

We study new ways to image objects, from atoms to humans to galaxies ...

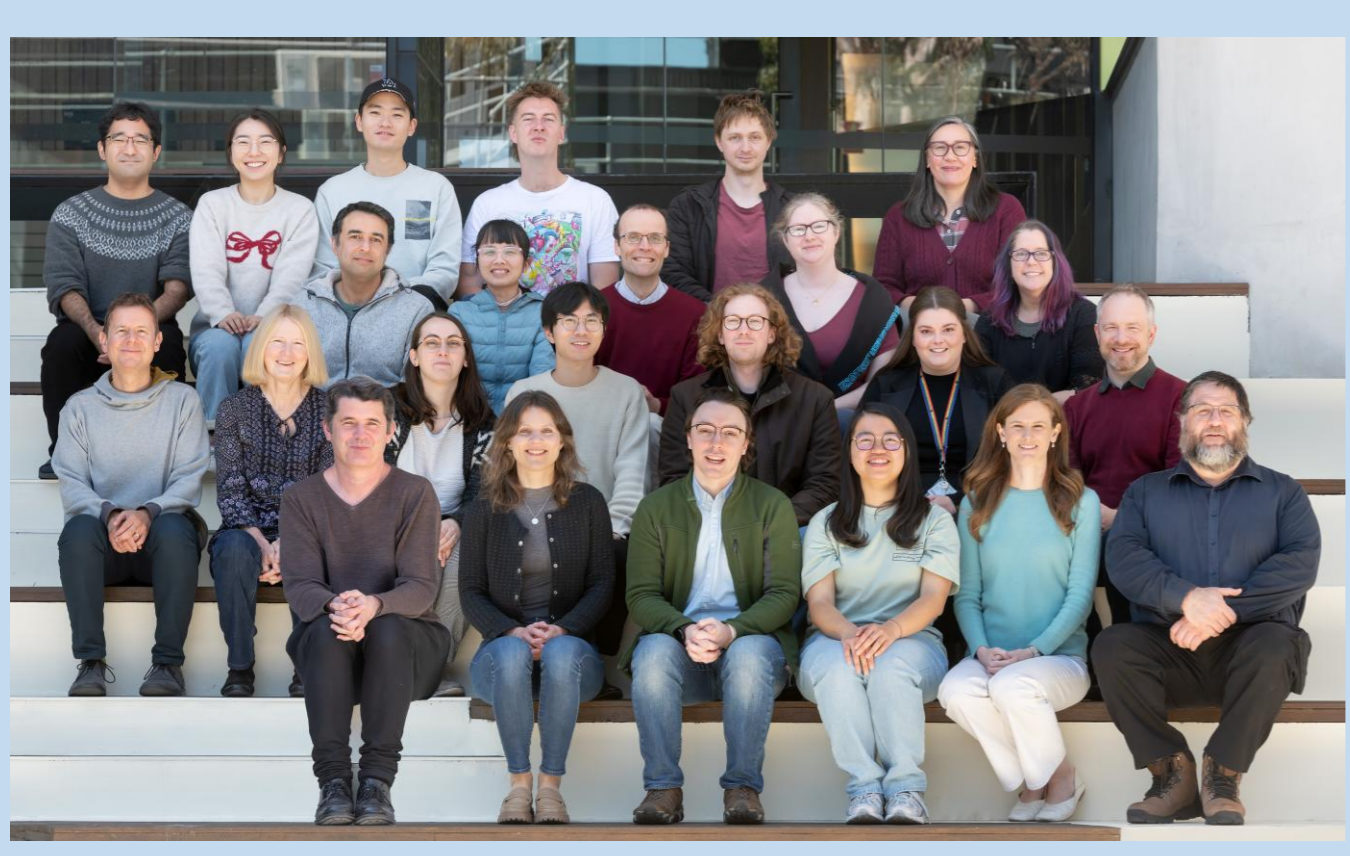

We use sound, light, electrons, x-rays and neutrons to investigate matter ...

We use world-class instruments to conduct our experiments ...

We are a team of experimental and theoretical physicists from around the world...

## PhIG Supervisors:

- Marie-Christine Zdora
- Haoren Ren
- Tim Petersen
- David Paganin
- Kaye Morgan
- Michael Morgan
- Stefan Maier

- Amelia Liu
- Marcus Kitchen
- Scott Findlay
