LEGEND	
SST (raw)	Student satisfaction with teaching (raw score) is the total of student responses to the four items, scaled linearly to range from 0 to 100.
SST (weighted)	Student satisfaction with teaching (weighted score) is derived from the raw score after applying the results of multiple linear regression analysis of all responses of the students you have taught, based on the nine relevant factors found to be statistically significant in influencing how students' rate teaching at the university level.
Teaching Faculty SST	Student satisfaction in Teaching Faculty score represents the average raw SST score of all students in all units within the purview of the relevant teaching faculty. Note the results exclude responses from the following organisational units: Malaysia National Subjects, Monash College Pty Ltd and Office of the DVC (Global Engagement).
Enrol	Number of students enrolled in unit offering.
Resp	Highest number of student responses within the teaching evaluation item.

Student satisfaction band	Score	SETU band
Low	1-34	Needing critical attention
Medium	35-64	Needing improvement
