DISCOVER MONASH BUSINESS SCHOOL

Be prepared for an exciting career in business, however you imagine it.

Monash Business School is the largest faculty at Monash. You’ll choose from the widest range of single and double business degrees in Australia.

Your degree will be recognised wherever in the world you want to work or study. Our top rankings and accreditations are a guarantee of an internationally recognised and high quality education. It’s a passport to a global career.

monash.edu/business
LEARN, EXPLORE AND CHANGE

The very essence of a Monash Business School education is developing people who can solve problems on a local and global scale, and it’s hard to imagine a time when the need to do that has been greater than now.

Disruption has become the norm. So as a student, developing your skills of agility and good communication will be more valued than ever before.

At Monash Business School you won’t just learn the latest theories and trends shaping business, you will be encouraged to broaden your awareness, test new ideas and try new methods. It’s an approach that sets the world’s most influential business leaders apart.
WORK-READY

Businesses look for graduates who have great communication skills and can adapt quickly to new challenges. Through corporate projects and industry experience, networking, career events and workshops we help you get prepared and ultimately achieve a competitive edge.

DOUBLE DEGREES

Choose from Australia’s widest range of single and double degrees, majors and electives. We offer seven double degrees within Monash Business School and 19 double degrees within Monash’s other faculties, including law, engineering, arts, education, IT and science.

TRULY GLOBAL

Combine overseas travel with study at a choice of more than 100 partner universities worldwide. Former students have studied at the University of California, Berkeley in the innovation hub of Silicon Valley and taken study tours to Europe, China, South America and the US.

 BETTER CONNECTED

Meet influential employers and work on industry projects. There are also many opportunities to meet recruiters and industry leaders. Plus, by joining the Monash Business School alumni community you’ll become part of a huge network of professionals to stay connected with throughout your career.
The world of business doesn’t stop at the border, neither should your learning!

At Monash Business School, you can broaden your horizons by studying and travelling as you work towards your degree. Our study experiences offer you the chance to challenge yourself and examine your work from a broader perspective, learn collaboratively and develop new connections.

We offer a range of domestic and international study experiences, including:

• study abroad opportunities – ranging from a few weeks to a whole semester
• study tours to see businesses in action – both locally and abroad

There are also various opportunities on offer to add to your future employability, such as industry placements, networking events, professional development opportunities and volunteering programs.

Find out more about our global study experiences by visiting monash.edu/business/current-students/global-study-experiences
ARE YOU GOOD AT MATHEMATICAL AND ANALYTICAL PROBLEM-SOLVING?

The choice of business or commerce is also determined by your Math results. If you’re interested in the Bachelor of Commerce, you’ll need Year 12 higher maths and an ATAR of 86+. The Bachelor of Business requires Year 12 maths and an ATAR of 76+, or you can do a Bachelor of Business Administration with Year 11 maths and an ATAR of 70+. The table on page 28 provides more detail on ATAR and IB requirements.
DOUBLE YOUR DEGREE

If you’re feeling the pull to explore more than one discipline, a double degree could be the right move. Monash offer one of the largest double degree programs in the country — giving you the freedom to combine your business studies with other areas of interest, including law, engineering, arts, education and IT.

Most double degree programs require just one extra year of study. By using the electives from one degree to make up the required units from the other, you’ll graduate at least two years sooner than if you studied the courses separately. It’s a great way to build your skills and expand your employability.

There are 26 double degree options, here are just a few…

**Information Technology + Business**
From small online stores to powerful multi-nationals, you’d be pushed to find a business venture at either end of the scale that doesn’t rely on IT-based systems and computer technology. A double degree in Business and Information Technology will land you right in the thick of organisational management and development. The possibilities are as open as your future.

**Science + Commerce**
Many of humanity’s biggest scientific breakthroughs are born in laboratories. But to have any impact in society at large, these discoveries can’t stay hidden. With a double degree in Commerce and Science, you can help navigate the rocky road between scientific research and commercialisation.

**Design + Business**
The experience of opening your new iPhone box. How you feel when you walk into your favourite store. The most successful businesses know that smart design is the key to standing out. This double degree will teach you how to see the world of business through a designer’s lens.

**Business + Marketing**
Even the most brilliant business operation won’t get far without a solid marketing strategy behind it. You’ll gain the business skills to ensure an organisation runs effectively, and the creative and technical insights to build value and drive business success. With a double degree in Business and Marketing, you’ll be equipped to understand your market and take bright ideas to new heights – for start-ups, established businesses and not-for-profit organisations.
# PICK AND MIX: DEGREES, MAJORS AND MINORS

There are a number of ways to explore a business interest area to study. It just depends on the emphasis you choose. You can do an entire Bachelor degree in one discipline and choose to undertake a second major or minor by using your elective units. A major is a main area of study made up of eight units and a minor is a second focus area made up of four units. You can also pick up electives in each area of interest.

Marketing involves creating, communicating, delivering and exchanging offerings that have value for customers.
- Bachelor of Marketing
- Bachelor of Commerce – Marketing Science major
- Bachelor of Business – Marketing major
- Bachelor of Business Administration – Marketing and Communications major
I chose Commerce to obtain the skills required to assess risk in insurance, finance and other industries, and my favourite areas of study include mathematical and statistical methods, which are used to quantify and manage risk.

Our teachers are friendly and come to our classes with a clear purpose. Each challenge they set requires effort and completing a challenge is enjoyable and rewarding.

I’d like to become an actuary and apply what I have learned to make a positive impact on the world.”

If you’re intrigued by what makes markets, brands and organisations function effectively, a business degree could be a perfect fit.

Why study a Bachelor of Business at Monash?
This is a forward-thinking, industry-focused degree. It offers the opportunity to build the practical skills and industry-based knowledge that’s crucial for today’s complex and dynamic business environment.

What will I learn?
You’ll start by studying the core units of accounting, marketing, business law, management, economics, business statistics and finance. Then, once you have a taste for each area, you’ll choose to major in one or two areas to develop deeper skills. If you choose to do a second major it can be from within the business school or a different faculty.

To find out how this degree is structured see page 24.

In your second year an Integrating unit will give you the practical skills, abilities and growth mindset needed to succeed in today’s complex business landscape. Your final year will include a Capstone unit to help you demonstrate what you’ve learned in a practical context or setting.

This degree could be for you if…
You’re looking for a course with a practical focus and want choice and flexibility. It’s a comprehensive degree that gives you plenty of options – with 12 majors and 10 double degree alternatives. If you’re looking for broad-based skills or you haven’t yet decided how you want to specialise, a Bachelor of Business could be right for you.

If you have an interest in sustainability, you will find learnings about responsible business leadership especially valuable.

Where it could lead
A degree in business will provide you with essential skills to transition successfully into the workplace. Your degree opens the door to an enormous number of career options. You may work in areas such as accounting, economics, marketing, taxation and human resource management. The Bachelor of Business also puts you in a good position for further academic study.

After 5–10 years of experience, opportunities may arise to move up the ladder to managerial and executive positions, or you may even look to start your own business.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:
• industry placements and projects with leading brands
• international exchange programs with one of our 100+ partner universities around the world
• leadership, professional development and volunteering programs
• student professional societies
• networking opportunities.

---

I’m majoring in accounting and business analytics and statistics. I wanted to do a degree that would be useful for a long time and would help me wherever I went. Business can be used in a variety of different circumstances and I didn’t have to choose exactly what I wanted to do straight away, which is something that really attracted me to the degree. I love business statistics. It’s amazing because there’s so many different aspects to it and it’s definitely something that will always be needed in business – it’s constantly changing.”

The small class sizes help you build strong connections with your peers and lecturers. I like the flexibility and the multiple specialisations plus I enjoy studying at the Peninsula campus because of its close-knit community. Overall I have gained an holistic understanding of how a business functions.”

OSHANI PARANAGAMA
Bachelor of Business Administration
Studying with like-minded people has made me more interested in what I’m learning and the environment has helped me succeed in achieving both my personal and academic goals.

By volunteering for activities such as the ambassador program, I’ve worked with new people, learned from them and shared my ideas.

I’m hoping to apply the knowledge I’ve gained to do work that has a social impact.”

NOYONIKA BANERJEE
Bachelor of Business Administration
Bachelor of COMMERCE

Commerce is an integral part of our society. The desire to trade what we have for what we want has shaped how people and nations have interacted for millennia. Today, commerce impacts decision-making, leadership, innovation and policy development on a global scale.

Join the brilliant minds of the commercial world – the people taking an analytical approach to problem-solving, and influencing change in commercial settings. If you’re a clever thinker who likes to unpack problems and consider ideas from a fresh perspective, commerce presents a world of exciting career prospects.

Why study a Bachelor of Commerce at Monash?
This degree offers the opportunity to strengthen your analytical abilities, which could assist you to discover commercial solutions and help organisations make decisions or change directions.

What will I learn?
This is a comprehensive course with an analytical focus. You’ll learn to think conceptually, solve problems analytically and use data to make informed decisions. It’s the perfect foundation for a career in business.

You’ll start by studying a range of core units to get a sense of where your interests lie. Then you’ll begin to build specialist skills, majoring in accounting, actuarial studies, behavioural commerce, business analytics, econometrics, economics, finance, management studies, marketing science, mathematical foundations of econometrics, or sustainability. You can also choose to do a second major from within the Business School or from another faculty.

To find out how this degree is structured see page 24.

This degree could be for you if...
You have strong mathematical skills and enjoy analysing problems to find the best solutions.

With 13 double degree options and 11 majors, our Bachelor of Commerce offers huge flexibility. It means you can get started without necessarily knowing your future career.

Where it could lead
With a Bachelor of Commerce you will be equipped with knowledge for a wide range of careers where analytical and problem-solving skills are in high demand. Depending on your choice of major, you could start your career as an economic, financial or marketing analyst, an accountant, a consultant or a researcher. You could even start your own business. You might specialise in particular areas such as data analytics, commercial law, finance or management.

After 5–10 years of experience, opportunities may arise to move up the ladder to managerial and executive positions. Whatever path you choose, your commerce degree will be your stepping stone to an amazing career.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:

• industry placements with leading companies
• an international exchange
• domestic and international study tours
• industry projects
• a range of leadership, professional development and volunteering programs
• networking events.

I chose to study both Commerce and Information Technology as I feel that they complement each other very well. The vast range of career paths associated with this degree also means that I have unlimited choices.”

Potential employers look for employees who have a diverse range of problem-solving skills and understand qualitative and quantitative approaches to analysing problems. Studying multiple majors in my degree has broadened my views and diversified my analytical skills.

MANGALA PRASETIA  
Bachelor of Commerce and Bachelor of Economics
I've had an interest in maths since high school so the idea of applying maths to evaluate the risks associated with business was interesting to me. As part of my specialist double degree, it’s been fascinating to see how the topics we study translate into a market awareness of products that serve commercial needs. The course is giving me a taste of everything, so I can pursue related roles in the future.”

ARNAV PRASAD
Bachelor of Commerce and Bachelor of Actuarial Science
Bachelor of ACCOUNTING

Accounting is the language of business and the foundation of a wide range of careers. It’s an integral part of any business, and spreads across different organisational functions – from finance and HR to senior management and marketing.

Studying a Bachelor of Accounting, you’ll discover what makes accounting so vital to business success, and why it’s more than just a numbers game.

Why study a Bachelor of Accounting at Monash?
This degree offers more than just high level technical competencies in accounting – it will also equip you with broader business advisory skills critical for the role accounting plays in business today. A career in accounting is also a common pathway to senior management positions so a Monash degree sets you up for this future opportunity. With this degree you will meet all the Certified Practising Accountant (CPA) accreditation requirements. You will also be able use electives to study a different major, study abroad or complete an industry placement.

What will I learn?
This degree will give you a solid technical skill set across key areas such as information systems, corporate finance, auditing and assurance, financial reporting and data analysis. You’ll learn to interpret data and develop insights that will help organisations effectively allocate resources and make better business decisions.

Your course will be structured around giving you exactly what you need to excel in this area – from problem-solving and complex analysis, to communication and professional judgement. The course also comes with electives to prepare you to meet the requirements of the major professional accounting bodies.

This degree could be for you if...
You’re set on a career in accounting, or you’re looking to complement another skill set with accounting expertise, as you can use your elective units to choose another major or minor. You’ll delve deep into the complexities of this one area to build a stronger knowledge base.

Where it could lead
This degree provides you with a range of career options in Australia and around the world. Your studies will prepare you for work in areas such as tax, auditing, budgeting, forensics, liquidation and management. An accounting qualification will also give you a solid base to potentially move into management positions after 5–10 years. Depending on your electives, this degree could prepare you to meet the accounting accreditation requirements of:

- Association of Chartered Certified Accountants (ACCA)
- Chartered Accountants Australia and New Zealand (CA ANZ)
- Chartered Institute of Management Accountants (CIMA)
- CPA Australia
- Institute of Public Accountants (IPA).

Beyond the classroom
As part of this degree you’ll have the opportunity to take part in:

- a three-week study program across Europe
- an international exchange program with one of our 100+ partner universities around the world
- industry placements and projects with leading brands
- leadership programs
- a range of professional development activities.

Bachelor of
ACTUARIAL SCIENCE

If you’re big on numbers and the role they play in our day-to-day lives, actuarial science can help you turn your curiosity into a promising commercial career.

Learn to evaluate risk and opportunity in a business setting, and use your findings to influence some of society’s most important economic structures. Actuaries play major roles in a range of organisations, and are often considered the backbone of financial security.

Why study a Bachelor of Actuarial Science at Monash?
This degree was designed by actuaries. Our Department of Econometrics and Business Statistics is the only dedicated department of its kind in Australia. It boasts the largest concentration of econometricians and statisticians in the region.

What will I learn?
In this degree you’ll learn to apply mathematical concepts to real-life scenarios, and use your analytical skills to help companies plan for the future. As you further develop your maths and analytical skills, you’ll start to use a range of concepts and data findings to solve real commercial problems.

Your degree will be tailored to building your skills in actuarial science. This degree is accredited by the Actuaries Institute Australia, and may allow you to achieve Part I of the Actuaries Institute Australia professional qualification. This also means you are able to use your electives to study a major, study abroad or complete an industry placement.

This degree could be for you if…
You’re looking for a way to turn a love of maths into an exciting career. You’ll learn to identify, analyse and assess risk in a range of business areas – including insurance, superannuation, business and financial services, scientific and social research, and engineering.

Where it could lead
Actuaries are typically found in insurance and consulting firms, as well as international accounting and professional service organisations. The financial industry is a big employer of actuaries and they’re also in demand in other industries, such as mining, telecommunications, government and academia. Actuaries often provide advice – for asset managers, stockbrokers, bankers and companies working in risk management. The types of projects you might find yourself working on range from the mathematics of customer loyalty schemes to carbon footprint modelling. Actuaries play particularly important roles in industries that forecast real-life scenarios, using mathematical and econometric models to make predictions. For example, it is important to evaluate the impact of potential economic or policy changes on insurance premiums, superannuation and other types of financial investments.

Graduates are expected to work as analysts for the first few years of their careers, and there’s a wide range of areas to consider, including life insurance, general insurance, health insurance, superannuation, reinsurance, banking, risk management, investment and fund management, and data analytics. As you gain more experience and continue to pass the actuarial professional exams, you may be promoted to more senior roles.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:
• industry placements with leading companies
• an international exchange
• international and domestic study tours
• a range of leadership, professional development and volunteering programs
• networking events.

¹ The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 2023 or an estimate (E). For double degree courses, you must meet the prerequisites for both courses.
Bachelor of BANKING AND FINANCE

Your first job. Your first car loan. Banks play a huge role in the way we live our lives. But there’s a lot more to banking than cards, accounts and loans.

As a society, we rely heavily on our banks remaining stable. From capital markets to financial forecasting – futures, derivatives, bonds, stocks and more – you’ll explore what makes banking and finance such a central part of the world today, and learn the skills required to build a successful career.

Why study a Bachelor of Banking and Finance at Monash?
This degree offers practical ways to apply your knowledge. You’ll have access to our Simulated Teaching and Research Laboratory (STARLab) where you can use financial market simulation programs to enhance your decision-making.

What will I learn?
In this degree you’ll focus on the key theories, practices and concepts that underpin the banking and finance sector, and the skills required for managing money in an institutional setting.

Your entire course will be structured around building your knowledge and skills in this area – with a focus on corporate finance, commercial banking, equity markets, financial planning and investment banking.

This degree could be for you if...
You can see yourself working in a bank or financial institution down the track. It’s also a great knowledge base to have if you’re interested in trading stocks or investing. When it comes to money, the more you know, the better.

Where it could lead
Banking and finance graduates take exciting roles in major banks, financial planning firms, superannuation funds and regulatory bodies. Typically, graduate roles include analysts, traders or something similar. You might work with corporate organisations, in finance markets or with government. Banking and finance is a discipline that you can take anywhere in the world and with experience and high performance, management roles may become available 5–10 years into your career.

Beyond the classroom
As part of this degree you’ll have the opportunity to take part in:
* a short international study tour
* internships with major banks, including Macquarie
* an international exchange
* industry placements and projects with leading brands
* a range of leadership, professional development and volunteering programs
* networking events.

By studying this course, you could also gain access to the professional development and mentorship opportunities that come with a Financial Services Institute of Australasia (FINSIA) membership.

Bachelor of ECONOMICS

How do we use resources most efficiently? How does an airline set the price of a ticket? And what’s the best way to measure sustainable business practices?

Economics is the science of decision-making. You’ll explore the principles our economy is built on, and learn how they impact the way we spend, save, work and live. This degree will teach you to think analytically, solve problems logically, and make informed decisions in a commercial context.

Why study a Bachelor of Economics at Monash?
We are ranked number one in Australia for Economics and Econometrics and this degree provides access to world-leading research and teaching across a range of economic disciplines. We’re one of the top three universities in the world for Experimental Economics, Cognitive and Behavioural Economics and Health Economics (RePEc).

What will I learn?
In this degree, you’ll learn how to use data to make better business decisions, study the impact of individual economic choices, and build an in-depth understanding of the way local, national and global economies function.

In this course, you’ll further focus your studies by following one of these streams:

- **Business analytics for economics**
  Gain a strong foundation using cutting-edge techniques to develop creative data-driven solutions for improving business practices and society at large.

- **Economics and economic policy**
  Gain advanced skills for theoretical and empirical analysis of individual and collective decision-making in a wide variety of human interactions arising in the social, political and economic domains.

- **Macroeconomics and financial markets**
  Gain advanced knowledge of the interlinkages between the aggregate features of an economy as reflected in GDP, inflation, and unemployment, and the structure, functioning, and performance of financial markets.

- **Mathematical economics and econometrics**
  Gain advanced skills to formulate economic theories in a mathematical form that can be used to formulate theoretical predictions.

This degree could be for you if…
You’re a logical thinker who likes putting academic theory into action. You’ll study a broad range of areas – such as human behaviour, development, policy and business – and learn to bring this information together to form valuable insights.

With a strong understanding of how decisions affect individuals, organisations and governments, you’ll be in a better position to influence change at all levels of society. The latest economic theories and analytical tools will also allow you to identify and communicate the impact of government policies, both domestically and on a global scale.

Where it could lead
A degree in economics can take you in different directions – so you could find yourself working in a number of fields, including banking, financial services, research, academia and government departments such as the Reserve Bank of Australia, the Australian Bureau of Statistics and the Australian Treasury. With a degree from an internationally-recognised business school, you’ll have worldwide career prospects.

Beyond the classroom
As part of the degree you’ll have the opportunity to take part in:

- Industry placements with leading companies
- an international exchange
- a range of leadership, professional development and volunteering programs
- networking events.

Prerequisites
**VCE**
- English: Level 1
- Maths: Level 3

**IB**
- English: Level 1
- Maths: Level 3

For prerequisite subject definitions and requirements, please refer to page 28.

Bachelor of Finance

Develop the skills you need to manage money well, whether for big corporations, small businesses, or governments.

Build a strong understanding of how our financial system works.

Why study a Bachelor of Finance at Monash?
This course will provide a strong understanding of how the financial system works and how to manage money well. It will develop the skills you need to solve complex financial problems using mathematical models.

What will I learn?
In this degree, you’ll learn how to manage and invest money in the form of assets, equity and liability. Your studies will also cover the financial policies and products that allow money to flow efficiently between individuals, businesses, government and other organisations.

For the next three years, your studies will focus on giving you a comprehensive understanding of the way financial systems operate.

This degree could be for you if...
You want to be part of maintaining a robust and efficient economy. In this course you’ll explore corporate finance, equities and investments, debt markets and fixed income securities, financial modelling and international finance.

Where it could lead
With a finance degree from a world-renowned business school, you’ll be prepared for a career in just about any industry, anywhere in the world. A role in finance could see you making cashflow decisions, managing assets and risk, working with capital markets and stock portfolios, or producing forecasts and budgets for financial institutions.

You could find work as a group finance director, treasurer, securities dealer, financial trader, investment banker, fund manager, stockbroker, chief financial officer, mergers and acquisitions specialist, risk manager or consultant.

Typically, graduate roles are as analysts, traders or something similar, and with experience and high performance, managerial roles may become available after 5–10 years. Our graduates have gone on to take exciting roles in major banks, regulatory bodies such as ASIC and the Reserve Bank, as well as in the corporate sector.

Beyond the classroom
As part of your degree you’ll have an opportunity to take part in:
• an intensive study program involving interstate travel
• industry placements with major banks and financial institutions – including Macquarie, KPMG and Deloitte
• an international exchange
• a range of leadership, professional development and volunteering programs
• networking events.

Bachelor of
INTERNATIONAL BUSINESS

In a highly globalised society, what are the impacts on Australian businesses when a country halfway round the world is struck by disaster?

International business is a fundamental part of what keeps societies around the world running smoothly in ways that we often take for granted. Today, businesses are facing a new generation of opportunities as a result of rapid globalisation. Learn the intricacies of doing business in different countries and environments – and the foundations you need for a global career.

Why study a Bachelor of International Business at Monash?
This degree will highlight the issues affecting international firms and the way they operate. It focuses on building your skills from day one – in trade and investments, business operations and international relations – to turn your global mindset into a successful business career. You will also take part in a unique 11-week industry placement.

Fast-Track your studies!
Want to fast-track your career goals? This course is unique in that it offers the opportunity to potentially complete your course up to a year earlier by taking summer units. You also have the chance to go on an international study tour or placement*.

This degree could be for you if...
You’re interested in working with and managing people from different countries and cultures. Whether you’re based in Australia or somewhere else in the world, you’ll be in a position to support businesses operating in an international economy.

Where it could lead
A Bachelor of International Business will offer a diverse range of careers related to working in business in a global context. Some graduates may work in small companies that use overseas suppliers, and others may work with large organisations that operate worldwide. For example, you might be helping Australian companies set up operations internationally, or working with international companies to establish roots in Australia.

Businesses of all sizes need people with global knowledge so your career options can be far-reaching. It may start in a general business capacity or in an operational role, and with appropriate experience your next step may be to take on management roles.

Beyond the classroom
As part of the degree you’ll have the opportunity to:
- join global study abroad and/or study tours available in countries such as China, South Korea, Japan or Malaysia
- take part in an 11-week industry placement
- frequently hear from industry guest speakers.

Bachelor of MARKETING

What makes a brand stand out from the crowd? How does a business create impactful campaigns?

Learn what makes a brilliant marketing strategy and how brands build value through differentiation. Develop the creative and technical insights you need to help businesses build their brand and drive business success.

Why study a Bachelor of Marketing at Monash?
This degree is one of the longest running marketing courses in Australia. For graduates, this is a significant benefit as there are thousands of marketing employers who recognise the solid business grounding our course offers. You will gain a comprehensive understanding of marketing concepts, tools and techniques. From understanding buying behaviour to building social media campaigns, you'll be equipped with everything you need to think and act as a professional marketer, as well as the chance to join Monash's renowned student-run marketing society (MMSS).

What will I learn?
This degree will give you a combination of technical, practical and analytical skills, from understanding buying behaviour to building social media campaigns – everything you need to think and act as a professional marketer.

Your degree will be tailored to building your skills in this area. You'll have the opportunity to explore different areas of marketing – including social media, advertising, consumer and buyer behaviour, campaign planning, market research, strategy, data analysis, branding and digital marketing.

This degree could be for you if...
You're interested in the process of helping an organisation understand, create, communicate and deliver value to customers and stakeholders.

Where it could lead
Every organisation needs people who are skilled at implementing marketing strategies. A degree in marketing will pave the way for you to consider a large number of careers, including digital marketing, product marketing and market research. With this degree, you can also work in a wide range of industries such as healthcare, banking and finance, retail, sports, law, tourism, education or not-for-profit.

Typical graduate roles include those such as marketing analysts, market research analysts or digital marketing analysts. With appropriate experience you may be able to progress to management roles within 5–10 years.

Beyond the classroom
As part of the degree you'll have the opportunity to take part in:
• global study tours in China or Europe
• marketing industry placements with leading firms and agencies
• networking events with prospective employers
• leadership, professional development and volunteering programs.

COURSE MAPS

Any degree you choose will offer some flexibility, so you can tailor it to your interests. The tables below show examples of how the courses will be structured.

### COMPREHENSIVE COURSE

Our Bachelor of Business, Bachelor of Business Administration and Bachelor of Commerce degrees are each made up of core units, a major of your choice and a number of elective units. You can use your elective units to study abroad* or complete an industry placement or even take up a second major from within Monash Business School or from another faculty.

#### YEAR 1

<table>

</table>

Note: The above course maps are a guide only and may be subject to change. Some specialist degrees may have a different course structure and some double-degrees may vary in length depending on their structure and requirements.

### SPECIALIST COURSE

A specialist course is made up of core units, a specialisation and a number of elective units. You can use your elective units to undertake a second major from within Monash Business School to expand your studies in Business or Commerce, or to pick up units from other faculties. You can even use your electives to study abroad* or complete an industry placement.

---

† An integrating unit is a requirement of the Bachelor of Business.

‡ During your degree, you’ll also complete a Capstone unit, to help you demonstrate what you’re learning in a practical setting. This can be a corporate or community project, a research project, an internship, or a coursework unit that takes your thinking well beyond the classroom. You can even do an internship overseas, which means you'll get work experience and an adventure rolled into one!
DOUBLE DEGREES

DOUBLE DEGREES WITH OTHER FACULTIES
Open up exciting career opportunities by combining these business degrees with a course from another faculty.
You'll need to meet the prerequisites of both degrees, so be sure to check the second course to make sure you comply.

DOUBLE DEGREE COURSE STRUCTURE
Like single degrees, you'll have a number of core units to complete, as well as a major. What sets a double degree apart is what you do with your electives - you'll use them to study units and earn credits towards a second degree. Here is an example structure of what your course may look like if you do a double degree through Monash Business School or combined with another faculty.

YEAR 1

<table>
<thead>
<tr>
<th>Semester 1</th>
<th>Business degree core unit</th>
<th>Business degree core unit</th>
<th>Second degree unit</th>
<th>Second degree unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Semester 2</td>

<sup>1</sup> Indigenous entry pathway

CL – Clayton | CA – Caulfield | PE – Peninsula | PA – Parkville | E – Estimated: the provided score is estimated and is to be used as a guide only.

1 Duration is based on a standard full-time load of 48 credit points per annum.

2 Science approved list: VCE: Biology, Chemistry, Environmental Science, Geography, Mathematical Methods, Specialist Mathematics, Physics or Psychology; IB (SL or HL): Biology, Chemistry, Environmental Systems and Societies (SL only), Further Mathematics (HL only), Geography, Mathematics, Mathematics: Analysis and Approaches (HL only), Mathematics: Applications and Interpretations (HL only), Physics or Psychology.

3 Indicative – The provided score is the 2023 lowest ATAR to which an offer was made, or an estimate (E), and is to be used as a guide only.

4 Depending on your Arts major, you may take the Arts component at Clayton or Caulfield.

5 This course has additional selection requirements: <a href="https://monash.edu/study/courses/find-a-course/international-business-b2005">international-business-b2005</a>

6 Media Communication subjects will be taken at Caulfield campus.

7 The Bachelor of Education (Honours) is an accelerated course where you’ll be required to undertake more than the standard annual load of 48 credit points in year two and/or year three in order to complete the course in four calendar years.

8 This guarantee does not apply to the Laws pathway, which requires an ATAR of 90+.
# ACADEMIC PREREQUISITES

All Monash undergraduate courses require you to have previously studied and achieved required standards in certain specified subjects. The following table outlines the requirements. Note that some courses have special requirements such as folios, special admissions tests or interviews.

## VCE

<table>
<thead>
<tr>
<th>Subject</th>
<th>Level 1</th>
<th>Level 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.</td>
<td>For Bachelor of Laws (Honours) / Bachelor of Commerce double degree only: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.</td>
</tr>
<tr>
<td>Mathematics</td>
<td>Units 1 and 2: Satisfactory completion in two units (any study combination) of General Mathematics or, Mathematical Methods or, Specialist Mathematics. Units 3 and 4: a study score of at least 22 in Mathematical Methods (any) or Specialist Mathematics, or a score of at least 25 in Further Mathematics.</td>
<td>Units 3 and 4: a study score of at least 25 in one of Mathematical Methods (any) or Specialist Mathematics.</td>
</tr>
<tr>
<td>Science</td>
<td>Units 3 and 4: a study score of at least 25 in one of the Science approved list, unless otherwise stated.</td>
<td>Units 3 and 4: a study score of at least 25 in one of the Science approved list, unless otherwise stated.</td>

<tr>
<td>Science</td>
<td>Higher level mathematics (Australian Year 12 equivalent).</td>
<td>One of biology, chemistry, environmental science, physics, geography, psychology or higher level mathematics (all Australian Year 12 equivalent unless otherwise stated).</td>
</tr>
</tbody>
</table>
There’s more than one way to become a Monash Business School student, if you didn’t achieve the ATAR you needed, are transferring from TAFE or another university, or want to try university study before committing to a full degree.

**Monash College Diploma**
If you’ve missed the ATAR or subject prerequisite you needed, a Monash College Diploma could help you gain entry into the first or second year of a Monash undergraduate degree.
- monashcollege.edu.au/courses/diplomas

**Diploma of Tertiary Studies (DoTS)**
DoTS is a one-year, full-time course at Peninsula campus. You’ll start by studying first-year university subjects then gain entry into your second year of a Bachelor of Business or Bachelor of Business Administration degree.
- monash.edu/study/courses

**Course or University Transfers**
Most Monash Business School courses accept internal transfers from other Monash courses, and transfers from other universities.
- monash.edu/admissions/credit

**Monash Access Program (MAP)**
MAP has no tuition fees and is delivered part-time at Clayton campus with priority for students who have experienced financial or other disadvantage.
- monash.edu/study/why-choose-monash/study-options/mature-age/monash-access-program

**Single Units**
Once you’ve completed two university units, you can apply for a large range of undergraduate courses.
- monash.edu/admissions/other-pathways/single-unit-enrolment

**Indigenous Pathways**
Monash University is committed to advancing the education and career aspirations of Aboriginal and Torres Strait Islander people.
- monash.edu/study/how-to-apply/indigenous-student-applications

**TAFE Qualifications**
If you have completed a certificate IV, diploma, or the first year of an advanced diploma, you could use it to gain a place at Monash and be eligible for some credit towards your course.
- monash.edu/admissions/credit

**Entry pathways for international students**
The Monash University Foundation Year is a pre-university program that provides entry into the first year of a Monash University degree.
- monashcollege.edu.au/courses/foundation-year

The Monash College Diploma is a way to study English and gain a pathway into the first or second year of a Monash Business School course.
- monashcollege.edu.au/courses/diplomas

---

**My Monash journey started when I came from Vietnam to study a Diploma of Business at Monash College. The diploma pathway gave me more confidence for my second year in the Bachelor of International Business. I built on my professionalism and utilised my leadership and communications skills in the peer mentoring program and as a student ambassador.”**

NGOC BAO TRAN DOAN (Sophie)
Bachelor of International Business
SCHOLARSHIPS

A scholarship will help you make the most of your time at university. And that’s why Monash offers more than 400 types of scholarships.

Monash Business School scholarships
Explore our range of dedicated scholarships to support the study of business.
→ monash.edu/business/future-students/scholarships

Academic scholarships
Monash want as many bright minds as possible to benefit from a Monash education. Scholarship programs include the Sir John Monash Scholarships which aim to attract academically gifted students. Monash also recognises those students who make a difference in the lives of other students by becoming mentors.

Equity scholarships
Monash recognises that sometimes your ATAR doesn’t reflect your potential. If you’re from a low-income background, have a disability or medical condition, live in a regional or remote area, are from an asylum seeking background, or have experienced difficult circumstances, there are scholarships to ensure that none of these factors prevent you from pursuing your education.

Indigenous student scholarships
Monash offers many scholarships to support Indigenous students.

Accommodation scholarships
Scholarships can help cover the costs of your accommodation, and there are even scholarships to support any relocation costs if you’re from a rural area.

At Monash, we believe in giving our students the best chance to achieve their potential.
→ monash.edu/scholarships
At Monash Business School, we make it a priority to equip you with the real-world experience you need to back up your world-class education. Through career events, workshops, networking and mentoring, we will support you throughout your studies.

**Mentoring**
The Monash Business School mentor program is an opportunity to network with working professionals. Our mentors in the program come from a variety of organisations, and many have management and leadership experience. All are dedicated industry professionals who have volunteered to support students’ employability and career development. With guidance from someone who’s walked a similar path, you will feel equipped to make your next move.

[monash.edu/about/mentoring/business-industry-alumni-mentoring](http://monash.edu/about/mentoring/business-industry-alumni-mentoring)

**Career events**
There will be career events and workshops to attend. Keep up-to-date with industry trends, develop your employability skills, connect with employers, or learn how to make your application stand out.

[monash.edu/career-connect](http://monash.edu/career-connect)

**Networking**
Are you interested in talking to employers, recruiters and others working within industry? We can help. A good network will help you find career opportunities through referrals and word-of-mouth. We offer a range of resources to help build your profile.

[monash.edu/career-connect](http://monash.edu/career-connect)

**Honours**
The Bachelor of Commerce (Honours) is available to students who have completed their business degree with exceptional academic performance. It’s an opportunity to expand on your undergraduate degree by exploring the latest research and developments in commerce. If you’re eligible, you’ll complete an extra year of study on top of your bachelor’s degree.

[monash.edu/Study/courses/find-a-course/commerce-b3701](http://monash.edu/Study/courses/find-a-course/commerce-b3701)

**Graduate study**
Monash Business School is a launching pad for the leaders, innovators and CEOs of the future. Many of our most successful graduates have studied beyond their first degree.

Whether you’re looking to broaden your skill set, working towards accreditation or move into research, our graduate programs could be the extra step you need. We offer a range of programs, including a graduate certificate and diploma of business, as well as master’s degrees in global business, management and economics.
