LACHLAN GLASCODINE
BACHELOR OF ENVIRONMENTAL ENGINEERING (HONOURS)
HOST ORGANISATION - MONASH UNIVERSITY ESOLUTIONS

WHAT ARE SOME OF THE BIG LEARNINGS OR HIGHLIGHTS FROM YOUR MITI PLACEMENT AT MONASH UNIVERSITY eSOLUTIONS?
A key learning was that of team diversity; it is a strength and will push the team forward in designing a robust and promising solution. A highlight was being able to work on a project with so many stakeholders and partners engaged.

WHAT ARE SOME THE KEY PROJECTS/TASKS/ACHIEVEMENTS THAT YOU COMPLETED?
Creating a Minimum Loveable Product: a web app to enhance student experience around study spaces. This app was designed by students for students and includes the following functionality: availability, bookability and overcrowding of study spaces.

IN WHAT WAY DO YOU THINK YOUR MITI PLACEMENT WILL ENHANCE YOUR FUTURE EMPLOYABILITY?
This placement has provided me with improved skills, and real character growth that I believe has made me more resilient as a person, along with being able to articulate these benefits.

WHAT WOULD YOU SAY TO YOUR FELLOW STUDENTS THINKING ABOUT APPLYING FOR THE MITI PROGRAM?
Throw yourself into the project even if you feel you’re unsure of the direction or believe you don’t have the knowledge for it - you will learn as you go and gain valuable skills on the way.
