

Course progression map for 2027 commencing students

This progression map provides advice on the optimal sequencing of units and guidance on planning unit enrolment for each semester of study in conjunction with the required units outlined in the course 'Requirements' section of the [Handbook](#). Please note that the map may be updated to reflect changes to course requirements. Be sure to review it for the latest information before re-enrolling. Last updated: 3 August 2026 – *Pending finalisation (Subject to change)*

E6011 Master of Professional Engineering – 3 years program [Entry level 1]

Specialisation – Chemical engineering

Bioprocessing and food engineering stream

YEAR 1 Semester 1	CHE3161 Chemistry and chemical thermodynamics	CHE5888 Sustainability and innovation	ENG5001 Advanced data analytics for engineers	ENG5100 Professional engineer in organisation and society This unit is offered in both Semester 1 and Semester 2	ENG0003 Continuous Professional Development
YEAR 1 Semester 2	CHE2161 Mechanics of fluids	CHE2162 Materials and energy balance	CHE2163 Heat and mass transfer	CHE3162 Process control	
YEAR 2 Semester 1	CHE3165 Separations processes	CHE5881 Advanced reaction engineering	CHE5884 Process modelling and optimisation	Chemical engineering enhancement unit	
YEAR 2 Semester 2	CHE3164 Reaction engineering	CHE3166 Process design	CHE5112 Advanced fluid dynamics	CHE5113 Advanced separation processes	
YEAR 3 Semester 1	ENG5005 Research methods	CHE5110 Advanced thermodynamics	Chemical engineering enhancement unit	Chemical engineering enhancement unit	
YEAR 3 Semester 2	ENG5006 Research practice	ENG5105 Integrated design	CHE5882 Biomass and biorefineries	CHE5889 Food engineering and processing	

 Part A. Engineering foundation knowledge and application	 Part B. Engineering specialist knowledge and application	 Enhancement learning
 Part D. Research and knowledge skills	 Part E. Professional practice	

Chemical engineering enhancement units

ENG5002 Engineering entrepreneurship	ENG5008 Industry experience
CHE5321 Advanced bioprocess technology	MEC5888 Renewable energy systems
CHE5322 Advanced biochemical engineering	MTE5882 Advanced polymeric materials
CHE5883 Nanostructured membranes for separation and energy production	MTE5887 Additive manufacturing of polymeric and functional materials
CHE5886 Advanced biopolymers	MON5750 Monash Innovation Guarantee

Please contact [Course Advisers](#) for enrolment advice.

Continuous Professional Development (CPD)

CPD is a compulsory requirement for all Master of Professional Engineering students. It's a collection of all work, volunteering and personal and professional development opportunities. You must complete a total of **420 hours** of CPD activities and submit a series of reflections on your experience with particular reference to the development of each of the key Engineers Australia Stage 1 competencies. Further information is available on the [CPD website](#).

Specialisation – Chemical engineering

Engineering design stream

YEAR 1 Semester 1	CHE3161 Chemistry and chemical thermodynamics	Chemical engineering enhancement unit	ENG5001 Advanced data analytics for engineers	ENG5100 Professional engineer in organisation and society This unit is offered in both Semester 1 and Semester 2	ENG0003 Continuous Professional Development
YEAR 1 Semester 2	CHE2161 Mechanics of fluids	CHE2162 Materials and energy balance	CHE2163 Heat and mass transfer	CHE3162 Process control	
YEAR 2 Semester 1	CHE3165 Separations processes	CHE5881 Advanced reaction engineering	CHE5884 Process modelling and optimisation	CHE5110 Advanced thermodynamics	
YEAR 2 Semester 2	CHE3164 Reaction engineering	CHE3166 Process design	CHE5112 Advanced fluid dynamics	CHE5113 Advanced separation processes	
YEAR 3 Semester 1	ENG5005 Research methods	Chemical engineering enhancement unit	Chemical engineering enhancement unit	Chemical engineering enhancement unit	
YEAR 3 Semester 2	ENG5006 Research practice	ENG5106 Integrated design project (12 points)		CHE5888 Sustainability and innovation	

 Part A. Engineering foundation knowledge and application	 Part B. Engineering specialist knowledge and application	 Enhancement learning
 Part D. Research and knowledge skills	 Part E. Professional practice	

Chemical engineering enhancement units

ENG5002 Engineering entrepreneurship	MEC5888 Renewable energy systems
CHE5883 Nanostructured membranes for separation and energy production	MTE5882 Advanced polymeric materials
CHE5886 Advanced biopolymers	MTE5887 Additive manufacturing of polymeric and functional materials
ENG5008 Industry experience	MON5750 Monash Innovation Guarantee

E6011 Master of Professional Engineering – 3 years program [Entry level 1]

Specialisation – Civil Engineering

YEAR 1 Semester 1	CIV2206 Structural mechanics	CIV2282 Transport and traffic engineering	CIV2263 Water systems	CIV3285 Engineering hydrology	ENG0003 Continuous Professional Development
YEAR 1 Semester 2	CIV2242 Geomechanics 1	CIV2235 Structural materials	ENG5221 Project as a social system	ENG5100 Professional engineer in organisation and society This unit is offered in both Semester 1 and Semester 2	
YEAR 2 Semester 1	CIV3294 Structural design	CIV5178 Advanced water treatment	ENG5001 Advanced data analytics for engineers	Civil engineering enhancement units Complete 4 units (24 points): CIV5136 Structural analysis CIV5302 Traffic engineering and management CIV5305 Travel demand modelling CIV5314 Planning urban transport systems CIV5883 Surface water hydrology CIV5884 Water sensitive stormwater design CIV5885 Infrastructure dynamics CIV5887 Infrastructure rehabilitation and monitoring CIV5899 Infrastructure information management ENE5043 Quantifying sustainability in urban systems ENE5044 AI applications for civil and environmental engineers ENG5331 Railway engineering ENG5008 Industry experience MON5750 Monash Innovation Guarantee	
YEAR 2 Semester 2	CIV5147 Advanced geomechanics	CIV5121 Building structures and technology	CIV5177 Advanced road engineering		
YEAR 3 Semester 1	ENG5200 Engineering project risk management	CIV5170 Bridge design and assessment	ENG5005 Research methods		
YEAR 3 Semester 2	ENG5105 Integrated design	CIV5888 Advanced computational methods	ENG5006 Research practice		

 Part A. Engineering foundation knowledge and application

 Part B. Engineering specialist knowledge and application

 Enhancement learning

 Part D. Research and knowledge skills

 Part E. Professional practice

Please contact [Course Advisers](#) for enrolment advice.
