

Course progression map for 2027 commencing students

This course map is a guide only and does not substitute for the required units outlined in the course 'Requirements' section of the Handbook. Units can be rearranged if applicable prerequisite requirements are met. This map applies to students commencing in the standard annual intake. When planning your course, check with Faculty Student Services, including for advice if commencing mid-year (where relevant), and refer to the Handbook entry for each unit before the start of each semester. Unit offering information is correct at the time of publication; however, changes may occur.

B6036 Master of Applied Econometrics

Applied pathway

Year 1 Semester 1	ETF5910 Introductory applied econometrics or ETC5241 Introductory econometrics	ETC5341 Applied econometrics or Core studies Applied pathway unit 1 if planning to undertake ETF5320 Applied econometrics or	Elective studies unit 1	Elective studies unit 2
Year 1 Semester 2	ETF5560 Case studies in applied econometrics	ETF5320 Applied econometrics or Core studies Applied pathway unit 1 if ETC5341 was completed	Core studies Applied pathway unit 2	Elective studies unit 3
Year 2 Semester 1	Core studies Applied pathway unit 3	Core studies Applied pathway unit 4	Core studies Applied pathway unit 5	Elective studies unit 4

Part A	Advanced preparatory studies
Part B	Core studies
Part C	Electives studies
