

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It should be used in conjunction with the requirements of the course as specified in the Handbook. Please note that the map is subject to updates. Update version: 15 September 2023

E6011 Master of Professional Engineering – 2 years program [Entry level 2]

Specialisation - Chemical engineering Bioprocessing and food engineering stream

YEAR 1 Semester 1	CHE5110 Advanced thermodynamics	CHE5881 Advanced reaction engineering	ENG5100 Professional engineer in organisation and society	Chemical engineering enhancement unit	ENG0003 Continuous Professional Development				
YEAR 1 Semester 2	CHE5112 Advanced fluid dynamics	CHE5889 Food engineering and processing	CHE5113 Advanced separation processes	CHE5888 Sustainability and innovation					
YEAR 2 Semester 1	CHE5884 Process modelling and optimisation	ENG5001 Advanced engineering data analysis	ENG5005 Research methods	Chemical engineering enhancement unit					
YEAR 2 Semester 2	ENG5105 Integrated design	CHE5882 Biomass and biorefineries	ENG5006 Research practice	Chemical engineering enhancement unit					
Part A. Engineering foundation knowledge and application Part B. Engineering specialist knowledge and application Part D. Research and knowledge skills Part E. Professional practice									
Chemical eng	Chemical engineering enhancement units								
CHE5321 Adva CHE5322 Adva	Chemical engineering enhancement units ENG5002 Engineering entrepreneurship No offering in 2023 CHE5321 Advanced bioprocess technology CHE5322 Advanced biochemical engineering CHE5832 Nanostructured membranes for separation and energy production MTE5887 Additive manufacturing of polymeric and functional materials								

Please contact Course Advisers for enrolment advice.

Continuous Professional Development (CPD)

CHE5886 Advanced biopolymers

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It should be used in conjunction with the requirements of the course as specified in the Handbook. Please note that the map is subject to updates. Update version: 15 September 2023

E6011 Master of Professional Engineering – 2 years program [Entry level 2]

Specialisation - Chemical engineering

Engineering design stream

YEAR 1 Semester 1	CHE5110 Advanced thermodynamics	CHE5881 Advanced reaction engineering	ENG5100 Professional engineer in organisation and society	Chemical engineering enhancement unit	ENG0003 Continuous Professional Development			
YEAR 1 Semester 2	CHE5112 Advanced fluid dynamics	CHE5888 Sustainability and innovation	CHE5113 Advanced separation processes	Chemical engineering enhancement unit				
YEAR 2 Semester 1	CHE5884 Process modelling and optimisation	ENG5001 Advanced engineering data analysis	ENG5005 Research methods	Chemical engineering enhancement unit				
YEAR 2 Semester 2	ENG5106 Integrated des	ign project (12 points)	ENG5006 Research practice	Chemical engineering enhancement unit				
=	Part A. Engineering foundation knowledge and application Part B. Engineering specialist knowledge and application Part D. Research and knowledge skills Part E. Professional practice							
Chemical engineering enhancement units ENG5002 Engineering entrepreneurship No offering in 2023 CHE5883 Nanostructured membranes for separation and energy production CHE5886 Advanced biopolymers ENG5008 Work integrated learning MEC5888 Renewable energy systems MTE5882 Advanced polymeric materials MTE5887 Additive manufacturing of polymeric and functional materials								

Please contact Course Advisers for enrolment advice.

Continuous Professional Development (CPD)

Course progression map for 2023 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It should be used in conjunction with the requirements of the course as specified in the Handbook. Please note that the map is subject to updates. Update version: 22 September 2023

E6011 Master of Professional Engineering – 2 years program [Entry level 2]

Specialisation - Civil Engineering Structure stream

YEAR 1 Semester 1	CIV5170 Bridge design and assessment	CIV5178 Advanced water treatment	ENG5100 Professional engineer in organisation and society	CIV5899 Infrastructure information management	ENG0003 Continuous Professional Development		
YEAR 1 Semester 2	CIV5147 Advanced geomechanics	CIV5121 Building structures and technology	CIV5177 Advanced road engineering	CIV5136 Structural analysis			
YEAR 2 Semester 1	ENG5008 Work integrated learning or ENG5200 Engineering project risk management	ENG5001 Advanced engineering data analysis	ENG5005 Research methods	CIV5885 Infrastructure dynamics			
YEAR 2 Semester 2	ENG5105 Integrated design	CIV5888 Advanced computational methods	ENG5006 Research practice	CIV5887 Infrastructure rehabilitation and monitoring			
Part A. Engineering foundation knowledge and application Part B. Engineering specialist knowledge and application Enhancement learning Part D. Research and knowledge skills Part E. Professional practice							

Please contact Course Advisers for enrolment advice.
