

# A GUIDE TO ENTRY 2023

# BRING YOUR CURIOSITY, OPTIMISM AND PASSION, AND DISCOVER A COURSE THAT'S RIGHT FOR YOU.

It's an exciting time in your life as you enter the final years of secondary school and start to consider what your future might look like.

At Monash, we're here to help. We can offer you quality teaching, fantastic facilities and great career outcomes. As well as studying your course of choice, you'll have opportunities to enhance your learning experience through studying abroad, getting involved in clubs and societies, or completing work placements as part of your studies. There's so much we can offer you – let's get started.

## DID YOU KNOW?

Monash University is consistently ranked in the top 100 universities in the world, according to the Times Higher Education World University Rankings. A Monash degree could take you anywhere in the world.

## DISCOVER YOUR OPTIONS

You may or may not have ideas about what you want to pursue as a career. Either way, it's important to keep your options open and know what subjects are required to undertake certain courses at Monash (see page 6 for course information).

### FOLLOW YOUR PASSION

Most of our graduates will tell you that the more you put into a course, the more you get out of it, with better grades and better experiences. If your course is based on something you enjoy, and involves subjects you like and are good at, you're more likely to succeed.

### DO SOME DETECTIVE WORK

Do as much independent research as you can. There are loads of online testing tools that can provide insights into career opportunities. Visit the Australian government website at [www.joboutlook.gov.au](http://www.joboutlook.gov.au) to learn more about yourself and the world that awaits you. There's lots of information available to help you, but sometimes the challenge is working through it all. Here are our top three tips on where to start.

#### 1. Come to our Open days and info nights

You can chat with staff who are experts in helping students choose the right course. Current students are also on hand, and are an excellent source of information about options and uni life in general.

#### 2. Visit our website

Our website is full of information. It can be a bit overwhelming but if you start at [monash.edu/study](http://monash.edu/study), you'll be able to find all you need.

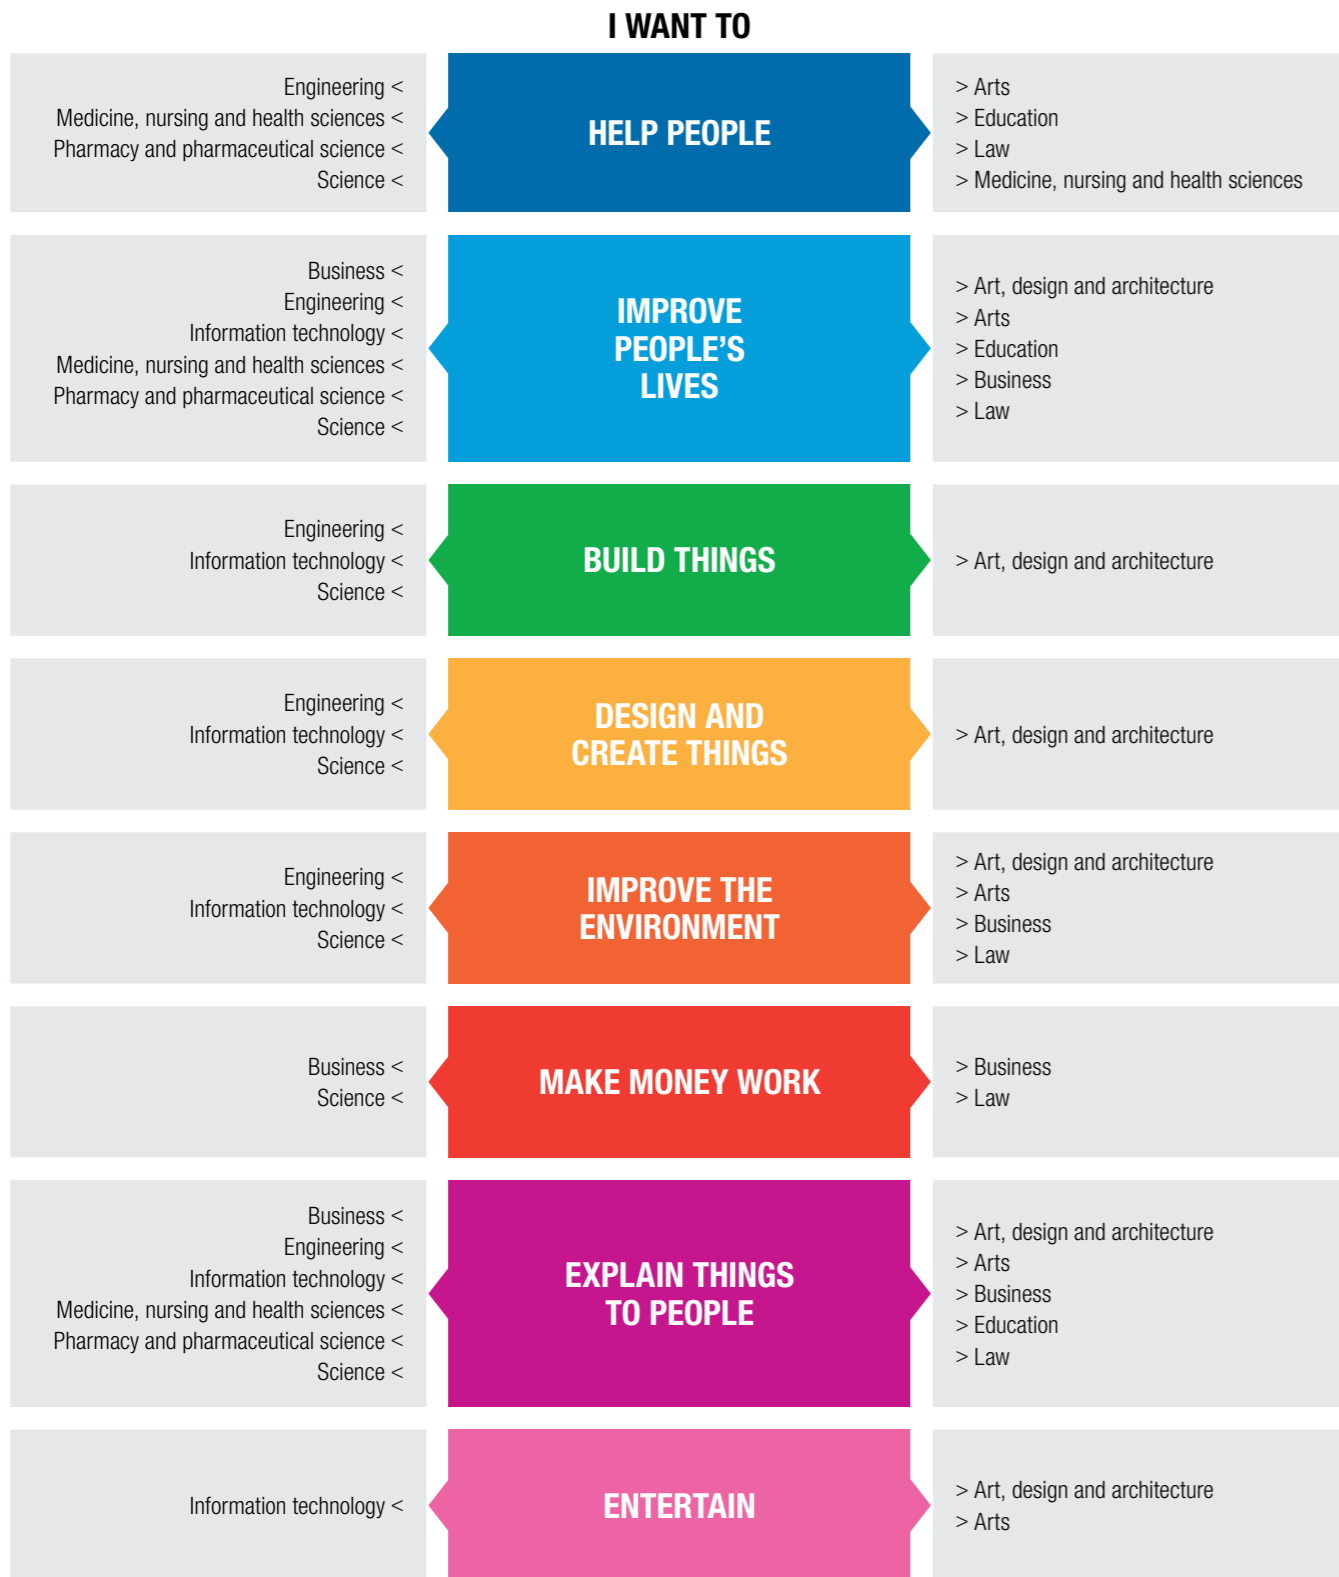

#### 3. Make a shortlist

You'll come across lots of information about courses – online and in print. To help make sense of your options, create a shortlist of key features you're looking for (e.g. career outcomes, course location, prerequisites) and check each course you research against these.

### TALK TO OTHERS, BUT DECIDE FOR YOURSELF

Talk to people who know you – parents, family, friends, teachers and career advisers. Tell them what you're considering, and ask them what they think you're good at. Ask the professionals you know what it's like to be an accountant, doctor, engineer, lawyer, nurse or teacher. Or try work experience – it's a great way to get a taste of a career that interests you.

# SO MUCH TO CHOOSE FROM

A comprehensive course at Monash is all about developing expertise. Each course offers you a variety of choices – majors or minors – based on what you want to focus on.

With every choice you make, you'll progressively focus on one or two study areas. When you graduate you'll be an expert in your area of interest. You'll graduate with a qualification that reflects your passions, capabilities and expertise.

# DOUBLE DEGREES

## What is a double degree course?

A Monash double undergraduate degree course allows you to study towards two degrees at the same time. This means you can keep your options open, develop expertise in different but complementary areas, or simply pursue two areas of interest in greater depth. You'll be awarded with two testamurs, one for each degree completed.

Some double degree courses may require you to study across two campuses in order to complete your course. To be eligible for admission to a double degree course, you'll need to meet the academic entry requirements for both single degree courses.

For example, if you're applying for the Bachelor of Laws and Bachelor of Music double degree, you'll need to satisfy the subject prerequisites for both courses as well as any additional criteria that apply for either of the courses.

The back tables in this brochure provide a guide to the overall score, or an estimate, required for admission in 2023. All scores are a guide only and can change each year, so you should always check closer to the date of applying.

RC – Range of criteria.

E – Estimated: the provided score is estimated and is to be used as a guide only.

CL – Clayton

CA – Caulfield

<sup>1</sup> You will need to achieve a higher-score in mathematics. See our [monash.edu/study](https://monash.edu/study) for more information.  
<sup>2</sup> Science approved list: VCE: Biology, Chemistry, Environmental Science, Geography, Mathematical Methods (any), Specialist Mathematics, Physics or Psychology. IB (SL or HL): Biology, Chemistry, Environmental Systems and Societies (SL only), Further Mathematics (HL only), Geography, Mathematics, Mathematics: Analysis and Approaches (HL only), Mathematics: Applications and Interpretations (HL only), Physics or Psychology.

<sup>3</sup> Indicative – The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 2020 or an estimate (E).

<sup>4</sup> This guarantee doesn't apply to the Laws pathway, which requires an ATAR of 90+.

<sup>5</sup> This course has additional selection requirements; see [monash.edu/study](https://monash.edu/study)
