MAKING AN IMPACT IN HEALTHCARE

Doctoral graduates at Monash Nursing and Midwifery develop transferrable skills through a professional development program that ensures you are ready for a career in senior leadership across nursing and midwifery clinical practice environments, and in academia.

Your program of research will prepare you as a leader of evidence-based practice. Our academics are health professionals with strong partnerships with health services in Australia and internationally. They will supervise and mentor you in a collaborative manner.

A Monash research degree can give you a distinct advantage.

COURSE STRUCTURE

**RESEARCH**

- Carry out a program of research undertaken in the principal areas of research offered by Monash Nursing and Midwifery. You will be required to conduct a prescribed program of research under direct supervision of a member of academic staff. Your supervisor, in consultation with you, is responsible for developing the research program.

**THESIS**

- Submit a thesis, which may include published work directly relevant to the argument of the thesis, provided such work has been written during the period of candidature and has not been presented for any other degree or diploma at this university or any other institution.

You may be able to transfer to the Doctor of Philosophy program if you demonstrate a high level of understanding and competence during your Master of Philosophy – any transfer is subject to approval from Monash University and Monash Nursing and Midwifery.

**Course code**

3438

CRICOS Code: 047818C

**Study mode**

- On-campus (Clayton, Peninsula)
- Multi-modal (Clayton, Peninsula)

**Intakes**

Throughout the year

**Durations**

- Full time: 2 years
- Part time: 4 years

“Monash provided me with more than just your ordinary study experience. My fellow students and I had access to great facilities, the latest resources and caring supervisors who are experts in their field.”

Gilny Rantung

Doctor of Philosophy (Nursing) graduate
MONASH NURSING AND MIDWIFERY RESEARCH

Our research leads the change in nursing, midwifery and healthcare practice. We are in a discipline that continually develops and evolves. Clinical research is essential in this development, finding new ways of managing people’s health and improving patient care.

Our research focus is on clinical, education and health services research that addresses healthcare across the lifespan. Our collaborative connections with multiple health services allow for early implementation of healthcare innovations and help to ensure evidence-based practice.

Our areas of research excellence cover:

- Innovations in Healthcare and Workforce
- Prevention and Management of Acute and Chronic Conditions
- Ageing and End of Life Care
- Translation to Practice
- Prevention of healthcare associated infections.

WHY CHOOSE MONASH?

- Ranked as one of the leading nursing schools in Australia, Monash Nursing and Midwifery has strengths in research related to clinical practice, education, health services and workforce issues.
- Medicine, Nursing and Health Sciences is renowned for the quality and impact of its research. By undertaking your graduate studies at Monash University, you have the opportunity to be a part of this proud tradition of research excellence. Monash is committed to providing the highest quality of graduate research education in a stimulating, supportive and professional environment.
- Network with like-minded nurses and midwives wanting to advance their careers and evidence-based practice
- Ranked #14 in the world and #1 in Victoria for Nursing (QS World University Rankings 2022)
- Excellence in Research for Australia (ERA) ranking of 4 (above world standard)

“As a registered nurse and academic, I am passionate about building research capacity to ensure better health outcomes for people receiving care. My own research is based on my extensive clinical expertise working with older people and I aim to enhance wellbeing and promote safe and evidence-based care for older people.”

Associate Professor Helen Rawson
Director Research Degrees
