Research Publications 2014-2016

2014

281. Zhong-Da Zeng, Jia Li, Helmut M. Hugel, Guo-Wang Xu, Philip J. Marriott,
Interpretation of comprehensive two-dimensional gas-chromatography data using advanced chemometrics
TrAC Trends in Analytical Chemistry, 53 (2014) 150-166 ERA Ranking A

282. Mohammad W. Amer, Blagoj Mitrevski, W. Roy Jackson, Alan L. Chaffee and Philip J. Marriott
Multidimensional and Comprehensive Two-Dimensional Gas Chromatography of Dichloromethane Soluble Products from a High Sulfur Jordanian Oil Shale
Talanta 120 (2014) 55–63 ERA Ranking B.

283. Elsuida Kondo, Philip J. Marriott, Rhiannon M Parker, Konstantinos A. Kouremenos, Paul Morrison and Mike Adams
Metabolic profiling of yeast culture using gas chromatography coupled with orthogonal acceleration accurate mass time-of-flight mass spectrometry: Application to biomarker discovery
Analytica Chimica Acta, 807 (2014) 135-142. ERA Ranking A

284. Celale Kirkin, Blagoj Mitrevski, Gurbuz Gunes and Philip J. Marriott
Combined effects of gamma-irradiation and modified atmosphere packaging on quality of some spices
Food Chemistry, 154 (2014) 255-261. ERA Ranking A

285. Renée L Webster, Paul M Rawson, David J Evans and Philip John Marriott
Synthetic phenolic antioxidants in conventional and alternatively-derived middle distillate fuels analysed by gas chromatography with triple quadrupole and quadrupole time of flight mass spectrometry

286. Chris S. Hawes, Yada Nolvachai, Chadin Kulsing, Gregory P. Knowles, Alan L. Chaffee, Philip J. Marriott, Stuart R. Batten and David R. Turner
Metal-Organic Frameworks as stationary phases for mixed-mode separation applications
Chemical Communications, 2014, 50 (28), 3735 – 3737 ERA Ranking A* DOI: 10.1039/c4cc00933a

287. Yada Nolvachai, Chadin Kulsing, Reinhard I. Boysen, Milton T.W. Hearn and Philip J. Marriott
A miniaturised molecularly imprinted polymer extraction method for the gas chromatographic analysis of flavonoids

288. Chadin Kulsing, Yada Nolvachai, Annie Xu Zeng, Sung-Tong Chin, Blagoj Mitrevski and Philip J. Marriott
From molecular structures of ionic liquids to predicted retention of fatty acid methyl esters in comprehensive two-dimensional gas chromatography
289. Celale Kirkin, Blagoj Mitrevski, Gurbuz Gunes, and Philip J. Marriott
Essential Oil Analysis of Irradiated Spices Using Comprehensive Two-Dimensional Gas Chromatography

290. Sung-Tong Chin and Philip J. Marriott*
Multidimensional Gas Chromatography Beyond Simple Volatiles Separation

291. Stephanie A. Boer, Yada Nolvachai, Chadin Kulsing, Laura J. McCormick, Chris S. Hawes, Philip J. Marriott and David R. Turner
Liquid-Phase Enantioselective Chromatographic Separations Using Interpenetrated, Homochiral Framework Materials

292. Blagoj Mitrevski and Philip J. Marriott
Evaluation of quadrupole-time-of-flight mass spectrometry in comprehensive two-dimensional gas chromatography
*Journal of Chromatography A. 1362 (2014) 262-269 ERA Ranking A*. DOI: 10.1016/j.chroma.2014.08.053

293. Sung-Tong Chin, Yada Novachai and Philip J. Marriott
Enantiomeric separation in comprehensive two-dimensional gas chromatography with accurate mass analysis
*Chirality 26 (2014) 747-753 ERA Ranking B. DOI: 10.1002/chir.22280

294. Yong Foo Wong, Constanze Hartmann and Philip J. Marriott
Multidimensional gas chromatography methods for bioanalytical research
*Bioanalysis 6(18) (2014) 2461-2479 ERA Ranking -*. DOI: 10.4155/BIO.14.186

295. M.C. Gor, K. Samykanno, N. Mantri, E. Pang, P. J. Marriott
Development of molecular markers associated with strawberry quality traits using a subtracted diversity array
*ISHS Acta Horticulturae 1049: VII International Strawberry Symposium. ERA Ranking -*

2015

296. Isabel Silva, Manuel A. Coimbra, António S. Barros, Philip J. Marriott, Sílvia M. Rocha
Can volatile organic compounds be markers of sea salt?
*Food Chemistry. 169 (2015)102-113. DOI: 10.1016/j.foodchem.2014.07.120

297. Sung-Tong Chin and Philip J. Marriott
Review of the role and methodology of high resolution approaches in aroma analysis
*Analytical Chimica Acta, 854 (2015) 1-12. DOI: 10.1016/j.aca.2014.06.029

298. Yada Nolvachai, Chadin Kulsing, Reinhard I. Boysen, Maria T. Matyska, Joseph J. Pesek, Philip J. Marriott, Milton T.W. Hearn
Comparison of the performance of different silica hydride particles for the solid-phase extraction of non-volatile analytes from dark chocolate with analysis by gas chromatography-quadrupole mass spectrometry
299. Siti. U. Mokhtar, Sung-Tong Chin, Vijay Ranganathan, Douglas R. MacFarlane, Olaf H. Drummer and Philip J. Marriott
Direct ionic liquid extractant injection for volatile chemical analysis – a gas chromatography sampling technique

300. Yada Nolvachai, Chadin Kulsing and Philip J. Marriott,
Thermally sensitive behavior explains unusual orthogonality observed in comprehensive two-dimensional gas chromatography comprising a single ionic liquid stationary phase

301. Yong Foo Wong, Noel Davis, Sung-Tong Chin, Tony Larkman and Philip J. Marriott
Enantiomeric distribution of selected terpenes for authenticity assessment of Australian *Melaleuca alternifolia* oil

Insights into the origin of the separation selectivity with silica hydride adsorbents

303. Yong Foo Wong, Sung-Tong Chin, Patrick Perlmutter and Philip John Marriott

304. Michely Capobiango, Raíssa Bittar Mastello, Sung-Tong Chin, Evelyn de Souza Oliveira Lopes, Zenilda Lourdes Cardeal, Philip J. Marriott
Identification of aroma-active volatiles in banana *terra* spirit using multidimensional gas chromatography with simultaneous mass spectrometry and olfactometry detection

305. Renée L. Webster, David J. Evans and Philip J. Marriott
Detailed chemical analysis by using multidimensional gas chromatography – mass spectrometry, and bulk properties of low temperature oxidized jet fuels

306. Renée L. Webster, David J. Evans and Philip J. Marriott
Multidimensional Gas Chromatographic Analysis of Low Temperature Oxidized Jet Fuels - Formation of Alkyldihydrofuranones

307. Sung-Tong Chin, Graham T. Eyres and Philip J. Marriott
Application of Integrated Comprehensive/ Multidimensional Gas Chromatography with Mass Spectrometry and Olfactometry for Aroma Analysis in Wine and Coffee

308. Ming Jiang, Chadin Kulsing, Yada Nolvachai and Philip J. Marriott
Two-Dimensional Retention Indices Improves Component Identification in Comprehensive Two Dimensional Gas Chromatography of Saffron

Analytical Chemistry. 87 (2015) 5753-5761 doi:10.1021/acs.analchem.5b00953

309. Sabrina Kroger, Yong Foo Wong, Sung-Tong Chin, Jacob Grant, David Lupton and Philip J. Marriott
Evaluation of dynamic interconversion of enantiomers in comprehensive two-dimensional gas chromatography using enantioselective columns in both first and second dimensions. Journal of Chromatography A. 1404 (2015) 104-114 DOI:10.1016/j.chroma.2015.05.049

310. Raíssa Bittar Mastello, Michely Capobiango, Sung-Tong Chin, Magali Monteiro, Philip J. Marriott
Identification of odour-active compounds of pasteurised orange juice using multidimensional gas chromatography techniques
Food Research International. 75 (2015) 281-288 . DOI:10.1016/j.foodres.2015.06.014.

311. Yong Foo Wong, Rachel N. West, Sung-Tong Chin, and Philip J. Marriott
Evaluation of Fast Enantioselective Multidimensional Gas Chromatography Methods for Monoterpenic Compounds: Authenticity Control of Australian Tea Tree Oil

312. Yada Nolvachai, Chadin Kulsing and Philip J. Marriott
Pesticides Analysis: Advantages of Increased Dimensionality in Gas Chromatography and Mass Spectrometry

313. Chadin Kulsing, Yada Nolvachai, Helmut M. Hügel, and Philip J. Marriott
Advances in Gas Chromatography with Highly Polar Ionic Liquid Phases

314. Rachel West, Yong Foo Wong and Philip J. Marriott
Enantioselective Multidimensional Gas Chromatography for the Analysis of Selected Monoterpenic Compounds in Melaleuca alternifolia (Tea Tree) oil.
http://www.warwick.ac.uk/reinventionjournal/issues/volume8issue2/west

2016 (14 papers)

315. Siti U. Mokhtar, Sung-Tong Chin, Chee-Leong Kee, Min-Yong Low, Olaf H. Drummer, Philip J. Marriott
Rapid determination of sildenafil and its analogues in dietary supplements using gas chromatography – triple quadrupole mass spectrometry

316 Konstantinos A. Kouremenos, Oliver A. H. Jones, Paul D. Morrison, Philip J. Marriott

317. Yada Nolvachai, Chadin Kulsing and Philip J. Marriott
In Silico Modeling of Hundred Thousand Experiments for Effective Selection of Ionic Liquid Phase Combinations in Comprehensive Two-Dimensional Gas Chromatography

*Analytical Chemistry, 88 (2016) 2125–2131.* DOI: 10.1021/acs.analchem.5b03688

318. Chadin Kulsing, Yada Nolvachai, Paul Rawson, David J. Evans, and Philip J. Marriott
Continuum in MDGC Technology: From Classical Multidimensional to Comprehensive Two-Dimensional Gas Chromatography

319. Giselle Mae M. Pacot, Lyn May Lee, Sung Tong Chin and Philip J. Marriott
A Training Exercise in Gas Chromatography–Mass Spectrometry and Determination of Kerosene Components

*Journal of Chemical Education, 93 (2016) 742–746.*
http://dx.doi.org/10.1021/acs.jchemed.5b00830,

320. Khan M. Sharif, Sung-Tong Chin, Chadin Kulsing and Philip J. Marriott
The Microfluidic Deans switch: 50 years of progress, innovation and application

*TrAC Trends in Analytical Chemistry 82 (2016) 35–54.* DOI: 10.1016/j.trac.2016.05.005.

321. Carin von Mühlen and Philip J. Marriott
Transfer of one-dimensional chromatographic methods to comprehensive two-dimensional gas chromatography and good practices to experimental quality control

*Scientia Chromatographia 8 (2016) 63–77*

322. Philip John Marriott and Carin von Mühlen
The modulation ratio in comprehensive two-dimensional gas chromatography: a review of fundamental and practical considerations (A razão de modulação em cromatografia gasosa bidimensional abrangente: uma revisão de aspectos fundamentais e práticos)

*Scientia Chromatographia 8 (2016) 7-23*

323. Khan M. Sharif, Chadin Kulsing, Sung-Tong Chin and Philip J. Marriott
Relating pressure tuned coupled column ensembles with the solvation parameter model for tunable selectivity in gas chromatography

324. Noel W. Davies, Tony Larkman and Philip J. Marriott
Determination of enantiomeric distribution of terpenes for quality assessment of Australian tea tree oil

*Journal of Agriculture & Food Chemistry, 64(23) (2016) 4817-4819*

325. Renée L. Webster, Paul M. Rawson, David J. Evans and Philip J. Marriott
Quantification of trace fatty acid methyl esters in diesel fuel by using multidimensional gas chromatography with electron and chemical ionisation mass spectrometry.

326. Khan M. Sharif, Chadin Kulsing and Philip J. Marriott
Pressure tuning of first dimension columns in comprehensive two-dimensional gas chromatography

*Analytical Chemistry. 88 (18) (2016) 9087-9094.* DOI: 10.1021/acs.analchem.6b02017

327. Yijun Pan, Jennifer L Short, Christopher KH Choy, Annie X Zeng, Philip J Marriott, Yuji Owada, Martin J Scanlon, Christopher J. H. Porter, Joseph A Nicolazzo.
Fatty Acid-binding Protein 5 at the Blood-Brain Barrier Regulates Cognitive Function by Maintaining Brain Docosahexaenoic Acid Levels

Yong Foo Wong, Thais M. Uekane, Claudia M. Rezende, Humberto R. Bizzo and Philip J. Marriott

Analysis of copaifera oleoresin using comprehensive two-dimensional gas chromatography and gas chromatography with soft and cold electron ionisation mass spectrometry
*Journal of Chromatography A*, 1477 (2016) 91-99. DOI:10.1016/j.chroma.2016.11.038
