A ONE DAY COURSE FOR NURSES ON WOUND CARE IN PRACTICE

This is a didactic and hands-on course which will cover topics on how wounds heal, what prevents healing, acute wounds, chronic wounds, infection and antiseptics, wound and patient assessment, and decisions of what and how to dress wounds. This includes demonstration of products as well as the role and use of products, including a demonstration of bandages and compression therapy.

LEARNING OBJECTIVES:
• To understand the biology of healing
• To identify the factors that impact on wound healing
• To understand accurate Wound and Patient assessment
• To clarify wound infection and the role of antiseptics
• To identify and treat acute and common chronic wounds seen in Practice
• To Clarify and examine dressings their type and functions
• To understand and demonstrate bandages and their role in retention, support and compression

This workshop is endorsed by Australian College of Nursing (ACN) according to our Continuing Professional Development (CPD) Endorsed Course Standards. It has been allocated 8 CPD hours according to the Nursing and Midwifery Board of Australia – Continuing Professional Development Standard.

This activity has been endorsed by APNA according to approved quality standards criteria. Completion of this educational activity entitles eligible participants to claim up to 8 CPD hours.
