

Course progression map for 2027 commencing students

This course map is a guide only and does not substitute for the required units outlined in the course 'Requirements' section of the Handbook. Units can be rearranged if applicable prerequisite requirements are met. This map applies to students commencing in the standard annual intake. When planning your course, check with Faculty Student Services, including for advice if commencing mid-year (where relevant), and refer to the Handbook entry for each unit before the start of each semester. Unit offering information is correct at the time of publication; however, changes may occur.

B2033 Bachelor of Actuarial Science

Actuarial Studies specialist studies

Year 1 Semester 1	ACC1100 Introduction to financial accounting	ECC1000 Principles of microeconomics	ETC1000 Business and economic statistics	Elective studies unit 1
Year 1 Semester 2	ECC1100 Principles of macroeconomics	ETC2410 Introductory Econometrics	ETC2520 Probability and statistical inference for economics and business	Elective studies unit 2
Year 2 Semester 1	ETC2430 Actuarial cash flow modelling	ETC2440 Mathematics for economics and business	BFC2140 Corporate finance	Elective studies unit 3
Year 2 Semester 2	ETC3550 Applied Forecasting Statistical modelling for actuarial studies	ETC2560 Statistical Modeling for Actuarial Studies	Elective studies unit 4	Elective studies unit 5
Year 3 Semester 1	ETC3430 Financial mathematics under uncertainty	ETC3460 Financial econometrics	Elective studies unit 6	Elective studies unit 7
Year 3 Semester 2	ETC3420 Applied insurance methods	ETC3520 Foundations of quantitative finance	Capstone ETC3530 Life insurance mathematics	Elective studies unit 8

Part A	Core studies
Part B	Discipline studies
Part C	Specialist studies
Part D	Elective studies
