DISCOVER YOUR OPTIONS

You may or may not have ideas about what you want to pursue as a career. Either way, it’s important to keep your options open and know what subjects are required to undertake certain courses at Monash (see page 6 for course information).

FOLLOW YOUR PASSION

Most of our graduates will tell you that the more you put into a course, the more you get out of it, with better grades and better experiences. If your course is based on something you enjoy, and involves subjects you like and are good at, you’re more likely to succeed.

DO SOME DETECTIVE WORK

Do as much independent research as you can. There are loads of online testing tools that can provide insights into career opportunities. Visit the Australian government website at www.joboutlook.gov.au to learn more about yourself and the world that awaits you. There’s lots of information available to help you, but sometimes the challenge is working through it all. Here are our top three tips on where to start.

1. Come to our Open days and info nights
   Nothing can replace experiencing the University environment for yourself. You get a feel for the atmosphere, the facilities and what the people are like, which can help with your end decision.

2. Visit our website
   Our website is full of information. It can be a bit overwhelming but if you start at monash.edu/study, you’ll be able to find all you need.

3. Make a shortlist
   You’ll come across lots of information about courses – online and in print. To help make sense of your options, create a shortlist of key features you’re looking for (e.g. career outcomes, course location, facilities) and check each course you research against these.

TALK TO OTHERS, BUT DECIDE FOR YOURSELF

Talk to people who know you – parents, family, friends, teachers and career advisers. Tell them what you’re considering, and ask them what they think you’re good at. Ask the professionals you know what it’s like to be an accountant, doctor, engineer, lawyer, nurse or teacher. Or try work experience – it’s a great way to get a taste of a career that interests you.

DID YOU KNOW?

Monash University is consistently ranked in the top 100 universities in the world, according to the Times Higher Education World University Rankings. A Monash degree could take you anywhere in the world.
A comprehensive course at Monash is all about developing expertise. Each course offers you a variety of choices — majors or minors — based on what you want to focus on.

With every choice you make, you'll progressively focus on one or two study areas. When you graduate you'll be an expert in your area of interest. You'll graduate with a qualification that reflects your passions, capabilities and expertise.

1. Also available as an extended major.
DOUBLE DEGREES

What is a double degree course?

A Monash double undergraduate degree course allows you to study towards two degrees at the same time. This means you can keep your options open, develop expertise in different but complementary areas, or simply pursue two areas of interest in greater depth. You’ll be awarded with two testamurs, one for each degree completed.

Some double degree courses may require you to study across two campuses in order to complete your course.

To be eligible for admission to a double degree course, you’ll need to meet the academic entry requirements for both single degree courses.

For example, if you’re applying for the Bachelor of Laws and Bachelor of Music double degree, you’ll need to satisfy the subject prerequisites for both courses as well as any additional criteria that apply for either of the courses.

A Monash double undergraduate degree course allows you to study towards two degrees at the same time. This means you can keep your options open, develop expertise in different but complementary areas, or simply pursue two areas of interest in greater depth. **Science**

**Advanced**

At least 5 in one of the following SL subjects: English, Language, Literature, or Mathematics.

At least 4 in one of the following HL subjects: Mathematics, Further Mathematics, Science, Geography, Psychology, or Animal Biology.

At least 4 at SL or 3 at HL in one of Mathematical Methods (Any), Specialist Mathematics, or Psychology.

At least 5 SL or 4 at HL in Biology, Chemistry, Further Mathematics, Mathematics Analysis and Approaches (Any), Mathematics and Physics, Physics or Psychology.

Indicative A/α: 91.20
Indicative B/β: 33

**Advanced – Global Challenges**

Units 3 and 4 at least 25 in English (EAL) or 30 in English other than EAL.

**Advanced – Research**

Units 3 and 4 at least 25 in Mathematics (Any), Science/Biology, or Physics.

Units 3 and 4 at least 25 in Specialist Mathematics.

Units 3 and 4 at least 25 in Science/Biology, or Physics.

Indicative A/α: 89.60
Indicative B/β: 36

**Science (Other Studies)**

Science/Majors

Master’s accelerated pathway

Lawn pathway

RC = Range of criteria.

1. Indicative – The scores provided are to be used as a guide only, and are either the lowest selection range to which an offer was made in 2021 or an estimate (E).
2. This course has additional selection requirements; see Bernas.net/apply.
3. The selection requirements for the VCE only apply to the VCE specialisations.
4. The selection requirements for the Science/Majors offer are the same as for the Science (Other Studies) offer.
5. The additional requirements of Physics apply only to the Science and Biomedical Science degree programs.

VCE Units 3 and 4: A study score of at least 25 in Chemistry (B) or at least 4 in Chemistry (SL) or at least 3 in Chemistry (EAL).

Applied Data Sciences Advanced

Units 3 and 4 at least 25 in English (EAL) or 30 in English other than EAL.

Please see the entry for Applied Data Science.

Indicative A/α: 95.05
Indicative B/β: 36
