

Towards Quality Use of Evidence in Schools

Mark Rickinson and Lucas Walsh
Monash Faculty of Education

Research Forum Seminar,
Queensland Department of Education
23 July 2019

‘To improve the use of evidence in policy requires an explicit engagement with the question of what constitutes better use from a political perspective.’

(Parkhurst, 2017: 170)

‘Used intelligently, evidence is the teacher’s friend.’

(Collins, 2019: 170)

Aims

- To start a conversation about quality use of evidence
- To share some early information from the Q Project
- To reflect together on our own use of evidence

1. SOME REFLECTIONS FROM YOU

**Reflecting on our
use of evidence**

Reflecting on Your Use of Evidence

Think about an occasion this year when you used research evidence* as part of your work

What research evidence did you use?

How did you use it? i.e.
What did you do with it?

What helped you to use
this evidence in this way?

What could have improved this
use of evidence?

*Research evidence could include things like research reports, journal articles, research summaries, research-based guidance, research syntheses, program evaluations, etc.

2. SOME IDEAS FROM THE Q PROJECT

From whether
to *how well*

From quality of evidence
to *quality of use*

Strand 2

What does it look like
in practice?

Strand 1

How to
conceptualise it?

Quality use of research evidence in education

Strand 3

How to develop it
through professional
learning?

Strand 4

How to embed it
within systems?

Quality use of evidence

the thoughtful use of appropriate evidence

*supported by a blend of enabling skillsets,
mindsets, relationships and systems.*

(Rickinson et al., in preparation)

3. SOME DISCUSSION IN GROUPS

In small groups ...

1. *One of core components – meaning/example in your context?*
2. *One of enabling components – meaning/example in your context?*
3. *Overall framework – what's missing and how to improve?*

Discuss and record ideas (10 mins)

Share one idea in plenary (10 mins)

**One key
idea**

4. SOME NEXT STEPS

Strand 2

What does it look like
in practice?

Strand 1

How to
conceptualise it?

Quality use of research evidence in education

Strand 3

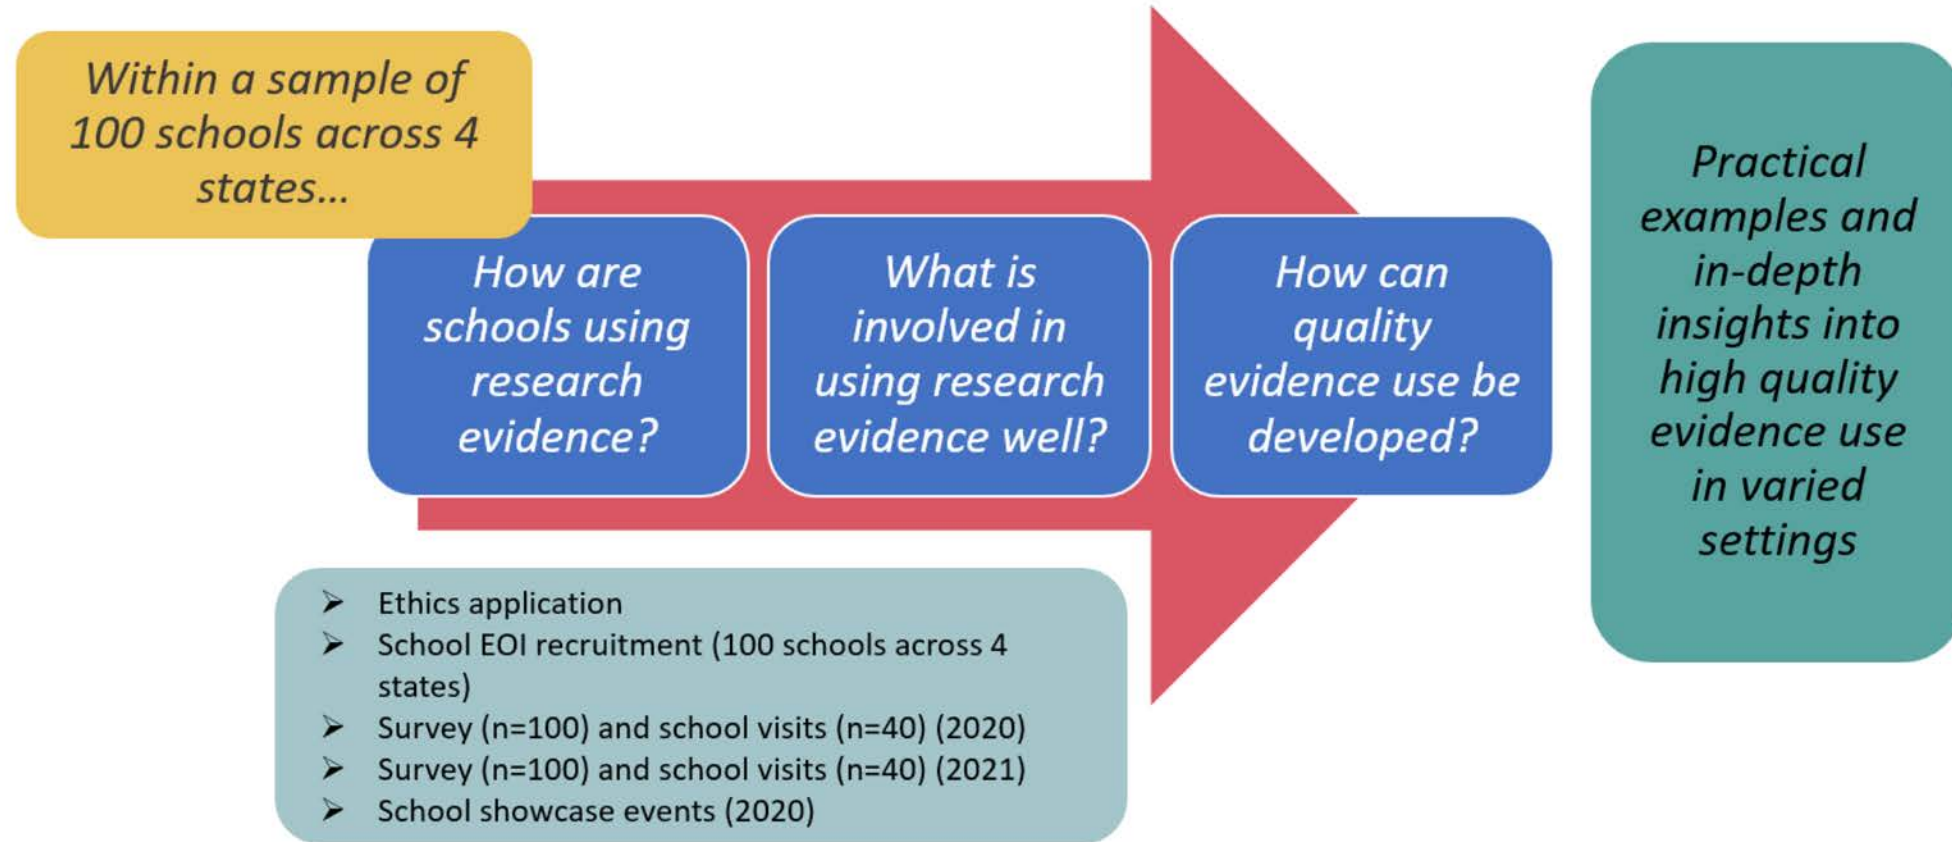

How to develop it
through professional
learning?

Strand 4

How to embed it
within systems?

Strand 2 – school-based investigation

Strand 2 – next steps

- Ethics applications (July 2019)
- School Engagement Advisers (1 per State) (July 2019)
- School EOI process with jurisdictions and partners (Term 3 and 4, 2019)
- School Survey (Term 1, 2020) and Visits (Term 2 and 3, 2020)
