

CENTRE FOR MODELLING OF STOCHASTIC SYSTEMS

PHD STUDIES IN FINANCIAL MATHEMATICS

Topics include:

- Interest-Rate Modelling
- Electricity Derivatives Modelling
- Equity & Volatility Modelling
- Stochastic Economic Modelling
- Complex Systems

Scholarships: Students will be eligible to apply for APRA Scholarships & CSIRO Top-up Scholarships.

Successful PhD candidates will study for their PhD under the joint supervision of CMSS & CSIRO. PhD topics will be aligned to CSIRO research priorities and candidates will spend part of their PhD study on site at CSIRO.
