HOW TO KEEP YOUR KITCHEN CLEAN

**Glass Splash Back**
Regularly remove all dirt/marks from splash back with glass cleaner or all purpose cleaner

**Waste Management**
Put all your rubbish in your bin and take it out to designated bin store when full

**Cupboard/Drawers**
Wipe down cupboards regularly and remove all dust and food scraps from kitchen drawers.

**Fridge**
Ensure the floor directly underneath the fridge door is wiped down regularly to prevent build-up of spillages.

**Sink Area**
Ensure sink is clean, clear, and unclogged when not in use.

**Benchtops**
Wipe down bench tops with a cloth or sponge and an all-purpose cleaner to sanitise.

_HINT: Wash and put away dirty dishes daily to keep sink clear._

Cleaning your stove after use:
Once the cook top has cooled, put a few drops of suitable cleaner on it and rub it on with paper towel, a clean cloth, or a cleaning sponge. Then wipe the cook top with a damp cloth and dry it with a clean cloth or sponge. Soak rack in hot soapy water to remove grease and clean. Dry once cleaned.

*Hint: Do not use excessive water when cleaning cook top as this will trip the power in your room*

Regularly wipe down the outside of the hood by using a soft sponge or cloth and an all purpose cleaner.

Unplug the microwave, then clean the inside (top, sides, bottom, and door) with warm water or a solution of dish detergent. Use damp sponge to clean up spills as soon as possible.
