BACHELOR OF INTERNATIONAL BUSINESS
STUDY ABROAD PROGRAM
Studying abroad is a great opportunity to enhance the value of your qualification, while also travelling, learning and immersing yourself in a totally new cultural setting. On weekends and academic break periods you’ll be able to explore surrounding areas and enjoy a host of new experiences. You’ll connect with locals and fellow international students, forming new friendships and expanding your professional network. But most importantly, a study abroad experience will help you grow as a person. By overcoming challenges and adapting to unfamiliar surroundings, you’re sure to discover strengths you never knew you had!

Monash University’s Bachelor of International Business offers students study abroad programs at some of the world’s top universities in China, Japan, Korea, Malaysia and Italy. Programs are integrated into your degree structure, meaning you’ll get to spend a full trimester studying abroad. All programs are delivered in English and offer you the chance to learn about the business practices, challenges and opportunities of your chosen country, while immersing yourself in its culture.

In order to apply you will need to be in your final year of the Bachelor of International Business or have completed 72 credit points. You will also need to meet the weighted average mark specific to each location, and have four elective units available in your degree.
This unique 16-week study abroad program includes travel to Italy to study for 10 days at the Monash University campus in Prato, followed by a full trimester of study at the Monash Malaysia campus in Kuala Lumpur. Student accommodation and facilities are of very high quality and come at a very reasonable cost.

You’ll join classes with students from all over the world, try international cuisine, experience the bustling nightlife and immerse yourself in a culture that’s as exciting as it gets! Career advice and support for students wishing to work in South East Asia, Australia, or other locations is also included in this program.
