Pathways
to Monash

Make Monash *your* destination

Whatever the path you're travelling, if your goal is to gain a university degree and use it to improve yourself, your community or make a difference to the lives of others, Monash can help you get there.

We all aspire toward a university education for different reasons, at different times and under different circumstances. This diversity is at the heart of the Monash community.

Whatever the route that has led you here, if you're capable and committed there is a pathway to making your dreams the reality.

A pathway program can be just what you need for many reasons. You may be:

- returning to study after a period in the workforce or after raising a family
- changing careers
- moving from TAFE/VET or other studies into university
- needing an alternative to VCE to enter your preferred course because your education was interrupted, and you didn't finish Year 12 or a similar qualification
- wanting to try university study before committing to a full degree.

Regardless, our pathway programs into courses recognise the circumstances that talented people need so that they can realise their goals and achieve their heart's desire – to study at Monash. There are even scholarships for financial support and services to help you make the most from your time at University.

So don't wait any longer – follow your dreams and take action today.

For more information visit study.monash/courses

Why study at Monash University?

As a Monash student you will join an institution that has an international reputation for innovation and is consistently ranked in the top 100* universities worldwide. You'll gain the skills, knowledge and networks to confidently chart a successful career while studying in a vibrant, inclusive and open community.

What types of courses does Monash offer?

Monash has one of the most extensive range of courses in Australia. So take your pick – whatever your career ambitions, personal interests and life situation, there's a course of study to match it.

Flexibility and choice

A comprehensive course at Monash is all about developing expertise. These courses offer a variety of options across a broad range of study areas including arts, business, commerce, information technology and science. Comprehensive courses offer maximum flexibility and choice.

You can choose comprehensive courses already knowing what your major area of study will be. But if you are still deciding these courses offer the opportunity to try a range of subjects in your first year, before choosing your major area of study for the remaining years.

Structured for early specialisation

Specialist courses enable you to concentrate in a particular area of study from day one, giving you the focus and depth required for entry into many careers. While some specialist courses are designed to prepare you for specific professions, others concentrate on developing particular expertise that is applicable to a broader range of related careers.

For more information about the range of Monash courses available visit study.monash/courses

Double degree courses

A double degree course means you study two courses at the same time, allowing you to gain skills and knowledge in two fields of interest. Double degrees take two years less to complete than taking the courses one after the other because electives from each course count towards the other.

Full-time/part-time

Monash offers both full-time and part-time study options in most courses. You can enrol in just one unit or up to the maximum for your course (usually four units per semester). You can make this decision each semester. So you might be part-time one semester and then decide to increase your units the next.

On-campus/off-campus

Some Monash courses are offered off-campus. Off-campus simply means you do not need to attend classes. It is a flexible mode of study, based on a combination of printed study materials and electronic communication. Each unit studied in the off-campus learning mode has the same content and assessment as the equivalent on-campus unit.

If you have work or other commitments, off-campus learning enables you to further your studies at your own pace.

Things to consider when choosing a pathway

Where are you hoping pathway study will take you?

Are you considering a pathway option as a way to secure entry into your preferred course? Or would you like to try out university study by completing some single units? There are a range of reasons for completing a pathway option. To decide which pathway option is best for you, consider why you are doing it and where you hope to end up.

Are you eligible for credit for previous study?

Sometimes the study you complete as part of your pathway can count towards your preferred course. When researching your preferred course and eligible pathway study, take note of any options that would give you credit for previous study.

Research your options

Completing a pathway option to secure a place in your preferred course can be a great option. However, pathway study is not always interchangeable. Make sure you research your preferred course and find out what pathway study options are applicable.

You should also check whether you are required to achieve a certain mark or grade in your pathway study or if there are any specific prerequisite units that must be completed for example Year 12 Mathematics or English. This guide provides different pathway options to help you meet any course requirements.

One degree leads to another

Some Monash undergraduate degrees can be used as a pathway into another Monash degree. This can help you to meet any specific prerequisite units or demonstrate your ability to study at a university level. For example, after studying the first year of a Bachelor of Science, you may be able to move into a Bachelor of Engineering, as long as you have met the required grade averages and any other prerequisites.

Some degrees that offer a pathway to another include the Bachelor of Arts, Bachelor of Business and Bachelor of Science.

Diploma of Tertiary Studies (DoTS)

Pathways into: Business, Education or Nursing

AT A GLANCE

LOCATION
Berwick, Peninsula
On-campus

DURATION
1 year – Full-time

INTAKE
Semester 1 (February)

ENTRY REQUIREMENTS

- Meet the English prerequisites. Units 3 and 4 – a study score of 25 in English or 30 in English (EAL).
- Completed Year 12 with an ATAR of 50+ or a recognised graded TAFE Cert IV – minimum distinction grade average (70%), or a recognised graded TAFE Diploma minimum credit average (60%).
- Complete an online supplementary form – why you want to study at Monash. vtac-supp.adm.monash.edu/SupplementaryVTAC

APPLICATION
Victorian Tertiary Admissions Centre (VTAC)
vtac.edu.au

Description

The Diploma of Tertiary Studies (DoTS) will enhance your critical and analytical thinking, and oral and written skills. It will assist you to become an independent learner and will support you by providing an introduction to tertiary studies in your area of interest. When you apply for DoTS, you will select a course stream from either Business, Education or Nursing. These streams provide a direct pathway into the second year of particular Monash degree. The DoTS program can also provide a pathway into a range of other courses at Monash that are not specified destination degrees.

Course structure

DoTS consists of two foundation units and six discipline units within the area of study corresponding to your chosen field. The foundation units provide you with the knowledge and skills necessary to be an independent learner who can succeed at university studies. If you do not have the mathematics prerequisites for your desired Monash course, you will have the opportunity to gain the required level of mathematics in the introductory units. If you already meet the mathematics prerequisites, you will take a unit in understanding knowledge and its contexts, which will help you to identify, compare and discuss different approaches to knowledge.

The DoTs pathway program can also provide access to other courses at Monash University. Applications are made after successful completion through VTAC. Prerequisites still apply. Entry level will be dependent on academic performance.

Diploma of Higher Education (DoHE)

Pathways into: Science or Mathematics based courses

AT A GLANCE

LOCATION
Clayton
On-campus

DURATION
1 year – Full-time

INTAKE
Semester 1 (February)

ENTRY REQUIREMENTS

- Meet the English prerequisites. Units 3 and 4 – a study score of 25 in English or 30 in English (EAL).
- Completed completed Year 12 with an ATAR of 65+, or a recognised graded TAFE Cert IV – minimum distinction grade average (70%) or a recognised graded TAFE Diploma – minimum credit average (65%).
- Complete an online supplementary form – why you want to study at Monash. vtac-supp.adm.monash.edu/SupplementaryVTAC

APPLICATION
Victorian Tertiary Admissions Centre (VTAC)
vtac.edu.au

Description

The Diploma of Higher Education (DoHE) provides an alternative entry pathway to university study for selected undergraduate courses in science, inclusive of mathematics or related areas. DoHE lets you begin studying towards your Monash degree from day one. When you apply for DoHE, you will select a Science stream. This stream provides a direct pathway into the second year of particular Monash degree courses – Bachelor of Science and Bachelor of Education (Honours) and Bachelor of Science. The DoHE may also provide a pathway into a range of other courses at Monash. You can apply for entry into other courses after successfully completing the Diploma of Higher Education through VTAC. Make sure that you have met the prerequisites for your chosen course. Admission into your chosen course will be based on your academic performance and meeting the course prerequisites.

Course structure

DoHE consists of two foundation units, mathematics units as required and discipline units within the area of study corresponding to your chosen stream. Remaining units can be selected based on interest and prerequisites needed for successful study.

Cassandra Kovac

Bachelor of Education

After learning about the Diploma of Tertiary Studies (DoTS) program at a Monash Open Day, Cassandra decided it would better suit her transition between high school and university study. Once she completed DoTS, Cassandra gained entry into the Bachelor of Education.

“The DoTS program allowed me to transition into university and feel well-supported. The course has opened up so many windows of opportunity. It has enabled me to reach my goal of studying at Monash, helped develop skills useful for my dream profession, and given me the opportunity to meet some amazing people.”

Monash Access Program (MAP)

Pathways into: Arts, Business, Education, or Information Technology

AT A GLANCE

LOCATION
Clayton
On-campus

DURATION
8 months – Part-time

INTAKE
May

ENTRY REQUIREMENTS

- 21+ years of age by 1 January of the year you enrol.
- No prior university study.
- You are an Australian citizen, Australian permanent resident, or holder of an humanitarian visa.
- Have completed secondary school in English.
- Complete an online supplementary form – why you want to study at Monash.
vtac-supp.adm.monash.edu/SupplementaryVTAC

APPLICATION

Directly to Monash using the direct application form at monash.edu/admissions/apply/online.html or contact Monash:

P: 1800 MONASH (1800 666 274)
E: future@monash.edu

Indigenous Australian's are encouraged to contact the Yulendj Indigenous Engagement Unit:

P: 03 9905 8699
E: yulendj@monash.edu

Description

The Monash Access Program (MAP) is an enabling program for mature-age students who have not undertaken prior university study. MAP helps you develop the skills you need to successfully participate in your studies, and gives you the option to progress to a range of internationally recognised Monash degrees. MAP has no tuition fees; however, you will need to pay for other costs including books, stationary and transport. We give priority to students who have experienced financial hardship or other disadvantage. You will have full access to library resources and student services.

Course structure

MAP comprises of the following four units of study: Learning in a university context, Mathematics for tertiary study, Academic writing, and an elective. The elective unit allows you to choose a first year unit from a select list of units offered by the faculties of arts, business, education, and information technology.

► For further information visit: study.monash.edu/courses

Single university units

Pathways into: a range of Monash courses

AT A GLANCE

LOCATION
Applicable for all Monash campuses
On-campus

DURATION
6 months – Part-time

INTAKE
Semester 1 (February) or
Semester 2 (July)

ENTRY REQUIREMENTS

- One of the units must be an English-rich unit if you don't meet the required score in Year 12 English or another measure of English proficiency.

APPLICATION

Directly to Monash:
P: 1800 MONASH (1800 666 274)
E: future@monash.edu

Description

Completing single units gives you the opportunity to meet university entrance requirements and trial university study to see if it is for you. Successful completion of the units gives you a statement of results that can then be used for applications for further study within a 10 year period. If successful in your application, you may gain credits for the units you have completed.

Single units are available on a fee-paying basis only. The Monash Pathway Bursary is available for up to two single units if you are 21 years or older and experiencing financial disadvantage.

Course structure

Completing two single units makes you eligible for entry into a large range of undergraduate courses. It's encouraged that students take units that relate to the course they'd like to study.

A 60% average in single units is usually required to be competitive in selection for entry into a course.

► For further information visit monash.edu/scholarships

Joshua Dissanayake

Bachelor of Information Technology and Systems

Originally Joshua left high school during Year 11, moving straight into work. While he enjoyed working he found that his lack of refined critical skills was holding him back, and began to understand the advantages of university study for his chosen career in IT. Joshua is now completing his Bachelor of Information Technology and Systems.

"The Monash Access Program was the most suitable university pathway program for me because it gave me a smooth transition into tertiary education. As I had been away from school for many years, immediately entering university may not have prepared me as well as MAP did."

TAFE/VET pathways

Studying a TAFE or VET program is a great way to obtain vocational qualifications. Monash recognises vocational qualifications from providers across Australia and also has priority partnerships and formal articulation pathways with selected Victorian TAFE Institutes, including Chisholm Institute and Box Hill Institute.

If you have successfully completed a Certificate IV, Diploma or first year of an Advanced Diploma you could qualify for a place at Monash University and be eligible for some credit towards your course for any graded TAFE/VET studies you have completed.

► For further information visit: study.monash

Heather Murnane

Bachelor of Occupational Therapy (Honours)

Heather always wanted to pursue tertiary studies, but health problems meant she was not able to sit her Year 12 exams. After working for a few years in retail, Heather completed a Diploma of Nursing, which helped her to gain entry into the Bachelor of Occupational Therapy (Honours).

“Not being able to finish Year 12 was devastating for me, I always intended to go to university when I finished school and I thought that it was a goal that wouldn’t be possible for me anymore. Going to TAFE made everything possible for me again, and although it took a little longer I still made it here today.”

Scholarships

Monash offers over 200 types of scholarships and bursaries to support students to succeed at university. You may be eligible for one of the following scholarships featured on this page:

Monash Pathway Bursary

This bursary is for mature-age students (21 years or over) who do not meet the academic entry requirements for a Monash course and are going to enrol in two single undergraduate units as an alternative way to gain entry. The bursary will pay the tuition fees for up to two units (up to \$5000).

Monash UniStart Bursary

This is guaranteed to all eligible commencing undergraduate students experiencing financial difficulty and provides a minimum one-off payment of \$500.

Monash Support Bursary

This is awarded to eligible students from one or more of Monash University’s defined equity or personal disadvantage groups. You receive \$3000 for a full-time load per year until you complete your degree.

For the full range of scholarships and support bursaries offered by Monash visit: study.monash/fees-scholarships

Available Pathways for Monash undergraduate courses

The following table provides an overview of the pathway options that are available for Monash University undergraduate courses (single degrees only). In all cases you will need to satisfy the English language requirements and prerequisites for the course in which you are seeking admission. It is recommended that you choose pathway content that is related to the course. Detailed course prerequisite information is available from the Monash course guides or [study.monash](https://www.monash.edu.au/study).

	Bachelor of Mechatronics Engineering (Honours)													
	Bachelor of Mining Engineering (Honours)													
Bachelor of Software Engineering (Honours)														

¹ Requirements for a double degree will be dependent upon the requirements for each single component degree. Study at other campuses may be required depending on your choice of double degree.

² Only applicable to the Bachelor of Fine Art.

³ MAP admissions is specific to Caulfield campus only.

⁴ DoTS only provides guaranteed entry into Bachelor of Business or Bachelor of Nursing at Peninsula campus.

⁵ Successful completion of this Diploma provides direct entry into the second year of the undergraduate course.

⁶ For the first three semesters of this course you will study on the Caulfield campus. After this, you may study the remainder of your course at a different campus depending on your specialisation.

* These are the minimum scores to be eligible for entry into the second year of the Monash University courses. You will be considered on a merit basis for a Commonwealth Supported Place (CSP) and places are awarded on a competitive basis, students should therefore aim for the best score that they can achieve.

Available Pathways for Monash undergraduate courses
