

GRADUATE CERTIFICATE OF MAGNETIC RESONANCE IMAGING

ADVANCE YOUR ACADEMIC AND TECHNICAL EXPERTISE IN MAGNETIC RESONANCE IMAGING

A contemporary and evidence-based curriculum to keep you up-to-date with advanced and rapidly changing technologies.

- **Course code:** M4019
- **Study mode:** Online
- **Duration:** 1 year (part time)
- **Start date:** First semester (February)
Second semester (July)

Learning from experienced practitioners and leaders in medical imaging research, you'll explore MRI and its application to clinical diagnostic imaging, and build an advanced understanding of MR imaging techniques.

You'll gain the clinical judgement, decision making and leadership skills to shape your future practice and take the next step in your career — whether that be progressing to a leadership role, engaging in research or developing new career pathways within your workplace.

Delivered fully online, this course is ideally suited for working professionals, offering the quality of a Monash qualification with the flexibility to choose where and when you study.

COURSE STRUCTURE

The Graduate Certificate of Magnetic Resonance Imaging is a 24 credit point course, consisting of four units:

- Basics of MR including the physical principles and safety aspects
- Musculo-skeletal imaging
- Neurologic and body imaging
- Advanced methods and techniques

Depending on your prior qualifications, you may be eligible for credit, allowing you to fast-track your studies. Monash Bachelor of Radiography (Honours) graduates can apply for 6 credit points towards the Graduate Certificate of Magnetic Resonance Imaging.

WHO SHOULD STUDY THIS COURSE?

The Graduate Certificate of Magnetic Resonance Imaging is ideally suited for:

- qualified medical radiation practitioners and sonographers
- radiographers
- radiation therapists
- nuclear medicine scientists
- medical imaging professionals.

Internationally, professional bodies representing medical imaging scientists recognise the value of postgraduate study as a means of keeping pace with rapidly changing technology in this field, as well as enhancing the capacity of graduates to engage in MRI research.

WHY CHOOSE MONASH?

- We are ranked 37th globally in the 2025 QS World University Rankings.
- We are a Group of Eight (Go8) university and a founding member of the M8 Alliance, a prestigious network committed to improving global health.
- Our faculty takes a bench-to-bedside approach to everything we do — our clinical research is focused on directly improving outcomes for patients.

LEARN MORE

For more information about the Graduate Certificate of Magnetic Resonance Imaging, including entry requirements, please visit monash.edu/study/course/m4019

"MRI is a rapidly evolving, highly technical modality. All practitioners aspiring to work as part of a specialised MRI team must understand the principles and challenges faced. Graduate study in MRI at Monash University will equip you to understand these challenges."
