Photographing Your Exam Room

STEP 1
SCAN QR CODE USING YOUR SMARTPHONE

When you’re asked to photograph your room, you’ll be prompted to scan a QR code using your smartphone.

STEP 2
GRANT WEB APP PERMISSION TO USE YOUR CAMERA

You’ll need to allow the web app access to your camera. Click Allow permissions to continue.

STEP 3
PREPARE TO TAKE PHOTOS

You’ll need to take photos at three different angles and on eight sides of your room (24 photos in total). The web app will step you through the process.

STEP 4
TAKE PHOTOS

When you’re ready, click Let’s start and follow the instructions on screen. It’ll only take about 2 to 3 minutes to take the photos. Your supervisor won’t be able to see what you’re photographing, and your photos will be encrypted and stored securely in accordance with our privacy and security policies.

STEP 5
UPLOAD YOUR PHOTOS

Once you’ve taken all the photos, you’ll be prompted to upload them. After the photos have uploaded, go back to your computer to notify your supervisor.
