Faculty of Engineering
Summer Research Program 2019-2020

Project Title: **Human-robot interactions in structural assembly**

Supervisor(s): Dr Mehrdad Arashpour  
Department: Civil Engineering  
Email: mehrdad.arashpour@monash.edu

Website profile of project supervisor:

**Objective**

Optimise the quality, safety and speed of structural assembly using robots in presence of human collaborators

**Project Details**

Experiment on human-robot interactions in the lab and learn implications for assembly performance

**Prerequisites**

Coding in MATLAB/Python, Familiarity with Robot Operating System (desired)

**Additional Information**

You will be interviewed as a candidate for this project. Please send your CV and academic transcripts to mehrdad.arashpour@monash.edu
