

BACHELOR OF NURSING

Nursing is one of the most trusted professions in the world and is essential to healthcare - a rewarding, varied, challenging and fulfilling career choice allowing you to continually develop.

Our Bachelor of Nursing will inspire you to make a real difference. You'll develop a strong set of transferable skills: problem-solving, communication, and critical thinking that today's healthcare employers genuinely look for. This hands-on degree gives you the knowledge and practical know-how to deliver high-quality nursing care, while building the leadership skills you'll need to step confidently into a wide range of healthcare settings.

You'll spend a significant part of your learning in our state-of-the-art clinical environments, designed to closely mirror the realities of hospital-based nursing. It's as close as you can get to the real thing, helping you feel prepared, with the confidence, readiness and excitement for what comes next.

In the Bachelor of Nursing you will:

- Gain the knowledge and hands-on expertise to deliver high-quality nursing care in a range of settings.
- Practice your clinical skills in our state-of-the-art clinical learning environments on campus.
- Learn from highly skilled nurses, leaders in their field with a wealth of knowledge and expertise.
- Develop knowledge in line with current practice.
- Learn to think critically, make informed decisions, and understand the "why" behind clinical practice.
- Build confidence, communication skills, and real-world competence.
- Graduate with the practical readiness to step into your career and succeed.

COURSE CODE

M2006

CRICOS CODE: 075119J

STUDY MODE

On campus (Clayton, Peninsula)

ASHLEIGH WILSON

BACHELOR OF NURSING GRADUATE

“At Monash, the shift from classroom to bedside is where the magic happens with the supportive community of peers and educators throughout my degree. The broad exposure and high quality clinical placements supported me through my transition from student to graduate. My initial nerves have turned into quiet confidence, and there’s a genuine excitement in finding my passion.”

COURSE STRUCTURE

Year 1	Year 2	Year 3
<ul style="list-style-type: none">• Communication and scholarship• Law, ethics and leadership• Indigenous health and cultural safety• Fundamental skills and knowledge for nursing and midwifery practice• Elective	<ul style="list-style-type: none">• Mental health nursing• Acute nursing practice• Caring for children and young people• Global, public and primary health	<ul style="list-style-type: none">• Complex acute care practice• Preparation for professional practice• Safety and quality in ageing and chronic conditions• Leadership, education and quality improvement

CLINICAL PLACEMENTS

Throughout your degree, you’ll complete **840 nursing clinical placement hours**, immersing yourself in real-life practice across acute, surgical, mental health, community and more, in both metropolitan and rural settings. It’s your chance to truly experience life as a nurse.

There is also the opportunity for international clinical experiences via volunteer programs.

STUDENT LIFE AND COMMUNITY

We know how daunting starting university can be, joining Monash Nursing and Midwifery will make you part of a thriving community with support, mentoring and social groups including:

- Peer mentors
- Student representatives
- Student clubs and societies including: NSS (Nursing Students Society) and MNMS (Monash Nursing & Midwifery Society)

SCHOLARS PROGRAM

Designed for high performing prospective students, the Scholars Program focuses on research and leadership development and provides a pathway to more advanced learning and engagement in nursing research.

You will complete the same academic program as your fellow students but, in addition, have access to a range of development opportunities including expert mentoring, special activities and seminars that support and enhance your experience.
