

MASTER OF SPECIALIST PARAMEDIC PRACTICE

BECOME A LEADER IN OUT-OF-HOSPITAL CARE

Are you looking to take your paramedic career to the next level? At Monash, we have a proud history of educating Australia's most specialised paramedics, who provide the highest levels of emergency care.

The Master of Specialist Paramedic Practice expands your knowledge, skills and clinical decision-making, preparing you for specialist paramedic roles.

With a choice of intensive care or aeromedical retrieval specialisations, you'll learn advanced pathophysiology of complex diseases and injuries and contemporary evidence-based treatment pathways. This ensures you are ready to deliver patient-focused care in a range of challenging physical environments.

Our course is taught by experienced clinicians and active researchers among the best in the field, so your learning is continually informed by the latest research.

In the Master of Specialist Paramedic Practice you will:

- Develop autonomous clinical reasoning and decision-making abilities
- Learn advanced techniques to provide the highest level of out-of-hospital care
- Enhance your professional capabilities in leadership, team work and communication
- Build research skills, apply research to practice and complete your own research project.

COURSE STRUCTURE

CLINICAL UNITS

Extend your clinical knowledge and practice with your chosen specialisation. Depending on your specialisation, you may get a choice of elective, which you can tailor to your professional interests.

RESEARCH UNITS

Broaden your capacity to conduct research related to either intensive care or aeromedical retrieval.

Find out more about what you'll study, visit monash.edu/study/course/m6015

You may be eligible to exit early with a Graduate Certificate or Graduate Diploma if the award requirements have been met.

Intakes

First semester: February

Durations

Part time: 3 years

"Our teaching associates, lecturers and coordinators are amongst the best of their kind in the world. There isn't a single lecture I've watched that hasn't changed my practice as a paramedic for the better."

Ryan Parry

Paramedic Educator and Master of Specialist Paramedic Practice student

SPECIALISATIONS

AEROMEDICAL RETRIEVAL

Gain the skills and knowledge required to complete an aeromedical retrieval internship program or work as part of an aeromedical retrieval system. In this specialisation, you'll learn how to provide specialist paramedic care with aeromedical, retrieval, rescue and coordination services.

INTENSIVE CARE

Develop the skills and knowledge required to complete an intensive care internship or improve your clinical practice. In this specialisation, you'll learn how to provide the highest level of care for cardiac, respiratory, medical, trauma, paediatric and obstetric patients.

RESEARCH

Monash is recognised globally for research excellence. As part of the Master of Specialist Paramedic Practice, you have the opportunity to work on a research project, with one of our expert supervisors. Completing this research project can be used as a pathway to a graduate research degree, such as Doctor of Philosophy.
