CHAIR'S MESSAGE

It is my great pleasure to present the 2025 report from the Monash University Department of Surgery at Alfred Health. This report reflects the breadth and depth of academic activities undertaken by the talented clinicians affiliated with the Monash University Department of Surgery, including Radiology, Trauma, Radiotherapy along with all of the Surgical Sub-Specialties.

The Alfred is a surgical hospital, with surgery driving the majority of activity within our care group. Not only do we provide world class clinical care, our research ensures we are at the cutting edge of what we do. Our influence is reflected in the number of national and international talks our Department members are regularly invited to present as well as our important teaching load.

It is noteworthy that the vast majority of our Department members are adjunct – meaning they choose to be part of our team performing their teaching and research activities largely in their own time. This is a significant contribution not only to our Department, but also more broadly to the University and our Community and I would like to thank each and everyone of them so much for all they so willingly do.

Many thanks to Ms Roxana Ruiz who drove the compilation of this report, working tirelessly to ensure we captured the work of the Department. She is a very valued member of our team and I very much appreciate all that she does to ensure the Department continues to function and move forward.

Thank you also to Professor Terry O'Brien, head of the School of Translational Medicine, and Professor Stephen Jane, Dean of the Sub-Faculty of Translational Medicine and Public Health, for their constant mentorship and support.

I am also very grateful to the Alfred Health Executive for continuing to support our research endeavours and for recognising their importance.

I hope you enjoy this report and look forward to your feedback.

Best wishes

A handwritten signature in blue ink, appearing to read 'Wendy A. Brown'.

Professor Wendy A. Brown
Chair, Monash University Department of Surgery, Alfred Health
Program Director, Surgical Services, Alfred Health
