Welcome to the next Monash Update for 2019. This issue contains key information on new courses, accommodation, scholarships and upcoming events.

Kind regards,
Domestic Student Recruitment team

SAVE THE DATE:
MONASH CHANGE DAY EXPO

We know your students will have a lot of questions after they receive their results in December, so the Monash Change Day Expo provides the perfect opportunity for them to talk to our course advisers one-on-one. Students will be able to explore our ten study areas and range of pathway options, and attend information sessions to find out everything they need to plan their future.

Date: Friday 13 December
Time: 1-5pm
Location: Caulfield campus

SCHOLARSHIP
APPLICATIONS CLOSE SOON

Applications through VTAC are now open and close 5pm, Friday 11 October 2019.

A scholarship can provide students with opportunities they may never have thought possible. Watch the video to hear how a Monash scholarship has changed current students' lives.

ON-CAMPUS ACCOMMODATION APPLICATION

Applications for on-campus accommodation in 2020 are now open! We're already experiencing a high volume of submissions, so please encourage your students to submit their application as soon as possible.

Applications are assessed on a first-in, first-served basis. There is no cost to submit an online application and students can apply before receiving their course offer.

Information on the application process and key dates is available on our website.

VTAC CAREERS PRACTITIONERS BLOG

If you have students who are considering applying for a course in Victoria, the VTAC Careers Practitioners blog is a great way to keep up-to-date with information, changes and news about tertiary institutions located in Victoria.

The blog is VTAC’s primary means of communicating important information with careers practitioners, including key dates,
policy change announcements and
general advice in relation to applications
for courses at Victorian institutions.

The blog is also a good way to keep
informed about the December offer round.
If you would like to know which Monash
courses are participating in the VTAC
December offer round for 2020 entry, visit
our website.

MONASH EXTENSION
PROGRAM UPDATE

In the last 26 years, the Monash Extension
Studies Program has been offering high
achieving secondary students an
opportunity to commence their university
studies while in Year 12.

In recent years, interest and enrolments in
the program have steadily declined and so
from the end of the 2019 academic year,
the program will no longer be offered by
Monash.

With students undertaking subject
selection, we wanted to let you know so
they can explore higher education study
options at other tertiary providers. If you
have any questions, please contact us via
the button below.

EXPLORE FREE ONLINE
SHORT COURSES FROM
MONASH

We have five popular online courses
starting soon:

- Developmental Psychology and The
  Psychology of Learning start on 23
  September
- The Psychology of Personality and
  Psychology: Sense and Perception
  start on 14 October
- Mindfulness for Wellbeing and Peak
  Performance starts 7 October. You
can learn mindfulness techniques to reduce stress and improve focus. This course would benefit all students, especially Year 12s.

NEW COURSE: BACHELOR OF RADIATION SCIENCES (INFORMATICS)

Do your students want to improve healthcare through data and technology? We’re introducing a Bachelor of Radiation Science (Informatics) degree in 2020.

Co-delivered by the Medicine and IT faculties, this new degree provides students with training across medical radiation sciences and information technology, including systems and data management. Your students will be prepared for careers in the growing field of health informatics and at the forefront of the next IT-lead breakthrough in health.

LEARN MORE

EXPLORING CAREERS IN NUTRITION SCIENCE

A Bachelor of Nutrition Science gives your students the expertise to explore a range of exciting careers in the world of food and nutrition. Whether it’s working one-on-one to help people make better food choices or having a large-scale impact by influencing the food supply chain, Monash nutrition graduates make a difference in health worldwide.

Our students complete 11 weeks of work placement in food industry or public health settings to give them a taste of what their future career could be.

EDUCATION

BACHELOR OF EDUCATION (HONOURS)

All Bachelor of Education (Honours) applicants must sit CASPer, an online situational judgement test, as part of the application process. CASPer can only be taken on certain dates and times. To be considered for an early offer in December, applicants are advised to complete the test by 17 November. If you sit it in December, you’ll be considered for the first round of offers in January instead.

Encourage your students to visit the CASPer website to reserve their test and browse resources that help them prepare.

ENGINEERING

ENGINEERING FACULTY TOURS

Students interested in engineering have the opportunity to visit our state of the art facilities during special guided tour on 4 October. Get up close and personal with current students who will be able to discuss the opportunities you get studying at Australia’s number one engineering school. Get a glimpse of the projects student teams work while discovering all there is to know about our courses.

SCIENCE
VCE SCIENCE REVISION LECTURES

Your students can get an exam advantage by attending our VCE revision lectures. These sessions are designed to reinforce key concepts in the VCE curriculum and are delivered by qualified VCE teachers with extensive experience across a range of VCE subjects.

The cost is only $10 (non-refundable), which includes a set of comprehensive revision notes to be used throughout the session.

PHARMACY AND PHARMACEUTICAL SCIENCES

REVISION LECTURE WITH A DIFFERENCE - THE PAIN POINTS OF UNIT 4 CHEMISTRY

Year 12 students are invited to our Parkville campus for a program that tackles the Pain Points of Unit 4 Chemistry. We won’t just be reviewing ideas with your students, but throwing them into exam-style questions with the help of a VCAA examiner and our high-achieving Dean’s Scholars students.

Date: Thursday 3 October
Time: 9.30am - 1.00pm
Location: Parkville campus
**INFORMATION TECHNOLOGY**

**TAKE CTRL OF YOUR FUTURE!**

Our IT school holiday boot camp will give your Year 10 and 11 students the perfect opportunity to participate in a range of workshops, hacking demonstrations and robot interactions.

Workshops will be delivered by IT student clubs, academics and lecturers. Students will be exposed to life at Monash and they can experience our brand new collaborative workspaces, including a VIP pass to our IT research facility, SensiLab.

**ARTS, HUMANITIES AND SOCIAL SCIENCES**

**BRASS DAY**

The Monash Sir Zelman Cowen School of Music invites high school students and brass enthusiasts to participate in a

**CHAMBER MUSIC FESTIVAL**

Monash Music invites you and your students to the Chamber Music Festival,
collaborative and immersive day of learning and music-making!

**Date:** Sunday 6 October  
**Time:** 10am - 3pm  
**Venue:** Clayton campus

Registration Details

An action-packed day of chamber music, masterclasses, discussions about audition techniques, as well as effective approaches to solo performance and ensemble playing.

**Date:** Sunday 13 October  
**Time:** 10am - 5pm  
**Venue:** Clayton campus

Registration Details

**AN UNMISSABLE EVENING WITH ZOHRA ORCHESTRA**

Monash Arts is giving away 50 tickets to you, your students and their parents to enjoy the music of the internationally acclaimed Zohra Orchestra, Afghanistan's all-female group on Saturday 12 October.

You’ll also hear a discussion between Dr Ahmad Sarmast, founder of Afghanistan’s only music school and Prof Jacqui True, Monash music alumnus and Director of the Monash Gender, Peace and Security Centre.

Register your interest to Georgina Gibson.

**MONASH BUSINESS SCHOOL**

**WHY EMPLOYERS LOOK FOR ENTREPRENEURSHIP SKILLS IN GRADUATES**

Entrepreneurship at Monash Business School is more than just learning how to launch a new business. It is seen as a life skill involving problem-seeking, problem-solving and innovation.

“Studying entrepreneurship teaches you..."
fundamentals in problem-solving, creating ideas and building a financially viable business," Nicholas Gregors, a Bachelor of Commerce student says.

Students work with industry experts on real-world projects via intensive workshops, bootcamps and 'pitching' their ideas.

---

**LAW**

**MONASH STREET LAW INITIATIVE**

The Monash Street Law program provides your students with the opportunity to engage with current Monash law students about things that matter to them.

Second and third year law students can develop and deliver accessible, legal information presentations on issues that relate to your students. Topics could include online privacy, using of social networking sites and employment rights for young people.

To find out more, please contact Daniel Gates.
You're receiving this email because you're the nominated Careers Practitioner for your school.
