monash.edu/business

MONASH BUSINESS SCHOOL

TOP 1% OF BUSINESS SCHOOLS GLOBALLY

Only 1% of business schools in the world have triple accreditation from AACSB, EQUIS and AMBA.

RANKED #52 IN BUSINESS AND MANAGEMENT

QS World University Rankings, by subject 2022.
LEARN, EXPLORE AND CHANGE

The very essence of a Monash Business School education is developing people who can problem solve on a local and global scale, and it’s hard to imagine a time when the need to do that has been greater than now.

Disruption has become the norm. So as a student, developing the skills of agility and good communication are more valued than ever before. With a solid business knowledge base and a global perspective, you’ll be equipped and ready.

At Monash Business School you won’t just learn the latest theories and trends shaping business, you will be encouraged to broaden your awareness, test new ideas and try new methods. It’s an approach that sets the world’s most influential business leaders apart.

I had a passion for maths and science and as a result I decided to do both with a double degree to broaden my options for the future.”

**NHI NGUYEN**
Bachelor of Commerce / Bachelor of Biomedical Science

---

As part of my studies I went on an international tour to Berkeley in the US to learn about entrepreneurship and innovation. The experience really opened my eyes to start-up culture and was a catalyst in me starting my own business.”

**TARAS CHEPRAKOV**
Bachelor of Business (Marketing major)

---

I took the opportunity to be part of the Global Consulting Group, an organisation that recruits students from the campus. We got to work with a real, not-for-profit client and do some pro bono work. That was really good experience in the field and I found it really interesting.”

**YISHAN NEO**
Bachelor of Finance / Bachelor of Commerce

---

* Refer to page 5.
I’ve gained important soft skills, like being able to work effectively as part of a team, which has helped set me up for the future. Plus I’ve been given many opportunities to extend myself. I’ve enjoyed volunteering, joining clubs and societies and being a mentor to high school students.”

FIONA TRAN
Bachelor of Commerce / Bachelor of Information Technology

I enjoy the flipped classroom experiences; they enhance the interaction you have with other students and teachers. I’m looking forward to applying the concepts I’ve learnt at university.”

CHRISTIAN MORINA
Bachelor of Banking / Finance and Bachelor of Business

The small class sizes help you build strong connections with your peers and lecturers. I like the flexibility and the multiple specialisations plus I enjoy studying at the Peninsula campus because of its close-knit community. Overall I have gained an holistic understanding of how a business functions.”

OSHANI PARANAGAMA
Bachelor of Business Administration
First year is the perfect time to start exploring the learning opportunities on offer at Monash Business School.

We support an holistic approach to your studies. There are many different ways to add to your future employability, such as joining clubs and societies, volunteering or attending events with industry leaders.

Our degrees get you into the workplace - showing how your studies apply in the real world. Corporate projects and industry placements (internships) with some of the world’s most influential companies mean you’ll graduate better prepared and suitably skilled. You can even do an internship overseas* which means you’ll get work experience and an adventure rolled into one!

We offer opportunities to study overseas via summer and winter programs with universities across Europe and in the US*. We also run international and domestic study tours to explore businesses up close.

* All University-related international travel for study tours and study abroad programs will be subject to advice from the Australian Government Department of Health

TAKE YOUR LEARNING BEYOND THE CLASSROOM

#54 IN THE WORLD FOR GRADUATE EMPLOYABILITY

QS World University Ranking 2022.
BEGINNING YOUR BUSINESS JOURNEY

Monash Business School will prepare you for a career in business, however you imagine it. With our huge range of degrees, majors and electives, you can tailor your study to meet your interests and goals.

**Do you want a comprehensive or specialist degree?**
Do you know exactly what area of business you want to study? Or do you want to taste-test a few different areas first? See pages 10 and 17 to understand if a comprehensive course or a specialist course is right for you.

**Lean into your strengths**
A good way to understand a business or commerce path is to consider these differences:

As a general rule, our business courses (Bachelor of Business and Bachelor of Business Administration) have a stronger focus on people-based functions such as marketing, management, business law and human resources. Choosing Business will offer a deep insight into how organisations work across all business functions. Commerce is more analytical and conceptual, with a bigger emphasis on quantitative and mathematical topics such as business analytics, econometrics, marketing science and actuarial science. Once you’ve built this specialised knowledge, you’ll be able to use data to solve problems and find solutions in commercial contexts.

**How much maths have you done?**
The level of maths you complete in Year 12 will determine your options. If you’re interested in the Bachelor of Commerce, you’ll need Year 12 higher maths and an ATAR of 86+. The Bachelor of Business requires Year 12 maths and an ATAR of 76+, or you can do a Bachelor of Business Administration with Year 11 maths and an ATAR of 70+. The table on page 29 provides more detail on ATAR and IB requirements.

* Refer to page 5
DOUBLE THE DEGREE
FAST TRACK A SECOND DEGREE!

If you’re feeling the pull to explore more than one discipline, a double degree could be the right move. Monash offer one of the largest double degree programs in the country — giving you the freedom to combine your business studies with other areas of interest, including law, engineering, arts, education and IT.

Most double degree programs require just one extra year of study. By using the electives from one degree to make up the required units from the other, you’ll graduate at least two years sooner than if you studied the courses separately. It’s a great way to build your skills and expand your employability.

There are 26 double degree options, here are just a few…

**Arts + Business**

Pursue what you’re interested in – which might be languages, international relations, behavioural studies or any one of 40 arts majors – while achieving a skillset to apply in any professional setting. For instance you could combine a business analytics major in your Commerce degree with a theatre studies major in your Arts degree to get a head start in entertainment.

**Biomedical Science + Commerce**

Biomedical science is responsible for many of the breakthroughs that have shaped the history of human health – and the work never stops. For every disease cured, life prolonged or discovery made, many more challenges lie ahead. As research continues and the industry inevitably expands, the need for effective commercialisation is also growing.

**Design + Business**

The experience of opening your new iPhone box. How you feel when you walk into your favourite store. The most successful businesses know that smart design is the key to standing out. This double degree will teach you how to see the world of business through a designer’s lens.

**Computer Science + Commerce**

What defines us as individuals also define us as systems – of action, behaviour and data. If you’ve got an analytical mind, you might recognise the potential here. From algorithms and big data, to digital innovation, this double degree will show you how analytical insight can be used to face challenges and create opportunities in the commercial world.

Refer to page 26 for full details.
### Find Your Business Interest Area

There are a number of ways to explore a business interest area to study. It just depends on the emphasis you choose. You can do an entire Bachelor degree in one discipline and choose to undertake a second major or minor by using your elective units. A major is a main area of study made up of eight units and a minor is a second focus area made up of four units. You can also pick up electives in each area of interest.

<table>
<thead>
<tr>
<th>Accounting</th>

COMPREHENSIVE COURSES

You don’t have to know exactly where you want to be in three years to kick off your studies now. With a comprehensive course, you can cast your net wide to discover what areas of business interest you most before choosing your major.

Our comprehensive courses are made up of core units, a major and a number of elective units. The great thing about elective units is that you can use them to study abroad*, go on a study tour, complete an industry placement project, or even take up a second major from within the Business School or from another Monash faculty.

Our comprehensive courses:
- Bachelor of Business
- Bachelor of Business Administration
- Bachelor of Commerce

“
I chose Commerce to obtain the skills required to assess risk in insurance, finance and other industries, and my favourite areas of study include mathematical and statistical methods, which are used to quantify and manage risk.

Our teachers are friendly and come to our classes with a clear purpose. Each challenge they set requires effort and completing a challenge is enjoyable and rewarding.

I’d like to become an actuary and apply what I have learned to make a positive impact on the world.”

YU LI
Bachelor of Commerce (Honours)
If you're intrigued by what makes markets, brands and organisations function effectively, a business degree could be a perfect fit.

**Why study a Bachelor of Business at Monash?**
This is a forward-thinking, industry-focused degree. It offers the opportunity to build the practical skills and industry-based knowledge that's crucial for today’s complex and dynamic business environment.

**How does it work?**
You'll start by studying the core units of accounting, marketing, business law, management, economics, business statistics and finance. Then, once you have a taste for each area, you’ll choose to major in one or two areas to develop deeper skills. If you choose to do a second major it can be from within the Business School or a different faculty.

To find out how this degree is structured see page 25.

In your second year an Integrating unit will give you the practical skills, abilities and growth mindset needed to succeed in 21st century workplaces. Your final year will include a Capstone unit to help you demonstrate what you’ve learned in a practical context or setting.

**This degree could be for you if...**
You’re looking for a course with a practical focus and want choice and flexibility. It’s a comprehensive degree that gives you plenty of options – with 12 majors and 10 double degree alternatives. If you’re looking for broad-based skills or you haven’t yet decided how you want to specialise, a Bachelor of Business could be right for you.

**Where it could lead**
There is a huge number of career options. You could find yourself working in a number of fields, including business development, consulting, data analysis, human resources, management, and marketing. Plus, with a degree from an internationally-recognised business school, you’ll have opportunities for employment across the globe.

**Beyond the classroom**
As part of the degree you’ll have the opportunity to take part in:
- industry placements and projects with leading brands
- international exchange programs with one of our 100-plus partner universities around the world*
- leadership, professional development and volunteering programs
- student professional societies
- networking opportunities
- domestic and international study tours*.

---

I’m majoring in accounting and business analytics and statistics. I wanted to do a degree that would be useful for a long time and would help me wherever I went. Business can be used in a variety of different circumstances and I didn’t have to choose exactly what I wanted to do straight away, which is something that really attracted me to the degree. I love business statistics. It’s amazing because there’s so many different aspects to it and it’s definitely something that will always be needed in business – it’s constantly changing.”

CATHERINE KOPEC

2 The Bachelor of Education (Honours) is an accelerated course where you’ll be required to undertake more than the standard annual load of 48 credit points in year two and/or year three in order to complete the course in four calendar years.

---

“I’ve had a number of directors at different firms tell me that they look really favourably on Monash graduates. It’s been a really big positive and made my life easier applying for graduate positions.”

BRETT PATTERSON
Bachelor of Business
To keep up with growing industry needs, companies are looking for graduates with strong business administration skills to improve day-to-day operations.

From bringing ideas to life to examining the balance sheet, here’s your chance to get a real-world understanding of the many factors that come together to make a business work.

**Why study a Bachelor of Business Administration at Monash?**

This degree features smaller classes and offers a supportive academic environment at Monash Peninsula. With strong links to industry and the community, Monash Peninsula has developed a reputation for excellence in business.

**How does it work?**

In the Bachelor of Business Administration, you will build a sound conceptual and theoretical foundation from which you can build essential skills for a career in business.

You will learn about the core business functions and how they are coordinated to achieve business goals while having the opportunity to specialise in more than one business discipline.

**This degree could be for you if...**

You’re interested in how businesses operate on different levels and want to study in a hands-on setting. This course covers the operational skills required to make any organisation run smoothly.

It’s also great if you’re wanting a broad understanding of business fundamentals while also focusing on a specific area of study. You can do this by double-majoring in business administration (which will give you a broad overview of business) and in another area of study such as accountancy or management practice.

**Where it could lead**

With completion of this course, you will be a job-ready, independent, and resourceful learner who is equipped to implement sound, evidence-based discipline-specific business practice with the capacity to work collaboratively, respectfully, and inclusively in a diverse world.

You’ll graduate with the practical skills to jump into a career with a public-sector or private enterprise or even start your own business. You could find yourself working in a number of fields, including accounting, consulting, government, management, and marketing. And with an internationally-recognised degree, like all degrees at Monash Business School, your prospects may extend well beyond Australia.

Bachelor of COMMERCE

Commerce is an integral part of our society. The desire to trade what we have for what we want has shaped how people and nations have interacted for millennia. Today, commerce impacts decision-making, leadership, innovation and policy development on a global scale.

Join the brilliant minds of the commercial world – the people taking an analytical approach to problem-solving, and influencing change in commercial settings. If you’re a clever thinker who likes to unpack problems and consider ideas from a fresh perspective, commerce presents a world of exciting career prospects.

Why study a Bachelor of Commerce at Monash?
This degree offers the opportunity to strengthen your analytical abilities, which could assist you to discover commercial solutions and help organisations make decisions or change directions.

How does it work?
This is a comprehensive course with an analytical focus. You’ll learn to think conceptually, solve problems analytically and use data to make informed decisions. It’s the perfect foundation for a career in business.

You’ll start by studying a range of core units to get a sense of where your interests lie. Then you’ll begin to build specialist skills, majoring in accounting, actuarial studies, behavioural commerce, business analytics, econometrics, economics, finance, management studies, marketing science, mathematical foundations of econometrics, or sustainability. You can also choose to do a second major from within the Business School or from another faculty.

To find out how this degree is structured see page 25.

This degree could be for you if…
You have strong mathematical skills and enjoy analysing problems to find the best solutions.

With 12 double degree options and 11 majors, our Bachelor of Commerce offers a huge amount of flexibility. It means you can get started without necessarily knowing your future career.

Where it could lead
You’ll develop the professional skills to manage an organisation, and the analytical abilities to transform businesses from the inside out. A degree in commerce will give you a strong foundation that could take you in many different directions – you could find yourself working in consulting, data analysis, economics, econometrics, finance, marketing science, and strategy.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:
• industry placements with leading companies
• an international exchange*
• domestic and international study tours*
• industry projects
• a range of leadership, professional development and volunteering programs
• networking events.

* Refer to page 5.

I chose to study both Commerce and Information Technology as I feel that they complement each other very well. The vast range of career paths associated with this degree also means that I have unlimited choices.”

At Monash, I’ve been involved in mentoring Year 11 and 12 students from underprivileged backgrounds to help them understand and break down the barriers to tertiary education. I’ve always had a passion for consulting and have been offered a graduate role at Ernst and Young.”

SHAMRON SINGH
Bachelor of Commerce and Bachelor of Business Information Systems
SPECIALIST COURSES

Have a pretty good idea of where you’re headed? With a specialist course, you’ll take up to 16 units in your specialist area. Focusing your studies in one area will allow you to start building a specific skill set from day one.

The great thing about specialist courses is that they’re specifically designed to ensure that you meet any accreditation requirements needed for your future professional field, while giving you flexibility to do other things within your degree. With a specialist course you can use your electives to undertake a second major, study abroad* or even complete an industry placement.

You might also consider a double degree. Most double degree programs require just one extra year of study. It’s another great way to expand your options.

**Our specialist courses:**
- Bachelor of Accounting
- Bachelor of Actuarial Science
- Bachelor of Banking and Finance
- Bachelor of Economics
- Bachelor of Finance
- Bachelor of International Business
- Bachelor of Marketing

I’ve had an interest in maths since high school so the idea of applying maths to evaluate the risks associated with business was interesting to me. As part of my specialist double degree, it’s been fascinating to see how the topics we study translate into a market of products that serve clients’ needs. The course is giving me a taste of everything, so I can pursue related roles in the future.”

**ARNAV PRASAD**
Bachelor of Commerce and Bachelor of Actuarial Science

Bachelor of ACCOUNTING

Accounting is the language of business and the foundation of a wide range of careers. It’s an integral part of any business, and spreads across different organisational functions – from finance and HR to senior management and marketing.

Studying a Bachelor of Accounting, you’ll discover what makes accounting so vital to business success, and why it’s more than just a numbers game.

Why study a Bachelor of Accounting at Monash?
This degree offers more than just technical competencies; it’ll also equip you with the broader business and advisory skills you’ll need to build your accounting career, which is a common pathway to senior management positions.

How does it work?
This degree will give you a solid technical skill set across key areas such as information systems, corporate finance, auditing and assurance, financial reporting and data analysis. You’ll learn to interpret data and develop insights that will help organisations effectively allocate resources and make better business decisions.

Your course will be structured around giving you exactly what you need to excel in this area – from problem-solving and complex analysis, to communication and professional judgement. The course also comes with electives to prepare you to meet the requirements of the major professional accounting bodies.

This degree could be for you if...
You’re set on a career in accounting, or you’re looking to complement another skill set with accounting expertise, as you can use your elective units to choose another major or minor. You’ll delve deep into the complexities of this one area to build a stronger knowledge base.

Where it could lead
With an accounting degree from an internationally-recognised business school, you’ll have a range of options open to you – in Australia and around the world. You could find yourself working in a number of fields, including auditing, budgeting, business advisory, forensic accounting, liquidation, management accounting, mergers and acquisitions, and taxation.

An accounting qualification will also give you a solid base to potentially move into senior management positions down the track. Depending on your electives, this degree could prepare you to meet the accounting accreditation requirements of:
- CPA Australia
- Chartered Accountants Australia and New Zealand
- The Institute of Public Accountants
- The Chartered Institute of Management Accountants
- The Association of Chartered Certified Accountants

Beyond the classroom
As part of this degree you’ll have the opportunity to take part in:
- an intensive study program involving interstate travel
- an international exchange program with one of our 100-plus partner universities around the world*
- the Chartered Institute of Management Accountants (CIMA) Global Business Challenge
- leadership, professional development and volunteering programs
- an internship or corporate project.

Prerequisites
VCE
- English: Level 1
- Maths: Level 2

IB
- English: Level 1
- Maths: Level 2

Bachelor of ACTUARIAL SCIENCE

If you're big on numbers and the role they play in our day-to-day lives, actuarial science can help you turn your curiosity into a promising commercial career.

Learn to evaluate risk and opportunity in a business setting, and use your findings to influence some of society's most important economic structures. Actuaries play major roles in a range of organisations, and are often considered the backbone of financial security.

Why study a Bachelor of Actuarial Science at Monash?
This degree was designed by actuaries and our Department of Econometrics and Business Statistics is the only dedicated department of its kind in Australia. It boasts the largest concentration of econometricians and statisticians in the region.

How does it work?
In this degree you'll learn to apply mathematical concepts to real-life scenarios, and use your analytical skills to help companies plan for the future. As you further develop your maths and analytical skills, you'll start to use a range of concepts and data findings to solve real commercial problems.

Your degree will be tailored to building your skills in actuarial science. This degree is accredited by the Actuaries Institute, and may allow you to achieve Part I of the Actuaries Institute professional qualification.

This degree could be for you if...
You're looking for a way to turn a love of maths into an exciting career. You'll learn to identify, analyse and assess risk in a range of business areas – including insurance, superannuation, business and financial services, scientific and social research, and engineering.

Where it could lead
Actuaries are typically found in insurance and consulting actuarial firms. But they're also in demand in other industries, so you could find yourself working in a number of fields, including asset management, auditing, banking, data analysis, financial planning, risk management, and stockbroking. The types of projects you might find yourself working on range from the mathematics of customer loyalty schemes to carbon footprint modelling.

Actuaries play particularly important roles in industries that forecast real-life scenarios, using mathematical and econometric models to make predictions. For example, the impact of potential economic or property loss on insurance premiums, superannuation and other types of financial investments.

Beyond the classroom
As part of the degree you'll have the opportunity to take part in:
- industry placements with leading companies
- an international exchange*
- domestic and international study tours*
- a range of leadership, professional development and volunteering programs
- networking events
- winter and summer research scholarship programs.

Prerequisites
VCE
- English: Level 1
- Maths: Level 3

IB
- English: Level 1
- Maths: Level 3

Bachelor of Banking and Finance

Your first job. Your first home. The very first four-digit PIN you ever choose. Banks play a huge role in the way we live our lives. But there’s a lot more to banking than cards, accounts and loans.

As a society, we rely heavily on our banks remaining stable. From capital markets to financial forecasting – futures, derivatives, bonds, stocks and more – you’ll explore what makes banking and finance such a central part of the world today, and learn the skills required to build a successful career.

Why study a Bachelor of Banking and Finance at Monash?
This degree offers practical ways to apply your knowledge. You’ll have access to our Simulated Teaching and Research Laboratory (STARLab) where you can use financial market simulation programs to enhance your decision-making.

How does it work?
In this degree you’ll focus on the key theories, practices and concepts that underpin the banking and finance sector, and the skills required for managing money in an institutional setting.

Your entire course will be structured around building your knowledge and skills in this area – with a focus on corporate finance, commercial banking, equity markets, financial planning and investment banking.

This degree could be for you if...
You can see yourself working in a bank or financial institution down the track. It’s also a great knowledge base to have if you’re interested in trading stocks or investing. When it comes to money, the more you know, the better.

Where it could lead
As a banking and finance graduate you’ll find plenty of roles that you’re suited to – and could find yourself working in accounting, banking, broking, consulting, funds management, insurance, and superannuation. You’ll have a universal skill set that can take you around the world.

Beyond the classroom
As part of this degree you’ll have the opportunity to take part in:
• an intensive study program involving interstate travel
• the Chartered Institute of Management Accountants (CIMA) Global Business Challenge
• the UBS Investment Banking Challenge
• internships with major banks, including Macquarie
• an international exchange*
• a range of leadership, professional development and volunteering programs
• networking events.

By studying this course, you could also gain access to the professional development and mentorship opportunities that come with a Financial Services Institute of Australasia (FINSIA) membership.

Prerequisites
VCE
English: Level 1
Maths: Level 2

How do we use resources most efficiently? How does an airline set the price of a ticket? And what’s the best way to measure sustainable business practices?

Economics is the science of decision-making. You’ll explore the principles our economy is built on, and learn how they impact the way we spend, save, work and live. This degree will teach you to think analytically, solve problems logically, and make informed decisions in a commercial context.

Why study a Bachelor of Economics at Monash?
This degree provides access to world leading research and teaching across a range of economic disciplines. We’re one of the top three universities in the world for Experimental Economics, Cognitive and Behavioural Economics and Health Economics (RePEc).

How does it work?
In this degree, you’ll learn how to use data to make better business decisions, study the impact of individual economic choices, and build an in-depth understanding of the way local, national and global economies function.

In this course, you’ll further focus your studies by following one of these streams:

- **Economics and economic policy**
  Understand the bigger economic picture – from how goods and services are consumed, to changes in employment rates. You’ll learn to apply economic theories and analytical tools to the economy, and identify the effects of domestic and international policies.

- **Mathematical economics and econometrics**
  If you’re more interested in the numbers behind the economic theories, this stream could be the one for you. You’ll learn how to analyse and interpret econometric and mathematical data, and apply your findings in a range of contexts, including financial investment, production, taxes, and government expenditure and policies.

This degree could be for you if...
You’re a logical thinker who likes putting academic theory into action. You’ll study a broad range of areas – such as human behaviour, development, policy and business – and learn to bring this information together to form valuable insights.

With a strong understanding of how decisions affect individuals, organisations and governments, you’ll be in a better position to influence change at all levels of society. The latest economic theories and analytical tools will also allow you to identify and communicate the impact of government policies, both domestically and on a global scale.

Where it could lead
A degree in economics can take you in different directions – so you could find yourself working in a number of fields, including banking, financial services, research, academia and government departments such as the Reserve Bank of Australia, the Australian Bureau of Statistics and the Australian Treasury. With a degree from an internationally-recognised business school, you’ll have worldwide career prospects.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:

- industry placements with leading companies
- an international exchange*
- domestic and international study tours*
- a range of leadership, professional development and volunteering programs
- networking events.

Prerequisites
**VCE**
- English: Level 1
- Maths: Level 3

**IB**
- English: Level 1
- Maths: Level 3

For prerequisite subject definitions and requirements, please refer to page 29.

Few things impact our society more than the exchange of money. The way we earn, spend, save, borrow and invest it – both as individuals and as a collective – is reflected in everything from interest rates to property prices.

Build a strong understanding of how our financial system works, and develop the skills you need to manage money well – for big corporations, small businesses and governments.

Why study a Bachelor of Finance at Monash?
Reuters ranked Monash Business School 22 in Asia Pacific for Most Innovative Universities in 2019. This degree offers access to our Simulated Teaching and Research Laboratory (STARLab) which simulates live financial environments.

How does it work?
In this degree, you’ll learn how to manage and invest money in the form of assets, equity and liability. Your studies will also cover the financial policies and products that allow money to flow efficiently between individuals, businesses, government and other organisations.

For the next three years, your studies will focus on giving you a comprehensive understanding of the way financial systems operate.

This degree could be for you if...
You want to be part of maintaining a robust and efficient economy. In this course you’ll explore corporate finance, equities and investments, debt markets and fixed income securities, financial modelling and international finance.

Where it could lead
With a finance degree from a world-renowned business school, you’ll be prepared for a career in just about any industry, anywhere in the world. You could find yourself working in a number of fields, including accounting, banking, broking, consulting, financial forecasting, funds management, and insurance. A role in finance could see you making cashflow decisions, managing assets and risk, working with capital markets and stock portfolios, or producing forecasts and budgets for financial institutions.

You could find work as a group finance director, treasurer, securities dealer, financial trader, investment banker, stockbroker, chief financial officer, mergers and acquisitions specialist, risk manager or consultant. Our graduates have gone on to take exciting roles in major banks, regulatory bodies such as ASIC and the Reserve Bank, as well as in the corporate sector.

Beyond the classroom
As part of your degree you’ll have an opportunity to take part in:
• an intensive study program involving interstate travel
• the Chartered Institute of Management Accountants (CIMA) Global Business Challenge
• the UBS Investment Banking Challenge
• industry placements with major banks and financial institutions – including Macquarie, KPMG and Deloitte
• an international exchange*
• a range of leadership, professional development and volunteering programs
• networking events.

What would happen if Google suddenly crashed? Or China suddenly stopped producing cotton? Or the world faced another pandemic?

International business is a fundamental part of what keeps societies around the world running smoothly, in ways that we often take for granted. Today, businesses are facing a new generation of opportunities as a result of rapid globalisation. Learn the intricacies of doing business in different countries and environments – and the foundations you need for a global career.

Why study a Bachelor of International Business at Monash?

This degree will highlight the issues affecting international firms and the way they operate. It focuses on building your skills from day one – in trade and investments, business operations and international relations – to turn your global mindset into a successful business career.

How does it work?

Want to fast-track your career goals? This degree is unique in that it offers the opportunity to accelerate your degree by taking units over summer. With summer semesters you can manage your enrolment from year one in order to complete your degree up to a year earlier. You also have the chance to go on an international study tour or placement*.

This degree could be for you if...

You're interested in working with and managing people from different countries and cultures. Whether you're based in Australia or somewhere else in the world, you'll be in a position to support businesses operating in an international economy.

Where it could lead

Businesses of all sizes need people with global knowledge, so your options may be far-reaching. From a small company that uses overseas suppliers to a big brand that operates worldwide, you could find yourself working in a number of fields, including accounting, consultancy, human resources, and marketing.

You might be helping Australian companies set up operations internationally, or working with international companies to establish roots in Australia.

Beyond the classroom

As part of the degree you'll have the opportunity to:
* go on a global study abroad program and/or study tour*
* take part in an industry placement
* undertake a foreign language.

Prerequisites

Nike is ranked as the world’s most valuable apparel brand. So how has this iconic brand continued to stay at the top of the game?

Learn what makes a brilliant marketing strategy and how brands build value through differentiation. Develop the creative and technical insights you need to help businesses build their brand and drive business success.

Why study a Bachelor of Marketing at Monash?
This degree is one of the longest running marketing courses in Australia. For graduates, this is a significant benefit as there are thousands of marketing employers who recognise the solid business grounding the course offers.

How does it work?
This degree will give you a combination of technical, practical and analytical skills, from understanding buying behaviour to building social media campaigns – everything you need to think and act as a professional marketer.

Your degree will be tailored to building your skills in this area. You’ll have the opportunity to explore different areas of marketing – including social media, advertising, consumer and buyer behaviour, campaign planning, market research, strategy, data analysis, branding and digital marketing.

This degree could be for you if...
You’re interested in the process of helping an organisation understand, create, communicate and deliver value to customers and stakeholders.

Where it could lead
Every organisation needs people who can make great marketing moves. Marketing graduates find work in a range of industries, including healthcare, banking and finance, retail, sports, law, tourism, education and not-for-profits. You could find yourself working in a number of fields, including brand management, campaign analysis, digital marketing, market research, media planning, and social media.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:
- global study tours in China or Europe*
- marketing industry placements with leading firms and agencies
- networking events with prospective employers
- leadership, professional development and volunteering programs.

**COURSE MAPS**

Any degree you choose will offer some flexibility, so you can tailor it to your interests. The tables below show examples of how the courses will be structured.

### COMPREHENSIVE COURSE

Our Bachelor of Business, Bachelor of Business Administration and Bachelor of Commerce degrees are each made up of core units, a major of your choice and a number of elective units. You can use your elective units to study abroad*, complete an industry placement or even take up a second major from within Monash Business School or from another faculty.

<table>

Note: The above course maps are a guide only and may be subject to change. Some specialist degrees may have a different course structure and some double degrees may vary in length depending on their structure and requirements.

### SPECIALIST COURSE

A specialist course is made up of core units, a specialisation and a number of elective units. You can use your elective units to undertake a second major from within Monash Business School to expand your studies in Business or Commerce, or to pick up units from other faculties. You can even use your electives to study abroad* or complete an industry placement.

---

* An integrating unit is a requirement of the Bachelor of Business.
† During your degree, you’ll also complete a Capstone unit, to help you demonstrate what you’re learning in a practical setting. This can be a corporate or community project, a research project, an internship, or a coursework unit that takes your thinking well beyond the classroom. You can even do an internship overseas, which means you’ll get work experience and an adventure rolled into one!
* Refer to page 5.
## DOUBLE DEGREES

### DOUBLE DEGREES WITH OTHER FACULTIES

Open up exciting career opportunities by combining these business degrees with a course from another faculty.

You’ll need to meet the prerequisites of both degrees, so be sure to check the second course to make sure you comply.

## DOUBLE DEGREE COURSE STRUCTURE

Like single degrees, you’ll have a number of core units to complete, as well as a major. What sets a double degree apart is what you do with your electives – you’ll use them to study units and earn credits towards a second degree. Here is an example structure of what your course may look like if you do a double degree through Monash Business School or combined with another faculty.

### YEAR 1

<table>
<thead>
<tr>

</table>
There’s more than one way to become a Monash Business School student, if you didn’t achieve the ATAR you needed, are transferring from TAFE or another university, or want to try university study before committing to a full degree.

**Monash College Diploma**
If you’ve missed the ATAR or subject prerequisite you needed, a Monash College Diploma could help you gain entry into the first or second year of a Monash undergraduate degree.
- [monashcollege.edu.au/courses/diplomas](http://monashcollege.edu.au/courses/diplomas)

**Diploma of Tertiary Studies (DoTS)**
DoTS is a one-year, full-time course at Peninsula campus. You’ll start by studying first-year university subjects then gain entry into your second year of a Bachelor of Business or Bachelor of Business Administration degree.
- [monash.edu/study/courses](http://monash.edu/study/courses)

**Course or University Transfers**
Most Monash Business School courses accept internal transfers from other Monash courses, and transfers from other universities.
- [monash.edu/admissions/credit](http://monash.edu/admissions/credit)

**Monash Access Program (MAP)**
MAP has no tuition fees and is delivered part-time at Clayton campus with priority for students who have experienced financial or other disadvantage.
- [monash.edu/study/why-choose-monash/study-options/mature-age/monash-access-program](http://monash.edu/study/why-choose-monash/study-options/mature-age/monash-access-program)

**Single Units**
Once you’ve completed two university units, you can apply for a large range of undergraduate courses.
- [monash.edu/admissions/other-pathways/single-unit-enrolment](http://monash.edu/admissions/other-pathways/single-unit-enrolment)

**Indigenous Pathways**
Monash University is committed to advancing the education and career aspirations of Aboriginal and Torres Strait Islander people.
- [monash.edu/study/how-to-apply/indigenousstudent-applications](http://monash.edu/study/how-to-apply/indigenousstudent-applications)

**TAFE Qualifications**
If you have completed a certificate IV, diploma, or the first year of an advanced diploma, you could use it to gain a place at Monash and be eligible for some credit towards your course.
- [monash.edu/admissions/credit](http://monash.edu/admissions/credit)

**Entry pathways for international students**
The Monash University Foundation Year is a pre-university program that provides entry into the first year of a Monash University degree.
- [monashcollege.edu.au/courses/foundation-year](http://monashcollege.edu.au/courses/foundation-year)

The Monash College Diploma is a way to study English and gain a pathway into the first or second year of a Monash Business School course.
- [monashcollege.edu.au/courses/diplomas](http://monashcollege.edu.au/courses/diplomas)

---

**My Monash journey started when I came from Vietnam to study a Diploma of Business at Monash College. The diploma pathway gave me more confidence for my second year in the Bachelor of International Business. I built on my professionalism and utilised my leadership and communications skills in the peer mentoring program and as a student ambassador.”**

NGOC BAO TRAN DOAN (Sophie)
Bachelor of International Business
SCHOLARSHIPS

A scholarship will help you make the most of your time at university. And that’s why Monash offers more than 400 types of scholarships.

**Monash Business School scholarships**
Explore our range of dedicated scholarships to support the study of business.
[monash.edu/business/future-students/scholarships](monash.edu/business/future-students/scholarships)

**Academic scholarships**
Monash want as many bright minds as possible to benefit from a Monash education. Scholarship programs include the Sir John Monash Scholarships which aim to attract academically gifted students. Monash also recognises those students who make a difference in the lives of other students by becoming mentors.

**Equity scholarships**
Monash recognises that sometimes your ATAR doesn’t reflect your potential. If you’re from a low-income background, have a disability or medical condition, live in a regional or remote area, are from an asylum seeking background, or have experienced difficult circumstances, there are scholarships to ensure that none of these factors prevent you from pursuing your education.

**Indigenous student scholarships**
Monash offers many scholarships to support Indigenous students.

**Accommodation scholarships**
Scholarships can help cover the costs of your accommodation, and there are even scholarships to support any relocation costs if you’re from a rural area.

At Monash, we believe in giving our students the best chance to achieve their potential.

[monash.edu/scholarships](monash.edu/scholarships)
At Monash Business School, we make it a priority to equip you with the real-world experience you need to back up your world-class education. Through career events, workshops, networking and mentoring, we will support you throughout your studies.

**Mentoring**
The Monash Business School mentors come from a variety of organisations, and many have management and leadership experience. All are dedicated industry professionals who have volunteered to support students nearing graduation. With guidance from someone who’s walked a similar path, you will feel equipped to make your next move.

**Career events**
There will be career events and workshops to attend. Keep up-to-date with industry trends, develop your employability skills, connect with employers, or prepare for a job. And when you’ve finished your studies, you can still attend our workshops for 12 months after completion!

- monash.edu/career-connect

**Networking**
Are you interested in talking to employers, recruiters and others working within industry? We can help. A good network will help you find career opportunities through referrals and word-of-mouth. We offer a range of resources to help build your profile.

- monash.edu/career-connect

Monash Business School is a launching pad for the leaders, innovators and CEOs of the future. Many of our most successful graduates have studied beyond their first degree to carve out a niche, build leadership skills, change career direction, or develop specialist skills for a senior industry role.

**Honours**
The Bachelor of Commerce (Honours) is available to students who have completed their business degree with exceptional academic performance. It’s an opportunity to expand on your undergraduate degree by exploring the latest research and developments in commerce. Specialty areas include accounting, econometrics, economics, finance, management and marketing. If you’re eligible, you’ll complete an extra year of study on top of your bachelor’s degree.

- monash.edu/study/courses/find-a-course/2022/commerce-b3701

**Graduate study**
Whether you’re working towards accreditation, looking to broaden your skill set, or keen to deepen your expertise or move into research, our graduate programs could be the extra step you need. We offer a range of programs, including a graduate certificate and diploma of business, as well as master’s degrees in a host of different specialisations such as global business, management and project leadership.
