

# MONASH UNIVERSITY ACCEPTS GAOKAO FOR DIRECT ENTRY

Gaokao students who meet the higher Tier One university cut off score for their province will meet the academic requirements for entry to all Monash University degrees (except Dean's Scholars courses, Law courses and Pharmaceutical Science Advanced (Honours)). These students will also need to meet the prerequisites or other entry requirements for these degrees.

Students who meet the lower Tier One university cut off score for their province will meet the academic requirements for entry to a selected range of Monash University degrees (see table 2).

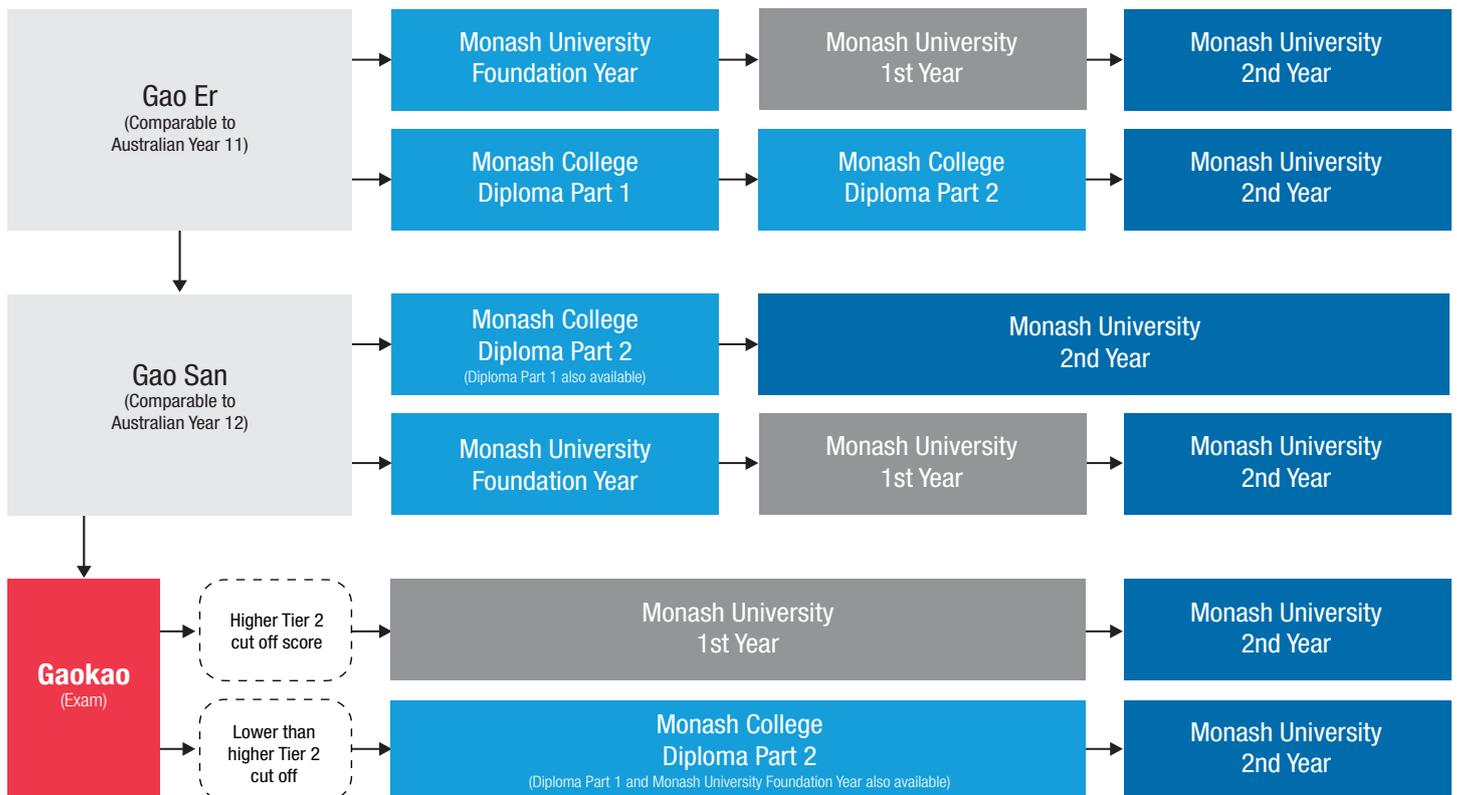

Students who meet the higher Tier Two university cut off score for their province will meet the academic requirements for entry to a selected range of Monash University degrees (see table 3).

Students will still be required to meet the English language requirements for their preferred degree and may need to consider Monash English language courses offered through Monash College.

Students who achieve scores lower than the higher Tier Two university cut off scores may meet the academic requirements for entry into Monash College Diploma Part 2 and Monash University Foundation Year.

For those students without Gaokao, Monash College continues to accept students into Diploma or Monash University Foundation Year courses with Gao Er or Gao San results. Importantly, Monash College also helps students build the study skills needed to succeed at a Top 100 internationally ranked university.
