: 2778

HUMAN RIGHTS LAW
RANKED TOP 30 IN THE WORLD

FOR NON-LAW GRADUATES
Are you passionate about human rights? Would you like to enhance your skills in this diverse field? If so, the Master of Human Rights Law provides a thorough theoretical and practical grounding in the laws governing this field.

You’ll develop advanced professional skills to further your specialist career in non-government organisations, government sectors, community groups or human rights-related organisations such as international development agencies. You’ll also gain an understanding of the Australian legal system, and will investigate contemporary law issues, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives.

INTAKE
February and July

ENTRY REQUIREMENTS
A bachelor’s honours degree (or equivalent) in a relevant discipline, including social sciences, humanities or another relevant discipline, as determined by the faculty, with a minimum credit average.

OR
A bachelor’s degree (or equivalent), plus either a graduate diploma (or equivalent) in law or a related discipline, including social sciences, humanities or another relevant discipline, or a graduate certificate (or equivalent) in law or a related discipline, including social sciences, humanities or another relevant discipline as determined by the faculty.

OR
A bachelor’s degree (or equivalent) in a relevant discipline, including social sciences, humanities or another relevant discipline, plus sufficient relevant work-based experience or professional learning to provide the equivalent of a bachelor’s honours degree in one of those disciplines, as determined by the faculty.

You’ll be assessed on your entire academic record, with a credit average (or equivalent) preferred. As a general rule, those who don’t have a credit average or are relying on relevant work experience to satisfy entry requirements will need to have worked for at least two years, although the required period may be shorter where the work experience has been supplemented by other relevant learning.

DEGREE AWARDED
Master of Human Rights Law
COURSE CODE: L8000

“I have a passion for human rights, especially women’s and children’s rights, and my goal is to work in the United Nations. I decided to pursue further study in this field because I have a vision to help the helpless and defend the defenceless.”

EUNIKE SUMAMPOUW
Law student
Are you ready to embark on a high-status technology career? Do you want to progress to the next level as a technology specialist?

With a Master of Information Technology, you could become a software engineer, an enterprise data architect, a mobile systems analyst, a cloud consultant, or even a chief technology officer.

This course features core studies in IT project management and software engineering, and offers a wide range of electives choices, spanning data management technology, mobile and distributed systems, machine learning, cloud computing and cybersecurity.

In your final semesters you can choose to complete an industry experience project or research thesis. Additionally, you can also apply for a place over summer in the highly-regarded Monash Industry Team Initiative (MITI).

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ELIGIBILITY
Bachelor’s degree in any field
DURATION
YEARS
Bachelor’s degree in any field
2

The planning, design, construction and maintenance of infrastructure is crucial to Australia’s economy.

Skilled professionals are required to maintain ageing infrastructure, integrate new infrastructure into existing systems, and expand existing infrastructure – and it has to be done in a way that’s socially, environmentally and financially sustainable.

The Master of Infrastructure Engineering and Management prepares you to take on these challenges. The program was developed in response to the growing need for engineers with expertise in infrastructure, including its technological, economic and social effects.

This course is not available to international students who are holders of an Australian student visa, for study offshore in Australia. However, holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning (where this option is available) and living outside of Australia, may be eligible for this course.

INTAKE
February and July

ENTRY REQUIREMENTS
A four-year bachelor’s degree in engineering, science or applied science; or a three-year degree in engineering, science or applied science with appropriate graduate qualifications. Students entering from a four-year degree are eligible for 24 credit points advanced standing. Students with a three-year degree in engineering, science or applied science will undertake the full 1.5-year program.

ADDITIONAL
In addition to providing certified academic transcripts and certified proof of meeting the English language requirements, you must provide your CV, a comprehensive and current employment history, details of residency etc.
INTELLECTUAL PROPERTY AND COMMUNICATIONS LAW

RANKED TOP 30 IN THE WORLD

FOR NON-LAW GRADUATES

The world of intellectual property and communications law is fast-changing.

Our course furthers your expertise in this dynamic area. You’ll gain in-depth knowledge of recent developments, including the applicable laws and regulatory frameworks. As one of Australia’s most prestigious law schools, we teach units accredited by the Professional Standards Board for Patent and Trade Marks Attorneys to satisfy the knowledge requirements for registration as a patent attorney or trade marks attorney.

INTAKE

February and July

ENTRY REQUIREMENTS

A bachelor’s degree (or equivalent), plus either a graduate diploma (or equivalent) in law or a related discipline, including economics, engineering, medicine, science, computer science, industrial design, business administration or another relevant discipline, or a graduate certificate (or equivalent) in law or a related discipline, including business, economics, commerce or another relevant discipline, as determined by the faculty.

OR

A bachelor’s degree (or equivalent) in a relevant discipline, including economics, engineering, medicine, science, computer science, industrial design, business administration or another relevant discipline, plus sufficient relevant work-based experience or professional learning to provide the equivalent of a bachelor’s honours degree in one of those disciplines, as determined by the faculty.

You’ll be assessed on your entire academic record, with a credit average (or equivalent) preferred. As a general rule, those who don’t have a credit average or are relying on relevant work experience to satisfy entry requirements will need to have worked for at least two years, although the required period may be shorter where the work experience has been supplemented by other relevant learning.

INTERNATIONAL DEVELOPMENT PRACTICE

Want to improve the wellbeing of millions worldwide?

This course will help you tackle the political, economic, cultural and ecological challenges that lead to extreme poverty, poor health, fragile governance, inequality and environmental vulnerability. At this issue require professionals with the practical skills and analytical capacity to build resilience at national and community levels.

Delivered by specialists from the humanities, social sciences, medicine, business, education and law, the course offers a broad approach to sustainable development with four streams: democracy, justice and governance; gender, conflict and society; crisis, change and management; and sustainable resource management.

INTAKE

February and July

ENTRY REQUIREMENTS

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

INTERNATIONAL BUSINESS

The Master of International Business will increase your business and management knowledge, and hone the skills you need to operate from a global perspective.

You’ll focus on international politics and global business strategy and communication, further developing your business management knowledge. As part of this course you can choose from a stream in international business or diplomacy and trade. The course offers a wide range of elective units, allowing you to tailor the degree to your area of interest and career goals.

INTAKE

February and July

ENTRY REQUIREMENTS

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

SPECIALISATIONS

INTERNATIONAL BUSINESS

You’ll develop skills in communications and negotiations across cultures, and the ability to analyse firm internationalisation, international trade and corporate strategy. You’ll also gain an appreciation of the multinational firm, the environment in which it operates, and the activities required of the international manager.

DIPLOMACY AND TRADE

This diplomacy and trade stream furthers your knowledge of international trade, diplomacy, economics, international law, international development and international politics. Combining foreign affairs and international trade policy subjects, you’ll gain a solid understanding of global issues, and develop skills to evaluate trends in foreign and trade policy, understand the implications of international trade rules, and provide policy advice in the areas of foreign affairs, trade and development, and international business.

COURSEWORK

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (mum.admissions@monash.edu) or Monash University South Africa (inquilizes@monash.ac.za) for more information on their offerings.

INTERNATIONAL RELATIONS

Our world is shaped by big questions about global justice, war, peace, social movements and inter-state relations.

The Master of International Relations gives you the skills to deal critically and analytically with such questions, providing a window into the dynamic world of 21st-century politics.

The course explores the security, ethical, legal and economic dimensions of international relations. You’ll look at key issues in foreign policy, world order, European studies, crisis management and terrorism, as well as the gender, development, migration and governance aspects of global politics.

INTAKE
February and July

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ELIGIBILITY
Bachelor’s degree in any field 1.5
Bachelor’s degree in a related field OR Bachelor’s degree in any field – relevant expertise 2
Bachelor’s (Hons) degree in any field 1
Bachelor’s (Hons) degree in a related field OR Bachelor’s (Hons) degree in any field – relevant expertise 3
Bachelor’s (Hons) degree in any field + relevant expertise 4

1. Selection is based on previous academic achievement.
2. Even if you are eligible for credit you do not need to take it.
3. Related fields include humanities or social sciences.
4. For example, by a relevant graduate certificate or work experience.

SPECIALISATIONS

General Studies in International Relations
Tailor your studies to suit your own interests or needs while addressing the fundamental debates surrounding global politics. By selecting subjects across the range of available specialisations, you’ll be able to examine key issues in foreign policy, international and comparative governance, world order and security, human rights, European studies, crisis management, diplomacy and trade, or terrorism.

Governance and Security
This provides you with a comprehensive understanding of how power, authority and participation is managed within and among states, as well as challenges to this domestically and internationally. You’ll focus on the practical applications of governance, institutions and the rule of law, and how it works in the global environment.

International Diplomacy and Trade
This advances your knowledge of international trade, diplomacy and international law. It’s designed for those at the start of their working life, as well as those working in the field who want to further their careers in international public policy, NGOs and government departments such as the Department of Foreign Affairs and Trade.

Political Violence and Counter-Terrorism
In this specialisation you’ll further your understanding of political violence, including the ideologies and situations that give rise to it. You’ll focus on terrorism and political extremism, the conditions associated with preventing and combating political violence, and the effects of these activities on democratic and civil liberties.

INTERNATIONAL DOUBLE MASTER’S PROGRAM

This course can also be taken as part of a double degree program with the Master of Journalism at Monash, or as part of an international double degree program with Shanghai Jiao Tong University in China.

INTERNATIONAL SUSTAINABLE TOURISM MANAGEMENT

Sustainability is increasingly influencing tourism planning, development, governance and management as the industry expands.

With the growth rate of emerging economies doubling that of advanced economies in the years leading to 2030, sustainable tourism is playing a leading role in the United Nations Millennium Development Goals.

This course meets the growing demand for specialists in tourism planning, marketing and industry management who not only have a deep understanding of global business activity, but also clear insights into the effects of planning and policymaking on the environment, society, culture and the economy.

INTAKE
February and July

ENTRY REQUIREMENTS

4. For example, by a relevant graduate certificate or work experience.

DEGREE AWARDED
Master of International Sustainable Tourism Management

COURSE CODE: A8012

INTERNATIONAL RELATIONS/JOURNALISM

Keen to further focus your interests and aspirations? This double degree course could be for you.

You’ll complete one of the specialisations offered within the Master of International Relations for a comprehensive introduction to the international political system and key issues in international relations. You’ll also take the main components of the Master of Journalism, giving you the chance to enter the journalism industry, or, if you’re already part of the media, to extend your expertise.

The course’s national and international orientation means you’ll use a full range of media technologies and gain insights into approaches to international relations. With an overlap or reduction of electives taken, the overall duration of completing the two degrees is reduced.

INTAKE

Master of International Sustainable Tourism Management

COURSE CODE: A8012
The Master of Interpreting and Translation Studies course develops your practical and theoretical skills in translation and interpreting in English and a second language chosen from Chinese, French, German, Indonesian, Italian, Japanese, Korean, or Spanish.

Our course is approved at the Professional Interpreter, Professional Translator and Conference Interpreter levels by the National Accreditation Authority for Translators and Interpreters (NAATI). Monash is also the only university in Australia to be a member of the Conference Internationale d’Instituts Universitaires de Traducteurs et Interprètes (CIUTI), the world’s oldest and most prestigious international association of tertiary institutions offering degrees in translation and interpreting.

We offer two specialisations: translation, and interpreting and translation.

SPECIALISATIONS
TRANSLATION
This prepares you for work in areas where written translation and writing skills are needed, such as literary and cultural translation, cross-cultural communication, business, law, science and technology, publishing, editing or journalism. You’ll work from your second (‘B’) language into your first (‘A’) language, and focus on research methods that give you the chance to pursue doctoral studies in translation studies.

INTERPRETING AND TRANSLATION
This prepares you for work in areas where interpreting (i.e. verbal translation) and cross-cultural skills are required, such as in health care, law, business or education settings, as well as international diplomacy and conferences. Training is bi-directional in the two languages, and you’ll need to be able to fluently converse in both.

INTAKE
February and July (July entry available to students completing the translation stream only).

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ELIGIBILITY
Bachelor’s degree in any field + relevant expertise4
Bachelor’s degree in a related field3, OR
Bachelor’s degree in any field 2
Bachelor’s degree in any field + relevant expertise5
Bachelor’s (Hons) degree in any field 1.5
Bachelor’s (Hons) degree in any field + relevant expertise
1. Selection is based on previous academic achievement.
2. If you are eligible for entry credit you do not need to take it. You may apply for and complete the shorter duration.
3. Related fields include humanities or social sciences.
4. For example, by a relevant graduate certificate or work experience.

INTERNATIONAL DOUBLE MASTER’S PROGRAM
The Master of Interpreting and Translation Studies can also be taken as part of a double degree program with an international partner in France, Italy or Japan. These international double degree programs immerse you in two cultures, with one full year in Australia and another at the partner university. You’ll complete the requirements of the Monash Master of Interpreting and Translation Studies (MITS), as well as a second degree with one of the following universities: Jean Moulin Lyon III (French, specialising in translation); Kobe City University of Foreign Studies (Japanese, specialising in interpreting and translation); Universitas Trieste (Italian and either French, German or Spanish, specialising in translation or interpreting and translation).

JOURNALISM
The journalist of the future will play a crucial role in society by scrutinising and holding to account those in power, shedding light on systemic failings, and finding the truth.

If you want to enter this rapidly changing industry, or you’re a part of the media and want to extend your expertise, the Master of Journalism is right for you. Working with award-winning journalists and academics with outstanding industry links, you’ll gain expert skills in research and reporting in print, digital, radio and video, and explore the media’s evolving role in society.

INTERNATIONAL DOUBLE MASTER’S PROGRAM
This course can also be taken as part of an international double degree program with Warwick University in England. You’ll complete the Master of Journalism at Monash, as well as a Master of Arts program from the Department of Politics and International Relations at Warwick University.

ENTRY REQUIREMENTS
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

ELIGIBILITY
Bachelor’s degree in any field + relevant expertise4

# Commonwealth Supported Places are available to eligible applicants.
FOR LAW GRADUATES
The Monash LLM is ideal for law graduates wanting to develop in-depth knowledge of a particular legal area, or those wanting to advance their professional expertise in an area of practice. You’ll gain advanced skills and knowledge of law developments, practice and scholarship of one or more areas of law.

INTAKE
Throughout the year

ENTRY REQUIREMENTS
A Juris Doctor or a bachelor’s honours degree in law, or an equivalent qualification.

OR
A bachelor’s degree in law (or equivalent), plus either a graduate diploma in law, a graduate certificate in law, or an equivalent graduate qualification.

OR
A bachelor’s degree in law (or equivalent), plus sufficient relevant work-based or other learning to together constitute the equivalent of one of the above qualifications*.

OR
A bachelor’s degree in law (or equivalent), plus admission to practise as an Australian lawyer.

You’ll be assessed on your entire academic record, with a credit average (or equivalent) preferred. As a general rule, those who don’t have a credit average will need to have at least two years of relevant work experience, although the required period may be shorter where the work experience has been supplemented by other relevant learning.

SPECIALISATIONS

COMMERCIAL LAW
You’ll receive a thorough theoretical and practical grounding in commercial law and develop the advanced skills needed to work in this diverse field. You can choose from an extensive range of commercial law units, including those in corporate law, competition law, banking and finance law, and tax law. This specialisation suits graduates keen to develop or enhance specialist careers in professions and occupations requiring a sound grasp of commercial law issues, including as accountants, company administrators and business managers.

You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

HUMAN RIGHTS
You’ll receive a thorough theoretical and practical grounding in the laws governing international and domestic human rights, and develop the advanced skills needed to work in this diverse field. You can choose from an extensive range of units focusing on human rights law. This specialisation is suitable for those interested in developing or enhancing specialist careers in human rights-related organisations and agencies and other local and international human rights-related organisations.

You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

COMMERCIAL LAW
You’ll receive a thorough theoretical and practical grounding in commercial law and develop the advanced skills needed to work in this diverse field. You can choose from an extensive range of units focusing on commercial law issues, requiring a sound grasp of commercial law issues, including as accountants, company administrators and business managers.

You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

INTERNATIONAL AND COMPARATIVE LAW
You’ll receive a thorough theoretical and practical grounding in international and comparative law. You can choose from an extensive range of units focusing on international and comparative law issues, requiring a sound grasp of international and comparative law issues, including as accountants, company administrators and business managers.

You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

GOVERNMENT LAW AND REGULATORY PRACTICE
You’ll receive a thorough theoretical and practical grounding in government law and regulatory practice, and develop the advanced skills needed to work in government and regulatory bodies. You can choose from an extensive range of units focusing on government law and regulatory practice, requiring a sound grasp of government law and regulatory practice issues, including as accountants, company administrators and business managers.

You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

DEVELOPMENT
You’ll receive a thorough theoretical and practical grounding in development law. You can choose from an extensive range of units focusing on development law issues, requiring a sound grasp of development law issues, including as accountants, company administrators and business managers.

You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

LAW AND INTERNATIONAL DEVELOPMENT
You’ll receive a thorough theoretical and practical grounding in the laws and regulatory frameworks governing the ways in which the international community provides assistance to developing countries to improve their peoples’ quality of life. You’ll also develop the advanced skills needed to work as a professional in this field. It’s ideally suited to those interested in developing or enhancing specialist careers in international development within government, non-government or not-for-profit sectors.

You’ll explore contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

WORKPLACE AND EMPLOYMENT LAW
You’ll be provided with a thorough grounding in workplace and employment law, and develop the skills required to work in workplace and employment relations, including in the public sector, corporate management, trade unions and employer associations. You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

QS World University Rankings by subject 2016.
GRADUATE DIPLOMA IN LAW

RANKED TOP 30 IN THE WORLD

FOR LAW AND NON-LAW GRADUATES

Are you looking for a graduate pathway into the study of law?

The Graduate Diploma in Law is ideal for law and non-law graduates wanting to gain further legal expertise, and adds value in the workplace as well as offering the chance to hone legal knowledge and skills. It enables graduates of law and other disciplines to develop advanced skills for legal or professional practice or higher learning, and is a pathway for entry to a master’s degree. While this course normally comprises eight coursework units, applicants may be eligible to obtain credit for up to four units for recognised work experience or previous learning.

INTAKE

February and July

ENTRANCE REQUIREMENTS

A bachelor’s degree in law (or equivalent); or a bachelor’s degree (or equivalent) in any other discipline, plus sufficient work-based or other learning in a related field that together constitutes the equivalent of a bachelor’s degree in a related discipline.

You’ll be assessed on your entire academic record with a credit average (or equivalent) preferred. As a general rule, those who don’t have a credit average or are relying on relevant work experience to satisfy entry requirements will need to have worked for at least one year, although the required period may be shorter where the work experience has been supplemented by other relevant learning.

2016 FEES p.a.

$29,600

(2016), This is the annual average fee per 48 credit points of study in this course for 2016.

Graduate Diploma in Law

COURSE CODE: L5001

LAWS (JURIS DOCTOR)

RANKED TOP 30 IN THE WORLD

FOR NON-LAW GRADUATES

This master’s degree satisfies the academic requirements for admission to practise as an Australian lawyer.

Our Master of Laws (Juris Doctor) is an intensive, graduate entry law degree designed for non-law graduates.

The course provides advanced and integrated knowledge of the principal areas of legal practice, legal concepts and broader perspectives about the law. It develops advanced professional skills in problem-solving, critical thinking, research, communication, collaboration, self-management, ethical awareness and professional judgment.

The skills and knowledge learned in the course are applied in a later-year professional project, and the lecturers allow flexibility and choice via a wide range of specialist units.

The Laws (Juris Doctor) recognises the specific needs of graduate entrants and teaches the skills available only from one of Australia’s leading law schools. Small class sizes and innovative teaching promote interactivity and in-depth learning.

All classes are taught at the city-based Monash Law Chambers, in the heart of Melbourne’s legal precinct.

INTAKE

January, May or August

ENTRANCE REQUIREMENTS

An Australian undergraduate degree (or equivalent) with at least a grade point average (GPA) of 5.2 on a 7-point scale.

You’ll be assessed on your entire academic record. Those who haven’t completed any formal study in the past eight years will need to submit a personal statement. Those who haven’t completed any formal study in the past eight years will need to submit a current CV and a completed Monash Juris Doctor personal statement.

2016 FEES p.a.

$36,600

(2016), This is the annual average fee per 48 credit points of study in this course for 2016.

LAW AND INTERNATIONAL DEVELOPMENT

RANKED TOP 30 IN THE WORLD

FOR NON-LAW GRADUATES

This expert graduate course gives you a thorough theoretical and practical grounding in the laws and regulatory frameworks governing the ways in which the international community provides assistance to developing countries to improve their peoples’ quality of life.

It develops advanced skills and suits those keen for a career in international development within government, non-government or not-for-profit sectors.

You’ll explore contemporary law issues, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives.

INTAKE

February and July

ENTRANCE REQUIREMENTS

A bachelor’s degree (or equivalent) in a relevant discipline, including development studies, commerce, economics, environmental studies, government, international studies, science, social work or public administration, or another relevant discipline as determined by the faculty.

2016 FEES p.a.

$29,600

(2016), This is the annual average fee per 48 credit points of study in this course for 2016.

DEGREE AWARDED

Master of Law and International Development

COURSE CODE: L8002

“After completing my Juris Doctor, I intend to qualify to practise. I hold a strong interest in alternative dispute resolution and hope to specialise in that area, perhaps within the family law field.”

MICHELE MIHALIOVIC

Law student
Whether you work in industry, the public or community sector, or in formal education, if you’re looking to take the next step in your career, this course is for you.

Your leadership potential will be developed through a blend of formal and informal approaches that promote knowledge and transformation. Interprofessional by nature, the course gives you the chance to learn with and from professionals committed to leading individuals and organisations.

The program focuses on the latest theories of leadership and specialised study. You’ll study two common units – an interprofessional unit called leadership studies, and a leadership challenge project relevant to your specialist interests. In addition, you’ll choose two units from one of five available specialisations.

### SPECIALISATIONS

#### CURRICULUM AND PEDAGOGY

Focusing on curriculum leadership and education transformation, you’ll acquire the skills to lead school and learning communities, to rethink and reform what’s taught and learnt, and the ways in which it’s done, through four streams: digital learning, literacy, mathematics and science.

As a graduate you can pursue leadership roles in educational, business or community settings.

#### GENERAL LEADERSHIP STUDIES

This specialisation offers the opportunity to select your two specialist units from across the other specialisations. You can tailor your studies to suit your own interests or needs while maintaining a strong focus on leadership. Our graduates work in a wide variety of organisations, from museums to the armed services, in schools and within management of large companies.

#### ORGANISATIONAL LEARNING

You’ll develop your skills to support organisational learning and creativity. You’ll learn how to foster and nurture capability through learning and to meet the strategic organisational directions in sustainable ways. You’ll graduate ready to take on leadership roles in educational, business or community settings.

#### PRINCIPAL PREPARATION

If you’ve got your eye on curriculum or principal leadership in schools, this is for you. It’ll extend your personal and professional understanding and skills in school leadership, focusing on your personal growth and directing you towards high-performance practice. Graduates can pursue leadership roles in educational environments.

### FLEXIBLE DELIVERY

A flexible course delivery allows you to continue working while completing the course. You can choose a fully online offering or combine it with attendance at face-to-face workshops if you’re able and interested.
Monash is the only Victorian university to offer both direct-from-school entry and graduate entry to the same medical degree.

You'll see the discoveries of our renowned researchers put into clinical practice and benefit from our links with the largest health care provider network in Australia, which includes the Monash Medical Centre and The Alfred (Melbourne’s major casualty hospital), Eastern Health, and Victorian health services in rural, regional and outer metropolitan Melbourne.

The course is designed as an integrated curriculum, with units taught in an interdisciplinary fashion by staff from across the faculty and in a wide range of learning environments at both on-campus and at clinical sites.

**ENTRY REQUIREMENTS**

The graduate entry program is open only to those who have completed a Monash University degree in biomedical science (including those undertaking double degrees), pharmacy, physiotherapy or science (with the completion of specific units). To be eligible to be considered via the pathway, applicants must have a minimum average mark (WAM) of 70 in their core year 1 and 2 biomedical science units. If successful, applicants must complete their biomedical science degree prior to commencing the graduate entry program. See the website for details.

Shortlisted applicants are required to attend a multiple mini interview (MMI) and complete a situational judgement test (SJ/T) to be considered for an offer.

**SPECIAL REQUIREMENTS**

You must:
- satisfy the immunisation requirements specified by the faculty.
- complete a National Police Records Check each year before undertaking clinical placements
- complete a level 2 first aid course prior to commencing clinical placements
- hold a valid Working with Children Check.

**INTAKE**

February

---

**MEDICAL ULTRASOUND**

If you want to pursue a career as an accredited sonographer, this is for you.

After completing the first two units of the course, you’ll take part in supervised clinical ultrasound training practice for a minimum of three days a week, or equivalent. (Please note that the University does not accept any responsibility for finding clinical placements.)

You can see the course after 48 credit points (a minimum two years of study) with a Graduate Diploma in Ultrasound, which meets the qualification requirement for accreditation as a sonographer.

The final year of the course focuses on developing your research skills through an ultrasound research project. This course is fully supported by nationally recognised academics, sonographers and researchers.

**INTAKE**

February and July

**ENTRY REQUIREMENTS**

An Australian undergraduate degree in radiography and medical imaging (or equivalent) with at least credit (60 per cent) average, or qualification/experience in a related discipline such as medicine, nursing, biomedical sciences, radiation therapy, nuclear medicine or other health sciences substitute that the faculty considers to be equivalent.

**ADDITIONAL**

You’ll generally need to be a graduate of a degree program in radiography and medical imaging or equivalent. Those holding degrees in related disciplines such as medicine, nursing, biomedical sciences, radiation therapy, nuclear medicine or other health sciences will be assessed by the admissions teams on a case-by-case basis.

---

**NETWORKS AND SECURITY**

A Master of Networks and Security degree readies you for a career in network administration, network management, or as a systems analyst, systems designer, data communications specialist, or network security engineer, administrator or cybersecurity specialist.

You’ll take advanced studies in networks and security, including network structures, network protocols, information security, software security, network security, quality of service and network design.

As a network and security professional, your skills will always be in high demand.

In your final semesters you can choose to complete an industry experience project or research thesis. Additionally, you can also apply for a scholarship place over summer in the highly-regarded Monash Industry Team Initiative (MITI).

**INTAKE**

February and July

**ENTRY REQUIREMENTS**

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

- Bachelor’s degree in any field
- Bachelor’s degree in a related field: IT
- Bachelor’s degree in any field + relevant experience

**Duration**

1.5 years

---

**MEDICINE**

With surgical patients getting older and sicker, many clinicians are challenged by their growing complexity, particularly their perioperative management.

Pre-admission clinics are responding, and perioperative medicine is an emerging field. In this course you’ll address deficiencies in this area. It’s designed to meet the needs of registered medical and health practitioners by enabling them to work effectively in the ever-changing medical environment.

The course is conducted by Department of Anaesthesia and Perioperative Medicine, and Department of Epidemiology and Preventive Medicine, in conjunction with the Alfred Hospital’s Department of Anaesthesia and Perioperative Medicine.

**INTAKE**

February

**ENTRY REQUIREMENTS**

MBBS or an equivalent basic medical degree recognised by the Medical Board of Australia.

**DEGREE AWARDED**

Master of Medicine

The Master of Advanced Nursing, offered by the School of Nursing and Midwifery, prepares you for leadership roles in clinical nursing, management and education.

Clinical specialisations include emergency nursing, intensive care nursing, mental health nursing and nurse practitioner. Clinical specialities require that you have concurrent employment as a registered nurse in the area. The course enables you to develop advanced practice knowledge and leadership in specialist practice, including skills to plan, implement, co-ordinate and evaluate health care, as well as the ability to formulate policy for a diverse and multicultural society.

Specialisations include:
- emergency nursing
- general studies in advanced nursing
- intensive care nursing
- mental health nursing
- nursing education
- nursing leadership and management
- nurse practitioner*.

* This specialisation is only available for part-time study.

You can also exit the course early, if you meet the requirements, with a Graduate Certificate in Advanced Nursing or a Graduate Diploma in Advanced Nursing.

As a graduate you can work in a wide range of general and specialist clinical, educational and health care environments in senior positions, and contribute to the health of individuals, families and communities.

**ELIGIBILITY**

- Bachelor’s degree in Nursing (in equivalent Australian qualification terms)
- Bachelor’s degree in Nursing (in equivalent Australian qualification terms)
- Bachelor’s degree in Nursing (in equivalent Australian qualification terms)
- Bachelor’s degree in Nursing (in equivalent Australian qualification terms)
- Bachelor’s degree in Nursing (in equivalent Australian qualification terms)
- Bachelor’s degree in Nursing (in equivalent Australian qualification terms)
- Bachelor’s degree in Nursing (in equivalent Australian qualification terms)

**DURATION**

1.5 years

**ENTRY REQUIREMENTS**

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the duration longer.

**ADDITIONAL**

- letter of support from employer (where applicable).
- certified evidence of current nursing registration
- certified copy of transcript of results/previous education achievements
- letter of support from employer (where applicable).

**SPECIALISATIONS**

**EMERGENCY NURSING**

You'll be equipped with leadership skills in emergency nursing management to plan, implement and co-ordinate and evaluate health care, as well as formulate policy for a diverse, multicultural society. The program has flexible teaching delivery options and offers a range of individual career pathways, including nursing, education or management positions within industry, government or independent professional practice. The specialisation can be taken by coursework, or a combination of coursework and research.

**GENERAL STUDIES IN ADVANCED NURSING**

This enables you to tailor your unit choices to suit your own interests or needs while maintaining a strong focus on leadership. You will liaise with your course coordinator to choose the units that will best suit your needs.

**INTENSIVE CARE NURSING**

This gives you the leadership skills in intensive care nursing management to plan, implement and co-ordinate and evaluate health care, as well as formulate policy for a diverse, multicultural society. With flexible teaching delivery options, it offers a range of individual career pathways, including nursing, education or management positions within industry, government or independent professional practice. The specialisation can be taken by coursework, or a combination of coursework and research.

**MENTAL HEALTH NURSING**

You'll gain the leadership skills in mental health nursing to plan, implement and co-ordinate and evaluate health care, as well as formulate policy for a diverse, multicultural society. With flexible teaching delivery options, it offers a range of individual career pathways, including nursing, education or management positions within industry, government or independent professional practice. The specialisation can be taken by coursework, or a combination of coursework and research.
If you have a first degree other than occupational therapy, but in a related field, this two-year, accelerated learning program allows you to gain a professional entry-level qualification to practise as an occupational therapist.

It requires full-time enrolment over two years from July to May (mid-year intake), and operates over 72 weeks. This includes 1000 hours of fieldwork education to meet the World Federation of Occupational Therapists’ minimum standards for the education of occupational therapists.

The course is an integrated curriculum focused on scenario-based learning. The two years of the SBL curriculum are organised into the following units: foundations of occupational therapy, human as occupational beings, occupational performance, enabling change in human occupation, transition to practice, and advanced professional practice. You’ll also complete an extensive practice-based project.

**INTAKE**

July*

* This course runs on a term, rather than semester, basis and commences in early July before the official start of Monash’s second semester later in the month.

**ENTRY REQUIREMENTS**

You must have successfully completed a bachelor’s degree in health, education, social, physical or biological sciences (or subsequent graduate study and/or relevant work experience). You need to have obtained a grade point average of at least 65 per cent credit average in your most recently completed university undergraduate degree.

If you don’t have a background in health, education, biomedical, sociological and/or psychological studies, you need to complete a human biology short course, which has been assessed as equivalent to this requirement.

**ADDITIONAL**

Your application should include:

- a CV showing relevant industry experience
- academic transcript(s) of relevant degrees
- a brief statement of purpose outlining reasons for undertaking the course and your area(s) of interest
- contact details of two referees.

Please provide any other information you deem relevant to your application.

You’ll also be required to undergo police and Working With Children checks, and provide proof of relevant vaccinations before being able to carry out fieldwork placements.

All students must be available for an interview, either in mid-December or March. Offers will be made in January and March/April. Successful international applicants must be available for a Skype interview.

The Master of Nursing Practice provides a professional nursing qualification for individuals who have gained an Australian bachelor’s degree (or equivalent) from a recognised university. This intensive program gives graduates with non-nursing degrees the opportunity to switch careers and reap the rewards of becoming a highly skilled health professional.

You will need to provide evidence of previous tertiary-level study of a minimum of one six-credit-point unit in human biology (or a related area) from any recognised tertiary institution or the Monash human biology short course, which has been assessed as equivalent to this requirement.

**ADDITIONAL**

A statement of purpose (250 words) outlining reasons for undertaking the course and why you would like to become a nurse. You’ll also be required to undergo police and Working With Children checks, and provide proof of relevant vaccinations before being able to carry out fieldwork placements.

---

**NURSING PRACTICE**

**RANKED TOP 20 IN THE WORLD**

The Master of Nursing Practice provides a professional nursing qualification for individuals who have gained an Australian bachelor’s degree (or equivalent) from a recognised university. This intensive program gives graduates with non-nursing degrees the opportunity to switch careers and reap the rewards of becoming a highly skilled health professional.

PARAMEDIC PRACTICE, SPECIALIST

This qualification replaces the Master of Emergency Health. The Master of Specialist Paramedic Practice (which includes a nested graduate certificate for the aeroomedical and retrieval specialisation, as well as a graduate diploma for the intensive care and extended care specialisations) supports existing and experienced paramedics in improving their current knowledge, skills and clinical practice in order to prepare them for specialist clinical positions, as well as for leadership, education and research roles.

You’ll be provided with advanced education and training in pre-hospital care in an intensive care, extended care or aeroomedical and retrieval specialisation. You’ll extend your clinical practice by initially undertaking specialist paramedic-focused training in advanced clinical leadership and decision-making, as well as advanced techniques, in order to provide the highest level of care in your chosen specialisation. You’ll also explore clinical practice within an integrated emergency medical system, and consider the issues and trends that influence scope of practice and service delivery. You’ll also study clinical research methodology and may choose to complete a research project or other specialist elective coursework units to enhance your clinical skills.

Completion of the research stream provides a pathway into higher degrees by research (subject to meeting separate HDR entry requirements.) You may also apply to exit the master’s course with one of the nested awards, provided you meet the criteria.

INTAKE
March, July, November

ENTRY REQUIREMENTS
You need to have a three-year Australian undergraduate degree (or equivalent) with at least a credit average in emergency health or equivalent undergraduate studies leading to practice as a health professional, or qualification/experience or satisfactory substitute that the faculty considers to be equivalent.

You’ll also be required to have an independent authority to practise as an advanced life support paramedic (or equivalent).

SPECIALISATIONS
AEROMEDICAL AND RETRIEVAL

In this specialisation, paramedics gain the necessary education and training for the aeroomedical and retrieval role, as well as leadership, education and research positions. You’ll start by undertaking specialist aeroomedical and retrieval education and training, as well as education in advanced integrated health care practice, before completing specialty elective study. The aeroomedical and retrieval stream will equip you to successfully complete an aeroomedical and retrieval internship program with your retrieval service provider in order provide the specialist aeroomedical, retrieval, rescue and co-ordination roles in your area of clinical practice.

EXTENDED CARE

Designed to give paramedics the necessary skills for the specialist extended care paramedic role, as well as leadership, education and research positions. You’ll initially undertake specialist extended care paramedic education and training, as well as education in advanced integrated health care practice, before going on to complete specialty elective study. The extended care stream will give you the skills to complete an extended care internship program and provide an extended range of out-of-hospital assessment, retrieval, prescription and management services in the community.

INTENSIVE CARE

This course provides paramedics with the necessary education and training for the specialist intensive care paramedic role, as well as leadership, education and research positions. You’ll initially undertake specialist intensive care paramedic education and training, as well as education in advanced integrated health care practice, before going on to complete specialty elective study. The intensive care stream will give you the skills to complete an intensive care internship and provide the highest level of paramedic care for cardiac, respiratory, medical, trauma, paediatric, obstetric and environmental emergencies.

GRADUATE CERTIFICATE IN PHARMACY PRACTICE

The Graduate Certificate in Pharmacy Practice is for pharmacists wanting to explore specific areas of pharmacy practice and further develop their skills. This course provides an excellent opportunity for ongoing professional development.

You can further your studies in specific areas of practice by taking elective units covering pharmacy practice, clinical pharmacy, economics, and wound care relevant to pharmacy.

INTAKE
February and July

ENTRY REQUIREMENTS
An Australian Bachelor of Pharmacy (Australian Qualifications Framework level 7 qualification) or equivalent; registered as a pharmacist.

GRADUATE CERTIFICATE IN PHARMACY PRACTICE (INTERNSHIP)

The Graduate Certificate in Pharmacy Practice (Internship) course allows pharmacy graduates to complete an internship program accredited by the Australian Pharmacy Council, and work towards gaining registration as an independent and competent professional.

With a very practical focus, you’ll build on the skills gained as an undergraduate and apply them to your practice as a pharmacist. As well as the internship program component, you can carry out further study in specific areas of practice by undertaking the intern foundation program, or electives drawn from the faculty’s clinical pharmacy, economics or wound care units.

INTAKE
January and June

ENTRY REQUIREMENTS
An Australian Bachelor of Pharmacy (Australian Qualifications Framework level 7 qualification); or New Zealand Bachelor of Pharmacy; or successful completion of APC (Australian Pharmacy Council) requirements if the applicant is an overseas practitioner from a country other than New Zealand.
This one-year course is designed to meet the requirements of the Australian Psychology Accreditation Council (APAC) and the Australian Health Practitioner Regulation Agency (AHPRA) for a graduate fifth year in psychology.

It prepares selected psychology graduates in advanced psychotherapeutic skills required for general registration as a psychologist. It develops your professional capability to apply the theoretical, research, assessment and therapeutic skills involved in psychology. Following graduation, you’ll be able to undertake a year of supervised generalist practice, then progress to full registration as a psychologist.

You’ll develop expertise in applying counselling theories and practices through your understanding of evidence-based psychotherapies. You’ll learn core skills and theoretical concepts of the therapeutic process, and extend your practical knowledge in counselling interventions as you develop therapeutic relationships with a range of client groups. You’ll acquire the skills to administer, score, interpret and report on a range of psychological tests and assessments.

You’ll engage with the Australian Psychological Society (APS) code of ethics and explore ethical dilemmas to support your practice in undertaking research, educational or professional roles in different workplaces.

You’ll gain professional experience through 300 hours of supervised activities in the faculty’s onsite clinic and off-campus clinical placements. Upon course completion you’ll have the skills to undertake a final year of supervised practice in the field for general registration under the ‘5+1 internship model’ for registration. You arrange a Psychology Board of Australia-approved one-year internship in a setting of your choice.

**INTAKE**
February

**ENTRY REQUIREMENTS**
Successful completion of an Australian Psychology Accreditation Council (APAC)-accredited fourth year of study in psychology with a high credit average completed within the past 10 years. In addition, you must provide evidence of suitability for work as a professional psychologist determined by two satisfactory referee reports (one academic and one professional). If shortlisted, you’ll be required to attend an interview. Those with international qualifications will need to have their qualifications assessed by the Australian Psychological Society (APS).

All applicants must also meet the English language requirements of the Psychology Board of Australia (PBA). Consult the PBA website to ensure you meet these requirements: www.psychologyboard.gov.au

**PROFESSIONAL RECOGNITION**
Our psychology courses are accredited by the Australian Psychology Accreditation Council (APAC). Professional accreditation ensures those graduating from the courses hold degrees recognised by employers, and adhere to state and national accreditation standards.

**PROFESSIONAL PSYCHOLOGY**

**GRADUATE DIPLOMA OF PROFESSIONAL PSYCHOLOGY**

This course, an Australian Psychology Accreditation Council-accredited fourth-year qualification, is suited to those who have completed a bachelor’s degree with a major in psychology from any course accredited by APAC, and who want to pursue advanced graduate study in psychology at master’s or doctoral level, or alternatively to undertake supervised psychological practice.

You’re offered advanced study of psychology, research training, and an introduction to psychological practice. By engaging with contemporary research and literature in developmental psychology, you’ll:
- understand human development across the lifetime, including biological, perceptual, cognitive, personality, social and emotional changes from infancy to adulthood.
- examine legislation relating to the practice of psychology, and how to comply with it.
- appreciate the role of ethics in maintaining the integrity of the profession.
- learn about individual differences and how these may be assessed using different tools.
- undertake an independent research project and develop an appreciation of the role of scientific research in the field of psychology.

You’ll be able to choose one elective. Topics include developmental psychology and wellbeing, or behaviour change interventions for practitioners. After graduating you can undertake further training and study needed for professional registration in psychology.

**INTAKE**
February and July

**ENTRY REQUIREMENTS**
An Australian bachelor’s degree with a major in psychology from any course accredited by the Australian Psychology Accreditation Council (APAC) with a distinction average in third-year psychology. These qualifications must have been completed within the past 10 years.

Those with international qualifications will need to have their qualifications assessed by the Australian Psychological Society (APS). See www.psychology.org.au

**PROFESSIONAL RECOGNITION**
Our psychology courses are accredited by the Australian Psychology Accreditation Council (APAC). Professional accreditation ensures those graduating from the courses hold degrees recognised by employers, and adhere to state and national accreditation standards.

**UNDEARTAKE AN INDEPENDENT RESEARCH PROJECT AND DEVELOP AN APPRECIATION OF THE ROLE OF SCIENTIFIC RESEARCH IN THE FIELD OF PSYCHOLOGY.**
You’ll increase your understanding of theoretical and methodological aspects of research, develop your analytic, research and communication skills, and gain advanced knowledge in specific areas of the science and practice of psychology.

You’ll complete learning activities to expand your knowledge of statistics and the ethics of research, develop your analytic, research and communication skills, and gain advanced knowledge in specific areas of the science and practice of psychology. The research project is the basis of a literature review and research paper you’ll present at the end of the course.

ENTRY REQUIREMENTS
You’ll need to have completed an Australian undergraduate degree (or equivalent qualification) in any discipline.

INTAKE
January, March, May, July, August, October

DEGREE AWARDED
Graduate Diploma in Psychology Advanced

COURSE CODE: M5003

PUBLIC HEALTH

You’ll be equipped with the full range of quantitative, analytical and communication skills to work in public health.

You’ll also learn the quantitative methods of the population-based health sciences and their problem-solving application for primary care provision in Australia and developing countries.

ENTRY REQUIREMENTS
An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) in an appropriate discipline with a pass average, and a minimum of two years’ industry experience or one year of clinical experience.

ADDITIONAL
• CV, work reference letters and a 250-word statement of purpose outlining your area of interest and the reason why you would like to complete the course.

INTAKE
January, March, May, July, August, October (online study only)

DEGREE AWARDED
Master of Public Health

COURSE CODE: 4520
PUBLIC POLICY AND MANAGEMENT

Explore the dynamics between governments and emerging issues that affect all levels of government.

Our Master of Public Policy and Management gives you an in-depth understanding of management challenges in government, and equips you to respond to public policy issues. It'll also provide the skills to drive improved performance in the public sector.

You can align your learning with your career aspirations and develop expertise in leadership, strategic management, public service operations and governance. It’s a course suited to experienced professionals working, or aiming to work, in senior roles in the public sector, or those requiring an understanding of the sector.

INTAKE

February and July. This program is only offered part-time for July intake.

ENTRY REQUIREMENTS

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

Eligibility

• Bachelor’s degree in any field + 2 years relevant experience

Duration (months)

Bachelor’s degree in any field + relevant Graduate Certificate + 2 years relevant experience: 12
Bachelor’s degree in any field + 2 years relevant experience: 15
Bachelor’s degree in any field + 3 years relevant experience: 18

Additional

You must:
• satisfy the immunisation requirements specified by the faculty
• complete a National Police Records Check each year
• hold a valid Working with Children Check
• complete a level 2 first aid course.

GRADUATE DIPLOMA IN REPRODUCTIVE SCIENCES

You’ll gain broad knowledge and receive practical training in the applications of reproductive biology to human clinical and veterinary medicine, and explore the social and ethical issues these raise.

On completion of the course, you’ll be able to show a thorough theoretical understanding of human and animal reproductive sciences, and demonstrate practical techniques in human medical and veterinary reproductive sciences.

If you pass all units for this course and achieve an overall grade average of distinction (70 per cent) or above, you may qualify for admission into higher degrees by research.

INTAKE

February

ENTRY REQUIREMENTS

You'll need to have successfully completed a bachelor’s degree in nursing or biological, medical, agricultural or veterinary sciences, or equivalent qualifications or experience in the reproductive sciences gained after completing a pass degree in another field (BSc should include a major field of study in anatomy, biology, biochemistry, genetics, pharmacology, physiology, microbiology, immunology or zoology).

ADDITIONAL

You must:
• satisfy the immunisation requirements specified by the faculty’s prerequisite studies
• complete a National Police Records Check each year before undertaking clinical placements
• hold a valid Working with Children Check.

RADIATION THERAPY

If you have a first degree in science or a related health discipline, this two-year, accelerated learning program allows you to gain a professional entry-level qualification at graduate level.

After completing the program, you’ll be able to apply for general registration as a radiation therapist from the Medical Radiation Practice Board of Australia. You’ll have job opportunities in both the public and private health sectors, in metropolitan and regional Australia. It’s the only distance-learning graduate-entry radiation therapy program offered in Australia, and if you’re an interstate student, you may be able to study in your home state.

INTAKE

July

ENTRY REQUIREMENTS

An Australian undergraduate degree (or equivalent) in science or health science, including study of human anatomy and physiology at least credit (60 per cent) average, or qualification/experience or satisfactory substitute that the faculty considers to be equivalent.

You must also provide evidence of passing year 12 physics or completion of physics at a higher level. Those who do not meet the physics and/or anatomy requirements are eligible to apply but must complete relevant bridging programs at Monash University to be considered for an offer.

You will also be required to undertake a further assessment task, a situational judgement test, at Monash's Clayton campus.

ADDITIONAL

You must:
• satisfy the immunisation requirements specified by the faculty
• complete a National Police Records Check each year
• hold a valid Working with Children Check
• complete a level 2 first aid course.

SOCIAL WORK

This course prepares you for a career as a professionally qualified social worker.

It includes studies in theory, skills development and supervised professional practice, and opportunities for group-based learning, community engagement, practice research and integration of social work theory and practice. The theoretical content builds on knowledge graduates have acquired in previous higher education, while the social work skills components and professional practice introduce you to contemporary social work practice.

The course is accredited by the Australian Association of Social Workers (AASW), and includes 1000 hours of supervised professional practice.

INTAKE

February

ENTRY REQUIREMENTS

Before being admitted to the Master of Social Work course, you need to have an undergraduate degree from a recognised university, including two full semester units in the study of society (as required by the Australian Association of Social Workers). Units fulfilling the prerequisite studies of society are broadly assessed and include sociology, social science, social psychology, human development, anthropology, philosophy, history, gender, law, politics, media, the arts, technology and multicultural society. Your past academic standing is also a significant factor in selection. Your potential selection is based on academic merit and the completion of two broad studies of society.

ADDITIONAL

You must:
• satisfy the immunisation requirements specified by the faculty’s prerequisite studies
• complete a National Police Records Check each year before undertaking clinical placements
• hold a valid Working with Children Check.

# Commonwealth Supported Places are available to eligible applicants.
Do you have an undergraduate degree in any discipline, and want a career as a global educator and teacher?

Our curriculum combines theory and professional experience, giving you the skills and professional values to become an effective educator. You can choose to specialise in early years, primary or secondary education — or a combination of these. Through engagement with the latest thinking and practices, you’ll be able to effectively foster the learning of students of various ages and needs. You’ll design learning experiences to ensure your future students progress in areas such as the arts and music, English, mathematics, physical education, health and wellbeing, science and humanities. You’ll engage with education priorities and policies, and learn how to apply these in practice to develop professional values that position you as a research-informed future education leader.

You’ll gain professional experience by completing a minimum of 60 days of teaching practice throughout the course in urban, rural, remote or international settings and schools. This includes locations such as China, Cook Islands, Hong Kong, India, Italy, Malaysia, South Africa and United Arab Emirates.

An education degree is an excellent basis for diverse careers in the classroom, government or private enterprise. As a Master of Teaching graduate, you’ll be ready to transform the lives of others through learning.

**INTAKE**

February

**ENTRY REQUIREMENTS**

An Australian bachelor’s degree (or equivalent qualification from a recognised tertiary institution) with a pass (50 per cent) average. Admission into the course is competitive and may require a higher overall average than the minimum requirement.

If you’re applying for the specialisation in secondary education, you must also have appropriate discipline studies to qualify for two specialist teaching areas or one double teaching specialist area.

If you’re applying for the specialisation in primary and secondary education, you need to have appropriate discipline studies to qualify for one specialist teaching area.

To view the secondary teaching specialisations available at Monash, visit: monash.edu/education

**PROFESSIONAL RECOGNITION**

The course specialisations that include primary or secondary education are accredited with the Victorian Institute of Teaching (VIT). Graduates can register with VIT and qualify for work as a teacher in Australian schools. If you’re planning to register as a teacher interstate or overseas, you should check registration requirements with local authorities in case there are additional requirements. The specialisations that include early years education are accredited with the Australian Children’s Education and Care Quality Authority (ACECQA). If you intend to teach in a preschool or kindergarten program, you’ll need to register with the Victorian Institute of Teaching.

**SPECIALISATIONS**

### PRIMARY EDUCATION

**Primary Education**

Peninsula, off-campus

You’ll be qualified to teach children aged five to 12 years in primary schools. You’ll gain practical professional experience through 60 days of supervised teaching placements in primary schools, and emerge ready to become an effective and proactive leader and educator in primary education settings.

**SECONDARY EDUCATION**

Clayton campus

(Also available in accelerated mode)*

This qualifies you to teach adolescents aged 12 to 18 years in secondary schools in two specialist teaching areas (or one double specialist teaching area), and gain professional experience through 60 days of supervised teaching practice in secondary environments. As a graduate of this specialisation you’ll be set for a future as an innovative specialist teacher in secondary school settings.

- This can be studied as an accelerated course where you’ll be required to undertake more than the standard annual load of 48 credit points in year 1. In order to complete this course in 1.5 calendar years. The fee quoted is based on 48 credit points of study for one standard year. Therefore you will be required to pay a higher fee in year 1 where more than the 48 credit points is required.

- **CSP#: $6256**

- **2016 FEES p.a.**

- **Full fee: $20,200**

- **Accelerated fee: $13,800**

- **COURSE CODE: D6001**

* QS World University Rankings by subject 2016.

† Not all specialisations are offered at all campuses.

‡ Commonwealth Supported Places are available to eligible applicants.

---

**CHLOE WOODMAN**

Education student

“I want to help shape future generations and instil a love of learning that continues well after schooling has finished.”

---

* 52 World University Rankings by subject 2016.

* Not all specialisations are offered at all campuses.

* Commonwealth Supported Places are available to eligible applicants.
This suits a range of professionals, educators or prospective educators working in English language teaching locally or internationally, and leads to a graduate qualification in TESOL (Teaching English to Speakers of Other Languages).

You’ll develop expertise in the core principles of language teaching and learning, with an optional field observation program that allows you to observe Australian English and foreign language teaching practices and school structures.

You’ll also micro-teach in a supportive environment with focused feedback to develop reflective skills and formative self-assessment – the keys to quality teaching.

You’ll look at the latest theories and practices for language acquisition, and gain an advanced understanding of the skills associated with:

- the role of social and cultural contexts in language learning
- a range of communicative approaches to teaching, learning and assessment and planning for teaching in various TESOL contexts
- the evaluation, analysis and design of assessment tasks
- the development and maintenance of bilingualism and biculturality in formal learning environments
- English language education in local and global contexts
- transcultural and intercultural learning, communication and mobility, including in online learning settings
- the use of digital technologies to support learning.

As a graduate you’ll be a skilled language teacher who can operate with confidence in a changing and internationally recognised world.

NOTE: This course doesn’t provide a recognised initial teaching qualification. Students seeking an initial teaching qualification should refer to the Master of Teaching course.

TOURISM
Global demand is rising for highly-skilled professionals in international tourism and related industries. Our Master of Tourism course, Australia’s longest-running and most industry-focused graduate tourism program, prepares you for a career in tourism management, planning, policy and sustainable development.

You’ll develop specialised skills in all aspects of the international tourism industry, including key sectors such as tourism marketing and destination management.

You’ll gain a global perspective on all forms of tourism, and take part in industry-based workshops or an internship, as well as field trips to local and international destinations.

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields include, humanities, social sciences, business or marketing.
4. For example, by a relevant graduate certificate or work experience.

FLEXIBLE DELIVERY
A flexible course delivery allows you to continue working while completing the course. You can choose a fully online offering or combine it with attendance at face-to-face workshops if you’re able and interested.
**GRADUATE CERTIFICATE IN TRANSLATIONAL RESEARCH**

In this course you’ll gain an understanding of the processes involved in developing a basic science finding through to clinical trials.

The course modules give you the basic foundations of discipline-specific laboratory research questions and how these can be applied to broader clinical applications. Your main focus is to form an appreciation that fundamental scientific questions may have multidisciplinary clinical answers.

**INTAKE**
February and July

**ENTRY REQUIREMENTS**
You must have completed a bachelor’s degree in a health science/basic science discipline, or another degree with industry experience in research and development (for example, CSIRO, CSL, the biopharmaceutical industry or in clinical trials) that the faculty considers to be equivalent or a satisfactory substitute.

**DURATION**
6 months

**DEGREE AWARDED**
Graduate Certificate in Translational Research

**COURSE CODE:** M4002

---

**TRANSPORT**

Traffic congestion, safety, environmental impacts and the efficiency of transport operations are global concerns.

With transport systems under pressure to deliver better economic, social and environmental results for the community, there’s a growing demand for professionals prepared to tackle these challenges.

The Master of Transport course responds to the need for engineers with transport expertise, including its technological, economic and social effects. It also outlines state-of-the-art transport engineering, and its use in solving problems in the planning, design, management and operation of transport and traffic facilities.

This course is not available to international students who are holders of an Australian student visa, for study onshore in Australia. However, holders of some other categories of Australian visas living in Australia, and students studying off-campus by distance learning where this option is available and living outside of Australia, may be eligible for this course.

**INTAKE**
February and July

**ENTRY REQUIREMENTS**
Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

1. **ELIGIBILITY**
   - Bachelor’s degree in a related field: OR
   - Bachelor’s degree in any field + relevant expertise

2. **DURATION**
   - 1.5

3. **OR**
   - Bachelor’s degree in a related field: OR
   - Bachelor’s degree in any field + relevant expertise

4. **ADDITIONAL**
   - In addition to providing certified academic transcripts and certified proof of meeting the English language requirements, you must provide your CV, a comprehensive and current employment history, and details of residency.

---

**WORKPLACE AND EMPLOYMENT LAW**

This expert graduate course gives you a thorough theoretical and practical grounding in workplace and employment law, and develops the advanced skills you’ll need to work in workplace and employment relations, including in the public sector, corporate management, trade unions and employer associations.

You’ll gain an understanding of the Australian legal system and will explore contemporary law issues, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives.

**FOR NON-LAW GRADUATES**

**INTAKE**
February and July

**ENTRY REQUIREMENTS**
A bachelor’s honours degree (or equivalent) in a relevant discipline, including human resource management, industrial relations or another relevant discipline, as determined by the faculty, with a minimum credit average.

1. **OR**
   - A bachelor’s degree (or equivalent), plus either a graduate diploma (or equivalent) in law or a related discipline, including human resource management, industrial relations or another relevant discipline, or a graduate certificate (or equivalent) in law or a related discipline, including human resource management, industrial relations or another relevant discipline, as determined by the faculty.

**DURATION**
1 year

**DEGREE AWARDED**
Master of Workplace and Employment Law

**COURSE CODE:** 3272

---

**FOR LAW GRADUATES**

**INTAKE**
February and July

**ENTRY REQUIREMENTS**
A bachelor’s honours degree (or equivalent) in law or a related discipline, plus sufficient relevant work-based experience or professional learning to provide the equivalent of a bachelor’s honours degree in one of those disciplines, as determined by the faculty.

You’ll be assessed on your entire academic record, with a credit average (or equivalent) preferred. As a general rule, those who don’t have a credit average or are relying on relevant work experience to satisfy entry requirements will need to have worked for at least two years, although the required period may be shorter where the work experience has been supplemented by other relevant learning.

The Monash Doctoral Program is a PhD with a difference.

**EXPERT GUIDANCE**
You’ll have at least two supervisors who are active researchers and will mentor you throughout your PhD.

**SCHOLARSHIPS**
As a Monash graduate researcher you’ll have access to a wide range of scholarships and grants. Your studies may also be supported through opportunities such as industry internships and co-supervision with partner organisations.

**SKILLS FOR THE 21ST CENTURY**
You’re provided with a variety of coursework or professional development opportunities that enhance your research and prepare you for life after your degree – everything from communication, project management and research commercialisation through to specialist units about teaching in higher education. No matter where you see yourself heading, our advanced training will give you every chance to ensure your PhD results in more than a thesis.

**LEADING FACILITIES**
As a graduate researcher you have access to advanced research platforms, from the latest 3D printing facilities to immersive data visualisation centres such as the CAVE²™.

**NETWORKS TO EXTEND YOUR THINKING AND OPPORTUNITIES**
Through our international campuses, alliances and partnerships, we’re a global university. The Monash Doctoral Program is an opportunity to utilise these networks and form your own.

**DURATION**
Your research project should be scoped as achievable within three years of equivalent full-time study, and you will be expected to complete your degree within these to four years. Not all research areas allow for part-time study.

**COST**
Fees apply and vary according to research area. Fees for Australian citizens, New Zealand citizens or Australian permanent residents are generally covered by the government-funded Research Training Scheme (RTS); conditions apply. Fees for international students may be covered by scholarships.

**INTAKE**
Applications are generally accepted throughout the year, but commencement dates depend on coursework and other requirements.

**LOCATION**
Varies according to research area.

---

**PREREQUISITES**

**English language proficiency**
If English isn’t your first language, you’ll need to demonstrate your proficiency. There are many ways in which you can meet this requirement, and some faculties have higher requirements than others.

IELTS requirements are listed below:

- **Minimum Requirement**
  - An overall band score of not less than 6.0 on the IELTS test (Academic)
  - At least 6.0 is required for each band score

- **Faculty of Arts and Law**
  - An overall IELTS score of 7.0 is required (7.0 on writing module)
  - At least 6.0 is required in all other bands

- **Faculty of Business and Economics and the Department of Epidemiology and Preventive Medicine**
  - An overall IELTS score of 7.0
  - At least 6.0 is required for each band score

Demonstrated capacity to carry out independent research and adequate training and ability to pursue the proposed course of study, as demonstrated by:

- a bachelor’s degree requiring at least four years of full-time study in a relevant field, and which normally includes a research component in the fourth year, leading to an honours degree at first or upper second class level (H1 or H2A) in a relevant field;
- a course leading to a level rated by the relevant department, faculty and committee as equivalent to an honours at first or upper second class level (H1 or H2A) in a relevant field;
- a master’s degree that entails work, normally including a significant research component, at least equivalent to an honours degree in a relevant field (a “significant research component” in a master’s degree will vary from discipline to discipline), it is normally expected that a grade of honours at upper second class level (2A) has been obtained for the research thesis or project. Where ungraded, examiners’ reports will be taken into account; or
- have qualifications which in the opinion of the Graduate Research Committee are deemed equivalent.

Note that some areas of PhD study, such as translation studies, fine art, music performance and journalism, have additional requirements.

For more details about admission criteria, check our Doctoral Handbook: monash.edu/graduate-research/faqs-and-resources/content/chapter-two
PHD ACCIDENT RESEARCH CENTRE (MUARC)

The Monash University Accident Research Centre (MUARC) is one of the leading multi-disciplinary injury prevention research centres in the world.

A PhD in Accident Research requires you to complete a research thesis (or alternative approved output) of no more than 80,000 words. Your research project should be developed as clearly achievable within three years' equivalent-full-time study, and you will be expected to complete your degree within four years of equivalent full-time study.

**INTAKE**
Throughout the year

**ENTRY REQUIREMENTS**

Candidates will be supported by a minimum of two supervisors throughout their candidature. Candidates will be required to conduct a program of research, submit a thesis for assessment and complete research training activities.

Enrolment in a Master of Philosophy involves the independent investigation of a research problem that has been formulated by the candidate in consultation with supervisors.

The Monash University Accident Research Centre (MUARC) has internationally acknowledged research strengths across every step of the injury prevention cycle, with particular disciplinary expertise being present in: safety science, social and behavioural sciences, epidemiology, statistical analysis, data systems, human factors, engineering, crash investigation, program evaluation, and disaster resilience. Current areas of research offered by MUARC include:

- child injury prevention;
- emergency management and disaster resilience;
- falls prevention;
- injury epidemiology;
- injury outcomes;
- injury prevention in lower and middle income countries;
- road/transport safety; and
- workplace safety.

Candidates will be supported by a minimum of two supervisors throughout their candidature. Candidates will be required to conduct a program of research, submit a thesis for assessment and complete research training activities.

**INTAKE**
Throughout the year

**ENTRY REQUIREMENTS**

The minimum requirements for admission to MPhil candidate are: (i) a degree of bachelor with an honours mark of at least 65 (Upper H2B) or (ii) qualifications which in the opinion of the Monash Graduate Research (MGR) Committee are equivalent or a satisfactory substitute.

**ART, DESIGN AND ARCHITECTURE**

Our creative community of visual researchers explores vastly divergent topics across the spectrum of visual media, design and architecture, and each of our research staff and students is linked by a shared search for excellence through transformative practice-based research.

A PhD offered in Art, Design and Architecture takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. The program consists of an extensive, independent research project on an agreed topic, supported by a minimum of two expert academic supervisors. This is enhanced by professional development activities or coursework units that provide you with the skills required to make an impact in academia, industry, government or the wider community.

Your study will result in a research thesis or alternative approved output, which makes a valuable contribution to the current body of knowledge on your chosen topic.

**INTAKE**
Throughout the year

**ENTRY REQUIREMENTS**

You should hold an Australian bachelor’s degree with honours (Upper H2B – mark of 65 or above) or equivalent from a recognised tertiary institution in an area appropriate to your research discipline. In special circumstances, the faculty may admit an applicant who lacks any of the qualifications listed, but whose publications and other experience is considered to be equivalent research training in the proposed field of study. These will be considered on a case-by-case basis. Your application must be accompanied by a research proposal of 200 to 300 words.

**PHD ARTS**

Monash Arts is renowned for innovative, engaging and high-quality research in the humanities and social sciences, and the Research Graduate School is committed to providing graduate research education of the highest quality in a stimulating, supportive and professional environment.

A PhD offered in Arts takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. The program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

Depending on supervision and resource availability, topics are available in most areas of research strength, including:
- Cultural heritage
- Environmental sustainability
- Interpreting cultures
- Philosophy and bioethics
- Social and cultural theory
- Global change and global security
- Health, wellbeing and social change
- Performance.

International joint PhD programs are also available. See the Monash website for more information. Your research project should be developed as clearly achievable within three years ’equivalent-full-time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

**INTAKE** Throughout the year

**ENTRY REQUIREMENTS**

You’ll need one of the following qualifications in a relevant field:
- A four-year Australian or New Zealand bachelor’s degree with an overall result of a minimum upper H2B (mark of 65 or above) in an honours year (normally with a research component in the fourth year).
- An Australian or New Zealand master’s degree with a significant research component graded at a minimum upper H2B (mark of 65 or above), and an overall result of upper H2B or above.
- An Australian or New Zealand research master’s degree with an overall result of a minimum upper H2B (mark of 65 or above).
- Qualifications or experience that the Graduate Research Committee considers to be equivalent to, or a satisfactory substitute for, the above.

**RESEARCH TRAINING SCHEME (RTS)**

Caulfield, Clayton
4 years full-time, 8 years part-time

$ Degree Awarded
Doctor of Philosophy (PhD)
COURSE CODE: 0020

**Masters of Arts**

Monash is renowned for its high-quality research in the humanities and social sciences. The Master of Arts program allows you to carry out substantial independent research while supported by a minimum of two academic supervisors.

You’ll produce a research thesis (or alternative approved output), and your work will contribute to existing knowledge in your chosen topic.

Research topics are available in areas including: cultural heritage; environmental sustainability; interpreting cultures; philosophy and bioethics; social and cultural theory; global change and global security; health, wellbeing and social change; and performance. Non-traditional research outputs can be pursued in specialisations in creative writing, music composition, music performance or theatre performance. Non-traditional research outputs can be pursued in specialisations in creative writing, music composition, music performance or theatre performance. You’ll be supervised by academics committed to training those determined to make a positive difference in society.

As an arts research graduate, your skills will be sought-after in the in the job market, or you could continue on to a PhD.

**INTAKE** Throughout the year

**ENTRY REQUIREMENTS**

You’ll need one of the following qualifications in a relevant field:

- An Australian or New Zealand coursework master’s degree with a significant research component graded at a minimum upper H2B (mark of 65 or above), and an overall result of upper H2B or above.
- An Australian or New Zealand coursework master’s degree with a significant research component graded at a minimum upper H2B (mark of 65 or above), and an overall result of upper H2B or above.
- An Australian or New Zealand research master’s degree with an overall result of a minimum upper H2B (mark of 65 or above).
- Qualifications or experience that the Graduate Research Committee considers to be equivalent to, or a satisfactory substitute for, the above.

**Research Training Scheme (RTS)**

Caulfield, Clayton
2 years full-time, 4 years part-time

$ Degree Awarded
Master of Arts
COURSE CODE: 2485

**MASTER OF PHILOSOPHY (ARTS)**

The Master of Philosophy allows you to undertake substantial independent research on your chosen topic while supported by a minimum of two academic supervisors. Your MPhil thesis is expected to make a contribution to an existing body of knowledge by applying, clarifying, critiquing or interpreting that knowledge.

Research topics are available in most areas of research strength at Monash Arts, including:
- Cultural heritage
- Environmental sustainability
- Interpreting cultures
- Philosophy and bioethics
- Social and cultural theory
- Global change and global security
- Health, wellbeing and social change
- Performance

Completion of the program signifies you’ve successfully undertaken a course of research training, that you’ve satisfied examiners by demonstrating your ability to carry out a research project, as well as critically analysing the results of your investigation.

**INTAKE** Throughout the year

**ENTRY REQUIREMENTS**

PHD BUSINESS

The sheer scale of Monash University’s research capabilities and the breadth of specialist expertise within Business and Economics offer graduate research opportunities across the full range of applied business and policy disciplines.

A PhD offered in Business takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. The program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

The principal component of the PhD is typically a major thesis of up to 80,000 words, embodying the results of your research project which makes a significant contribution to the existing knowledge in your discipline.

Depending on your research focus you will be assigned to one of the following programs:

- Accounting
- Banking and finance
- Business law and taxation
- Econometrics and business statistics
- Economics
- Management
- Marketing
- Specialist streams in economics.

Your research project should be developed as clearly achievable within three years’ equivalent-full-time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

INTAKE

Throughout the year

ENTRY REQUIREMENTS

You need to have completed an upper second-class bachelor’s degree requiring at least four years of full-time study, including a research component in the fourth year, or completed a course leading to a master’s preliminary qualification at a level rated as equivalent to an upper second-class honours degree, or qualifications that in the opinion of the Graduate Research Committee are equivalent or a satisfactory substitute.

Master of Design (Research)

COURSE CODE: 3940

PHD CREATIVE WRITING

In this course you’ll engage in deep intellectual reflection on your creative process and gain professional qualifications in the creative writing field.

A PhD offered in Creative Writing takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. The program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

As part of the research thesis requirement, you’ll produce a creative piece of work such as a novel; a group of short stories; a work of creative non-fiction; a play or group of plays; a sequence of poems; or a portfolio of works of various genres, together with a critical component that may take the form of an exegesis, a work of scholarly research, or a combination of both.

Your research project should be developed as clearly achievable within three years’ equivalent-full-time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

INTAKE

Throughout the year

ENTRY REQUIREMENTS

You should hold an Australian bachelor’s degree with honours (Upper H2B – mark of 65 or above) or equivalent from a recognised tertiary institution in an area appropriate to your research discipline. In special circumstances, the faculty may admit an applicant who lacks any of the qualifications listed, but whose publications, professional practice (five years’ minimum), creation of design registrations (or patents in other countries), major commissions and other experience is considered by the faculty to be equivalent research training in the proposed field of study. These will be considered on a case-by-case basis. All applications must be accompanied by 10 to 15 images of recent original work, clearly numbered, with a corresponding list of details attached and a research proposal of 200 to 300 words.

RESEARCH
PHD EDUCATION

Want to be part of high-quality research team that makes an impact in Australia and overseas? Your research will aim to improve teaching practice and extend your expertise and skills relating to important educational issues.

Graduates from Monash Education’s doctoral programs occupy senior positions in education and research in many countries around the world within both the public and private sector. A PhD offered in Education takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. The program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

A PhD in Education requires you to complete a research thesis (or alternative approved output) of no more than 60,000 words. The PhD program may be undertaken in any area of research, including:

- Curriculum and pedagogy
- Early childhood education
- Educational psychology and inclusive education
- Mathematics, science and technology
- Teacher education, language, arts and professional learning
- Work, learning and leadership

Your research project should be developed as clearly achievable within three years’ equivalent-full-time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

INTAKE
Throughout the year

MASTER OF EDUCATION
(COURSEWORK/THESIS)

Today’s educators are expected to be lifelong learners, able to adapt to global changes in education where routines and boundaries are often challenged.

This course is designed to meet the needs of educators, educational administrators, managers, policymakers and others interested or involved in learning and education within the wider educational community, or working in the corporate or government sector. You’ll explore the relationship between research and practice, encouraging you to analyse issues of interest to you.

You’ll complete two coursework units, including a compulsory core research methods unit, and a thesis of up to 20-25,000 words. We provide a wide range of specialisations to suit your career aspirations.

ENTRY REQUIREMENTS

- You must have completed four years of full-time equivalent university study at Monash University or any other recognised tertiary institution in education or a relevant field (either through a double degree or undergraduate degree plus graduate diploma or an honours year) (including completion of a research thesis of at least 10,000 words) with an upper H2B (a mark of 65 or above). Where the previous study doesn’t include an honours year, it should include a research component equivalent to that of an honours year, or qualifications or experience that the Graduate Research Committee considers to be equivalent to, or a satisfactory substitute for, the above.

INTAKE
February and July

Masters of Educational and Developmental Psychology/Doctor of Philosophy

This course combines the coursework and practical requirements of the APAC-accredited Master of Educational and Developmental Psychology with the thesis requirements of the PhD.

You must be currently enrolled in the Master of Educational and Developmental Psychology at Monash University to be considered for admission to this course. Students start by undertaking the first year coursework units of the APAC-accredited master’s degree including a research project. Continuation to the PhD combined program is by invitation only following the first year of the master’s and is dependent on academic performance and supervision availability. Students in this course are required to complete the coursework and practicum requirements of the master’s degree, as well as the PhD thesis of no more than 60,000 words. As a graduate, you’ll be qualified to register as a psychologist with the Psychology Board of Australia (PBA) in addition to your PhD qualification.

ENTRY REQUIREMENTS

- An invitation to apply to the combined Master of Educational and Developmental Psychology and Doctor of Philosophy course requires completion of the first year of the Master of Educational and Developmental Psychology with a high distinction average in two units (one of which must be the research project unit) and a minimum of overall distinction average. Admission is also dependent on suitable PhD supervision availability within the faculty.

PHD
INFORMATION TECHNOLOGY

Information technology research at Monash takes a multidisciplinary, multicampus and multinational approach, giving you the skills to delve deeper than at any other institution in Australia. We are internationally recognised for our research strengths in computational biology, data analytics, IT for resilient communities, machine learning, and modelling, optimisation and visualisation. A PhD in Information Technology requires you to complete a research thesis of up to 80,000 words. Areas for research cover the whole information technology spectrum from engineering to social science with key strengths in:
- Computing science
- Software engineering
- Information systems, and
- Information and knowledge management.
The course can also be undertaken by practice-based research and exegesis. You will develop a practice-based research project that results in a body of work examined by demonstration. This will be complemented by a written exegesis of approximately 30,000 words which is used to contextualise the practice-based work.
Your research project should be developed as clearly achievable within three years’ equivalent-full-time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

INTAKE
Throughout the year

ENTRY REQUIREMENTS
To be admitted to the MPHIL course you’ll need a minimum of a bachelor’s degree with honours 1 or honours 2 division A, or qualifications deemed to be equivalent or a satisfactory substitute. As a prospective research candidate, you’ll be expected to have identified a research area of interest before applying. You’ll be required to discuss the proposed research project, as well as the availability of supervision and a facility to conduct the research, with the faculty. Applications can be submitted throughout the year.

The Doctor of Juridical Science (SJd) program enables you to complete a research thesis together with coursework units in a specific area of interest. It’s ideal if you’re keen to pursue an academic career or a major academic research project such as an area of law reform, or develop policy or theoretical perspectives in an area where you seek to gain recognised expertise.

The coursework units allow you to develop some expertise in the area in which you intend to pursue your research, before commencing work on your thesis of up to 50,000 words. The coursework component comprises units taken from the master’s program (you’ll need an overall distinction average of 70 per cent across all units), as well as the Doctor of Juridical Science seminar unit, which incorporates a series of seminars on advanced legal research, a 3000-word essay on a topic relevant to the proposed research, and the presentation of a thesis proposal to a review panel.

ENTRY REQUIREMENTS
You’ll need:
A Bachelor of Laws with a minimum of honours two division A.
OR
A minimum average level of distinction in four Master of Laws degree units.
OR
Other qualifications that the Graduate Research Committee is satisfied are equivalent or a satisfactory substitute.
AND
To the satisfaction of the Graduate Research Committee, have the high level of research and writing competence required for the degree.
### MASTER OF PHILOSOPHY (LAW)

The Master of Philosophy (Law) is a two-year full-time-equivalent program, usually 100 per cent research, with a thesis length of up to 35,000 words.

You may undertake your thesis in any of the principal areas of research within the faculty. It’s particularly suited to students seeking to undertake an interdisciplinary research project.

**ENTRY REQUIREMENTS**

A bachelor’s degree with an honours mark of at least 65 (upper H2B), or qualifications that in the opinion of the Monash University, Institute of Graduate Research are equivalent or a satisfactory substitute.

**INTAKE**

Throughout the year

### MASTER OF PHILOSOPHY (MEDICINE, NURSING AND HEALTH SCIENCES)

The Master of Philosophy (MPHil) can be undertaken in any of the Faculty of Medicine, Nursing and Health Sciences’ main research areas.

You’ll carry out a research project under the direct supervision of an academic staff member. Your work must significantly contribute to the knowledge and understanding of an area of study of direct concern to the faculty, and show your independent research abilities.

**INTAKE**

Throughout the year

### PHD LAW

A PhD in Law is particularly relevant to those considering an academic career in law and requires you to carry out a research thesis of up to 80,000 words (or alternative approved output) and may be undertaken in any of the faculty’s principal areas of research, including:

- Commercial law
- Comparative law
- Criminal law
- Administrative law
- Bail
- Family law
- Health law
- Human rights law
- Environmental law
- Equity and property law
- Intellectual property law
- International trade law
- Public law
- Torts.

Your research project should be developed as clearly achievable within three years’ equivalent-full-time study, and you’ll be expected to complete your degree within four years of equivalent full-time study.

**INTAKE**

Throughout the year

### PHD MEDICINE, NURSING AND HEALTH SCIENCES

Monash is renowned for the quality and impact of its research in the fields of Medicine, Nursing and Health Sciences. By undertaking your graduate studies at Monash University, you will have the opportunity to be a part of this proud tradition of research excellence.

A PhD offered in Medicine, Nursing or Health Sciences takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline.

The program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

**ENTRY REQUIREMENTS**

- A bachelor’s degree with honours 1, honours 2A, or honours upper 2B from Monash University, or have qualifications that in the opinion of the Graduate Research Committee are equivalent or a satisfactory substitute.

**INTAKE**

Throughout the year

PHD MUSIC COMPOSITION

Monash Arts is renowned for its high-quality research, and The Sir Zelman Cowen School of Music offers one of Australia’s most innovative and comprehensive music composition programs.

The school sees music composition as an art form embracing any musical style, and as a form of research characterised by exploration and reflective practice.

A PhD offered in Music Composition takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. This program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

Your project will include the development of a substantial, research-based and original composition folio consisting of musical scores and sound recordings, as well as a written critical commentary. Your research project should be developed as clearly achievable within three years’ equivalent-full time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

INTAKE
Throughout the year

PHD MUSIC PERFORMANCE

The Sir Zelman Cowen School of Music at Monash is consistently ranked among the best music schools in Australia.

It has a long history of collaborative research, and is working with musicians and scholars from Asia, Europe, and North and South America. Performance is at the heart of the school’s music programs, and you’ll take part in a cross-section of musical activities, both within and outside formal study programs.

A PhD offered in Music Performance is practical-based and takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. This program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

Your research project should be developed as clearly achievable within three years’ equivalent-full time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

INTAKE
Throughout the year

PHD PHARMACY

Monash’s internationally-renowned Faculty of Pharmacy and Pharmaceutical Sciences is home to the Monash Institute of Pharmaceutical Sciences, the largest and most experienced group of pharmaceutical scientists in Australia.

As a graduate researcher, you’ll have access to dedicated research buildings, modern laboratories, an extensive library and state-of-the-art research equipment.

A PhD offered in Pharmacy takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. This program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

The faculty offers research programs in the areas of:
- Drug candidate optimisation
- Drug discovery biology
- Drug discovery, disposition and dynamics
- Medicinal chemistry
- Medication use and safety

The faculty has an established and strong reputation with industry which means we’re a resource for industry and research institutes involved in the pharmaceutical and biomedical sciences across Australia and the world.

Your research project should be developed as clearly achievable within three years’ equivalent-full time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

INTAKE
Throughout the year

“"I want to continue carrying out research in a postdoctoral research fellowship position. I want to utilise the skills I’m gaining throughout my PhD to continue fighting antibiotic resistance. I want to be a leader in my field and a role model to other women, showing that a career in science can be beneficial to society, in addition to their personal goals."

VANESSA REESI
Pharmacy student
DOCTOR OF PSYCHOLOGY IN CLINICAL PSYCHOLOGY

In this research degree you’ll conduct a major, supervised research program, complete three years of intensive coursework, and undertake clinical placements.

You’ll graduate as an effective researcher, able to review research literature, apply research techniques to your field of study, and produce high-quality written work for publication. A feature of the program is that your training in clinical psychology is extended through specialisation in either child, adolescent and family psychology, or advanced adult clinical psychology.

This degree is accredited by the Australian Psychology Accreditation Council. As well as your academic record, you’ll be selected on the basis of your personal suitability for clinical psychology, with factors such as referees’ reports and your presentation at a selection interview taken into account.

INTAKE
February

ENTRY REQUIREMENTS
You’ll need to have a bachelor’s degree with honours 1 or honours 2A in psychology from Monash University, or have qualifications that in the opinion of the Graduate Research Committee are a satisfactory substitute. This bachelor’s degree must be accredited by the Australian Psychology Accreditation Council. As well as your academic record, you’ll be selected on the basis of your personal suitability for clinical psychology, with factors such as referees’ reports and your presentation at a selection interview taken into account.

DOCTOR OF NEUROPSYCHOLOGY

In this research course you’ll undertake a major, supervised research program, complete three years of intensive coursework, and undertake clinical placements.

You’ll graduate as an effective researcher, able to review research literature, apply research techniques to your field of study, and produce high-quality written work for publication. Clinical neuropsychology applies knowledge of cognition, emotion and behaviour to the assessment and treatment of children and adults with conditions affecting the brain. A feature of this course is that your training in clinical neuropsychology is extended through specialisation in a choice of areas, including rehabilitation, child and adolescent neuropsychology, geriatric neuropsychology and psychiatric neuropsychology.

This degree is accredited by the Australian Psychology Accreditation Council. As well as your academic record, you’ll be selected on the basis of your personal suitability for clinical psychology, with factors such as referees’ reports and your presentation at a selection interview taken into account.

INTAKE
February

ENTRY REQUIREMENTS
You’ll need to have a bachelor’s degree with honours 1 or honours 2A in psychology from Monash, or qualifications that in the opinion of the Graduate Research Committee are a satisfactory substitute. As well as your academic record, you’ll be selected on the basis of your personal suitability for clinical psychology, with factors such as referees’ reports and your presentation at a selection interview taken into account.

MASTER OF REPRODUCTIVE SCIENCES

In the Master of Reproductive Sciences course you’ll carry out a research project under the direct supervision of an academic staff member.

Your work must significantly contribute to the knowledge and understanding of a field of study of direct concern to the faculty, and show your independent research capabilities. The course provides medical and health professionals with advanced theoretical understanding and research training in the applications of reproductive biology, including emerging biotechnologies, to clinical human and veterinary medicine. You can undertake research in areas of human reproduction, animal reproduction, women’s health, fetal and neonatal physiology, embryology, molecular and cellular endocrinology, and reproductive toxicology.

INTAKE
February

ENTRY REQUIREMENTS
To apply, you must have a relevant bachelor’s degree in science with honours 1, honours 2A, or honours upper 2B, or the Graduate Diploma in Reproductive Sciences with a minimum average grade of 70 per cent; or other qualifications or experience that the Graduate Research Committee deems equivalent or a satisfactory substitute.

1  The first two years must be completed full-time.
2  Of campus study available.
PHD

Monash Science is made up of a dynamic community of scholars committed to innovation and discovery. Monash Science PhD graduates are highly employable, with many pursuing careers in academia and industry around the world.

A PhD offered in Science takes the form of the Monash Doctoral Program where you undertake an extensive research project on an agreed topic in order to make an original contribution to your discipline. The program ensures you have a minimum of two research-active supervisors who act as your mentors, and provides a structured program of coursework or professional development activities so that you emerge from your degree with an advanced level of specialist knowledge and prepared to make an impact in academia, industry, government or the broader community.

Your study will result in a research thesis (or alternative approved output) of no more than 80,000 words and may be undertaken in the principal areas of research on offer, including:
- Biological sciences
- Chemistry
- Earth sciences
- Atmospheric sciences
- Environmental sciences
- Mathematical sciences
- Astronomical sciences
- Physics

Your research project should be developed as clearly achievable within three years’ equivalent-full-time study, and you’ll be expected to complete your degree within four years of equivalent-full-time study.

INTAKE
Throughout the year

MASTER OF

The Master of Science degree allows you to undertake independent research in a specific area of science over a shorter period of time than a PhD.

If you’re unsure whether a PhD is right for you, a Master of Science can give you the experience of what studying for a doctorate might be like, while developing your skills and earning a degree that will enhance your employment prospects. If you find you’re passionate about your research, there’s an option to upgrade to a PhD after the first year of the degree.

INTAKE
Throughout the year

ENTRY REQUIREMENTS
You’ll need either:

A bachelor’s degree requiring at least four years of full-time study, and which normally includes a research component in the fourth year, leading to an honours degree class 1, 2A or upper 2B (with an overall mark of at least 65 or above) level.

OR

A course leading to a level rated by the relevant school, faculty and central university committees as equivalent to an honours class 1, 2A or upper 2B (with an overall mark of at least 65 or above) degree.

OR

A master’s degree that entails work, normally including a significant research component, at least equivalent to an honours degree (a ‘significant research component’ in a master’s degree will vary from discipline to discipline). It’s normally expected that at a minimum, a grade of upper 2B (with an overall mark of at least 65 or above) has been obtained for the research thesis or project. Where ungraded, examiners’ reports will be taken into account.

OR

Have qualifications that in the opinion of the committee/s are deemed equivalent.

This master-by-research degree is an alternative to the Master of Science (by research) degree, and allows you to show independence of thought and demonstrate your ability to carry out research in your chosen discipline.

INTAKE

APPLYING FOR GRADUATE DEGREES BY COURSEWORK PROGRAMS

Applications for graduate coursework programs can be made online via monash.edu/study/apply, except for the Master of Teaching. Applicants for this course must apply through the Victorian Tertiary Admissions Centre at vtas.edu.au.

All applicants for coursework programs must meet the institutional English language requirement. See monash.edu/admissions/english-language-requirements.html

monash.edu/study/apply

APPLYING FOR GRADUATE DEGREES BY RESEARCH

PHD, MASTER OF PHILOSOPHY, MASTER’S BY RESEARCH, PROFESSIONAL DOCTORATE

All research degree and scholarship applicants must apply using the online form at monash.edu/graduate-research/future-students/apply

Applicants intending to study at the Sunway campus (Malaysia) should access the form through the campus website at monash.edu.my/research. For applications to Sunway, a fee of MYR100 is payable to Monash University Malaysia.

monash.edu/graduate-research/future-students/apply

WHEN SHOULD I APPLY?

Research degree-only applications can be submitted at any time of the year, but restrictions may apply to your course commencement date if you need to complete any coursework as part of the degree. Applications for the University’s two research scholarships rounds close on 31 October and 31 May each year. Scholarship applicants will be notified of the outcome of their application approximately six to eight weeks after the closing date.

*STEP 1* CHECK YOUR ELIGIBILITY

monash.edu/graduate-research/future-students/eligibility

*STEP 2* EXPRESS YOUR INTEREST AND RECEIVE AN INVITATION TO APPLY

monash.edu/graduate-research/future-students/apply/invitation

*STEP 3* APPLY FOR ENTRY INTO A RESEARCH DEGREE

monash.edu/graduate-research/future-students/apply

*STEP 4* YOUR APPLICATION IS ASSESSED

Once you’ve submitted your application it’ll be assessed and approved by the Monash Graduate Education Office, the faculty and academic unit at which you’ll be enrolled. This shouldn’t take longer than six weeks. If your application is successful, you’ll be sent an offer pack. If you accept the offer, you’ll need to formally enrol.
