By QS World University Rankings 2016/17
Monash is home to one of the world’s leading research-intensive business schools. Our ambition is to transform business by advancing knowledge and addressing the global challenges facing industry, now and in the future.

Our graduates are highly sought after by the world’s top recruiters. Based on surveys of 2500 international recruiters from 20 countries, Monash consistently ranks among the top 10 universities in Asia and Oceania, and 33 in the world in the Global Employability University Ranking. Our 100,000+ alumni pursue their careers across 113 countries, many of whom occupy positions of influence and leadership in business and government.

This truly global standing is reflected in our world rankings. Monash Business School is among the 1 per cent of business schools worldwide that hold the prestigious “triple crown” of quality accreditations by the three main business school accrediting bodies: the Association to Advance Collegiate Schools of Business (AACSB), the EFMD Quality Improvement System (EQUIS) and the Association of MBAs (AMBA).

These accreditations show that we stand confidently among the best of the best, and that we continue our upwards trajectory. Organisations across the globe will recognise these achievements – and your qualification – as meeting true standards of quality.

Define your professional path with a graduate degree from Monash Business School

Whether you want to change careers or reinforce your knowledge in your current field, we have a course to help you achieve your goals.

A master’s in business is a valuable investment in your future and will turn your career aspirations into actions.

Many of our students use their graduate degree as a springboard to land a more senior job in their industry, while others take the skills and knowledge they have accumulated to change career direction or launch their own enterprises.

And, you can tailor your course to suit your needs – full-time or part-time, on-campus or off-campus, at home or overseas. You can do coursework or a research project, with the flexibility to study when and where you choose, and benefit from working with industry along the way.

Global experiences

You are guaranteed a global education with Monash Business School.

As a global university with a presence on four continents, you have access to international exchanges, internships and collaborative research programs. You’ll benefit from our international reputation, global partnerships and extensive business networks, and will graduate knowing that your degree is recognised by employers around the world.

* Find out more at business.monash.edu/graduate-programs/student-experience
Connecting education and industry

At Monash we believe the educational experience is extended through collaboration, challenging the status quo and navigating uncharted territory.

In addition to our international accreditations, Monash Business School is a member of or signatory to:
- Association of Asia-Pacific Business Schools (AAPBS)
- Globally Responsible Leadership Initiative (GRLI)
- Quantitative Techniques for Economics and Management (QTEM)
- Principles for Responsible Management Education (PRME)

Many of our graduate programs are also recognised by professional bodies and associations. They may enable you to satisfy educational requirements for professional registration or membership. These bodies include:
- Australian Human Resources Institute (AHRI)
- Australian Institute of Management (AIM)
- Australian Marketing Institute (AMI)
- Chartered Accountants Australia and New Zealand (CA ANZ)
- CFA Institute
- Chartered Institute of Management Accountants (CIMA)
- CPA Australia
- Financial Services Institute of Australasia (Finsia)
- The Institute of Actuaries of Australia
- Institute of Public Accountants (IPA)
- Tax Practitioners Board.

Making your return to study easier

We know you have many priorities and commitments. That’s why we offer flexible study modes to allow you to build your study around your life. Most courses are offered in both full-time and part-time study modes.

Some units, including those offered in our MBA program, are offered in intensive block mode allowing you to arrange a short break from work to complete a unit, and some are offered outside business hours, online or via distance study. It’s whatever works best for you.

Academic development

We offer programs that assist you with academic skills and development.

Career development and planning

Our mentoring and career readiness programs help you develop into a well-rounded employee who is able to engage in the global marketplace.

Online and distance study options

We offer online and distance options for some of our courses to help you balance university with work, family and other personal commitments.
Our programs

We offer a blend of coursework and research-based programs that are designed to develop your theoretical knowledge and practical skills.

Many of our graduate programs give you the ability to tailor your studies to your personal interests and career goals through our extensive elective units.

Most courses offer the ability to study elective units from across your discipline area, and many also give you the opportunity to choose your electives from units offered by other faculties of the university. We also offer research pathways in many of our master’s courses, giving you the opportunity to explore research opportunities before commencing a PhD.

---

**Graduate certificates and diplomas**

These shorter programs enable you to extend your knowledge in general business principles. Their flexible structure means you can study broad business units, or take a sequence of units in a specific discipline. Successful completion of these programs may also lead to admission into our master’s programs.

**Master’s by coursework**

Our extensive master’s programs enable you to grow your expertise in a specific area of business, and significantly propel your career and earning power. We offer an extensive range of master’s programs for both early career professionals and experienced professionals across the full spectrum of business disciplines.

**Double master’s degree**

For students who wish to develop skills in different disciplines, we offer a unique double master’s degree program – the Master of Professional Accounting and Master of Business Law. This program allows you to graduate with qualifications in two diverse areas of business in a similar time frame to a traditional two-year master’s program.

---

**The Monash MBA**

Our top-ranking MBA program is designed to help take your already successful career to the next level and develop your leadership and management skills.

**Research degrees**

Our Master of Philosophy and Doctor of Philosophy programs are designed to provide the background and skills necessary to conduct independent research, and prepare you for an academic career in teaching and research.

Graduate Certificate in Business

The Graduate Certificate in Business gives you the chance to take your career in a new direction and explore a variety of business areas.

You’ll broaden your current skill set and have a strong foundation in your preferred discipline. Choices include marketing, public sector management, human resources, economics and more.

Entry requirements
An Australian bachelor’s degree or equivalent qualification with a Weighted Average Mark (WAM) of 55 per cent or an equivalent GPA as determined by the faculty. You’ll be ranked and selected based on your entire academic record.

Graduate Diploma in Business

The Graduate Diploma in Business allows you to build on your knowledge and acquire expertise in your chosen area of business.

An additional feature of this course is the ability to direct your studies in the area of health and economics by studying selected health, pharmaceutical and policy-related units, delivered by Monash Business School’s Centre for Health Economics.

Entry requirements
An Australian bachelor’s degree or equivalent qualification or approved pathway, with a Weighted Average Mark (WAM) of 55 per cent or an equivalent GPA as determined by the School. You’ll be ranked and selected based on your entire academic record.
Graduate Diploma in Human Resource Management

In this course you’ll address the key areas of contemporary HR practice and increase your capacity to influence change and make logical judgments.

If you want to pursue graduate studies in HR, or are a HR professional keen to formalise your education in the field, this program is for you.

Entry requirements
An Australian bachelor’s degree or equivalent qualification with a Weighted Average Mark (WAM) of 55 per cent, plus two years work experience. You’ll be ranked based on your entire academic record.

Accreditation and professional recognition
This course may lead to accreditation with the Australian Human Resources Institute (AHRI).

“Monash Business School was my number one choice for graduate education. As a Group of Eight university, it has great influence and respect globally. Employers recognise the value of a Monash qualification, no matter where you come from or where you career takes you.”

WAN ARMA IDAYU BT ABDUL RAHMAN
Master of Business Law graduate
Principle Assistant Secretary,
Ministry of Defence, Malaysia
Master of Accounting

Designed for accounting graduates who want to take the next step in their careers, the Master of Accounting connects research and practice to give you a deep understanding of the latest applications.

In this program you’ll develop skills across specialist fields of practice, including accounting information systems, financial accounting, forensic accounting, auditing and management accounting to a high-level of proficiency.

The program structure combines core units and elective options so you can tailor your professional learning with your career goals and interests. This course also allows you to undertake a research pathway, if you’re interested in pursuing a PhD.

Course structure

The course consists of three parts. Part A. Advanced preparatory studies, Part B. Mastery knowledge and Part C. Application studies. All students complete Part B. Depending upon your prior qualifications, you may receive credit for Part A or Part C or a combination of both.

Part A.
Advanced preparatory studies (24 credit points)

Part B.
Mastery knowledge (48 credit points)

Part C.
Application studies (24 credit points)

You must complete:
- Accounting information systems
- Management accounting
- Advanced financial accounting
- Auditing and assurance

You must complete:
- Seven units (42 points):
  - Management control systems
  - Strategic management accounting
  - Financial accounting and fraud examination
  - Business analytics
  - Strategic systems for business enterprises
- A capstone experience unit (6 points minimum) from the following:
  - Applied contemporary accounting
  - International study program in accounting
  - Industry placement
  - Industry placement (12 points)*

Students must complete either:
- Up to four elective units
- Two research units:
  - Research methods
  - Research project
(12 points)

Plus, one of the following units:
- Issues in accounting information systems
- Issues in auditing and assurance
- Issues in financial auditing
- Issues in management accounting

Accreditation and professional recognition

By studying this course you may be eligible for exemptions towards Chartered Institute of Management Accountants (CIMA) papers, and associate and entry to CPA Program of CPA Australia, entry to Chartered Accountants Program of Chartered Accountants Australia and New Zealand, and associate membership of the Institute of Public Accountants.

Entry requirements

Depending on your prior qualifications and experience, you may be eligible for entry credit which reduces the duration.

Applicants must prepare a Candidate Statement in which they are required to demonstrate that they possess the motivation and academic skills required to successfully complete the program.

Eligibility
(In equivalent Australian qualification terms) - Duration (Years)

Bachelor’s degree or an equivalent qualification with a major in accounting with WAM of 65% - 2
Bachelor’s degree in accounting and additional qualification in a related field - 1.5
Bachelor’s degree in accounting and a Graduate Certificate, OR Bachelor’s degree in accounting and a honours degree in accounting with at least a second class division A OR Bachelor’s degree in accounting and have completed one of the following:
- the Practical Experience Program of CA ANZ, CPA Program including the Your Experience requirements; the Mentored Experience Program (MEP) of the IPA, OR the Professional ACCA Qualification including the Practical Experience Requirements (PER)

1. Selection is based on previous academic achievement. For further details, see study.monash/courses. You’ll be ranked and selected based on your entire academic record.
2. Even if you’re eligible for a shorter course duration you may elect to complete the longer duration.
3. Qualification must satisfy the educational requirements for entry to one of the following professional accounting programs: Chartered Accountants Program of Chartered Accountants Australia and New Zealand (CA ANZ); CPA Program of CPA Australia; IPA Program of the Institute of Public Accountants (IPA); or, Foundation Level of the Association of Chartered Certified Accountants (ACCA)
If you’re looking to complement your undergraduate studies with an accounting qualification, the Master of Professional Accounting is the program for you.

You’ll explore all aspects of business, as well as financial and management accounting in this course. You’ll also gain the fundamental skills across accounting information systems and auditing, to ensure you’re ready to work in the field.

Course structure
The course is structured in three parts. Part A. Advanced preparatory studies, Part B. Mastery knowledge and Part C. Application studies. All students complete Part B.

Accreditation and professional recognition
By studying this course you may be eligible for exemptions towards Chartered Institute of Management Accountants (CIMA) papers, and associate and entry to CPA Program of CPA Australia, entry to Chartered Accountants Program of Chartered Accountants Australia and New Zealand, and associate membership of the Institute of Public Accountants.

“"The most important outcomes from studying the Master of Professional Accounting was commencing study towards my CPA/CA accreditation, broadening my financial knowledge, developing my business acumen and having confidence in my financial decision-making abilities.”

KATE HYLAND
Master of Professional Accounting graduate
Finance Manager (contracting)
“This program expands your thinking and develops your strategic focus. The ability to study my area of specialisation (marketing), while also gaining insight into other areas of business, was invaluable.”

SOPHIE METTRICK
Master of Business graduate
Marketing and Communications Manager at Whitbread Insurance Brokers
Master of Business

Forward-thinking and industry-focused, the Master of Business is designed to develop your leadership and interpersonal skills, and transform the way you operate in professional contexts.

Designed for recent graduates, the course will give you the expertise you need to enter the corporate world, and provides you with a broad-ranging master’s degree in business.

The flexible course structure allows you to build a personalised master’s degree, with the option to specialise in one of eleven key business disciplines, or select from across the units to tailor the degree to suit your career goals. You’ll develop the tools to make a difference in industry as well as essential skills for business success, including critical thinking, communication, and relationship management.

Specialisations

Business ethics and society
You’ll investigate the role of businesses as ethical and social leaders. In this specialisation, you’ll gain an understanding of the ethical and social issues businesses face, and develop your critical engagement and leadership capabilities. You’ll learn how to manage diversity, inclusiveness, and work/life balance, and apply these skills within managerial roles in the private, public and not-for-profit sectors.

Units in this specialisation include:
- Business ethics in a global environment
- Corporate social responsibility
- Professional development - Career dynamics
- Professional Development - Self and relationships
- Managing diversity and inclusion
- Leadership theory and practice
- Managing work, family and life
- Cross-cultural management communication

Commercialisation
You’ll develop the skills to commercialise scientific and technological projects. Covering venture finance, patenting, innovation and wealth pathways, you’re provided with a comprehensive business-focused setting to help you develop business and entrepreneurial acumen. This specialisation is aimed at those with a background in science or technology who are keen to develop their commercialisation expertise.

Units in this specialisation include:
- Commercialisation project A
- Commercialisation project B
- Financial management theory
- Patenting for commercialisation
- Managing innovation
- Commercialisation

Information technology
Focusing on current practices and emerging IT strategies in business contexts, you’ll be introduced to the management, creation, storage, retrieval and dissemination of business data in organisation-wide frameworks. You’ll also gain a high-level understanding of project management.

Units in this specialisation include:
- Corporate governance
- Workplace and investment taxation
- Law and commercial decisions
- Sustainability regulation

And two units from the following:
- Comparative business law in Asia
- Intellectual property and marketing law
- Chinese business law
- Financial services regulation
- Human resource management law

Law and responsible business
Regulatory issues are important in the business environment. You’ll learn how legal and social responsibility considerations affect business decision making, as well as the legal issues affecting other business functions, such as corporate governance, taxation, marketing, corporate social responsibility and human resources.

Units in this specialisation include:
- Corporate governance
- Workplace and investment taxation
- Law and commercial decisions
- Sustainability regulation

And two units from the following:
- Comparative business law in Asia
- Intellectual property and marketing law
- Chinese business law
- Financial services regulation
- Human resource management law
Master of Business

Managing Human Capital
This specialisation gives you an understanding of the theoretical and practical issues of managing people in labour markets. The units focus on strategic and operational people management issues, as well as the broader international context facing today’s managers. Also covered are industrial relations, consulting, public sector management and general people management issues.

Units in this specialisation include:
- Managing diversity and inclusion
- Managing work, family and life
- People management and work in a global context
- People management and strategy
- Foundations in human resource management
- Principles of negotiation
- Foundations in human resource management

Quantitative Business Analysis
You’ll develop the advanced quantitative skills required to carry out statistical analysis in business, economics and finance. You’ll also develop skills to report on the findings of your quantitative analysis.

Your studies may include:
- Data analysis in business
- Mathematics for business

And four of the following units:
- Business forecasting
- High dimensional data analysis
- Business optimisation skills
- Introductory applied econometrics
- Quantitative methods for risk analysis
- Data visualisation and analytics
- Or other approved units offered by the Department of Econometrics and Business Statistics

Risk Management
You’ll explore current practices and emerging strategies for applying enterprise-wide risk management (EWRM) in complex business structures. We’ll introduce you to the latest practices that allow the management of risk to be a value driver for business prosperity and survival.

Units in this specialisation include:
- Case studies in risk management
- Introduction to risk principles
- Options, futures and risk management
- Business finance

And two units of the following:
- Climate change and carbon management strategies
- Sustainability regulation
- Risk financing and treasury management
- Quantitative methods for risk analysis

Marketing
You’ll focus on the central concepts of marketing for business. You’ll learn foundation concepts as well as more advanced strategies for buyer behaviour, integrated marketing communication, marketing research, relationship marketing, innovation, planning, and assessing marketing performance.

Units in this specialisation include:
- Theory and process of buyer behaviour
- Marketing research
- Integrated marketing communication
- Marketing and the international consumer

And two of the following units:
- Services marketing
- Retailing
- Entrepreneurial innovation
- International marketing

Project Management
You’ll acquire the practical skills required by project managers working in global environments. Focusing on modern approaches to project management, study areas include business and project finances, designing business processes, technological tools for project management, and other organisational functions.

Units in this specialisation include:
- Project management
- Applied project management
- Computer based global project management
- Project finance
- Business finance
- Designing business processes

Sustainability
Focusing on current practices and emerging strategies to improve corporate sustainability, you’ll gain insights from the perspectives of governance, ethics marketing and management. You’ll also develop your skills in business and sustainability issues, environmental governance and corporate sustainability management.

Units in this specialisation include:
- Perspectives on sustainability (12 points)
- Climate change and carbon management strategies
- Sustainability regulation
- Sustainable operations and supply chain management
- Supply chain management
Course structure
The course is structured in three parts. Part A. Advanced preparatory studies, Part B. Mastery knowledge and Part C. Application studies. All students complete Part B. Depending upon prior qualifications, you may receive credit for Part A or Part C, or a combination of the two.

Four units selected from:
- Accounting for business*
- Law and commercial decisions**
- Economics
- Business statistics
- Principles of management
- Marketing and the international consumer

* This unit is a prerequisite for a unit in the project management specialisation.
** This unit is compulsory in the Law and responsible business specialisation. Students completing this specialisation should not select this unit.

Two units selected from:
- Professional development
- Career dynamics or Professional Development
- Self and relationships
- Business ethics in a global environment or Corporate social responsibility

And either:
- Six units (36 points) from a specialisation listed below:
  - Business, ethics and society
  - Commercialisation
  - Information technology
  - Law and responsible business
  - Managing human capital
  - Marketing
  - Project management
  - Quantitative business analysis
  - Risk management
  - Supply chain management
  - Sustainability

Or:
- Six level-5 graduate units, with at least 24 points (four units) from Monash Business School

Four elective units

Entry requirements
An Australian bachelor’s degree or an equivalent qualification or an approved pathway with a Weighted Average Mark (WAM) of 55 per cent or an equivalent GPA as determined by the faculty. You’ll be ranked and selected based on your entire academic record.

Depending on your prior qualifications and experience you may be eligible for entry credit which reduces the duration.

“I knew I wanted to study business and I knew I wanted to study it at Monash Business School. The degree offered a wide range of potential career options and allowed me to discover my passion in consumer behaviour.”

LLEWELLYN STEVENS
Master of Business graduate
Manager – Regional Client Service at Nielsen, Thailand
Master of Business Law

This course is designed for non-law graduates and those who need specialist legal knowledge in regulatory, compliance or risk-management positions.

You’ll develop a deep understanding of the legal environment and its impact on business practice in corporate governance, financial regulation, Asian and international business, human resources and workplace relations, marketing and taxation.

The course offers a distinct business perspective on legal issues and developments, and is ideal if you’re looking to advance your legal literacy.

Course structure

The course is structured in three parts. Part A. Advanced preparatory studies, Part B. Mastery knowledge and Part C. Application studies. All students complete Part B. Depending upon prior qualifications, you may receive credit for Part A or Part C, or a combination of the two.

3. For example, by a relevant graduate certificate.
“The Master of Business Law reflects practical legal literacy and business law expertise in the corporate world. During my time at Zurich, I recognised that my Bachelor of Laws didn’t give me the practical and business understanding required to work in-house for a global organisation. I needed more insight to the corporate world, and felt that the Master of Business Law provided me with the opportunity to broaden my legal and business knowledge and skills to help in my day-to-day job. It also allowed me to tailor a program to complement my professional expertise, and pursue a career pathway as Legal Compliance Counsel for a global insurer.”

MELISSA LOZANOFSKI-KALYVAS
Master of Business Law graduate
Legal Compliance Counsel, Zurich Australia
Master of International Business

The Master of International Business will increase your business and management knowledge, and hone the skills you need to operate from a global perspective.

You’ll focus on international politics and global business strategy and communication, further developing your business management knowledge. As part of this course you can choose from a specialisation in international business or diplomacy and trade. This course offers a wide range of elective units, allowing you to tailor the degree to your area of interests and career goals.

International Business specialisation
You will develop skills in communications and negotiations across cultures, and the ability to analyse firm internationalisation, international trade and corporate strategy. You’ll also gain an appreciation of the multinational firm, the environment in which it operates, and the activities required of the international manager.

Diplomacy and Trade specialisation
Combining foreign affairs and international trade policy units, you’ll gain a solid understanding of global issues. You’ll develop skills to evaluate trends in foreign and trade policy, an understanding of the implications of international trade rules, and be able to provide policy advice in the areas of foreign affairs, trade and development, and international business.

Course structure
The course is structured in three parts. Part A. Advanced preparatory studies, Part B. Mastery knowledge and Part C. Application studies. All students complete Part B. Depending on prior qualifications, you may receive credit for Part A or Part C or a combination of the two.

¹. Selection is based on previous academic achievement. For further details, see study.monash/ courses. You’ll be ranked and selected based on your entire academic record.
². Even if you’re eligible for a shorter course duration you may elect to complete the longer duration.
³. For example, by a relevant graduate certificate.

“This program is exceptionally unique. It encompasses a vast range of historical and current international issues, with a particular focus on global governance and trade. It gives you a broad base across economics, international law, international politics, policy and governance, and it provides the opportunity to associate daily with people from right across the world.”

JOON HEO (DANIEL)
Diplomacy and Trade graduate
Customer Service Consultant, Lufthansa InTouch
“My graduate studies have given me the confidence to know that I am highly employable and can provide value within the Australian financial services market.”

DAMIEN SHERMAN
Master of Applied Finance graduate
Head of ETF Capital Markets, Vanguard Australia
Master of Applied Finance

Are you a finance professional keen to add to your skills? The Master of Applied Finance lets you align your learning with your career aspirations through advanced studies in global financial markets, funds management, financial planning, money market dealing and business forecasting.

The course covers specialist areas of finance instruction, and is a CFA Program Partner of the CFA Institute, which means you can start working towards earning CFA credentials.

The course gives you access to some of Australia’s leading academics in the field of finance, as well as industry experts who draw on their experience to ensure your studies focus on current concepts and issues. You’ll learn in our state-of-the-art Simulated Teaching and Research Laboratory (STARLab), gaining valuable practical trading experience.

Course structure
The course is structured in two parts. Part A. Mastery knowledge and Part B. Application studies. All students complete Part A. Depending on prior qualifications, you may receive credit for Part A or Part B or a combination of the two.

Part A. Mastery knowledge
(48 credit points)

Eight units:
- Mergers and acquisitions
- Advanced security analysis
- Global financial markets
- Corporate treasury management
- Funds management
- Case studies in finance
- Options, futures and risk management
- Financial econometrics

Part B. Application studies
(24 credit points)

Four elective units
The research pathway
- Research methods
- Research dissertation (12 points)

Plus, one unit from the list below:
- Advanced modelling in finance
- Issues in corporate finance
- Issues in banking
- Issues in investments

Entry requirements
An Australian bachelor’s degree with a major in finance; or an Australian bachelor degree with significant work experience in the finance industry; or an equivalent qualification. You’ll be ranked accordingly based on your entire academic record, and a Weighted Average Mark (WAM) of 65 per cent is preferred.

Depending on your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

COURSE CODE: B6003
Master of Banking and Finance

This comprehensive course gives you a thorough understanding of the banking and finance industry, and develops your proficiency across areas such as portfolio management, money markets, financial management, bank lending and risk management.

The program is designed for people who have limited prior knowledge in finance and are looking to enter the industry. It is ideal if you want to develop strong skills in banking and finance, and expand your knowledge of financial institutions. By connecting research and practice, you'll develop a deep understanding of the banking industry, and have practical opportunities to apply your knowledge. You'll grow your theoretical knowledge, and will strengthen your critical thinking and communication skills.

Course structure

The course is structured in three parts. Part A. Advanced preparatory studies, Part B. Mastery knowledge and Part C. Application studies. All students complete Part B. Depending on prior qualifications, you may receive credit for Part A or Part C or a combination of the two.

“The Master of Banking and Finance is challenging, comprehensive and provides transferable skills that can be used across the banking and finance sectors. I continue to develop and build on the skills I developed in this course – analysing market research, critical and strategic thinking, effective communication and presenting techniques.”

KRISTA DEMIRIS
Banking and Finance graduate
Strategic Alliances Consultant, MLC & NAB Wealth
Master of Actuarial Studies

As a Master of Actuarial Studies graduate you’ll be ready to practice as a professional across actuarial or risk management fields.

The course is designed for technical, mathematical and scientific graduates, and professionals in the early stages of their careers. You’ll broaden your knowledge of key mathematical learning constructs and gain the skills and professional values to become an effective actuary.

As part of the degree, you can choose from a wide range of elective units, across the fields of econometrics, actuarial practice, economics, business modelling and finance.

The course also focuses on developing your wider business awareness skills, such as communication, critical thinking, actuarial judgement and professionalism.

### Course structure

The course is structured in three parts. Part A. Advanced preparatory, Part B. Mastery knowledge and Part C. Application studies. All students complete Part B. Depending on prior qualifications, you may receive credit for Part A or Part C or a combination of the two.

#### Part A. Advanced preparatory (24 credit points)

- Debt markets and fixed income securities
- Introductory econometrics
- Actuarial statistics
- Probability and statistical inference for economics and business

#### Part B. Mastery knowledge (60 credit points)

- Actuarial practice I
- Actuarial practice II
- Asset liability management
- Macroeconomic and monetary policy
- Managerial economics
- Applied insurance methods
- Financial mathematics under uncertainty
- Financial econometrics
- Modelling in finance and insurance
- Insurance and pensions

#### Part C. Application studies (12 credit points)

Two elective units

### Entry requirements

An Australian bachelor’s degree, or equivalent qualification, in a technical, mathematical or scientific discipline with a Weighted Average Mark (WAM) of 65 per cent, or an equivalent GPA determined by the faculty and must have passed an introductory statistics unit or equivalent. You’ll be ranked and selected based on your entire academic record.

Depending on your prior qualifications and experience you may be eligible for entry credit which reduces the duration. Applicants should be aware that the granting of exemptions from particular units may affect their ability to complete the subjects required for the Actuaries Institute accreditation.

### Accreditation and professional recognition

This program may include exemptions for Parts I and II of subjects of the Institute of Actuaries Australia.

3. For example, by a relevant graduate certificate or work experience.
Master of Applied Economics and Econometrics

If you’re looking to develop your career in economics or econometrics, this course gives you the analytical and technical skills you need for the profession, as well as a solid grounding in commerce.

You can build your knowledge in one of three specialisations: applied econometrics, applied economics and econometrics, or business economics. With a comprehensive theoretical and practical curriculum across your chosen field, you’ll develop expertise in applied economic and econometric tools. You’ll also have the opportunity to undertake independent research in your specialisation.

**Applied Econometrics Specialisation**
This gives you the econometric and statistical analysis tools required in the business, economics and finance sectors. You’ll develop skills in econometric techniques across applied econometrics, time series analysis, financial econometrics, macroeconometrics and micro-econometrics, and be able to design and implement applied econometric projects for the government and business sectors.

**Applied Economics and Econometrics Specialisation**
You’ll gain the economics and econometrics skills to address important economic policy questions. You’ll learn how to use economic or related theory and econometric models for assessing economic and public policies, and develop the knowledge and research experience to seek jobs in the private, public or institutional sector as an economist.

**Business Economics Specialisation**
You’ll gain advanced knowledge of the theories explaining and analysing economic policies — focusing on how individuals, households, firms and governments interact and how economies work, with an emphasis on economic regulation and policy. Designed for those who want to develop expertise in applied economic tools and undertake independent research, this specialisation extends your knowledge of economic analysis in the global economy. It focuses on areas of business strategy, competition policy, economic policy, project evaluation, pricing, and risk and regulation.

Advance level students may choose the PhD pathway in economics or econometrics in addition to the above specialisations. Students choosing the pathway must consult with the course coordinator(s) from the relevant discipline during Orientation week.

4. For example, by a relevant graduate certificate or work experience.
5. Applicants wishing to complete the Applied Econometrics or Applied Economics and Econometrics specialisations must have achieved a result of at least 70 per cent (or equivalent) in a first year undergraduate statistics course.
“Applied Econometrics expands your knowledge of statistical modelling, and teaches you to apply these skills to a wide range of practical problems. In particular, this course equips you with the skills required to effectively analyse and draw insights from the data. It’s quite rare to find a master’s qualification focused exclusively on econometrics, which is what attracted me to this course and to Monash Business School. They are one of very few institutions with a whole department dedicated to teaching and research in econometrics and business statistics.”

ANNE FLAHERTY
Master of Applied Econometrics graduate
Research Analyst, CBRE
“Studying my master’s at Monash enhanced not only my academic knowledge of HR but it also enabled me to develop invaluable friendships and networks of like-minded professionals. Throughout my career, these networks have acted not only as a support, but also as a great reference point for my own career path.”

ALAYNNA ELLIOTT
Master of Human Resource Management graduate
Senior Manager, HR Development and Recruitment, Mercedes-Benz Australia
Master of Human Resource Management

The human resource management field is diverse and complex, requiring both general and specialist skills for roles across many industry sectors.

In this course you’ll focus on areas of contemporary HR practice to advance your expertise and career.

Our innovative curriculum combines research and the latest thinking to give you highly focused, specialised knowledge. You’ll learn from industry leaders and guest speakers, and work on practical case studies to help you develop the capacity to tackle challenges and propose innovative solutions to complex HR issues today. This course is also accredited by the Australian Human Resources Institute (AHRI).

Course structure

The course is structured in two parts. Part A. Mastery knowledge and Part B. Application studies. All students complete Part A. Depending upon prior qualifications you may receive credit for Part A or Part B or a combination of the two.

**Part A. Mastery knowledge**

(48 credit points)

- Human resource management issues
- Strategic human resource management
- International human resource management

“After seven years of working in technical roles in the Vietnamese banking sector, I was ready to move to the next level, but I needed to develop my leadership, negotiation and people management skills. The Master of Management was a great blend of organisational and management theory and practice. It has given me a fresh mindset when it comes to managing my team and providing management support throughout the organisation.”

HANG LE
Master of Management graduate
Manager, Social Media Command Centre, Bank for Investment and Development of Vietnam (BIDV)
Master of Marketing

If you’re an experienced professional seeking the latest thinking and problem-solving skills in marketing, this course is for you.

This program is taught by leading academics and industry experts, with a focus on contemporary concepts and issues. It historically attracts many students from the corporate sector, giving you invaluable networking and knowledge-sharing opportunities.

The units are developed in consultation with our industry advisory board to promote leadership in our graduates. Our timetable offers flexible study options to suit your busy work schedules and personal commitments. The range of elective units on offer allows you to customise the course to suit your professional interests and career goals. It also includes the opportunity to undertake a corporate project under supervision.

Course structure

The course is structured in two parts. Part A. Mastery knowledge and Part B. Application studies. All students complete Part A. Depending on prior qualifications you may receive credit for Part B.

Part A. Mastery knowledge (48 credit points)

- Four units
  - Understanding marketing and consumers
  - Marketing performance and decision analysis
  - Marketing leadership in society
  - Marketing strategy masterclass (12 points)
- Plus two or three of the following:
  - Major project (12 points)
  - Strategic brand management
  - Business to business marketing
  - Advanced business research methods

Part B. Application Studies (24 credit points)

- Advanced buyer behaviour
- Social media marketing
- Services marketing
- Advanced marketing communication
- Managing supply networks
- Customer focused innovation
- Marketing research
- Integrated marketing communication
- Retailing
- Entrepreneurial innovation
- International marketing
- Global study programs in marketing
- Contemporary issues in marketing
- Four electives

Or

The research pathway:

- Minor thesis (12 points)
- Qualitative research methods
- Advanced business research methods

Entry requirements

Applicants must have completed an Australian bachelor’s degree or an equivalent qualification with a preferred Weighted Average Mark (WAM) of 60 per cent or an equivalent GPA as determined by the faculty. Applicants will be ranked based on relevant employment and marketing experience, their entire academic record and statement of purpose. Relevant employment and marketing experience will normally be evidenced by a major in marketing and two years work experience or a minimum of three years employment experience, with at least one year of professional/managerial experience.

Depending on your prior qualifications and experience you may be eligible for entry credit which reduces the duration.

“The Master of Marketing is an engaging and interesting course that illustrates the role of marketing in the modern economy, and how marketing can provide value to any business. The degree has made me much more aware of the many facets of marketing that are at play in the economy, and more than ever, I am fascinated by the interaction between consumers and businesses. What I’ve really enjoyed is the opportunity to apply cutting-edge theoretical thinking to practical scenarios, both in the classroom and the workplace.”

MITCHELL ALEXANDER
Master of Marketing graduate
Stakeholder Engagement Advisor, SBS
Master of Environment and Sustainability

Are you interested in combating the widespread environmental, economic and social challenges currently facing our world?

If you’re future-conscious, the Master of Environment and Sustainability will provide you with the skills to transform society through sustainable solutions.

You’ll explore the trends, issues and science underpinning global sustainability problems, and learn the language and tools to be a leader in a rapidly growing field. You’ll also learn how to evaluate, analyse and collaborate across sectors to influence, motivate and affect positive, sustainable change. You’ll get hands-on experience through an internship or by completing an interdisciplinary or research project. You’ll also be taught by global and professional experts from multiple disciplines and sectors, who are leading the environment and sustainability agenda in Australia and internationally.

As part of this degree, you can specialise in one of the five areas:
- Corporate environmental and sustainability management
- Environment and governance
- Environmental security
- International development and environment
- Leadership for sustainable development

Course structure

The course is structured in four parts. Part A. Environment and sustainability core studies, Part B. Specialisation preparatory studies, Part C. Specialist studies, and Part D. Advanced practice. All students complete Part A and Part C. Depending upon prior qualifications, you may receive credit for Part B or Part D or a combination of the two.

<table>
<thead>
<tr>

<tr>
<td></td>
<td>- Leadership for sustainable development</td>
<td>Coursework and project/internship:</td>
</tr>
</tbody>
</table>

b. One unit from (12 points):
- Interdisciplinary project for sustainable development solutions
- Environment and sustainability project
- Sustainability internship
c. 12 points of units chosen from the list of electives listed for the relevant specialisation

Entry requirements

Applicants must have completed an Australian bachelor’s degree or an equivalent qualification with a Weighted Average Mark (WAM) of 60 per cent or an equivalent GPA as determined by the faculty. Applicants will be ranked based on relevant employment experience and their entire academic record, with a credit average preferred.

Depending on your prior qualifications and experience you may be eligible for entry credit which reduces the duration.

<table>

<tr>
<td>Bachelor’s (Hons) in a related field</td>
<td>1</td>
</tr>
</tbody>
</table>

1. Selection is based on previous academic achievement. For further details, see study.monash/courses. You’ll be ranked and selected based on your entire academic record.
2. Even if you’re eligible for a shorter course duration you may elect to complete the longer duration.
3. For example, by a relevant graduate certificate.
Master of Financial Mathematics

Are you a recent graduate with an aptitude and passion for mathematics and statistics? If you’re looking for a mathematics course built for application in a business context, the Master of Financial Mathematics is for you.

This highly specialised degree is perfect if you’re looking to find a niche within the finance sector and are wanting to move into the professional world of quantitative analysis.

Our teaching staff comprises mathematicians who are pioneering research in areas such as probability, stochastic processes and statistics, and who have an impressive range of connections across the financial and insurance industries. Industry projects and placements are a central component of the degree, meaning you’ll gain crucial workplace experience.

Course structure

The course is structured in three parts. Part A. Orientation studies, Part B. Specialist studies, Part C. Applied professional practice. All students complete Part B. Depending on prior qualifications, you may receive credit for Part A or Part C or a combination of the two.

<table>
<thead>
<tr>
<th>Part A. Orientation studies</th>

<th>Part C. Applied professional practice</th>
</tr>
</thead>
<tbody>
<tr>
<td>(24 credit points)</td>
<td>(48 credit points)</td>
<td>(24 credit points)</td>
</tr>
</tbody>
</table>

Two units
- Introduction to computational mathematics
- Time series and random processes in linear systems
- Financial mathematics
- Statistics of stochastic processes

Plus, two of the following units:
- Principles of econometrics
- Applied insurance methods
- Financial econometrics
- Partial differential equations
- Advanced ordinary differential equations
- Real analysis
- Random processes in the sciences and engineering
- Applied mathematical modelling

- Stochastic calculus and mathematical finance
- The mathematics of finance: From derivatives to risk
- Interest rate modelling
- Computational methods in finance

Plus, four of the following units:
- Global financial markets
- Financial econometrics 2
- Partial differential equations in finance
- The theory of martingales in discrete time
- Markov chains and random walks
- Statistical learning in finance
- Market micro-structure

One of the following:
- Minor industry placement (12 points) and Minor industry research project (12 points)
- Industry placement (24 points)
- Industry research project (24 points)

Entry requirements

Applicants must have completed an Australian bachelor’s degree or an equivalent qualification with a Weighted Average Mark (WAM) of 65 per cent or an equivalent GPA as determined by the faculty. Applicants will be ranked based on relevant employment experience and their entire academic record, with a credit average preferred.

Depending on your prior qualifications and experience you may be eligible for entry credit which reduces the duration.

<table>

</tbody>
</table>

1. Selection is based on previous academic achievement. For further details see study monash/courses. You’ll be ranked and selected based on your entire academic record.
2. Even if you’re eligible for a shorter course duration you may elect to complete the longer duration.
3. Completion of units of mathematics with an emphasis on multivariable calculus, linear algebra, probability, statistics and differential equations.
Master of Project Management

The Master of Project Management is a forward-thinking, interdisciplinary course that integrates the knowledge needed to manage projects and programs across multiple sectors.

Focused on developing specialist expertise in project leadership, you’ll gain a diverse vocational skill set that will enable you to manage large projects across every industry. You'll learn to use an evidentiary and interdisciplinary approach to critical thinking and problem solving, strengthened by a capacity to undertake research.

You'll choose from a range of discipline-specific electives (covering Business, IT, Engineering and Law) and have the opportunity to work on real-life projects, where theory and practice are applied to problems situated in local and international, corporate, government and social contexts.

Course structure
The course is structured in three parts. Part A. Orientation studies, Part B. Specialist studies, Part C. Applied professional practice. All students complete Part B. Depending upon prior qualifications, you may receive credit for Part A or Part C or a combination of the two.

Master of Professional Accounting and Master of Business Law

This advanced double degree will develop your skills to address the wide range of legal issues in contemporary business.

You’ll focus on specific fields of accounting practice alongside study of the legal environment and its effect on business practice in corporate governance, financial regulation, compliance and taxation.

This course is designed for those who need specialist legal knowledge in their roles, such as those in regulatory, compliance or risk-management positions, and who want to combine this knowledge with an advanced accounting qualification.

Course structure
This course consists of four foundation units, twelve mastery units and four elective law units.

<table>

Entry requirements
An Australian bachelor’s degree in a non-accounting degree with a Weighted Average Mark (WAM) of 60 per cent, or an equivalent GPA as determined by the faculty.

Applicants will be ranked and selected based on their entire academic record and candidate statement.
The Monash MBA

The Monash MBA is designed for ambitious young professionals in every sector with a minimum of three years professional experience.

We’ll provide you with analytical, strategic and problem-solving skills required of managers, and you’ll also develop critical personal and professional leadership competencies.

The Monash MBA focuses on new thinking and new business models for the next generation of successful enterprises. The program features technology development, design thinking, creativity and entrepreneurship.

You’ll develop a strategic and practice-based approach to management, working closely with leading professors and experienced executives to consult directly with business organisations throughout the program. You’ll graduate with a portfolio of completed projects in strategy, commercialisation of technology, new venture start-ups and international business to demonstrate your applied skills.

The Monash MBA Program brings together international and local students from a wide range of professional and cultural backgrounds, and is committed to a global orientation in all its activities. The program is scheduled in intensive blocks, evenings and weekends to accommodate working participants.

Entry requirements
An Australian bachelor’s degree or an equivalent qualification and a minimum of three years work experience (total) with at least one year of professional/managerial experience.

The Monash MBA operates a competitive entry process; applicants will be ranked based on their academic record, professional work experience and achievements, and management potential. Applicants are interviewed at the final stage of the selection process.

“I have found that the Monash MBA takes a really global approach to business. As well as working with professors and classmates from over twenty countries, I will have the opportunity to study in business schools in Germany, China and Korea.”

EDDY YOO
MBA Student
Senior Market Analyst, ANZ

“Sharing business experiences with people from multiple industries and professions has been a highlight of the Monash MBA. Analysing business models and strategies across different sectors in our consulting projects is a terrific way to learn. As a scientist working in a commercial role, I find this experience invaluable.”

CATHERINE BUCHANAN
MBA Student
Account Executive, Abbott
At Monash Business School, our mission is to deliver practical solutions that make an impact on the business world.

We are shaping the future of business, venturing beyond traditional boundaries to tackle the big issues in business research.

Our researchers are at the forefront of contemporary knowledge and practice. Every project and every challenge is underpinned by our unrelenting commitment to research excellence. And we are committed to supporting the research leaders who will shape the future.

The Monash Doctoral Program is a PhD with a difference

Expert guidance
You’ll have at least two supervisors who are active researchers and who will mentor you throughout your PhD.

Scholarships
As a Monash graduate researcher you’ll have access to a wide range of scholarships and grants. Your studies may also be supported through opportunities such as industry internships and co-supervision with partner organisations.

Skills for the 21st century
You’re provided with a variety of coursework or professional development opportunities that enhance your research and prepare you for life after your degree – everything from communication, project management and research commercialisation, through to specialist units about teaching in higher education. No matter where you see yourself heading, our advanced training will give you every chance to ensure your PhD results are more than a thesis.

Global opportunities
Through our international campuses, alliances and partnerships, we’re a global university. The Monash Doctoral Program is an opportunity to utilise these networks and form your own.

Duration
Your research project should be scoped as achievable within three years of equivalent full-time study, and you’ll be expected to complete your degree within three to four years. Not all research areas allow for part-time study.

Cost
Fees apply and vary according to your research area. Fees for Australian citizens, New Zealand citizens or Australian permanent residents are generally covered by the government-funded Research Training Scheme (RTS); conditions apply. Fees for international students may be covered by scholarships.

Intake
Applications are generally accepted throughout the year, but commencement dates depend on coursework and other requirements.

Location
The Monash Doctoral Program is offered on campus and off campus.
A Monash Business School PhD

The sheer scale of research capabilities and the breadth of specialist expertise within Monash Business School offers graduate research opportunities across the full range of applied business and policy disciplines.

The principal component of the PhD is typically a major thesis of up to 80,000 words, embodying the results of your research project, which makes a significant contribution to the existing knowledge in your discipline. Depending on your research focus, you’ll be assigned to one of the following programs:

- Accounting
- Banking and finance
- Business law and taxation
- Econometrics and business statistics
- Economics
- Management
- Marketing
- Specialist streams in economics.

Master of Philosophy (Business)

A Master of Philosophy course enables you to complete independent research under the supervision of expert academics, and includes the submission of a thesis – the principal component of the program – of up to 35,000 words, embodying the results of a research project.

You’ll be supported by a minimum of two supervisors throughout your candidature. Together with your supervisors, you’ll be responsible for developing the research program to be followed. There’s also a coursework component, according to the academic discipline, for those interested in transferring to the Doctor of Philosophy.

For more information on our research programs please visit our website business.monash.edu/programs/research-degrees
Information for prospective students

Entry requirements

To view all our graduate academic and additional entry requirements refer to the Monash Find a Course at: study.monash/courses/find-a-course

English entry requirements

All students who apply for a Monash University course must satisfy English entry requirements. Different English entry levels apply to Monash courses. If a student has completed several measures of English proficiency over a period of time, only the most recent demonstration of English is considered. For more information regarding English entry requirements refer to the Admission to Coursework Courses and Units of Study Procedures available at: policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-studyprocedures.html

Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements.

Graduate coursework applicants can meet the English language requirement if they have undertaken the following studies at an institution where English is the language of instruction, communication and assessment for the entire institution (subject to the details in the University’s admission policy identified above):

– the equivalent of one standard full-time year (48 Monash credit points) of graduate study which must be taken within 2 years prior to the Monash course commencement date
– the equivalent of a minimum of three standard full-time semesters (72 Monash credit points) at Australian VET diploma level or higher which must be taken within 2 years prior to the Monash course commencement date document evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

Monash Business School

English language requirements

To be eligible for our courses you should meet one of the following criteria:

– You have achieved a satisfactory level of performance in an English subject at Year 12 or equivalent level. This means a study score of at least 25 in units 3 and 4 in any VCE English subject.
– You have studied in an institution where English is the language of instruction and assessment for the entire institution (subject to the details in the University’s admission policy identified above).
– You have undertaken an English language proficiency test within two years prior to your study commencement date and have achieved the following results:
  • IELTS – minimum test score of 6.5 with no individual band score less than 6.
  • TOEFL – minimum test score of 550 with a Test of Written English score of at least 4.5. Internet based TOEFL overall 79, Writing 21, Listening 12, Reading 13, and Speaking 18.
  • Cambridge English Certificate in Advanced English (CAE), minimum test score required: A grade of ‘A’
  • Cambridge Certificate of Proficiency in English, minimum test score required: A grade of ‘C’
– You have successfully completed the Monash University English Language Bridging Program, or equivalent programs, at the appropriate level.

For further information about English language requirements at Monash University and Monash Business School visit: adm.monash.edu.au/admissions/postgrad/pg-english-requirements.html

Further information for all other international students is available at: monash.edu/study/international/apply/entry-requirements/#english/

English language requirements for research degrees

Research degree applicants must demonstrate successful completion of a course of tertiary studies of at least two years’ duration conducted entirely in English and involving formal assessment of written work, in a country where English is the official language. Evidence in the form of a letter or certificate issued by the university Registrar’s office will need to be provided. Studies must be completed within the five-year period prior to application.

Applications where studies have been conducted entirely in English and involving formal assessment of written work in a country where English is one of two or more official languages of that country are considered on a case-by-case basis.
Fees

All postgraduate coursework programs are offered as full-fee places. You’ll need to pay the full tuition cost of the course and must make the payment upfront each semester.

Fee and duration quoted are for study at Australian campuses only. Fees are quoted in Australian dollars, and is the annual average fee per 48 credit points of study in each course for 2017 unless otherwise stated. Fees are adjusted annually. Please see monash.edu/fees for updates.

Fee-help loan

The FEE-HELP scheme provides an income-contingent government loan facility for students. Australian citizens and holders of a permanent humanitarian visa are eligible for the FEE-HELP scheme. If you want to fund part or all of your tuition fees through FEE-HELP you must complete the loan request form by the relevant census date and provide a tax file number.

You can elect to pay a portion of fees directly to the University, and the remaining debt will be registered as a loan through the Australian Taxation Office (ATO). You’ll start repaying any HELP loan through the ATO once your income reaches the minimum threshold for compulsory repayment. A loan for up to the full tuition fee charged for the course can be accessed, but there’s a lifetime limit.

See the Monash University FEE-HELP website for details: monash.edu/enrolments/loans/domestic-full-fee.html. For more information, contact Monash Connect at your campus or visit the Department of Education and Training.

Research Training Scheme (RTS)

Australian citizens, New Zealand citizens or Australian permanent residents undertaking a research degree at Monash University are granted a government-funded Research Training Scheme (RTS) place. Under this scheme, research students receive two full-time-equivalent years of funding for a research master’s course and four years of full-time-equivalent funding for doctoral studies. Under the RTS, it’s a statutory requirement that all higher degree by research students provide details of previous enrolments in research programs to determine eligibility for RTS funding.

Student development

Monash Business School offers a range of student development activities to enhance your academic studies, develop your skills and transform your career path. These include:

– Orientation for postgraduate students
– Academic Development and Enhancement Program for Tertiary Studies (ADEPT) workshops
– Personal and professional development programs
– Mentoring programs
– Career readiness programs.

For more information on our extracurricular programs and to get involved, visit: business.monash.edu
1. What is credit (advanced standing) for prior studies?
Monash Business School may grant credits/exemptions for subjects or qualifications completed at other tertiary institutions within Australia or overseas. Applications for credit or exemptions are usually assessed upon enrolment. You must clearly indicate units for which credit is requested, and applications must be accompanied by detailed subject descriptions for an assessment to be undertaken. Units studied more than 10 years ago will not be considered for credit/exemption.

2. What scholarships does Monash offer?
Monash University offers some of the most generous scholarships in the country for new and current students. For a full list of scholarships and grants, visit study.monash/fees-scholarships.

3. What financing options and assistance are available?
There are a range of options to help pay for graduate study and alleviate the financial pressures while studying. Options include FEE-HELP, HECS-HELP loans, Research Training Scheme (RTS), scholarships and bursaries, study grants, tax deductions, government support payments, and student financial aid. For more details, visit study.monash/fees-scholarships.

4. What is an Australian fee-paying place?
This is a domestic full-fee paying place. Tuition fees are calculated according to your degree and your study load. Due to a wide range of courses available, we can’t publish the fees for all courses here, however Course Finder has fee information for every course listed. For more information, visit study.monash/courses.

5. What if I can’t pay the fee upfront?
You can defer payment of your fees via FEE-HELP, which are repaid in small amounts once your income reaches a certain threshold for obligatory repayment.

6. Can I defer my scholarship?
Some scholarships and bursaries can be deferred. For more information regarding scholarship deferment, refer to the individual scholarship listings on our website: study.monash/fees-scholarships.

7. Do you offer any courses online?
Off-campus learning is a flexible mode of study based on independent learning materials and learning support. It’s perfect for students who value flexibility, but also want to interact directly with expert academics and like-minded students.

We have a few courses offered in off-campus mode, which are designed for professional development within the workplace as you study. Some courses also give you the option of transferring between off-campus and on-campus study as your needs change. Our popular off-campus courses are Master of Management, Master of Human Resource Management and Master of Marketing. To find out more, visit study.monash/how-to-apply/enquiries.

8. How do I apply?
For a step-to-step guide on the application process, visit study.monash/how-to-apply.

---

**Scholarships**
Monash University offers a wide range of scholarships to help you pursue postgraduate study. Scholarships are available for coursework and research degrees. For more information, visit: monash.edu/study/scholarships

**International student visas**
International students should visit: monash.edu.au/international which contains important information regarding how to apply as an international student, Australian Government requirements and conditions for study in Australia. These include living costs, course fees, health insurance, working while you study, work rights for your husband or wife, and schooling for your children.

Further information about visa applications can be obtained from: www.liveinaustralia.com/student-visa and www.immi.gov.au/students
