**Clinical Management of Upper Limb Amputees**  
9 – 13 February 2004

**Course Content**
Structured to meet the requirements of the AFRM, topics covered will include team assessment of individuals with an upper limb amputation; medical, physical and functional intervention; prescription options for upper limb prostheses including an overview of prosthetic componentry; prescription checkout; and principles of prosthetic training. There will also be an overview of brachial plexus injury management, and considerations relevant when working with paediatric clients. The course includes a practical component.

**Course Aims**
At the completion of the Course, all participants will have an understanding of:
- management of upper limb amputees from a multidisciplinary team perspective — assessment, intervention and long-term follow-up, with a focus on continuity of care;
- clinical and functional issues relevant to specific levels of upper limb amputation;
- interventions specific to amputation level — including options for prosthetic prescription;
- life experiences of individuals with an upper limb amputation from their own perspective.

The primary objective is to promote effective communication amongst team members and promote continuity of care.

**Course Method**
Lectures, demonstrations and group participation sessions.
Practical sessions will include exposure to and discussion with clients who have a range of different conditions including trans-radial and/or trans-humeral amputation, congenital and multiple limb deficiency. Final evaluation will be a multiple choice examination and a certificate will be issued to successful candidates. Information on the latest prosthetic components as well as up-to-date literature will be displayed for perusal by registrants.

**REGISTRATION FEES**

Standard fees

All Participants $890.00* ☐

ISPO members/RehabTech Supporters $850.00* ☐

Early Bird fees (by 16 December 2003)

All Participants $790.00* ☐

ISPO members/RehabTech Supporters $750.00* ☐

**Cheques payable to Monash University REHABTech

* All course fees listed are inclusive of GST

Clinical Management of Upper Limb Amputees

9–13 February 2004

at

REHABTech

MONASH REHABILITATION TECHNOLOGY RESEARCH UNIT

C. G. M. C. 260-294 Kooyong Road

CAULFIELD VIC 3162

(03) 9528 1960

Convened by the

MONASH REHABILITATION TECHNOLOGY RESEARCH UNIT (REHABTech)

conjointly with the

INTERNATIONAL SOCIETY FOR PROSTHETICS AND ORTHOTICS (ISPO) AUSTRALIA

Course accredited by the AFRM

Participants who are AFRM fellows may be eligible for MOPS points.

Participants who are AOPA members will be eligible for continuing professional development points.
