MASTER OF WOUND CARE

LOOKING TO ADVANCE YOUR SKILLS IN WOUND CARE?

Join Monash’s Master of Wound Care, Australia’s only graduate program specialising in wound care management.

The Master of Wound Care will allow you to gain specialist skills and knowledge to enable the formulation implementation and evaluation of wound care management plans in clinical practice. You’ll also gain essential leadership, professional communication, and innovation skills in wound care.

The course is designed for an array of health professionals, offering a course structure that suits your interests and career goals.

In the Master of Wound Care you will:
- Gain specialised knowledge, problem-solving and evidence-based decision making skills relating to wound care.
- Critically review current wound dressings, technologies and wound bed preparation methods.
- Learn to evaluate literature to answer research questions.

COURSE STRUCTURE

<table>
<thead>

M6035

Study mode
Online

Intakes
First semester: February
Second semester: July

Durations
Part-time: 3-5 years

“...I decided to undertake this degree following an increase in the number of referrals I was receiving for wound care. I would highly recommend this course to clinicians who want to extend their wound care knowledge, network and learn with other passionate wound care clinicians and improve their patient outcomes.”

Carmen Franz
Podiatrist and Master of Wound Care student
STUDY ANYTIME, ANYWHERE

The Master of Wound Care is offered fully online, providing you with the flexibility to juggle work, family and study commitments.

WHY CHOOSE MONASH

- Ranked #32 in the world for Clinical and Health Sciences (Times Higher Education World University Rankings 2023).
- We take a bench to bedside approach; our clinical research is focused on directly improving outcomes for patients.
- We participate in Monash Partners Academic Health Science Centre, one of only four advanced research and translational centres in Australia.

RESEARCH

Monash is at the forefront of health care improvement research in Australia and recognised globally for research excellence.

As part of the Master of Wound Care, you can choose to complete a research stream, gaining advanced research skills in wound care or pursue the coursework stream based on your interests and career aspirations.

“This degree has helped consolidate and enhance my clinical practice and knowledge. It has enabled me to provide evidence-based practice to all of our clients as well as enhancing the education to clinicians within our service.”

Toni McCormack
Master of Wound Care student
