It’s true that Monash Business School graduates stand out in the workplace!

The very essence of a Monash Business School education is developing people who can problem solve on a local and global scale, and it’s hard to imagine a time when the need to do that has been greater than now.

We have seen volatility and complexity in business jump from the textbook into real life. This has provided the ideal training ground for the future world of work.

Disruption has become the norm. So as a student, developing the skills of agility and good communication are more valued than ever before. With a solid business knowledge base and a global perspective, you’ll be equipped and ready.

At Monash Business School you won’t just learn the latest theories and trends shaping business, you will be encouraged to broaden your awareness, test new ideas and try new methods. It’s an approach that sets the world’s most influential business leaders apart.

QS Rankings 2020-2021 – The QS World University Rankings are the most popular source of data about university performance worldwide.

Only 1% of business schools in the world have triple accreditation from AACSB, EQUIS and AMBA.
I wanted to study a couple of different disciplines, not just accounting, but taxation, a bit of business law, a bit of management, and it’s really opened up some more doors for me. I really liked the subject international trade law, because the lecturer was so engaging. He’d laugh with students, which made the subject interesting.”

AHMAD JAHFAR
Bachelor of Business

There are many opportunities to study abroad that count towards your degree. I’ve been able to go on study tours which have given me a much broader perspective of the business world.”

MONICA DOAN
Bachelor of Business

Studying at Monash will definitely give me an advantage compared to my peers back home. I think I have set myself apart for employers, especially when considering the activities that I have taken part in.”

JULIA LEISTER
Bachelor of Business Administration

* See page 4 for more details.
I was lucky to do a placement with ShineWing Australia, who have a partnership with Monash Business School. I learned so much in six weeks, my notebook was so thick! Economics and accounting both helped me during that placement because I was able to gain an understanding of what drives a business to make the decisions that they do, and also the impact that this has on clients."

MANGALA PRASETIA
Bachelor of Commerce and Bachelor of Economics

I enjoyed the flipped classroom experiences; they enhance the interaction you have with other students and teachers. I’m looking forward to applying the concepts I’ve learnt at university."

CHRISTIAN MORINA
Bachelor of Banking and Finance and Bachelor of Business

DISCOVER
MONASH BUSINESS SCHOOL

WORK READY
Businesses look for graduates who have great communication skills and can adapt quickly to new challenges. Through corporate projects and industry experience, networking, career events and workshops we help you get prepared and ultimately achieve a competitive edge.

I took the opportunity to be part of the Global Consulting Group. The Global Consulting Group is an organisation that recruits students from the campus. We got to work with a real, not for profit client and do some pro bono work. That was really good experience in the field and I found it really interesting."

YISHAN NEO
Bachelor of Finance and Bachelor of Commerce

INNOVATIVE LEARNING
In flipped classrooms you’ll build your understanding of a topic before class, then apply what you’ve learnt to real business problems — with teachers on hand to offer practical guidance. And in your final-year Capstone unit, you’ll get real workplace experience that counts towards your degree.

I was lucky to do a placement with ShineWing Australia, who have a partnership with Monash Business School. I learned so much in six weeks, my notebook was so thick! Economics and accounting both helped me during that placement because I was able to gain an understanding of what drives a business to make the decisions that they do, and also the impact that this has on clients."

MANGALA PRASETIA
Bachelor of Commerce and Bachelor of Economics

INNOVATIVE LEARNING
Meet influential employers and work on industry projects. There are also many opportunities to meet recruiters and industry leaders. Plus, by joining the Monash Business School alumni community you’ll become part of a huge network of professionals to stay connected with throughout your career.

Bachelor of Commerce and Bachelor of Economics
First year is the perfect time to start mapping out your degree to explore ways to gain industry experience and take your learning beyond the classroom.

In each of our courses we’ll encourage you to start thinking early on about what and how you want to learn. We support a holistic approach to your studies. For instance joining university clubs and societies, volunteering or taking career development workshops all add to your future employability.

Our degrees get you into the workplace - showing how your studies apply in the real world. Corporate projects and industry placements (internships) with some of the world’s most influential companies mean you’ll graduate better prepared and suitably skilled. You can even do an internship overseas* which means you’ll get work experience and an adventure rolled into one!

As the largest business school in Australia, we’ll also support you to study overseas* and explore international businesses up close. We offer global summer and winter programs with universities across Europe and in the USA, and study tours in China, USA and Europe. You’ll also have the chance to participate in domestic study tours and hear from industry leaders, both domestic and international, at networking events.

* All University related international travel for study tours and study abroad programs will be subject to advice from the Australian Government Department of Health, www.smartraveller.gov.au
BUILD YOUR FUTURE
TAILOR YOUR DEGREE

WHERE DO I START?
Monash Business School will prepare you for a career in business, however you imagine it. With a huge range of courses, real-world learning and study abroad* opportunities, you can tailor your degree to your interests and goals.

Do you want a comprehensive or specialist degree?
Do you know exactly what area of business you want to study? Or do you want to taste-test a few different areas first? See pages 8 and 15 to understand if a comprehensive course or a specialist course is right for you.

Are you a people or a numbers person?
This is a good way to start thinking about whether to take a commerce or business path. Business offers practical learning, as you’ll develop a deep insight into how organisations work across all business functions. As a general rule, business also has a stronger focus on people-based topics such as marketing, management, business law and HR.

Commerce is more analytical and conceptual, with a bigger emphasis on quantitative and mathematical topics such as business analytics, econometrics, marketing science and actuarial science. Once you’ve built this specialised knowledge, you’ll be able to use data to solve problems and find solutions in commercial contexts.

How much maths have you done?
The level of maths you’ve completed (or will complete) in Year 12 will determine some of the options available to you. If you’re interested in the Bachelor of Commerce, you’ll need Year 12 higher maths and an ATAR of 90+. The Bachelor of Business requires Year 12 maths and an ATAR of 82+, or you can do a Bachelor of Business Administration with Year 11 maths and an ATAR of 72+. The table on page 29 provides more detail on ATAR and IB requirements.

Can’t decide between two different career directions?
Monash has a large offering of courses. You can choose a double degree to combine two different passions. You can also do a double major to build complementary skill sets.

* See page 4 for more details.
There are a number of ways to explore a study area, depending on the emphasis you choose. You can do an entire Bachelor degree in one study area, or choose to undertake a second major or minor by using your elective units. A major is a main area of study made up of eight units and a minor is a second focus area made up of four units. You can also do elective units in a particular study area.

- Bachelor of Commerce – management studies major
- Bachelor of Business – business management major
- Bachelor of Business – human resource management major
- Bachelor of Business Administration – management practice major

#### MARKETING
Marketing involves creating, communicating, delivering and exchanging offerings that have value for customers. It connects an organisation to its stakeholders by servicing their needs and drives value for organisations.

- Bachelor of Marketing
- Bachelor of Commerce – marketing science major
- Bachelor of Business – marketing major
- Bachelor of Business Administration - marketing and communications major
You don’t have to know exactly where you want to be in three years to kick off your studies now. With a comprehensive course, you can cast your net wide to discover what areas of business interest you most before choosing your major.

Our comprehensive courses are made up of core units, a major and a number of elective units. The great thing about elective units is that you can use them to study abroad*, go on a study tour, complete an industry placement project, or even take up a second major from within the Business School or from another Monash faculty.

**Our comprehensive courses:**
- Bachelor of Business
- Bachelor of Business Administration
- Bachelor of Commerce

I chose Commerce to obtain the skills required to assess risk in insurance, finance and other industries, and my favourite areas of study include mathematical and statistical methods, which are used to quantify and manage risk.

Our teachers are friendly and come to our classes with a clear purpose. Each challenge they set requires effort and completing a challenge is enjoyable and rewarding.

I’ve secured a job as an equity researcher in an asset management firm, where I’m using what I’ve learned to assess the risk of individual publicly listed firms and provide investment advice to investors. In future, I’d like to become an actuary and apply what I have learned to make a positive impact on the world.”

**YU LI**  
Bachelor of Commerce (Honours)

* See page 4 for more details.
How are brands built? What causes stock markets to soar (and slide)? Why do some businesses boom and others fail?

If you’re intrigued by what makes markets, brands and organisations function effectively, a business degree could be a perfect fit.

Why study a Bachelor of Business at Monash?

This is a forward-thinking, industry-focused degree. It offers the opportunity to build the practical skills and industry-based knowledge that’s crucial for today’s complex and dynamic business environment.

How does it work?

You’ll start by studying the core units of accounting, marketing, business law, management, economics, business statistics and finance. Then, once you have a taste for each area, you’ll choose to major in one or two areas to develop deeper skills. In fact, your second major can be from within the Business School or a different faculty.

To find out how this degree is structured see page 23.

In your second year an Integrating unit will give you the practical skills, abilities and growth mindset needed to succeed in 21st century workplaces. Your final year will include a Capstone unit to help you demonstrate what you’ve learned in a practical context or setting.

This degree could be for you if...

You’re looking for a course with a practical focus and want choice and flexibility. It’s a comprehensive degree that gives you plenty of options – with 12 majors and 10 double degree alternatives. If you’re looking for broad-based skills or you haven’t yet decided how you want to specialise, a Bachelor of Business could be right for you.

Where it could lead

There are a huge number of career options. You could find yourself working in a number of fields, including business development, consulting, data analysis, human resources, management, and marketing. Plus, with a degree from an internationally-recognised business school, you’ll have opportunities for employment across the globe.

Beyond the classroom

As part of the degree you’ll have the opportunity to take part in:

• industry placements and projects with leading brands
• international exchange programs with one of our 100-plus partner universities around the world*
• leadership, professional development and volunteering programs
• student professional societies
• networking opportunities
• domestic and international study tours*.

* See page 4 for more details.

Bachelor of
BUSINESS ADMINISTRATION

Uber. Boost. Deliveroo. If these companies have taught us anything, it’s that entrepreneurial flair mixed with practical skill can turn a great idea into a booming business.

From bringing ideas to life to examining the balance sheet, here’s your chance to get a real-world understanding of the many factors that come together to make a business work.

Why study a Bachelor of Business Administration at Monash?
This degree features blended learning, smaller classes and offers a supportive academic environment at Monash Peninsula. With strong links to industry and the community, Monash Peninsula has developed a reputation for excellence in business.

How does it work?
Hands-on and commercially focused, this comprehensive course will teach you the ins and outs of business – from management to marketing and everything in between.

As you develop a strong foundational knowledge in business, you’ll start to focus on a specific area, choosing to major in accountancy, finance and economics, management practice, or marketing and communications. Alternatively, you can choose to major in business administration to gain a broad overview of business operations.

To find out how this degree is structured see page 23.

This degree could be for you if...
You’re interested in how businesses operate on different levels and want to study in a hands on setting. This course covers the foundational skills required to make any organisation run smoothly. It’s also great if you’re wanting a broad understanding of business fundamentals while also focusing on a specific area of study. You can do this by double-majoring in business administration (which will give you a broad overview of business) and in another area of study such as accountancy or management practice, or combine it with one of the dynamic double degrees on offer.

Where it could lead
You’ll graduate with the practical skills to jump into a career with an established organisation or even start your own business. You could find yourself working in a number of fields, including accounting, consulting, government, management, and marketing. And with an internationally-recognised degree, like all degrees at Monash Business School, your prospects may extend well beyond Australia.

Beyond the classroom
As part of the degree you’ll have the opportunity to:
• go on an international exchange program with one of our 100-plus partner universities around the world*
• domestic and international study tours*
• hear from industry leaders
• work on real community cases and industry projects
• take part in industry placements.

DID YOU KNOW?
As a domestic student applying for the Bachelor of Business Administration, you may be eligible for a $5000 scholar’s grant to help you get started on your university journey. The best bit – there’s no need for extra paperwork! Applicants will be automatically assessed based on information provided to VTAC. A number of factors will be considered, including academic merit, living in the local area, low socioeconomic status and under-represented groups.

The course develops your practical skills and there are many specialisations. I’m double majoring in marketing and communications and management practice, which are both very people focused. I love relationship building and helping people. In management, I’m interested in retail, people and event management and in marketing; designing campaigns that appeal to consumers. Some of my peers have started their own businesses while they’ve been studying. Maybe one day I’ll join them.”

2 Some travel between the Peninsula campus and the Caulfield and/or Clayton campuses will be required. A free shuttle bus travels between campuses.

Studying with like-minded people has made me more interested in what I’m learning and the environment has helped me succeed in achieving both my personal and academic goals.

Through the Ambassador program, I’ve worked with new people, learned from them and shared my ideas.

I’m hoping to apply the knowledge I’ve gained to do work that has a social impact.”

NOYONIKA BANERJEE
Bachelor of Business Administration
Bachelor of COMMERCE

Commerce is an integral part of our society. The desire to trade what we have for what we want has shaped how people and nations have interacted for millennia. Today, commerce impacts decision-making, leadership, innovation and policy development on a global scale.

Join the brilliant minds of the commercial world – the people taking an analytical approach to problem-solving, and influencing change in commercial settings. If you’re a clever thinker who likes to unpack problems and consider ideas from a fresh perspective, commerce presents a world of exciting career prospects.

Why study a Bachelor of Commerce at Monash?

This degree offers the opportunity to strengthen your analytical abilities, which could assist you to discover commercial solutions and help organisations make decisions or change directions.

How does it work?

This is a comprehensive course with an analytical focus. You’ll learn to think conceptually, solve problems analytically and use data to make informed decisions. It’s the perfect foundation for a career in business.

You’ll start by studying a range of core units to get a sense of where your interests lie. Then you’ll begin to build specialist skills, majoring in accounting, actuarial studies, behavioural commerce, business analytics, econometrics, economics, finance, management studies, marketing science, mathematical foundations of econometrics, or sustainability. You can also choose to do a second major from within the Business School or from another faculty.

To find out how this degree is structured see page 23.

This degree could be for you if…

You have strong mathematical skills and enjoy analysing problems to find the best solutions.

With 12 double degree options and 11 majors, our Bachelor of Commerce offers a huge amount of flexibility. It means you can get started without necessarily knowing where you’ll end up.

Where it could lead

You’ll develop the professional skills to manage an organisation, and the analytical abilities to transform businesses from the inside out. A degree in commerce will give you a strong foundation that could take you in many different directions – you could find yourself working in consulting, data analysis, economics, econometrics, finance, marketing science, and strategy.

Beyond the classroom

As part of the degree you’ll have the opportunity to take part in:
- industry placements with leading companies
- an international exchange*
- domestic and international study tours*
- industry projects
- a range of leadership, professional development and volunteering programs
- networking events.

* See page 4 for more details.

With the number of courses available and the large amount of electives, I have so many options to pick and choose from. Monash Business School has really given me a platform to succeed.”

2. Not available with all specialisations.

---

At Monash, I’ve been involved in mentoring Year 11 and 12 students from underprivileged backgrounds to help them understand and break down the barriers to tertiary education. I’ve always had a passion for consulting and have been offered a graduate role at Ernst and Young.”

SHAMRON SINGH
Bachelor of Commerce and Bachelor of Business Information Systems
SPECIALIST COURSES

Have a pretty good idea of where you’re headed? With a specialist course, you’ll take 11 or 12 units in your specialist area. Focusing your studies in one area will allow you to start building a specific skill set from day one.

The great thing about a specialist degree is that they’re specifically designed to ensure that you meet any accreditation requirements needed for your future professional field, while giving you flexibility to do other things within your degree. With a specialist degree you can use your electives to undertake a second major, study abroad* or even complete an industry placement.

Our specialist courses:
- Bachelor of Accounting
- Bachelor of Actuarial Science
- Bachelor of Banking and Finance
- Bachelor of Economics
- Bachelor of Finance
- Bachelor of International Business
- Bachelor of Marketing

I’ve had an interest in maths since high school so the idea of applying maths to evaluate the risks associated with business was interesting to me. As part of my specialist double degree, it’s been fascinating to see how the topics we study translate into a market of products that serve clients’ needs. The course is giving me a taste of everything, so I can pursue related roles in the future.

ARNAV PRASAD
Bachelor of Commerce and Bachelor of Actuarial Science

* See page 4 for more details.
Bachelor of ACCOUNTING

Accounting is the language of business and the foundation of a wide range of careers. It’s an integral part of any business, and spreads across different organisational functions – from finance and HR to senior management and marketing.

Studying a Bachelor of Accounting, you’ll discover what makes accounting so vital to business success, and why it’s more than just a numbers game.

Why study a Bachelor of Accounting at Monash?
This degree offers more than just technical competencies; it’ll also equip you with the broader business and advisory skills you’ll need to build your accounting career, which is a common pathway to senior management positions.

How does it work?
This degree will give you a solid technical skill set across key areas such as information systems, corporate finance, auditing and assurance, financial reporting and data analysis. You’ll learn to interpret data and develop insights that will help organisations effectively allocate resources and make better business decisions.

Your course will be structured around giving you exactly what you need to excel in this area – from problem-solving and complex analysis, to communication and professional judgement. The course also comes with electives to prepare you to meet the requirements of the major professional accounting bodies.

This degree could be for you if…
You’re set on a career in accounting, or you’re looking to complement another skill set with accounting expertise, as you can use your elective units to choose another major or minor. You’ll delve deep into the complexities of this one area to build a stronger knowledge base.

Where it could lead
With an accounting degree from an internationally-recognised business school, you’ll have a range of options open to you – in Australia and around the world. You could find yourself working in a number of fields, including auditing, budgeting, business advisory, forensic accounting, liquidation, management accounting, mergers and acquisitions, and taxation.

An accounting qualification will also give you a solid base to potentially move into senior management positions down the track. Depending on your electives, this degree could prepare you to meet the accounting accreditation requirements of:
- CPA Australia
- Chartered Accountants Australia and New Zealand
- The Institute of Public Accountants
- The Chartered Institute of Management Accountants
- The Association of Chartered Certified Accountants

Beyond the classroom
As part of this degree you’ll have the opportunity to take part in:
- an intensive study program involving interstate travel
- an international exchange program with one of our 100-plus partner universities around the world*
- the Chartered Institute of Management Accountants (CIMA) Global Business Challenge
- leadership, professional development and volunteering programs
- an internship or corporate project.

Bachelor of ACTUARIAL SCIENCE

If you’re big on numbers and the role they play in our day-to-day lives, actuarial science can help you turn your curiosity into a promising commercial career.

Learn to evaluate risk and opportunity in a business setting, and use your findings to influence some of society’s most important economic structures. Actuaries play major roles in a range of organisations, and are often considered the backbone of financial security.

Why study a Bachelor of Actuarial Science at Monash?
This degree was designed by actuaries and our Department of Econometrics and Business Statistics is the only dedicated department of its kind in Australia. It boasts the largest concentration of econometricians and statisticians in the region.

How does it work?
In this degree you’ll learn to apply mathematical concepts to real-life scenarios, and use your analytical skills to help companies plan for the future. As you further develop your maths and analytical skills, you’ll start to use a range of concepts and data findings to solve real commercial problems.

Your degree will be tailored to building your skills in actuarial science. This degree is accredited by the Actuaries Institute, and may allow you to achieve Part I of the Actuaries Institute professional qualification.

This degree could be for you if...
You’re looking for a way to turn a love of maths into an exciting career. You’ll learn to identify, analyse and assess risk in a range of business areas – including insurance, superannuation, business and financial services, scientific and social research, and engineering.

Where it could lead
Actuaries are typically found in insurance and consulting actuarial firms. But they’re also in demand in other industries, so you could find yourself working in a number of fields, including asset management, auditing, banking, data analysis, financial planning, risk management, and stockbroking. The types of projects you might find yourself working on range from the mathematics of customer loyalty schemes to carbon footprint modelling.

Actuaries play particularly important roles in industries that forecast real-life scenarios, using mathematical and econometric models to make predictions. For example, the impact of potential economic or property loss on insurance premiums, superannuation and other types of financial investments.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:
• industry placements with leading companies
• an international exchange*
• domestic and international study tours*
• a range of leadership, professional development and volunteering programs
• networking events
• winter and summer research scholarship programs.

BACHELOR OF BANKING AND FINANCE

Your first job. Your first home. The very first four-digit PIN you ever choose. Banks play a huge role in the way we live our lives. But there’s a lot more to banking than cards, accounts and loans.

As a society, we rely heavily on our banks remaining stable. From capital markets to financial forecasting – futures, derivatives, bonds, stocks and more – you’ll explore what makes banking and finance such a central part of the world today, and learn the skills required to build a successful career.

Why study a Bachelor of Banking and Finance at Monash?
This degree offers practical ways to apply your knowledge. You’ll have access to our Simulated Teaching and Research Laboratory (STARLab) where you can use financial market simulation programs to enhance your decision-making.

How does it work?
In this degree you’ll focus on the key theories, practices and concepts that underpin the banking and finance sector, and the skills required for managing money in an institutional setting.

Your entire course will be structured around building your knowledge and skills in this area – with a focus on corporate finance, commercial banking, equity markets, financial planning and investment banking.

This degree could be for you if...
You can see yourself working in a bank or financial institution down the track. It’s also a great knowledge base to have if you’re interested in trading stocks or investing. When it comes to money, the more you know, the better.

Where it could lead
As a banking and finance graduate you’ll find plenty of roles that you’re suited to – and could find yourself working in accounting, banking, broking, consulting, funds management, insurance, and superannuation. You’ll have a universal skill set that can take you around the world.

Beyond the classroom
As part of this degree you’ll have the opportunity to take part in:
• an intensive study program involving interstate travel
• the Chartered Institute of Management Accountants (CIMA) Global Business Challenge
• the UBS Investment Banking Challenge
• internships with major banks, including Macquarie
• an international exchange*
• a range of leadership, professional development and volunteering programs
• networking events.

By studying this course, you could also gain access to the professional development and mentorship opportunities that come with a Financial Services Institute of Australasia (FINSIA) membership.

How do we use resources most efficiently? How does an airline set the price of a ticket? And what’s the best way to measure sustainable business practices?

Economics is the science of decision-making. You’ll explore the principles our economy is built on, and learn how they impact the way we spend, save, work and live. This degree will teach you to think analytically, solve problems logically, and make informed decisions in a commercial context.

Why study a Bachelor of Economics at Monash?
This degree provides access to world leading research and teaching across a range of economic disciplines. We’re one of the top three universities in the world for Experimental Economics, Cognitive and Behavioural Economics and Health Economics (RePEc).

How does it work?
In this degree, you’ll learn how to use data to make better business decisions, study the impact of individual economic choices, and build an in-depth understanding of the way local, national and global economies function.

In this course, you’ll further focus your studies by following one of these streams:

- **Economics and economic policy**
  Understand the bigger economic picture – from how goods and services are consumed, to changes in employment rates. You’ll learn to apply economic theories and analytical tools to the economy, and identify the effects of domestic and international policies.

- **Mathematical economics and econometrics**
  If you’re more interested in the numbers behind the economic theories, this stream could be the one for you. You’ll learn how to analyse and interpret econometric and mathematical data, and apply your findings in a range of contexts, including financial investment, production, taxes, and government expenditure and policies.

This degree could be for you if...
You’re a logical thinker who likes putting academic theory into action. You’ll study a broad range of areas – such as human behaviour, development, policy and business – and learn to bring this information together to form valuable insights.

With a strong understanding of how decisions affect individuals, organisations and governments, you’ll be in a better position to influence change at all levels of society. The latest economic theories and analytical tools will also allow you to identify and communicate the impact of government policies, both domestically and on a global scale.

Where it could lead
A degree in economics can take you in different directions – so you could find yourself working in a number of fields, including banking, financial services, research, academia and government departments such as the Reserve Bank of Australia, the Australian Bureau of Statistics and the Australian Treasury. With a degree from an internationally-recognised business school, you’ll have worldwide career prospects.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:
- industry placements with leading companies
- an international exchange*
- domestic and international study tours*
- a range of leadership, professional development and volunteering programs
- networking events.

Few things impact our society more than the exchange of money. The way we earn, spend, save, borrow and invest it – both as individuals and as a collective – is reflected in everything from interest rates to property prices.

Build a strong understanding of how our financial system works, and develop the skills you need to manage money well – for big corporations, small businesses and governments.

**Why study a Bachelor of Finance at Monash?**

Reuters ranked Monash Business School 22 in Asia Pacific for Most Innovative Universities in 2019. This degree offers access to our Simulated Teaching and Research Laboratory (STARLab) which simulates live financial environments.

**How does it work?**

In this degree, you’ll learn how to manage and invest money in the form of assets, equity and liability. Your studies will also cover the financial policies and products that allow money to flow efficiently between individuals, businesses, government and other organisations.

For the next three years, your studies will focus on giving you a comprehensive understanding of the way financial systems operate.

**This degree could be for you if…**

You want to be part of maintaining a robust and efficient economy. In this course you’ll explore corporate finance, equities and investments, debt markets and fixed income securities, financial modelling and international finance.

**Where it could lead**

With a finance degree from a world-renowned business school, you’ll be prepared for a career in just about any industry, anywhere in the world. You could find yourself working in a number of fields, including accounting, banking, broking, consulting, financial forecasting, funds management, and insurance. A role in finance could see you making cashflow decisions, managing assets and risk, working with capital markets and stock portfolios, or producing forecasts and budgets for financial institutions.

You could find work as a group finance director, treasurer, securities dealer, financial trader, investment banker, stockbroker, chief financial officer, mergers and acquisitions specialist, risk manager or consultant. Our graduates have gone on to take exciting roles in major banks, regulatory bodies such as ASIC and the Reserve Bank, as well as in the corporate sector.

**Beyond the classroom**

As part of your degree you’ll have an opportunity to take part in:

- an intensive study program involving interstate travel
- the Chartered Institute of Management Accountants (CIMA) Global Business Challenge
- the UBS Investment Banking Challenge
- industry placements with major banks and financial institutions – including Macquarie, KPMG and Deloitte
- an international exchange*
- a range of leadership, professional development and volunteering programs
- networking events.

What would happen if Google suddenly crashed? Or China suddenly stopped producing cotton? Or the world faced another pandemic?

International business is a fundamental part of what keeps societies around the world running smoothly, in ways that we often take for granted. Today, businesses are facing a new generation of opportunities as a result of rapid globalisation. Learn the intricacies of doing business in different countries and environments — and the foundations you need for a global career.

Why study a Bachelor of International Business at Monash?

This degree will highlight the issues affecting international firms and the way they operate. It focuses on building your skills from day one — in trade and investments, business operations and international relations — to turn your global mindset into a successful business career.

How does it work?

Want to fast-track your career goals? This degree is unique in that it offers the opportunity to accelerate your course to 2-years by undertaking Summer semesters. You also have the chance to go on an international study tour or placement*.

This degree could be for you if...

You’re interested in working with and managing people from different countries and cultures. Whether you’re based in Australia or somewhere else in the world, you’ll be in a position to support businesses operate in an international economy.

Where it could lead

Businesses of all sizes need people with global knowledge, so your options may be far-reaching. From a small company that uses overseas suppliers to a big brand that operates worldwide, you could find yourself working in a number of fields, including accounting, consultancy, human resources, and marketing.

You might be helping Australian companies set up operations internationally, or working with international companies to establish roots in Australia.

Beyond the classroom

As part of the degree you’ll have the opportunity to:
* go on a global study abroad program and/or study tour*
* take part in an industry placement
* undertake a foreign language.

The Coca Cola logo is recognised by 94 per cent of the world’s population. So how did one of the planet’s most iconic brands earn a prime spot in fridges around the world? And how has it managed to stay current for so long? Learn what makes a brilliant marketing strategy and how brands build value through differentiation. Develop the creative and technical insights you need to help businesses build their brand and drive business success.

Why study a Bachelor of Marketing at Monash?
This degree is one of the longest running marketing courses in Australia. For graduates, this is a significant benefit as there are thousands of marketing employers who recognise the solid business grounding the course offers.

How does it work?
This degree will give you a combination of technical, practical and analytical skills, from understanding buying behaviour to building social media campaigns – everything you need to think and act as a professional marketer.

Your degree will be tailored to building your skills in this area. You’ll have the opportunity to explore different areas of marketing – including social media, advertising, consumer and buyer behaviour, campaign planning, market research, strategy, data analysis, branding and digital marketing.

This degree could be for you if...
You’re interested in the process of helping an organisation understand, create, communicate and deliver value to customers and stakeholders.

Where it could lead
Every organisation needs people who can make great marketing moves. Marketing graduates find work in a range of industries, including healthcare, banking and finance, retail, sports, law, tourism, education and not-for-profits. You could find yourself working in a number of fields, including brand management, campaign analysis, digital marketing, market research, media planning, and social media.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:
* global study tours in China or Europe*
* marketing industry placements with leading firms and agencies
* networking events with prospective employers
* leadership, professional development and volunteering programs.

Note: The above course maps are a guide only and may be subject to change. Some specialist degrees may have a different course structure and some double degrees may vary in length depending on their structure and requirements.

^ An integrating unit is a requirement of the Bachelor of Business.
† During your degree, you’ll also complete a Capstone unit, to help you demonstrate what you’re learning in a practical setting. This can be a corporate or community project, a research project, an internship, or a coursework unit that takes your thinking well beyond the classroom. You can even do an internship overseas, which means you’ll get work experience and an adventure rolled into one!
* See page 4 for more details.
DOUBLE THE DEGREE, DOUBLE THE EXPERIENCE

University is a time to gain and expand your knowledge in the areas that interest you. It’s why at Monash we offer one of the largest double degree programs in the country – giving you the freedom to combine your Monash Business School degree with other areas of study, including law, engineering, arts, education and IT.

If you’re feeling the pull to explore more than one discipline, a double degree could be the right move. Most double degree programs require just one extra year of study. By using the electives from one degree to make up the required units from the other, you’ll graduate at least two years sooner than if you studied the courses separately. It’s a great way to build your skills and expand your employability.

“I wouldn’t know how to run a team, or be able to make an effective team, without studying management. I’ve committed to using my double degree to work on sustainable businesses that really close the gap in global health inequality, because I was inspired by seeing how in real life, real poverty does exist, and I really believe that having good health is the thing that enables people to live the life that they want, and break that cycle of poverty.”

ELIZA LI
Bachelor of Commerce and Bachelor of Biomedical Science
YOUR CHOICE OF 27 DOUBLE DEGREES

DOUBLE DEGREES WITH OTHER FACULTIES

Open up exciting career opportunities by combining these business degrees with a course from another faculty.

You’ll need to meet the prerequisites of both degrees, so be sure to check the second course to make sure you comply.

Here are a few examples to kick-start your thinking!

**Arts + Business**

Pursue what you’re interested in – which might be languages, international relations, behavioural studies or any one of 40 arts majors – while achieving a skillset to apply in any professional setting. You could combine a criminology major in your Arts degree with an accounting major in your Business degree - a career as a forensic investigator perhaps?! Or combine a business analytics major in your Commerce degree with a theatre studies major in your Arts degree to get a head start in entertainment.

**Design + Business**

The experience of opening your new iPhone box. The hassle-free process you just went through to switch banks. How you feel when you walk into your favourite store. It’s not by accident. The most successful businesses know that smart design is the key to standing out. This double degree will teach you how to see the world of business through a designer’s lens – and have the skills to implement smarter strategies in your chosen area.

**Biomedical Science + Commerce**

Biomedical science is responsible for many of the breakthroughs that have shaped the history of human health – and the work never stops. For every disease cured, life prolonged or discovery made, many more challenges lie ahead. As research continues and the industry inevitably expands, the need for effective commercialisation is also growing. This double degree will give you the skills and insight required to navigate the transition from science lab to world stage.

**Computer Science + Commerce**

What defines us as individuals, including our friends, conversations, and desires, also define us as systems – of action, behaviour and data, all operating alongside one another. If you’ve got an analytical mind, you might recognise the potential here. From algorithms and big data, to digital innovation, this double degree will show you how analytical insight can be used to face challenges and create opportunities in the commercial world.

**Engineering (Honours) + Commerce**

Engineers are in high demand right across the workforce. You’ll find them in just about every sector, working as CEOs, consultants, project managers, politicians, designers and researchers. Beyond their specialisation, they’re also taught to approach problems creatively, and use logic to come up with inventive solutions. Adding commercial acumen is a killer combination to help you reach your career goals – however ambitious they are.

**Media Communication + Business Administration**

There is so much that goes on behind the scenes to keep a business running smoothly and achieving commercial success. The larger that business gets, the more complex the operation becomes – throw public image into the mix, and things get really interesting. This double degree will show you how businesses work on the back end, and provide the skills required to bring them to life in the public eye.
DOUBLE DEGREES WITH MONASH BUSINESS SCHOOL

If you’re set on a career in business, you may wish to consider taking two degrees within the Business School. You can study a double degree in Business or Commerce, giving you the opportunity to expand your business skills.

DOUBLE DEGREE COURSE STRUCTURE

Like single degrees, you’ll have a number of core units to complete, as well as a major. What sets a double degree apart is what you do with your electives – you’ll use them to study units and earn credits towards a second degree. Here is an example structure of what your course may look like if you do a double degree through Monash Business School or combined with another faculty.

Bachelor of Business

Combine with any of these degrees:
- Bachelor of Accounting
- Bachelor of Banking and Finance
- Bachelor of International Business
- Bachelor of Marketing

Chose any of these majors:
- Accounting
- Banking and finance
- Business analytics and statistics
- Business law
- Business studies
- Business management
- Economics and business strategy
- Financial econometrics
- Human resource management
- International business
- Marketing
- Taxation

Bachelor of Commerce

Combine with any of these degrees:
- Bachelor of Actuarial Science
- Bachelor of Economics
- Bachelor of Finance

Chose any of these majors:
- Accounting
- Actuarial studies
- Behavioural commerce
- Business analytics
- Econometrics
- Economics
- Finance
- Management studies

YEAR 1

Semester 1 | Business / Commerce core unit | Business / Commerce core unit | Second degree unit | Second degree unit
Semester 2 | Business / Commerce core unit | Business / Commerce core unit | Second degree unit | Second degree unit

YEAR 2

Semester 1 | Business / Commerce core unit | Business / Commerce core unit | Second degree unit | Second degree unit
Semester 2 | Business / Commerce major | Business / Commerce core unit | Second degree unit | Second degree unit

YEAR 3

Semester 1 | Business / Commerce major | Business / Commerce major | Second degree unit | Second degree unit
Semester 2 | Business / Commerce major | Business / Commerce major | Second degree unit | Second degree unit

YEAR 4

Semester 1 | Business / Commerce major | Elective or major unit | Second degree unit | Second degree unit
Semester 2 | Business / Commerce major | Business / Commerce capstone unit | Second degree unit | Second degree unit

When I graduate, I hope my double degree will offer a pathway to an exciting and lucrative career creating and improving technology.”

CAITLIN HEFFERNAN
Bachelor of Business and Bachelor of Information Technology

- Mathematics (Australian Year 12 equivalent).
- One of biology, chemistry, environmental science, physics, geography, psychology or higher level mathematics (all Australian Year 12 equivalent unless otherwise stated).
PATHWAYS TO MONASH BUSINESS SCHOOL

There’s more than one way to become a Monash Business School student, if you didn’t achieve the ATAR you needed, are transferring from TAFE or another university, or want to try university study before committing to a full degree.

Monash College Diploma
If you’ve missed the ATAR or subject prerequisite you needed, a Monash College Diploma could help you gain entry into the first or second year of a Monash undergraduate degree.
- monashcollege.edu.au/courses/diplomas

Diploma of Tertiary Studies (DoTS)
DoTS is a one-year, full-time course at Peninsula campus. You’ll start by studying first-year university subjects then gain entry into your second year of a Bachelor of Business or Bachelor of Business Administration degree.
- monash.edu/study/courses

Course or University Transfers
Most Monash Business School courses accept internal transfers from other Monash courses, and transfers from other universities.
- monash.edu/admissions/credit

Monash Access Program (MAP)
MAP has no tuition fees and is delivered part-time at Clayton campus with priority for students who have experienced financial or other disadvantage.
monash.edu/study/why-choose-monash/study-options/mature-age/monash-access-program

Single Units
Once you’ve completed two university units, you can apply for a large range of undergraduate courses.
- monash.edu/admissions/other-pathways/single-unit-enrolment

Indigenous Pathways
Monash University is committed to advancing the education and career aspirations of Aboriginal and Torres Strait Islander people.
- monash.edu/study/how-to-apply/indigenousstudent-applications

Tafe Qualifications
If you have completed a certificate IV, diploma, or the first year of an advanced diploma, you could use it to gain a place at Monash and be eligible for some credit towards your course.
- monash.edu/admissions/credit

Entry pathways for international students
The Monash University Foundation Year is a pre-university program that provides entry into the first year of a Monash University degree.
- monashcollege.edu.au/courses/foundation-year

The Monash College Diploma is a way to study English and gain a pathway into the first or second year of a Monash Business School course.
- monashcollege.edu.au/courses/diplomas

My Monash College pathway gave me the confidence to transition to Monash Business School. Today I’m working at Ernst & Young, one of the big four accounting firms – and I probably wouldn’t have achieved that without the support from everyone throughout my Monash journey.”

POLLY HONGYU LENG
Bachelor of Commerce
Senior Strategy Consultant, Ernst & Young Parthenon
Our doors are open to the curious, the optimistic and the change-makers. A scholarship will help you make the most of your time at university. And that’s why we have more than 400 types of scholarships. Here’s just some of the types of scholarships we offer:

**Academic scholarships**
We want as many bright minds as possible to benefit from a Monash education. Our Sir John Monash scholarships aim to attract academically gifted students. And our faculties also offer scholarships for academically gifted students. But we also want to recognise those students who want to make a difference in the lives of other students by becoming mentors.

**Equity scholarships**
We recognise that sometimes your ATAR doesn’t reflect your potential. If you’re from a low-income background, have a disability or medical condition, live in a regional or remote area, are from an asylumseeking background, or have experienced difficult circumstances, we offer scholarships to ensure that none of these factors prevent you from pursuing your dreams.

**Indigenous students**
We offer many scholarships for Indigenous students, with our faculties also offering opportunities to attend Monash through their own scholarship programs.

**Accommodation scholarships**
We offer scholarships to help cover the costs of your accommodation, and there are even scholarships to support any relocation costs if you’re from a rural area.

At Monash, we believe in giving our students the best chance to achieve their potential.

The number of scholarships and grants offered each year varies. So find the right scholarship for you at monash.edu/scholarships
At Monash Business School, we make it a priority to equip you with the real-world experience you need to back up your world-class education. Through career events, workshops, networking and mentoring, we will support you throughout your studies.

**Mentoring**
The Monash Business School mentors come from a variety of organisations, and many have management and leadership experience. All are dedicated industry professionals who have volunteered to support students nearing graduation. With guidance from someone who’s walked a similar path, you will feel equipped to make your next move.

**Career events**
There will be career events and workshops to attend. Keep up to date with industry trends, develop your employability skills, connect with employers, or prepare for a job. And when you’ve finished your studies, you can still attend our workshops for 12 months after completion!

**Networking**
Are you interested in talking to employers, recruiters and others working within industry? We can help. A good network will help you find career opportunities through referrals and word-of-mouth. We offer a range of resources to help build your profile.

Monash Business School is a launching pad for the leaders, innovators and CEOs of the future. Many of our most successful graduates have studied beyond their first degree to carve out a niche, build leadership skills, change career direction, or develop specialist skills for a senior industry role.

**Honours**
The Bachelor of Commerce (Honours) is available to students who have completed their business degree with exceptional academic performance. It’s an opportunity to expand on your undergraduate degree by exploring the latest research and developments in commerce. Specialty areas include accounting, econometrics, economics, finance, management and marketing. If you’re eligible, you’ll complete an extra year of study on top of your bachelor’s degree.

**Graduate study**
Whether you’re working towards accreditation, looking to broaden your skill set, or keen to deepen your expertise or move into research, our graduate programs could be the extra step you need. We offer a range of programs, including a graduate certificate and diploma of business, as well as master’s degrees in a host of different specialisations such as global business, management and project leadership.
