MASTER OF ADVANCED NURSING

NURSING EDUCATION

Passing on your experience and knowledge is one of the most rewarding aspects of your career in nursing. Gain knowledge and develop leadership skills in a variety of nursing education contexts. With Commonwealth Supported Places available, there’s never been a better time to further your nursing career.

Develop an understanding of how to apply contemporary, innovative teaching and learning practices to health professions education across a variety of contexts, including clinical education and academic teaching.

You’ll learn from leaders within nursing education as you explore education theories, learning and teaching strategies and assessment, feedback and evaluation.

On successful completion, you’ll have access to a wide range of career pathways including nursing or management positions with industry, government, or independent professional practice.

In the Nursing Education specialisation you will:

- Develop an understanding of how to apply contemporary, innovative teaching and learning practices to health professions education.
- Develop leadership skills in a variety of nursing education contexts that includes curriculum development.
- Explore education theories, learning and teaching strategies and assessment, feedback and evaluation.

You may be eligible to exit early with a Graduate Certificate or Graduate Diploma in Advanced Nursing if the award requirements have been met.

Visit monash.edu/study/course/m6006 to see what you’ll learn in the Nursing Education specialisation.

Course code
M6006
CRICOS Code: 098319M

Study mode
On-campus (Peninsula)
Multi-modal (Peninsula)

Intakes
First semester: February
Second semester: July

Durations
Part time: 2-3 years
Full time options available

“Since completing the nursing education specialisation, I feel my clinical practice has benefited, I have become more analytical and my critical thinking skills have improved. I am able to understand how important current research is in the field of nursing.”

Cedric Saldanha
Master of Advanced Nursing graduate (2020)
ELECTIVES

As part of this Master’s degree, you’ll have the opportunity to customise your degree around your interests, with a choice of electives. You can pick nursing electives, or even units from another area of study (with the approval of the course convenor).

Explore a list of approved electives at handbook.monash.edu/current/courses/M6006

If you are studying in the on-campus mode you may need to attend either/both the Clayton and Peninsula campuses depending on where your elective is offered and some travel between campuses is expected.

RESEARCH PATHWAY

Monash is recognised globally for research excellence. As part of the Master of Advanced Nursing, you may have the opportunity to work on a nursing research project, with one of our expert supervisors. Completing this can be used as a pathway to a graduate research degree, such as Doctor of Philosophy.

WHY CHOOSE MONASH?

■ Our content is developed and delivered by recognised experts.
■ We offer flexible learning delivery modes – study on campus or online.
■ You can study by all coursework or combine coursework and a minor thesis.
■ Choose elective units that allow you to meet your career aspirations.
■ Network with like-minded nurses wanting to advance their careers.
■ We are ranked #14 in the world and #1 in Victoria for Nursing (QS World University Rankings 2022).
■ COMMONWEALTH SUPPORTED PLACES (CSP) AVAILABLE.

“I have an extensive background in emergency nursing, including working as a clinical nurse educator in a busy metropolitan emergency department. I am passionate about the education of our future nurses and have developed a keen interest in the use of simulation to bridge the learning gap between classroom theory and clinical practice.”

Samantha Dix
Specialisation Coordinator
