## 8th International Symposium on Naturalistic Driving Research: Abstract Instructions and Template

Please use the following instructions when preparing your abstract:

Per Safety Science guidelines, organisation of material for empirical investigations should follow standard reporting format, with **no more than 750 words total** plus **no more than 2 images** (figures, graphs or tables). If your abstract is selected for a presentation or poster, this format can be easily expanded to full article length.

Please use the following headings to organise your abstract. The following are suggested word counts for each section of the abstract but only total word count will be considered during the review process.

Please use the template below for organising your abstract:

### Title

Author1 name, Affiliation, Email address  
Author2 name, Affiliation, Email address  
Author3 name, Affiliation, Email address

**Problem** [~75 words]

**Method** [~200 words]

**Results** [~200 words]

**Discussion** [~200 words]

**Summary** [~75 words]
