DISCLAIMER

We do not claim authorship or rights to any of the information listed, except when referring to the CGRSC. This information is to be used as a guide only and is not intended to replace official advice or information from course coordinators, CCS or Monash University.

THE CENTRAL CLINICAL SCHOOL

Founded in 2001 under the Faculty of Medicine, Nursing and Health Sciences, the Central Clinical School (CCS) is an Australian-first translational training program for research students. CCS encompasses fifteen departments and research centres that specialise in clinical and biomedical research and education, including Anaesthesiology and Perioperative Medicine (APOM), Australian Centre for Blood Diseases (ACBD), Diabetes, Gastroenterology, Immunology and Pathology, Infectious Diseases, Medicine (Alfred Hospital and Peninsula Clinical School), Neuroscience, Monash Alfred Psychiatry Research Centre (MAPrc), Respiratory Research@Alfred, Surgery, Melbourne Sexual Health Centre (MSHC), National Centre for Healthy Ageing (NCHA), and National Trauma Research Institute (NTRI) - in collaboration with Alfred Health, Baker Heart and Diabetes Institute, Burnet Institute and Monash University School of Public Health and Preventive Medicine (SPHPM). Through multidisciplinary research and collaborations with leading research and healthcare institutions both within the precinct and globally, CCS is able to move towards health outcomes in improved patient care.

GRADUATE RESEARCH AT CCS

CCS is at the forefront of translational research. Graduate research students at CCS include graduate certificate, masters, and PhD students. CCS graduate research students are supported by several staff members to ensure that you have a positive experience throughout your candidature.

THE CCS GR STUDENT COMMITTEE

The CCS Graduate Research Student Committee (CGRSC) is a student-run committee that represents the voices and research of all CCS graduate research students.

PURPOSE OF COMMITTEE

The main objective of CGRSC is to serve as the primary liaison and advocate to the graduate research executive committee of the school and FGRC regarding CCS graduate research students' concerns and activities. As this is a network for the students by students, we also prioritise improving the social cohesion between the Alfred Alliance graduate research students.

A MESSAGE FROM CGRSC CO-CHAIRS

Welcome graduate research students! We are very excited to share with you the 2023 Graduate Research Student Handbook. Being located at the Alfred Research Alliance, we are very fortunate to be surrounded by such a diverse number of departments. This facilitates collaboration and recognition of the complexities of medical research. However, as graduate students, it can sometimes be confusing to navigate all the requirements of your degree. That's why back in 2021, the CGRSC developed a graduate research student handbook. In this handbook you will find all the information needed to navigate the highs and lows of your graduate research journey at CCS. This includes information about understanding your candidature, completing coursework, student health and wellbeing, and of course, where to find the best coffee around campus!

We welcome graduate research students interested in joining the committee to get in contact with us. We are always on the lookout for enthusiastic students to join the committee. Lastly, we wish you all the best with your candidature. We know it will be a fulfilling and rewarding experience, so make sure to enjoy the journey!

SOCIAL MEDIA

Keep up to date with all the latest events and happenings around campus by following us on our socials and joining our slack channel.

THE MONASH GRADUATE ASSOCIATION

The Monash Graduate Association (MGA) is the representative body for all graduate research and coursework students enrolled at Monash University.

So, what sets us apart from the University services? The MGA is an independent, not-for-profit association governed by graduate students, for graduate students.

Each year, up to fifteen graduate students are elected to form the MGA Executive Committee (MGAEC). The role of this committee is to represent graduate student interests within the University and make key decisions on how the MGA operates.

STUDENT ADVOCACY & ACADEMIC SUPPORT

All Monash graduate students are welcome to seek free advice and advocacy from the MGA on any issue relating to their study. Our student advocacy and academic support service is free, confidential and runs independently from the University. Our team of advocates can assist graduate students on a range of issues including:

- Academic, general and research misconduct
- Academic progress
- Grievance process
- Intellectual property
- Research progress
- Supervision

SOCIAL EVENTS & SEMINARS

We understand graduate students have a lot going on and have limited opportunities to socialise. That's why the MGA organises an annual calendar of social events like trivia nights, free lunches, workshops and seminars. These are offered on-campus, off-campus and online. Most events are free of charge but where there is a fee, the MGA subsidises the cost for Monash graduate students.

At the CCS, we have several events that we run for the GR student cohort. Our social events are a great chance for the students spread across the variety of buildings here to get together and hang out, discussing both their GR degrees but also just general life chit-chat! These include:

Fortnightly MGA Coffee and Chat Morning

Hudson and MMC Coffee Social

Nesso

Alternate Mondays & Fridays, 11 am – 12 pm

Free coffee and MGA merchandise to collect!

[Register here](#)

AMREP Coffee Social

New Order Café

Alternate Mondays & Fridays, 11 am – 12 pm

Free coffee and MGA merchandise to collect!

[Register here](#)

Monthly MGA CCS Pub Night

College Lawn Hotel

First Thursday of the month, 5 pm – 7 pm

Free drink!

[Register here](#)

Monthly HDR@ Clayton Social Evening

Café Cinque Lire

First Wednesday of the month, 4 pm – 5 pm

[Register here](#)

Peninsula HDR Social Lunch

Upper Deck Cafe

Fortnightly on Thursdays, 12:30 pm – 1:30 pm

[Register here](#)

Additionally, we provide a weekly virtual Shut Up & Write session to stay motivated and keep your thesis on track.

Virtual Shut Up & Write

Via Zoom

Every Tuesday, 11:15 am – 1:15 pm

[Register here](#)

We also have monthly Professional and Scientific Development Seminar Series, in which we invite speakers from various areas of Monash, to discuss topics of relevance for Masters and PhD students at the precinct. The details for these are provided below:

Professional and Scientific Development Seminar Series

Via Zoom

Occur on the third Thursday of the month, 11 am-12 pm

Recordings are provided in case you cannot attend

If you have any seminar you would like in particular, please let us know!

Finally, we also host an End of Year Event with the CGRSC. This normally involves a long lunch and games at a local pub in the month of December, to celebrate the end of another successful year!

THE GENDER EQUITY DIVERSITY AND INCLUSION COMMITTEE

The CCS Gender Equity Diversity and Inclusion (GEDI) committee is a grassroots research and advisory committee to advocate for gender equity and diversity within the Central Clinical School (CCS). The committee is comprised of a cross-section of CCS members including researchers, educators, graduate students and professional staff, with the primary goal of addressing inequalities within the School and to support diverse workplace cultures.

This committee aims to promote diversity, equity and inclusion across numerous themes:

- Gender equity and respectfulness amongst staff and students
- Indigenous staff and students
- Culturally and linguistically diverse backgrounds
- Diverse genders, sexes and sexualities
- Disabilities and ongoing health conditions
- Mental health and wellbeing
- Inclusion regardless of socio-economic background

PURPOSE OF COMMITTEE

The committee serves as a neutral and confidential space where any issues of workplace harassment, discrimination, or cultural insensitivities can be raised, and support and assistance provided. The committee also welcomes any suggestions and feedback. Please feel free to reach out to the committee during the course of your studies. More information about CCS GEDI committee initiatives and resources can be accessed via:

<https://www.monash.edu/medicine/ccs/equity-diversity-inclusion>

STUDENT SUPPORT SERVICES

GRADUATE STUDY CONCERNS

If you have any concerns about your Graduate Certificate/ Masters/ PhD degree progression or supervisors, feel free to contact the Graduate Research Student Services Coordinator, Ms Sharmila Ramesh, to organise a short 1-on-1 meeting with one of our GR coordinators (Prof Nicola Harris or A/Prof Nigel Jones) to discuss your concerns.

The MGA is also able to provide free advice and advocacy and you can book an appointment with an MGA advocate here:

<https://mga.monash.edu/get-help/advocacy/>

LEAVE ENTITLEMENTS

Full time GR students are entitled to **20 working days of annual leave**. You do not need to apply for annual leave, but you do have to arrange it with your supervisor.

Other types of leave are also available. These include a leave of absence for:

- Leave for personal and professional commitments
- Sick leave or carer's leave
- Defence reserve service leave
- Jury service
- Firefighting and emergency assistance
- Family violence leave

You may also apply for parental, maternity and adoption leave, and an extended period of leave in exceptional circumstances.

For more information on types of leave and how to apply, please see:

<https://www.monash.edu/graduate-research/support-and-resources/handbooks/content/chapter-four/4-1#:~:text=You%20are%20entitled%20to%20annual,14>

MGA WELFARE ASSISTANCE GRANTS

The MGA offers grants for basic food items, emergency accommodation, rent, utilities, textbooks, visa extensions, placement and internship travel costs, dealing with domestic violence situations and graduation ceremonies. If you are struggling in any way the MGA Welfare Assistance grants are available all year round. Eligibility criteria apply. For more information, please visit:

<https://mga.monash.edu/get-help/mga-welfare-assistance-program/>

SUPPORT SERVICES

Disability Support Services

Monash promotes access and equity for students who have a disability, ongoing medical or mental health condition. More information on disability support services can be found here:

<https://www.monash.edu/students/support/disability>

Graduate Student Parents

The MGA also provide support to graduate student parents. This includes fortnightly parents' catch up, family-friendly social events, family-friendly study spaces, and parenting rooms, among others. For more information, please visit:

<https://mga.monash.edu/support-guides/graduate-student-parents/>

LGBTIQA+ Students

The MGA has compiled a list of resources which may be of help for LGBTIQA+ students, and the University is committed to supporting our diverse student community. For more information of resources from MGA, Monash University, and external resources, please see:

<https://mga.monash.edu/support-guides/lgbtqa-students/>

For more information regarding Monash University support services and resources, the Ally Network, gender affirmation support, and locations of all-gender toilets, please see:

<https://www.monash.edu/students/support/lgbtqa>

William Cooper Institute

The William Cooper Institute promotes and advocates for connection and engagement for Aboriginal and Torres Strait Islander Peoples and communities across and within Monash University. To learn more about the William Cooper Institute, please visit:

<https://www.monash.edu/indigenous-australians/about-us>

English Language Help

English Connect is a helpful resource run by Monash to help improve communication skills. To find out more, please visit:

<https://www.monash.edu/english-connect>

There are also free English classes near Clayton campus. These are run independently through Monash Uniting Church, not Monash University. To find out more, please visit:

<http://monashunitingchurch.org.au/activities/english-conversation-classes/>

International Students

Moving to Australia from abroad can be a difficult transition. There are many resources and services available to international graduate students from both the MGA and Monash University. For more information, please see the following links:

<https://www.monash.edu/students/support/international>

<https://mga.monash.edu/support-guides/international-graduate-students/>

The Australian government also provides information on studying in Australia for international students. For more information, please see:

<https://www.studyaustralia.gov.au/>

In addition, Insider Guides provide useful information for international students in Melbourne in regard to everyday life. For example, they provide information on cost of living, Australian culture, and tips for getting around. For more information, please see:

<https://insiderguides.com.au/>

International Student Legal Information

Inner Melbourne Community Legal has created a free online legal information resource for situations international students may face in Victoria. Information includes advice on housing rights, fines, feeling unsafe and legal information. For more information, please see:

<https://ishelp.org.au/>

Further information on dealing with Police and Protective Services in Victoria can be found in the following booklet provided by Victoria Legal Aid:

https://mga.monash.edu/wp-content/uploads/2020/05/vla-resource-police-powers_0.pdf

STUDENT HEALTH AND WELLBEING SERVICES

It is important to take care of your wellbeing and health while you are studying, and graduate research students may face many challenges throughout their degree.

MEDICAL SERVICES

A range of medical services are available to all students, their families and Monash staff. For more information on the range of services available, please visit:

<https://www.monash.edu/students/support/health/medical/services>

International students at Monash are now able to get confidential 30-minute health checks in person or via teleconference (phone or video) with a nurse. They can also assist you in making an appointment with a doctor or counsellor if needed. Appointments can be booked here:

<https://www.hotdoc.com.au/medical-centres/caulfield-east-VIC-3145/monash-university-health-service-caulfield/doctors>

COUNSELLING SERVICES

Monash University offers a counselling service at the Alfred Precinct as well as other campuses to help you with issues such as study life, anxiety, depression, loneliness, addiction, negative feelings, relationship issues and family issues. Counsellors provide both video and phone telehealth consultations. **For Monash students, appointments will be free.** Monash staff can also receive up to six free counselling sessions via the staff – employee assistance program (EAP). EAP is also available to immediate family members. For more information on these services, please visit:

<https://www.monash.edu/students/support/health/counselling>

To arrange an appointment, call the Counselling Service on (03) 9905 3020.

Free and confidential 24/7 telephone counselling is also available on 1300 788 336 for students.

Counselling at Alfred Precinct

Mio Ihashi is the counselling contact person for the Alfred Precinct and appointments are via Zoom. You can request an appointment using the form below or email Mio directly. For emails, please mention in the email which campus you are at.

FOR DOMESTIC, FAMILY AND SEXUAL VIOLENCE SUPPORT

Sexual Assault Crisis Line

Counselling, support and advocacy for survivors of recent or past sexual assault, including childhood sexual abuse

5pm to 9am, everyday support via telephone

P: 1800 806 292

1800RESPECT

Counselling and information for people affected by family and sexual violence

24/7 advice and support via telephone and webchat

P: 1800 737 732

<https://www.1800respect.org.au/help-and-support/telephone-and-online-counselling>

FOR ALCOHOL AND OTHER DRUG SUPPORT

Counselling online

Online chat counselling for people affected by alcohol or other drug use

24/7 advice and support via telephone and webchat

Email, peer and SMS support available

P: 1800 888 236 (for those residing in Victoria)

<https://www.counsellingonline.org.au/find-support>

FOR GAMBLING SUPPORT

Gambler's Help

Support for people with gambling problems, family and friends close to them, and those just wanting to cut back or regain control

24/7 advice and support via telephone

Phone and video counselling available

P: 1800 858 858

FOR WELLBEING SUPPORT

GriefLine

Support for people experiencing the loss of someone or something important in their lives

8am to 8pm, Monday to Friday advice and support

Book a grief support call available

P: 1300 845 745

<https://griefline.org.au/get-help/free-telephone-support/>

FOR LGBTIQA+ SUPPORT

QLife

Anonymous and free LGBTI peer support and referral. Talk about sexuality, identity, gender, bodies, feelings or relationships

3pm to midnight, everyday advice and support via telephone and webchat

P: 1800 184 527

<https://www.qlife.org.au/get-help>

MGA SERVICES

The MGA also provide a range of services, resources and events for students to help support their mental health and wellbeing. For more information, please visit:

<https://mga.monash.edu/support-guides/mental-health-wellbeing/>

MENTAL HEALTH PROGRAMS

For students looking to learn more about common mental health issues, how to support others going through a difficult time, or to enrol in mental health literacy programs, Monash provides a range of modules and training programs. Please see the following link for more information:

<https://www.monash.edu/students/support/health/mental-health/programs>

CCS MENTAL HEALTH FIRST AID OFFICERS

At CCS, many staff have undergone mental health first aid training and are available for support on a local level. A list of current mental health first aid officers can be found below:

Dr Yardenah Brickman

STUDENT SAFETY AND SECURITY

Your safety is a priority. If you would like information on what to do if you, or someone you know, has experienced concerning, threatening or inappropriate behaviour such as:

- Assault and threats
- Sexual harm
- Technology-facilitated abuse
- Stalking
- Family violence
- Scams
- Harassment
- Racism
- Discrimination
- Bullying
- Hazing
- Self-harm and suicidal behaviour

Please visit the following links:

<https://www.monash.edu/students/support/safety-and-security/concerning-behaviour>

<https://www.monash.edu/students/support/safety-and-security>

CAMPUS SECURITY

Security services are available at Caulfield, Clayton, Parkville and Peninsula campuses. In the case of emergency at these sites, please call **9905 3333** (or 333 on a Monash phone).

ALFRED HOSPITAL

For Alfred Switchboard, please call **(03) 9076 2285**.

For security, please call **(03) 9076 2042** or **0410 221 020**.

MONASH MEDICAL CENTRE

For Monash Health Switchboard, please call **(03) 9594 6666**.

MONASH THRIVE

Monash Thrive is dedicated to promoting and sustaining mental health and wellbeing for all Monash staff and students.

They provide resources for:

- **Supporting mental health**
<https://www.monash.edu/thrive/what-is-mental-health>
- **Supporting cognitive health**
<https://www.monash.edu/thrive/cognitive-health>
- **Promoting wellbeing**
<https://www.monash.edu/thrive/international/promoting-wellbeing>
- **Coping with loneliness**
<https://www.monash.edu/thrive/international/coping-with-loneliness>
- **Coping with academic pressure and study stress**
<https://www.monash.edu/thrive/academic-stress>
- **Managing work life balance**
<https://www.monash.edu/thrive/work-life-balance>
- **Seeking help, and providing help for others**
<https://www.monash.edu/thrive/seeking-help>
- **Planning for the future**
<https://www.monash.edu/thrive/planning-the-future>
- **The impact of lifestyle on mental health**
<https://www.monash.edu/thrive/lifestyle>

Additional resources are available for international students, including how to cope with culture change. Monash Thrive International can be accessed with the following link:

<https://www.monash.edu/thrive/international>

STUDY SUPPORT SERVICES

MONASH CONNECT

Monash Connect is available to provide students with support, information and advice when needed. This includes:

- A personalised guide to courses
- Information on alternative pathways into Monash University
- Enrolment assistance
- ID cards (M-Pass)
- Fee payment information and services
- Student transcripts, letters and forms
- Emergency loans and grants and hardship help
- Travel concessions and parking permits
- Information on public transport

Monash Connect international support services include:

- Change of residency status
- Issuing confirmation of enrolment (CoE)
- Visa compliance and renewal
- Visa advice and verification of student forms

CONTACT US

Call Monash Connect on +61 3 9902 6011

<https://www.monash.edu/students/support/connect>

WIFI ON CAMPUS

All Monash students can access free WiFi whilst on-site at all Australian Monash University campuses. Details can be found below:

Network name: Eduroam

Login: Monash student email and password

MONASH ID CARD (M-PASS)

A Monash ID card (M-Pass) is required to access the printers at CCS Monash. You can input your username and password manually on the printers, but it is easier to access them with your M-Pass. Instructions for obtaining an M-Pass can be found here:

<https://www.monash.edu/students/support/connect/id-cards>

IT HELP

eSolutions provides a range of IT support to Monash students and staff. For more information about their services, please visit:

<https://www.monash.edu/esolutions>

Alternatively, for help with a matter, you can call the service desk or lodge an online request:

Monash eSolutions

Call the Service Desk on 9905 1777

MyServices: Online Service Desk Support

Lodge a request for help with accounts & passwords, devices, email, online learning and classroom technology, printing, software, zoom, audio visual services, and more!

<https://servicedeskonline-myit.onbmc.com/dwp/app/#/page/s5rafqri>

SOFTWARE CATALOGUE

All Monash students also have access to a large catalogue of software for use on both Monash and personal devices. This includes GraphPad prism, EndNote, Microsoft Office, SPSS, MATLAB, among others. For the full software catalogue, please visit:

<https://www.monash.edu/esolutions/software/catalogue>

INDUCTIONS AND TRAINING

COMPULSORY TRAINING

CCS students are expected to undertake a variety of inductions and training as part of their orientation and prior to being granted access to local areas and laboratories.

Please check your Monash Moodle “**CCS GR students**” unit for compulsory inductions.

These include:

- Monash Graduate Research Induction (myDevelopment)
- School Induction, including occupational health and safety

Monash Moodle can be accessed via:

<https://lms.monash.edu/my/>

It is also highly recommended to watch the CCS GR student information and orientation video available in the “**CCS GR Students**” unit on Monash Moodle.

CCS GR Student Information and Orientation Video

You will find much of the important information regarding your degree in this Moodle module and the orientation video is found in the Orientation tab (shown in pictures below).

The top screenshot shows the Monash Moodle 'My units' page. A yellow box highlights the 'CCS GR Students - 2020' unit card. The bottom screenshot shows the course page for 'CCS GR Students 2020'. The 'Orientation' tab is highlighted with a yellow box. Below the tabs, there is a section for 'School contact information' and a list of resources, including 'CCS GR Orientation slides intranet link' and '27th March 2020 Orientation video'.

MGA GR ORIENTATION INFORMATION

If you cannot make a campus orientation session, the MGA has provided a summary of important details at the following link:

<https://mga.monash.edu/get-help/research-postgraduates/orientation/>

GR OHS TRAINING

Postgraduate students have various OHS training requirements. A list of these requirements can be found at:

<https://sites.google.com/a/monash.edu/ccsintranet/services/student-services/gr-ohs-training>

Annual emergency training is also expected to be completed by all GR students. Emergency training at the Alfred Research Alliance (ARA) is compulsory and is held in person or via Zoom. Information regarding the date and time is emailed from the OHS coordinators throughout the year.

Specific OHS Training (if relevant to your area of study)

Some laboratories and/ or projects will require additional OHS training via online MyDevelopment modules and, in some circumstances, in-person training. MyDevelopment can be accessed via MyMonash under the 'Research' tab. Please use the following link to access MyMonash:

<https://my.monash/campusm/home#menu>

The online myDevelopment modules can be time consuming, so dedicate time to completing these modules. Please contact your local department safety officer for in-person training (where required) once you have completed the online training modules.

Common modules include:

- Biosafety Basic Principles; and Biosafety Module 2
- Gas Cylinders Basic Safety Principles
- Cryogenic Material Basic Safety Principles
- Hazardous Substances and Dangerous Goods Awareness
- Basic Principles of Ionising Radiation Safety
- Manual Handling Basic Principles

CONTACTS FOR LOCAL AREA AND LABORATORY INDUCTIONS

Your local CCS Research Services or Safety Officer can provide inductions for your relevant building/department.

CCS RESEARCH SERVICES TEAM

For Dept Neuroscience, Dept Infectious Diseases, Dept Gastroenterology, MAPrc, Alfred Centre Offices (levels 4, 5, 6):

Dr Rachael Borg

Technical Manager

Work days: Monday - Thursday

E: rachael.borg@monash.edu

M: +61 (0)419 625 846 (preferred)

T: +61 3 9903 0804

Office located on level 6, Alfred Centre

For Dept of Immunology and Pathology, Dept of Diabetes, Monash ICU Animal Facility:

Dr Rebecca Reismanis

Senior Technical Officer

E: rebecca.reismanis@monash.edu

M: +61 (0)429 935 946 (preferred)

T: +61 3 9903 0738

Office located on level, 6 (Immunology), Burnet Tower

For ACBD, Dept of Medicine, Dept of Surgery, Dept Gastro labs:

Dr Yardenah Brickman

Senior Technical Officer

E: yardenah.brickman@monash.edu

M: +61 (0)458 960 321

Office located on level 1 (ACBD), Monash Building

For CCS Equipment repairs, CCS storerooms and general CCS support:

Dr Mahira Arooj

Senior Technical Officer

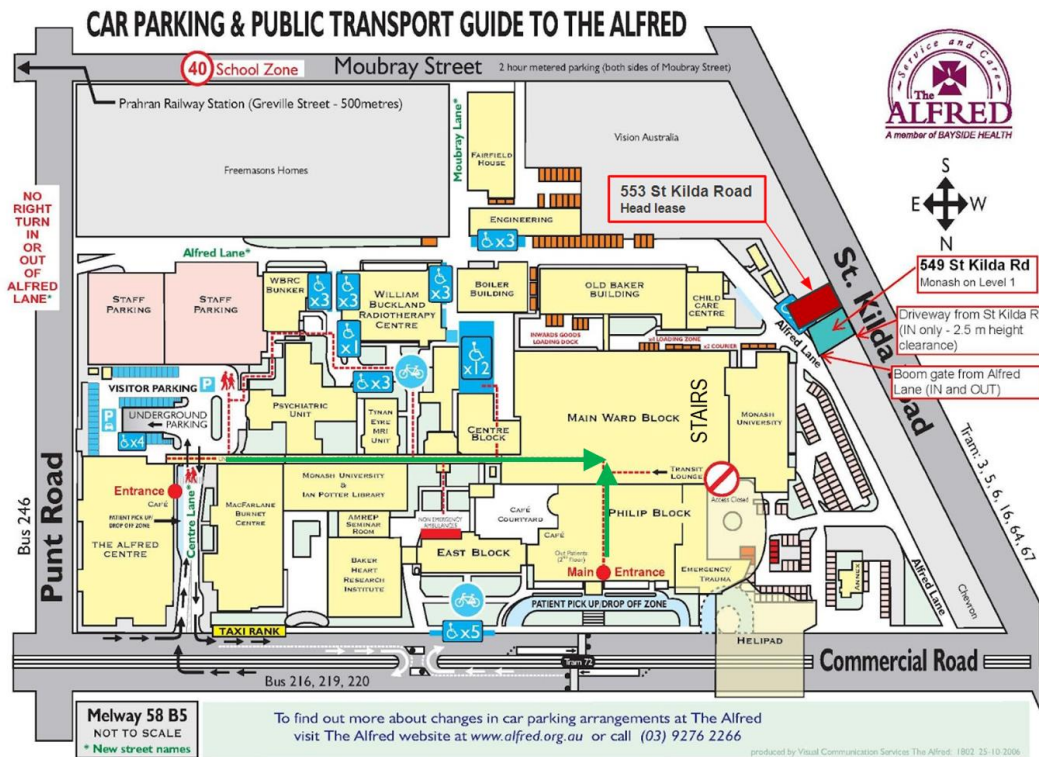

E: mahira.arooj@monash.edu

M: +61 (0)460 629 401

Located on level 6, Alfred Centre

HOW TO GET TO ALFRED SECURITY FOR ID PHOTO ACCESS CARDS

Have you just finished an induction, have a signed Security Access Form and need to get to Alfred Security? Alfred Security operates from **9am - 11am** and **2pm - 4pm** and is located within the Main Ward Block of the Alfred Hospital on the LG floor. Enter via the main entrance or Alfred Centre Lane (green arrows). Take the stairs down to Lower Ground and security is to the left.

ETHICS APPROVAL

Human studies ethics approval

In order to conduct research involving human participants, you must have a current GCP certificate (free to obtain online). Your supervisor will also need to apply to have you approved on the ethics project through the Alfred Human Research Ethics Committee (HREC).

Animal studies ethics approval

In order to conduct research on animals and handle them, you need to be added to your lab's animal ethics project by your supervisor through the AMREP animal ethics committee (AEC). You will undergo a short interview with a PAC staff member and be tested on your responsibilities and understanding of the project. You will be expected to read and have a copy of "The Code" [Code of Conduct for Scientific Procedures using Animals under Alfred Research Alliance licences](#).

PLATFORM TECHNOLOGIES AND FACILITIES

At Monash, a wide variety of equipment and specialised platforms are available for your research. A list of facilities available through the Alfred Research Alliance can be found below:

<https://www.alfredresearchalliance.org.au/resources/platform-technologies/>

Equipment and services are also available at other Monash sites for researchers, as well as industry individuals. The services offered by Monash Research Platforms can be explored further here:

<https://www.monash.edu/research/infrastructure>

FLOOR INDUCTIONS

A large majority of the research platforms available through the Alfred Research Alliance are located in the Burnet Tower. You will need to be inducted onto the floor where the equipment is located before you can proceed to use it. To do this, please contact the respective Senior Technical Officer.

BOOKING SYSTEM FOR PLATFORMS

The majority of equipment available through the research platforms at the Alfred Research Alliance can be booked through **iLab** using the following link:

<https://monash.ilab.agilent.com/landing/63>

All Monash employees and students are able to log into iLab with their Monash authentication and password. Many of the research platforms require registration to be able to submit samples, or book and use equipment. Always ensure you discuss with your supervisor your research plan. **All equipment users must be registered with the respective platform;** however, some lab groups have nominated individuals registered with each platform who can submit samples on your behalf.

MONASH BIOINFORMATICS PLATFORM (MBP)

The Monash Bioinformatics Platform (MBP) is a hub for the network of bioinformaticians who support the University and its affiliates. MBP has expertise in cutting-edge computational techniques in areas such as genomics, proteomics and structural biology. MBP is also a partner in technical training and infrastructure development.

CONTACT US

E: bioinformatics.platform@monash.edu

ARA FLOW CYTOMETRY CORE FACILITY (ARAFlowCore)

The facility offers comprehensive training and education, and experimental design and protocol guidance specifically targeting effective data generation and interpretation in the field of flow cytometry.

The facility offers services catering for **both animal and human cell analyses and sorting**.

CONTACT US

E: ara.flowcore@monash.edu or

Ms Mélanie Le Page

Flowcore@ARA Platform Manager

E: melanie.lepage@monash.edu

T: +61 9903 0661 (office)

T: +61 9903 0601 (facility)

LOCATION

- Levels 1 and 2 Monash Building (ACBD)
- Level 6 Burnet Tower (Dept of Immunology and Pathology)

MONASH MICRO IMAGING (MMI)

MMI@ARA manages core imaging resources within the Baker Heart and Diabetes Institute, Monash Central Clinical School and the Burnet Institute. Resources include three confocal and several conventional fluorescence microscopes within PC2 laboratories and a dedicated deconvolution microscope within a PC3 laboratory.

CONTACT US

E: MMI-Enquiries@monash.edu or

Dr Iska Carmichael

MMI@ARA Platform Manager

E: iska.carmichael@monash.edu

T: +61 9903 0142

LOCATION

Microscopes are located on:

- Level 2 Burnet Tower (ACBD)
- Level 6 Burnet Tower (Dept of Immunology and Pathology)

MONASH HISTOLOGY PLATFORM (MHP)

MHP offers both professional histology services as well as access to equipment for 'do-it-yourself' histology. DIY equipment includes paraffin embedding, use of microtomes, cryostats and a staining area for DIY stains such as H&E. Professional services include tissue processing, cassetting, sectioning, antigen retrieval, brightfield and IF scanning and a wide range of professional staining services.

All users of the Monash Histology Platform are required to renew registration each year/period and undergo an induction yearly.

LOCATION

Level 1 (ACBD), Monash Building

METABOLOMICS

The Baker Institute's Metabolomics Laboratory uses state-of-the-art tandem mass spectrometry to obtain metabolic profiles (primarily lipids and fats) **from cell and animal models, in addition to clinically relevant human samples.**

The platform has developed a targeted lipidomics approach that enables quantification of more than 750 lipid species across 30 lipid classes and subclasses. The analysis is performed by liquid chromatography tandem mass spectrometry.

CONTACT US

Prof Peter Meikle

Head, Metabolomics

E: peter.meikle@baker.edu.au

LOCATION

Baker Tower

ANIMAL FACILITIES

The ARA precinct has two main animal facilities on site: PAC and Monash ICU (MICU). PAC is a large animal facility, with both clean breeding and clean experimental areas, while MICU is a smaller specific pathogen free (SPF) facility.

To access these facilities, please ensure to complete the following form:

https://athos.amrep.org.au/AECNet/AMREP_AS_Induction_Request_And_Access_Form.pdf

CONTACT US

PAC inductions

Ms Rajani Jasti

COURSEWORK TIPS

HANDBOOK

The Monash University Handbook provides information for the coursework/professional development/other requirements for your graduate degree at CCS. Handbooks for each course and unit can be accessed via:

<https://handbook.monash.edu/>

CLINICIAN PHD STUDENTS

Clinician PhD students can apply for coursework credits based on their clinical experience. For example, clinicians can apply for credit with FRACP/ FANZCA/ work experience for TRM6002 and GCP completion and clinical trial experience for TRM6001.

Coursework credit is assessed for approval by Prof Robyn Slattery, Program Director.

MILESTONES

Research Enrolment Summary

The research enrolment summary, which can be found on the Web Enrolment System (WES) under the “Research Enrolment Summary” tab or through MyMonash → Research → Research Enrolment Summary, provides important details for your candidature including **milestone due dates**. Students should contact their panel chair and members well in advance of these dates. WES can be accessed via:

<https://my.monash.edu.au/wes/>

It is recommended to organise a time for your milestone presentation at least three months in advance, and to send an introduction email along with a Doodle Poll to find appropriate times.

Key Milestone Details

Key milestone details can be found in the Moodle “**CCS GR Students**” module. Details can also be found on the CCS intranet page at the following link:

<https://sites.google.com/a/monash.edu/ccsintranet/services/student-services/ccs-milestone-review-requirements-1>

We suggest that you start preparations for your milestone at least a month in advance, as it takes time to write the milestone report and to have it read by your supervisor. You will also need to prepare and practice your presentation.

It is also best to read through the competency rubric (available on the CCS intranet → GR milestone review requirements; due at confirmation) in advance to ensure that you are meeting the requirements of your candidature.

Milestone reports **need to be submitted at least 10 days** before your presentation via the milestone report form (along with other required documents). We recommend also sending these documents to your chair, panel and supervisors in an email. The milestone report form can be accessed via:

<https://milestones.apps.monash.edu>

Please note, the milestone report form is for **confirmation, mid-candidature review/ progress review** and **pre-submission seminar/ final review** milestones ONLY. For six-month meetings, documents are to be emailed to your chair, panel and assessors. Also make sure to include ccs.hdr@monash.edu in your email.

It is also important to keep in mind, at 9-months from your start date, a publication quality literature review is due. **This is to be signed off by your supervisor and uploaded to the dropbox in the Moodle “CCS GR Students” module.** In addition, make sure to email your literature review to your panel chair and assessors.

If you have any queries or concerns regarding your milestones, please contact the Graduate Research Student Services Coordinator, Ms Sharmila Ramesh.

CONTACT US

Ms Sharmila Ramesh

Senior Education Coordinator

E: ccs.hdr@monash.edu

E: sharmila.ramesh@monash.edu

P: +61 3 9903 0368

USEFUL RESEARCH RESOURCES

MONASH LIBRARY

Monash Library is a helpful resource for accessing journal articles, publications and databases. They also provide guides for citing, referencing, and record keeping.

To see an A-Z list of journals and databases that are accessible through the Monash Library, including journals that are not 'open access', please use the following link:

<https://www.monash.edu/library>

Databases available include:

- PubMed
- Ovid
- Web of Science
- Scopus
- Cochrane Library
- Google Scholar

Students can also receive support and advice for their study/ research (citing and referencing, selecting suitable resources, etc) by [booking an appointment](#) with a librarian.

Lab Archives

Good record keeping is an important part of research and Lab Archives is a great way to keep track of your experiments, projects and meeting notes with your supervisors online.

Your supervisor may ask you to share/transfer ownership of your Lab Archives notebook with them to keep track of your projects and experiments.

To learn how to set up your Lab Archives account, please follow the link below:

<https://www.monash.edu/library/researchers/data-collection-management/elc/get-started>

Citing and Referencing

It is important to reference and cite your information sources to avoid plagiarism. If you plan to publish your research, it is also important to understand the citation style rules of your target research journal.

Monash library provides a citing and referencing guide, online tutorials, and instructions for using both EndNote and Zotero. These can be accessed through the following link:

<https://www.monash.edu/library/help/citing-and-referencing>

EndNote and Other Reference Managers

With a reference manager you can easily manage and keep all of your references in one place.

With EndNote, download the reference in an appropriate format (for example, .ris, .enw, .nbib, etc), open the file and it should appear in your EndNote library. You can then import a reference directly into an open word document by pressing the cite ["] button. For a guide to help you download, install, and understand the basics of using EndNote, please see:

<https://guides.lib.monash.edu/endnote>

Turnitin and Other Plagiarism Tools

Turnitin is a text-matching software that checks a student's written document against electronic texts and online resources (journal articles, newspapers, books, etc) in addition to documents previously submitted to Turnitin by other students. This software is a powerful tool to help students improve their critical skills and academic integrity. All documents submitted via Moodle are automatically submitted to Turnitin for review.

For thesis review and publications, there is another online tool called iThenticate. This tool works similarly to Turnitin and is able to protect the intellectual property of Monash content. It is recommended to be used by research students and staff at Monash University. For more information on iThenticate, please see:

<https://guides.lib.monash.edu/iThenticate>

MONASH LEARN HQ

Learn HQ is a useful resource for your study, assessment and writing needs. Consultations are also available for personalised one-on-one support. To learn more about this resource please see:

<https://www.monash.edu/learnhq>

<https://www.monash.edu/learnhq/consultations>

Academic Writing and Integrity

Academic writing and integrity can at times be difficult and complex to understand. Learn HQ can also help you develop new strategies for listening, reading and communicating with academic English. If you would like to improve your academic English, please see the following resources:

<https://www.monash.edu/learnhq/resources/master-academic-english>

<https://www.monash.edu/learnhq/maintain-academic-integrity/dos-and-donts-academic-integrity>

OPPORTUNITIES DURING YOUR GR DEGREE

During your GR degree, you may be interested in finding opportunities that may benefit or suit you. For example, conferences are an excellent opportunity to present your research, gain exposure and to network with other researchers.

A few other opportunities are listed here and may be relevant to you.

MENTORING SCHEMES

Many mentoring schemes are available to students and provide the opportunity to enhance professional development skills and network with early career researchers and industry personnel. These are available at the faculty and University level, and Australia-wide.

For example, the Faculty of Medicine, Nursing and Health Sciences offers a **Graduate Research Mentoring Program** three times a year (commencing February, June and October). For more information, please visit:

https://sites.google.com/monash.edu/mnhsgresources/mnhs-graduate-research-mentoring-program?mc_cid=b5362dca73&mc_eid=9ef0723e8a

Mentoring programs around the University include **Alumni - Alumni Mentoring** and **Alumni - Student Mentoring**. To search for mentoring programs that are of interest to you, please visit: <https://www.monash.edu/about/mentoring>

The **Industry Mentoring Network in STEM (IMNIS)** is an initiative of the Australian Academy of Technology and Engineering (ATSE) designed to connect PhD students and postdoctoral fellows in science, technology and engineering with industry leaders for a one-year mentoring program. For more information, please visit:

<https://imnis.org.au/>

SOCIETY/ COMMITTEE COUNCILS

During your time at Monash, you may consider joining committee councils, which allow you to develop professional skills outside your degree, such as organising conferences or social events. For example, the CGRSC is a student committee you may consider joining - we organise the annual CCS GR symposium, social events, and this handbook. There are many scientific societies and committees that are looking for new members for their councils annually, so keep an eye out for them.

PROFESSIONAL SOCIETIES

Society memberships allow greater involvement in your field and it is commonplace for each society to hold annual meetings/ conferences. Some societies may require membership fees, but you may receive discounted event and conference rates, especially if you are a student.

A few societies are listed here that you may wish to join, depending on your field:

- Australian Society of Medical Research (ASMR)
- Students of Brain Research (SOBR)
- Australasian Neuroscience Society (ANS)
- Computational Biology and Bioinformatics Students (COMBINE)
- Australian and New Zealand Society for Immunology (ASI)
- International Society of Heart Research Australasian Section (ISHR)
- Australian Cardiovascular Alliance (ACvA)

COURSES

You may also want to supplement your training with additional short courses during your degree. For example, European Molecular Biology Laboratory (EMBL) Australia offers a two-week course for first- and second-year PhD students from around Australia. This course consists of both lectures and practical workshops. For more information, please visit:

<https://www.emblaustralia.org/student-opportunities/embl-australia-phd-course/>

FUNDING OPPORTUNITIES

You may consider applying for research awards, external travel grants, and fellowships, among other funding opportunities, throughout your degree or whilst transitioning to an academic or industry career. This can be an overwhelming process; however, Research Professional is an extensive database that can help. This database of research funding opportunities is available to Higher Degree by Research candidates and professional staff. For more information on this repository and instructions on how to access it, please see:

<https://www.intranet.monash/researchadmin/find-and-apply/search-for-funding>

INTERNSHIPS

An internship is an opportunity you may choose to pursue during your PhD. The skills, knowledge and network you build throughout an internship may be able to help you throughout your academic career or, conversely, help you transition into an industry role after your graduation. If you are interested in an internship, ensure that you and your supervisor are on the same page every step of the way.

Internship opportunities are advertised and can be applied for via **Monash Talent** and **APR.Intern**. Alternatively, you may choose to **self-source** an internship.

Please note that you must secure your internship, and the approval of your Supervisor and industry partner via this [letter of intent](#) within 18 months of commencement of your course.

If you find a company that you want to intern with, it is best to get in contact with Dr Andrew Bray (MNHS Senior Business Development Manager). He can liaise through the Innovations Office and the GR team to determine whether an internship could be part of your PhD program.

It would be best to speak with a GR coordinator about how an internship will affect your candidature, milestone dates, and potential VISA issues for international students.

Information for Monash Students on internships, including eligibility, can be found here:

<https://www.monash.edu/graduate-research/partnerships/internships/information-for-students>

Approaching your Supervisor

Planning for your internship alongside your PhD and how you will manage your time is something you should discuss with your supervisor. Things to consider and to discuss with your supervisor may include:

The time commitment and timing relative to your candidature.

- Is it better to complete it towards your PhD's start, middle or end?
- Can you do this internship while writing up your thesis, or after submission?

How your absence from Monash would be managed during the internship period.

- If the research project is stalled, how can you mitigate against that?

The basis for doing an internship full time.

- Could it be completed part-time alongside your PhD?

FOOD AND DRINK AROUND THE PRECINCT

The AMREP precinct is on Commercial Road, next to the Alfred Hospital. After a 10-minute walk down the road (towards the east) you will find yourself at Prahran Market. Open Tuesday and Thursday-Sunday, there are many options for lunch and fresh food to grab on the way home for dinner! Walk another 5 minutes and you will end up at Chapel Street, a melting pot of good coffee, food and shopping. A 20-minute tram ride to the city provides even more food and drink options after work. Closer to the precinct there are also many food and drink options - a few are listed below:

Alfred Campus	<ul style="list-style-type: none"> ○ Café Alfretti ○ Little Social Café ○ Serendipity Café (7th floor of the Baker Building)
Commercial Road	<ul style="list-style-type: none"> ○ New Order ○ Tall Timber Café ○ Café La Colline ○ Ampol Foodary/ Hungry Jacks ○ Kai Dining ○ 7 Eleven* ○ Shuji Sushi* ○ Nandos* ○ Spudbar* <p><i>* All in the strip of shops near Commercial Rd/St Kilda Rd intersection</i></p>
Prahran Market	<ul style="list-style-type: none"> ○ Q Le Baker ○ Oltre ○ The Falafel Man ○ Wasshoi Bar and Grill ○ Farini ○ Rivergum Grill ○ Ann's Fish and Chips ○ Mr Bratwurst ○ Dragon Sushi ○ Anatolia Gozleme Kitchen
St Kilda Road	<ul style="list-style-type: none"> ○ Hawker Canteen ○ Hop Garden ○ Rosco's @ Chevron
After work drinks	<ul style="list-style-type: none"> ○ College Lawn Hotel ○ The Osborne Hotel ○ The Alps Wine Bar ○ The Commons Collective

ACKNOWLEDGEMENTS

A big thank you to the 2021 and 2022 CCS GR Student Committees for their hard work in conceptualising this handbook. Also, thank you to all those who contributed information and facts and helped make this handbook a reality.
