We want to improve the human condition

Here’s a snapshot of some of the ways we’re doing this...

#1 in Australia for NHMRC grants in 2017.

#46 We’re ranked No.46 globally for Clinical, Preclinical and Health Sciences (Times Higher Education 2018).

43,000 An alumni network of more than 43,000 spanning over 90 countries worldwide.

$315m Awarded a multi-million-dollar NIH grant (US National Institutes of Health) to further our work in drug discovery to tackle antibiotic resistant superbugs.

A proud history of breakthroughs: We delivered Australia’s first IVF baby in 1980.

Monash is partnering with the Victorian government to build Australia’s first dedicated heart hospital, the Victorian Heart Hospital.

Acknowledgement
We acknowledge the traditional lands of Indigenous peoples.

Indigenous knowledges and Indigenous students
The faculty incorporates the Aboriginal and Torres Strait Islander Curriculum Framework in educating future health professionals. You’ll learn skills in respect, communication, safety and quality, advocacy and reflection to improve Indigenous health.

Monash is committed to facilitating the entry of Indigenous students into courses. There are a range of pathways, entry points, bursaries, scholarships, accommodation, tutorial support and cadetships. To learn more about entry and our Indigenous Access Interview, contact Gukwonderuk Indigenous Health staff at med.indigenoushealth@monash.edu or (03) 9905 3828.
Monash Medicine, Nursing and Health Sciences is Monash University’s largest research faculty and a leading provider of education for doctors, nurses and allied health professionals in Australia.

With a proud history of medical breakthroughs, we conduct research that makes maximum impact through an ongoing pursuit of excellence and innovation. We’re recognised globally for the breadth and depth of our research. Our discoveries advance scientific knowledge, solve complex global problems and change patients’ lives. We’re a global faculty, with a footprint that extends across the world through our networks and partnerships.

Our faculty comprises 10 schools and is home to a number of leading centres and research institutes, each with a unique purpose and focus. We offer a broad suite of educational programs across all areas of health from qualifying degrees right through to professional development for senior executives. Partnering with the state’s leading healthcare providers, our students have access to a range of clinical and fieldwork opportunities from early on in their degree and are ideally positioned to contribute to the global medical workforce.

We have the first and only university department in Australia solely dedicated to diabetes research.

This guide focuses on graduate qualifying courses. Our faculty also offers a range of specialist courses for health professionals. See our specific guide or monash.edu/study for information.

Course information fast facts. Look for these icons on each course page for key information.
“Our course required us to complete placements in a range of different settings. I experienced both clinical and public health environments. At both of my placements, Monash’s placement partners were highly supportive of my learning. They understood that I was still learning, and were willing to guide me when needed and tailored their practice to suit my learning needs.”

ANNA SCOBIE
Master of Dietetics (2017)
With so many competing messages about what to eat, dietitians can have a profound impact on an individual’s or a population’s health and wellbeing.

In this graduate course you’ll develop the professional and personal qualities required for dietetic practice in a variety of workplace settings. On-campus studies are combined with supervised professional practice placements, providing you opportunities to gain knowledge and skills in clinical practice, an understanding of population health food service, community nutrition and public health nutrition and project management. Professional practice placements may be in an urban or rural setting.

The Master of Dietetics includes studies in:
- personal development and professional practice
- determinants and influences of public health and nutrition
- nutrition fundamentals of health and disease
- food: from science to systems.

Entry requirements

**Entry Level 1**

96 points to complete

Duration: 2 years full-time

An Australian bachelor’s degree in a relevant area – for example, biomedical science, science, health sciences, nutrition, food science and exercise science (equivalent to an Australian undergraduate with a credit (60 per cent) average)¹.

**Entry Level 2**

72 points to complete

Duration: 1.5 years full-time

An Australian bachelor’s degree (or equivalent) in nutrition science with a credit (60 per cent) average (or qualification/experience or substitute that the faculty considers to be equivalent)².

Additional selection criteria

The undergraduate degree must include:
- Chemistry/Biochemistry four units – Biochemistry content with Chemistry (equivalent to 25 per cent of a year study load – two units) followed by Biochemistry (equivalent to 25 per cent of a year study load – two units).
- Human Biology and Human Physiology four units – Human Physiology content with Human Biology (equivalent to 25 per cent of a year study load – two units) followed by Human Physiology (25 per cent of a year study load – two units)
- Human Nutrition one unit (equivalent to 12.5 per cent of a year study load).
- Research Methods one unit (equivalent to 12.5 per cent of a year study load).

All applicants are required to submit a Supplementary Information Form, which is available online from the Department of Nutrition and Dietetics website (monash.edu/medicine/scs/nutrition/teaching/student-info), and applicants may be required to attend for extra assessment.

English language requirements

Please refer to the English language requirements on page 16.

The requirement for the IELTS English Language Proficiency Test is: IELTS score of 7.0 with no individual band score less than 6.5.

Special course requirements

Upon enrolment you’ll be asked to comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements.

You’ll also be required to obtain a Police Check (annual requirement) and a Working with Children Check. See monash.edu/medicine/study/student-services/mandatory-compliance

COURSE CODE: M6002

CRICOS CODE: 084910M
Medical Science and Doctor of Medicine

Our course equips you with the knowledge, skills and attributes of a beginning medical practitioner. We deliver a world-class course with a comprehensive and interdisciplinary approach to medical training.

With research-led teaching, modern facilities and challenging practical training, we’re committed to producing highly-accomplished graduates.

Our Bachelor of Medical Science and Doctor of Medicine program, has been designed in close consultation with doctors, healthcare professionals and leaders in the health and research sectors to give you the scientific background and clinical expertise to prepare you for your future medical career.

In this course you’ll get the opportunity to undertake clinical experience in some of the country’s most highly-recognised centres of medical care and expertise. Upon completion of your degree you’ll receive provisional registration with the Australian Health Practitioner Regulation Agency and the Medical Board of Australia. After completion of a compulsory internship in an approved hospital, you’ll become eligible for full registration.

Monash University currently offers a pathway into Medicine for students undertaking one of the specified Monash degrees. (See entry requirements.)

DID YOU KNOW?
If you’re an Indigenous student or have a rural background, you may be able to boost your chances of entry into this course by submitting additional information via the Dean’s Indigenous List or Dean’s Rural List schemes.

Entry requirements

Domestic applicants
To be eligible for consideration for graduate entry* you must have completed (or be in the final year of) one of these Monash University degrees:

> Bachelor of Biomedical Science (including double degrees)
> Bachelor of Pharmacy (Honours)
> Bachelor of Physiotherapy (Honours)
> Bachelor of Science with specified units

AND

> Academic achievement (minimum Weighted Average Mark of 70)
> Multiple Mini Interview (MMI)
> Situational Judgement Test (SJT).

(Note: You’re not required to undertake the GAMSAT.)

Special course requirements

Upon enrolment you’ll be asked to comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements.

You’ll also be required to obtain a Police Check (annual requirement) and a Working with Children Check.

It’s highly recommended that students hold a current Provide First Aid certificate prior to enrolling in this course. See monash.edu/medicine/study/student-services/mandatory-compliance

English language requirements

Please refer to the English language requirements on page 16.

The requirement for the IELTS English Language Proficiency Test is: IELTS score of 7.0 with no individual band score less than 6.5.

Please check the website for further details and information about the admissions requirements and Bonded Medical Places (BMP) for this course: monash.edu/medicine/som/grad-entry
NURSING PRACTICE

Looking for a new career where no two days are the same? Are you passionate about connecting with people and improving the quality of care for those facing challenging health issues? You could achieve this through our integrated evidence-based accelerated learning program.

The Master of Nursing Practice offers the opportunity to embark on a career that’s flexible and globally recognised; one where you can support, care for and improve the lives of people in the community.

This innovative degree provides an accelerated pathway into nursing for graduates possessing non-nursing degrees. Our intensive program gives you the opportunity to switch careers and gain an entry qualification into a highly-skilled and sought-after profession.

This course is an effective blend of theory and practice, with about half of your study week spent in class and the other half in clinical practice, allowing you to apply and reinforce knowledge quickly.

Offering hands-on clinical experience in metropolitan hospitals in Victoria, the Master of Nursing Practice prepares you for career opportunities in a diverse range of settings.

Gain the knowledge and clinical skills required to provide high quality nursing care. Upon graduation you’re trained in problem-solving and clinical reasoning; competent and safe in your practice of clinical nursing skills and able to work within legal and ethical standards of practice.

Entry requirements
To be eligible for admission, you must have:

> an Australian bachelor’s degree (or equivalent, excluding a Bachelor of Nursing degree obtained in Australia) with a credit (60 per cent) average, OR
> a qualification/experience or satisfactory substitute that the faculty considers to be equivalent, AND
> have completed either a minimum of one six-credit-point unit of study in human anatomy/physiology or a related area from any recognised tertiary institution or the Monash Human Biology short course. For further details visit monash.edu/medicine/nursing/humanbiology

Special course requirements
Upon enrolment you’ll be asked to comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements.

You’ll also be required to obtain a Police Check (annual requirement) and a Working with Children Check. See monash.edu/medicine/study/student-services/mandatory-compliance

English language requirements
Please refer to the English language requirements on page 16.

The requirement for the IELTS English Language Proficiency Test is: IELTS score of 7.0 with no individual band score less than 6.5.
“I was born in Ecuador and lived there until I was 17. After graduating from my first degree in biomedical science, I taught English in China and volunteered in Ghana facilitating health programs at the community level. Since then I’ve completed a Master of Public Health and worked in South Sudan, Ecuador, the US and Togo in youth sexual health.

“After working with nurses in different contexts and organisations, I became passionate about a career where I could directly help people, be professionally and intellectually stimulated, while being physically active.”

Ana chose to undertake the Master of Nursing Practice to expedite her transition into a nursing career. “The intense learning curve has by far been the most rewarding aspect of my degree. I’ve never experienced a period of time where I learned more and have been able to apply new skills so quickly. It’s inspiring to be guided by people who are so passionate about the profession. So far I’ve completed placements in cardiothoracic and trauma wards at The Alfred. The opportunity to consolidate theoretical learning with an integrated placement has been invaluable.

“I still feel very passionate about working with vulnerable populations in the area of sexual and reproductive health. Considering the refugee population in Melbourne, I’d love to work as a community health nurse with vulnerable women and youth. This course has taught me that the possibilities of the nursing profession are varied so I’m now also excited about other paths, such as continuing in an acute ward such as trauma, where I really enjoyed the intensity of the work.”

ANA FRIED
Master of Nursing Practice
Occupational therapist Kate Garam helps people participate in life to their fullest potential.

Having worked as an allied health assistant and remedial and manual lymphatic drainage therapist, Kate was seeking a career change within the health sector. She followed her interest in healthcare and enrolled in our Master of Occupational Therapy Practice. This accelerated graduate program, taught at our Peninsula campus, enabled Kate to qualify as an occupational therapist within two years.

Kate’s most valued experiences from her occupational therapy studies were the placements. “One of my standout placements was a collaborative project with Insight School for the Blind and Vision Impaired. I helped develop a resource to facilitate children with a vision impairment to read recipes and locate items within their school fridge, independently. This project extended my knowledge of occupational therapy to support a larger community. It was a very valuable experience and one I was humbled and proud to be a part of.”

Kate completed her graduate degree in 2016 and now works as an occupational therapist at Noah’s Ark, a not-for-profit community organisation.

KATE GARAM
Master of Occupational Therapy Practice (2016)
The primary goal of occupational therapy is to enable people of all ages and abilities to participate in everyday life activities. With the accelerated degree at Monash, you can be ready to make an impact in just two years.

Occupational therapists aim to address barriers that prevent individuals, families and groups from accessing their communities in ways that are important for health and wellbeing.

The course curriculum is centred around Scenario-Based Learning (SBL) and organised into the following units:
- foundations of occupational therapy
- humans as occupational beings
- occupational performance
- enabling change in human occupation
- transition to practice
- advanced professional practice.

You’ll also complete an extensive community-based project. The course also includes 1000 hours of fieldwork education that complies with the World Federation of Occupational Therapists (WFOT) Minimum Standards for the Education of Occupational Therapists (2002).

**Entry requirements**
An Australian bachelor’s degree (or equivalent) with at least a high credit (65 per cent) average, and have completed either:
- A minimum of at least one six-credit-point unit of study in human anatomy/physiology or a related area from any recognised tertiary institution, OR
- The Monash Human Biology short course (monash.edu/medicine/nursing/study/humanbiology), OR
- BMA1901 Human Structure and Function as a single-unit enrolment at Monash.

Applicants who are already registered occupational therapists in Australia or overseas aren’t eligible to be considered for this course.

**Special course requirements**
Upon enrolment you’re required to provide a medical certificate specifying your current health and immunisation status.

You’ll also be asked to obtain a Police Check (annual requirement) and a Working With Children Check on enrolment in the program. See monash.edu/medicine/study/student-services/mandatory-compliance

**English language requirements**
Please refer to the English language requirements on page 16.

The requirement for the IELTS English Language Proficiency Test is: IELTS score of 7.0 with no individual band score less than 6.5.
The Master of Radiation Therapy is designed for those with a degree in science or a related health discipline wishing to become a registered radiation therapist.

You’ll gain knowledge and understanding of the scientific concepts and principles underpinning radiation therapy practice, including optimisation of equipment, quality assurance, patient care and the biological consequences of ionising and non-ionising medical radiations. You’ll undertake 57 weeks of clinical practice during the program.

This is the only distance-learning, graduate-entry radiation therapy program offered in Australia, and it may be available if you’re interstate and want to study in your home state.

Students will be registered with the Medical Radiations Practice Board of Australia through the Australian Health Practitioners Regulation Agency for the duration of the course.

**Entry requirements**

> An Australian bachelor’s degree (or equivalent) in science or health science with at least a credit (60 per cent) average, including the study of ‘full-body’ human anatomy and physiology (or equivalent bridging course*), OR
> Qualification/experience or satisfactory substitute that the faculty considers to be equivalent, AND
> Applicants must also have passed either Year 12 level Physics or an equivalent bridging course*.

*Details of equivalent bridging courses in Physics and Human Anatomy and Physiology can be obtained by contacting the Department of Medical Imaging and Radiation Sciences via email: radiation.sciences@monash.edu

**Extra requirements**

You’ll be required to undertake additional assessment and will be invited via email to attend the University or a nominated site. You must be available to attend the additional assessment in person at the specified location.

You must undertake a mandatory clinical visit to a radiation therapy centre and provide documentary evidence of this visit at the time of submitting your application for the program. If you don’t provide evidence that you’ve completed this visit, you won’t be eligible for consideration. Clinical centre visit dates and the clinical visit verification form can be found on the Department of Medical Imaging and Radiation Sciences Website: monash.edu/medicine/spahc/radiography/teaching/postgrad/master-radiation-therapy

**Additional Selection Criteria**

Clinical placement allocations and offers may be affected by the location of the institute and priority may be given to applicants from a given home state.

**Special course requirements**

Upon enrolment you’ll be asked to comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements.

You’ll also be required to obtain a Police Check (annual requirement) and a Working with Children Check. See monash.edu/medicine/study/student-services/mandatory-compliance

**English language requirements**

Please refer to the English language requirements on page 16.

The requirement for the IELTS English Language Proficiency Test is: IELTS score of 7.0 with no individual band score less than 7.0.
“After finishing high school I completed a Bachelor of Biomedical Science. I’ve always had an interest in the functionality of the body and wanted to work with technology and patients. This led me to study the Master of Radiation Therapy, as I felt it combined all my interests. I was drawn to the off-campus delivery and how accelerated the course was, being only two years.

“The placements in this course were definitely a huge highlight for me. Being able to apply what I’d learnt at university directly into a clinical setting to help patients was and continues to be very gratifying. Placements really allow you to be part of the team and experience what it’s like to work as a qualified radiation therapist on a daily basis. It really solidified my passion for this profession.

“The Master of Radiation Therapy really prepared me to work clinically as a radiation therapist, which I’m currently doing in Warrnambool. Everything you learn is directly transferable into the real world. It’s a dynamic and informative course that really leads to a rewarding career, and you have the opportunity to work within an industry that’s always evolving and making an impact in the lives of patients and their families.”

RACHEL CHUA
Master of Radiation Therapy (2016)
"I’m originally from Zambia and moved to Australia in 2011. I studied media and public relations in my undergraduate degree but when it came to my master’s I wanted to do something different, something I loved and would reflect who I am and what my passion is. I took a year off to really think about what I wanted to do and social work stood out.

“All my life I’ve seen how disrespectfully women have been treated, and growing up in a society where it’s seen OK to be abusive towards women affected me and made me want to be the voice of the voiceless. I believe women and men should have equal rights and no one deserves to be treated with disrespect because of their gender. Being a social worker will help me make a difference to society, as it starts with me.

“Studying the Master of Social Work has made me more empathetic and I look at life differently to how I used to. The opportunity to do placement while studying has expanded my knowledge and helped me put theory into practice, preparing me for the future. I hope to eventually work with women and men who are victims of abuse."

NCHIMUNYA KAFULA
Master of Social Work (2017)
SOCIAL WORK

Are you passionate about advocating for society’s most vulnerable? Social work is a profession committed to the pursuit of human rights and social justice, the enhancement of the quality of life and helping to empower and make a positive change for those individuals and groups.

With expertise developed over a 40-year history, the Master of Social Work prepares you for a career as a professional qualified social worker through a blend of theory, skills development and supervised professional practice. You’ll have opportunities for group-based learning, community engagement, practice research and integration of social work theory and contemporary practice. Experts from various professional fields share real-life experiences each week.

Emphasising community engagement and leadership, this fully-accredited degree builds on knowledge acquired by graduates through previous higher education.

Particular areas of strength include:

> gender studies
> sustainability
> child wellbeing and health.

We have an international reputation for its research into areas such as child abuse, family violence and corrections. Thousands of Monash social work graduates are making a difference around the world.

The course is accredited by the Australian Association of Social Workers (AASW), and includes 1000 hours of supervised professional practice.

Entry requirements
To be eligible for admission, you’ll need to have:

> an Australian bachelor’s degree (or equivalent) with at least a credit (60 per cent) average, AND
> completed two units in the study of society* (as required by the Australian Association of Social Workers), AND
> past academic standing is also a significant factor in selection.

Special course requirements
Upon enrolment you’ll be asked to comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements.

You’ll also be required to obtain a Police Check (annual requirement) and a Working with Children Check. See monash.edu/medicine/study/student-services/mandatory-compliance

English language requirements
Please refer to the English language requirements on page 16.

The requirement for the IELTS English Language Proficiency Test is: IELTS score of at least 6.5 with individual band scores required at 6.5 for Reading, 6.5 for Listening, 6.0 for Writing and 6.0 for Speaking.

Master of Social Work

*Commonwealth Supported Places (CSP) are available to eligible applicants. The CSP rates published in this guide are indicative and can vary depending on unit enrolment.
MEDICAL ULTRASOUND

Looking to become an accredited sonographer? Our course facilitates your entry into the medical ultrasound profession, preparing you to work as a general sonographer in the public and private sector, both nationally and internationally.

You’ll be introduced to foundation studies in medical ultrasound and must be engaged in supervised clinical ultrasound training practice for a minimum of three days per week, where you can apply your coursework knowledge in a practical setting.

You have the option to exit the course early with the Graduate Diploma in Medical Ultrasound, where you’ll meet the qualification requirement for accreditation as a sonographer in Australia. By completing the master’s program, you’ll develop advanced research skills and have the opportunity to complete an ultrasound research project in collaboration with clinical partners.

Entry requirements
To be eligible for admission, you must have either:
> an Australian bachelor’s degree in radiography and medical imaging (or equivalent) with at least a pass (55 per cent) average, OR
> an Australian bachelor’s degree in a related science or health science with at least a pass (55 per cent) average, including the study of ‘full-body’ human anatomy and physiology (or equivalent bridging course*), OR
> qualification/experience or satisfactory substitute that the faculty considers to be equivalent, AND
> applicants must also have passed either Year 12 level physics or equivalent bridging course*.

Extra requirements
Following completion of the two foundation units (SON4000 and SON4010), you must be engaged in supervised clinical ultrasound training practice for a minimum of three days per week (or equivalent). It’s your responsibility to secure your clinical training placement.

Competition for limited clinical training placements is very high. Applicants from a non-imaging background are strongly advised to secure their clinical placement before undertaking this program. Monash University doesn’t accept any responsibility for finding clinical placements.

International students wishing to undertake the master’s degree in their country of residence must also satisfy the Department of Medical Imaging and Radiation Sciences in respect to the appropriateness of their proposed ultrasound clinical training placement and clinical supervision. Approved international ultrasound clinical training placements in the past have been limited to Singapore, Hong Kong and New Zealand.

English language requirements
Please refer to the English language requirements on page 16.

The requirement for the IELTS English Language Proficiency Test is: IELTS score of 6.5 with no individual band score less than 6.0.
ENTRY REQUIREMENTS FOR COURSEWORK DEGREES

Academic and additional entry requirements
To view graduate academic and additional entry requirements refer to the Monash Find a Course at: monash.edu/study and the Monash Handbook at monash.edu/pubs/handbooks

English entry requirements
All students who apply for a Monash University course must satisfy English entry requirements. Different English entry levels apply to Monash courses, as outlined in this guide.

If you’ve completed several measures of English proficiency over a period of time, only the most recent demonstration of English is considered. For more information regarding English entry requirements, refer to the Admission to Coursework Courses and Units of Study Procedures available at policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-study-procedures.html

Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements.

English is the language of instruction
Tertiary studies
You may meet the English language requirement if you’ve undertaken studies at an institution where English is the language of instruction, communication and assessment for all aspects of study for the whole of the educational institution, by satisfactorily completing the equivalent to at least 48 Monash University credit points (one year of full-time study) at Australian VET diploma level or higher, or at undergraduate award level or higher, which must be taken within two years prior to the Monash course commencement date.

Secondary school
You may meet the English language requirement if you’ve completed your final four years of secondary school at an institution that teaches entirely in English.

More detailed information is available at monash.edu/admissions/english-language-requirements and monash.edu/__data/assets/pdf_file/0020/802235/Admission-to-Coursework-Courses-and-Units-of-Study-Procedures.pdf

English proficiency tests
The following English proficiency tests are accepted by Monash University:
> Academic IELTS (International English Language Testing System). See www.ielts.org
> Internet/Paper-based TOEFL (American Test of English as a Foreign Language). See www.ets.org
> Pearson Test of English (Academic). See www.pearsonpte.com
> Cambridge Certificate in Advanced English (CAE) and Cambridge Certificate of Proficiency in English (CPE). See www.cambridgeenglish.org

Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements and will only accept English proficiency tests taken within 24 months prior to the Monash course commencement date.

Please note that all entry requirements for Monash University are subject to change.

Monash University English Language Levels
Monash University English language levels for Academic IELTS, Internet-based TOEFL and Pearson Test of English (Academic) are detailed in the below table. Please note that different English language levels apply to Monash University courses, as outlined in this guide.

FEES

Graduate coursework programs are available as either full-fee paying places or Commonwealth Supported Places (CSP). A CSP is subsidised by the Government so you’re required to pay a student contribution amount and subject to the Student Services and Amenities Fee (SSAF).

HELP schemes
The Government administers the Higher Education Loan Program (HELP) to assist students with the cost of their fees. Eligible Commonwealth supported students may pay their student contribution amounts through the HECS-HELP loan and access SA-HELP loan to pay the SSAF. Eligible full-fee paying students may use the FEE-HELP loan to pay their tuition fees. For more information about the Government support and loans, visit monash.edu/enrolments

Fees and duration quoted are for study at Australian campuses only. Full fees quoted are in Australian dollars and are the annual average fees per 48 credit points of study for 2018 unless otherwise stated. Fees are adjusted annually. Please see monash.edu/fees for updates.

SCHOLARSHIPS

At Monash, we’re committed to attracting academic high achievers and producing internationally-competitive graduates.

Coursework scholarships
If you’re a prospective or continuing coursework graduate student, there’s a variety of scholarships and bursaries available. The number of scholarship and bursary offers made in any one year varies.
monash.edu/scholarships

ADMISSION AND APPLICATION

Before you apply, use monash.edu/study to check:
1. Entry requirements
2. English requirements
3. Extra requirements
4. Documentation required – for example, academic transcripts, proof of citizenship, curriculum vitae, etc.
5. Fees
6. When courses start.

Applying for graduate degrees by coursework programs
Applications for graduate coursework programs can be made online via monash.edu/study/apply

All applicants for coursework programs must meet the institutional English language requirement. See monash.edu/admissions/english-language-requirements.html
