IF YOU DON’T LIKE IT, CHANGE IT.

For 60 years, we’ve been working to change the world, and we’re not about to stop. At Monash, we see challenges as opportunities to make things better.

It’s hard to imagine a time when the need to make positive change has been greater than now.
We want you to help us do it.
Whether you want to change your life, your career, your community or the world, your journey starts at Monash.
As a university with a global footprint, we know we have to play our part in solving the problems facing the world.
That’s why all Monash students, lecturers, researchers, professional staff, alumni and supporters contribute to making real change.
You, too, have the opportunity to step up and make a difference.
Are you ready?
Monash University is truly a global university. Our main base is in Australia, but our presence extends to locations in China, Malaysia, Indonesia, Italy and India. We also deliver awards in partnership with many international teaching institutions. Through our shared values, experiences and goals, we are more connected now than ever.

Each Monash campus has its own personality, and all are friendly, welcoming communities where you’ll feel at home.
Monash research strives to make a positive difference in the world.

Even before we became the global university we are today, our researchers looked beyond traditional boundaries, discovering ways of approaching the fields in which they worked. It’s why a Monash education is so respected around the world. Things that we now take for granted wouldn’t exist without the initial work of Monash researchers.

Today, our ambition and optimism are stronger than ever. We have a clear vision of what we want our research to achieve and how we’ll help our researchers make it happen.

breakthrough blood test detects positive COVID-19 results in 20 minutes

Monash University led the charge in combating COVID-19 with the development of blood tests that could detect positive COVID-19 case in approximately 20 minutes. This breakthrough aided governments and health experts with contact tracing and limiting community spread.

Monash researcher named Australian Young Water Professional of the Year

Dr Paul Satur, from the Monash Sustainable Development Institute, has worked to progress the water sector beyond best-practice goals. His passion and focus lie in helping remote, local communities, both in Australia and around the world, to develop the knowledge, tools and influence to ensure access to clean, drinking water.

eBikes pedal up on safety with EEG technology

As more cyclists take to the streets, the risk of accidents also increases. Research from Monash University, IBM Research - Australia and the University of Southampton, have developed an eBike prototype that has the ability to “read” a cyclist’s mind and respond to a potentially dangerous situation, providing a much safer and enjoyable ride.

Professor Florian ‘Floyd’ Mueller, Director of the Exertion Games Lab in the Faculty of Information Technology at Monash University and co-creator of this technology, sees this ground-breaking research as an opportunity to further human-computer interaction experiences in real-time, where the rider and the e-bike “fuse” together to support each other.

When to send an ambulance

Triple-O calls can be intense conversations. The caller is often stressed and unsure about what they’re witnessing. And it can be difficult for the triple-O operator to collect and sort through all of the key information. This can sometimes cause delays in making the decision to send an ambulance.

AI can help speed things up. Professor Ann Nicholson is working with Monash IT’s Associate Professor Burak Turhan to develop AI technology to improve response times to cardiac arrest. Accordingly to Ambulance Victoria, the development of such a system, could help save up to 185 lives per year.

THE CHOICE
IS YOURS

We know that when, where, how and what you study is critical to progressing your career, skills and knowledge.

You might be a professional looking to gain expert knowledge in your current field, or you might be looking for a career change. Or maybe you want to complement your existing knowledge and experience by tackling study in a new discipline so that you develop a competitive edge in your career.

We offer a comprehensive graduate coursework portfolio that includes graduate certificates, graduate diplomas and master’s programs. Our range of graduate course options allows you to choose the qualification level and course duration that suits your needs.

Depending on which path you take, you may be eligible for credit for your prior qualifications and/or experience. This could reduce the duration of your course and lower the overall cost.

**Graduate certificates**

These are our six-month courses, and provide a way to broaden your knowledge base within a shorter period of time. They can give you a sense of what’s involved with graduate coursework studies.

Completing your graduate certificate not only provides you with a qualification, it can also create an opportunity for you to pursue further studies in either a graduate diploma or a master’s degree, and can shorten your study time should credit be available.

**Graduate diplomas**

Through our one-year graduate diploma courses, you could develop a broader understanding in your chosen area of study. Completion of a graduate diploma can also provide a pathway to further studies at a master’s or doctorate level. If you decide to pursue further studies in your chosen field, you may be eligible for credit which would reduce the overall duration.

**Master’s by coursework**

We offer a broad portfolio of master’s by coursework programs, with options available in each of our faculties. These master’s courses can run from two to four years, and you may receive credit for prior studies and/or experience which would allow you to complete your studies in a shorter time.

Our master’s courses provide opportunities for professionals to further develop specialist knowledge in their chosen field, or for individuals to change their career direction entirely and undertake study in a new discipline.

You can see the full list of our graduate coursework offering on pages 12-13.

Whatever your ambition, Monash can help you get there.
From day one, a Monash education sets you on the path to future career success.

WORK-INTEGRATED LEARNING

Our programs and platforms offer work-integrated learning experiences and engagement with industry. You'll develop an enterprising mindset, hone your employability skills and gain a competitive edge in the graduate employment market.

Incorporate professional experience into your studies through clinical placements, fieldwork, study tours, placements, or internships. Each of our ten faculties offer work-integrated learning options. We've listed just a few.

IT and Engineering
Both our IT and Engineering faculties have specific work-integrated Learning opportunities throughout their graduate offering.

Monash Law School
Monash Law offers a guaranteed clinical education experience for all students who wish to incorporate a practical component credited towards their Monash Law degree.

Monash Business School
Monash Business School offers practical experience with many of their courses, with many of their courses providing accreditation and professional recognition.

Medicine, Nursing and Health Sciences
Our school of Medicine, Nursing and Health Sciences have created placement requirements through many of their graduate courses, all designed to maximise your professional development.

I chose Monash specifically, because unlike similar programs in other universities, this program offered internship opportunities where we learn to apply our knowledge and skills in a real-life settings. My internship with Janssen enabled me to seek guidance from people with years and years of experience within the pharmaceutical industry. Janssen arranged an intern engagement program where I had the opportunity to talk with people from different parts of the company each week. They also involved me in meetings where I could observe how different roles work together in a cross-functional team. I gained an understanding of how much science is involved and how it fits within a pharmaceutical company. This experience opened my eyes to a wide range of roles where science is highly utilised.”

ASSIFA NUR HISHANA
Master of Biomedical and Health Science, 2020

I undertook a clinical placement with Tradelab, a Geneva based non-profit organisation that assists developing countries with trade-related legal matters.

This internship was valuable as it gave me an opportunity to gain practical working experience and at the same time make a meaningful contribution to the future of sustainable infrastructure development.”

PRATIK AMBANI
Master of Laws (Juris Doctor), 2019

In this video, two professors at different universities join forces to demonstrate quantum physics.

At Monash we offer a mix of both in-person and online learning. Some Monash courses are offered fully online, while others provide the opportunity to undertake some studies online and some on campus.

Online learning at Monash can look different depending on what course and units are studied. For example, in some units, you’ll be listening to livestreams of lectures, and attending virtual tutorials via Zoom; in others you’ll be watching chemistry prac recorded by our lecturers and teachers.

At Monash, we want you to get the most out of your education experience. To achieve this, we use a variety of tools and platforms to support and enable online learning. These include Moodle, Echo360, Panopto, and Zoom.

Moodle
Moodle is an essential go-to point for:
- Course content
- Reading lists
- Assessment and study requirements
- Assignment uploads
- Discussion forums
- Contact information for tutors and lecturers

Echo360 and Panopto
You may use Echo360 to watch lecture recordings or Panopto to upload video assignments.

Zoom
Zoom is a technology used to facilitate meetings and online classes. These platforms and tools are the main systems in use by Monash to support day-to-day online learning, and are easy to use with plenty of support available to ensure you have access at all times.

2022 GRADUATE COURSE GUIDE 2022 GRADUATE COURSE GUIDE
Whether you’ve completed undergraduate studies in architecture or another field, the Master of Architecture meets the academic requirements necessary to register as an architect. At Monash, we develop graduates with a vision to design architecture that responds to the dynamic needs of society while also speculating about the future of our built environment.

In this project-based studio course, you’ll be guided by industry experts and award-winning Monash academics. This integrated program of study allows you to select from a range of design studies in conjunction with advanced architectural studies.

**Professional accreditation**

This course meets the academic requirements for professional recognition by the Architects Accreditation Council of Australia and the Australian Institute of Architects. Two years of professional experience is required for registration.

---

### Master of ARCHITECTURE

**COURSE CODE:** F6001

- **Duration:** 2 or 3 years
- **Start Date:** February

**Entry requirements**

**ELIGIBILITY**

- Bachelor’s degree (or equivalent) in any field

**Additional requirements**

- A compilation of evidence of creative work and a statement of intent.
- At least two years' relevant work experience

**Career options**

- Registered architect
- Drafting and design work
- Government policy advisor
- Project management
- Property or community development

---

### Master of DESIGN

**COURSE CODE:** F6002

- **Duration:** 1.5 or 2 years
- **Start Date:** February and July

**Entry requirements**

**ELIGIBILITY**

- Bachelor’s degree (or equivalent) in a related field
- OR
- Equivalent qualification or experience approved by the faculty.

**Specialisations**

- Collaborative design
- Interaction design
- Advanced studies in design.

**Professional recognition**

The Master of Design is a ‘recognised course’ by the Design Institute of Australia – the peak industry body for professional design.

---

### Graduate Certificate of PUBLIC ART

**COURSE CODE:** F4002

- **Duration:** 6 months
- **Start Date:** February

**Entry requirements**

**ELIGIBILITY**

Bachelor’s degree (or equivalent) in any field

**Additional requirements**

- A statement of intent (500-500 words)
- Compilation of evidence of creative work (images, text, photos, drawings etc) – 10 pages maximum.

**Career options**

- Practising artist
- Major cultural projects manager
- Visual art curator
- Art director
- Public art/programmes officer

---

### Master of URBAN PLANNING AND DESIGN

**COURSE CODE:** F6004

- **Duration:** 2 years
- **Start Date:** February

**Entry requirements**

**ELIGIBILITY**

Bachelor's degree (or equivalent) in any field

**Additional requirements**

You’ll be required to attend an interview.

**Career options**

- Strategic planning: private and public sector
- Statutory planning
- Urban design
- Sustainable development
- Community development
- Transport planning

---

As globalisation continues, the demand for English language experts, teachers and intercultural communicators has significantly increased. The application of linguistic knowledge to professional contexts is at the heart of the curriculum. You’ll have the opportunity to regularly engage with real-world case studies and practical problem-solving as part of your studies. There’s also an extensive fortnightly seminar series where you can engage with guest lecturers from industry and other universities.

1. In equivalent Monash University grading scales terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2. Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
3. Core or ‘essential’ eligibility for a shorter course duration, you may elect to complete the longer duration.
4. Credit (60%) is equivalent to a Monash University grading scale of 75%.
5. You must have achieved a pass (50%) average in both qualification.

Bioethics responds to increasing community concern about ethical issues created by scientific discoveries in the health and biological fields. Our Master of Bioethics is offered by the Monash Bioethics Centre, established by Professor Peter Singer in 1980 and was Australia’s first research centre devoted to bioethics. In 2014 it was designated as a World Health Organization Collaborating Centre for Bioethics, of which there are only six worldwide. You’ll work with expert staff who are internationally recognised leaders and active, prominent contributors to public and professional discussions about a variety of issues in the field.

You’ll have the opportunity to collaborate with industry and apply for optional internships, both in Australia and overseas.

**Entry requirements**

  - February and July
  - $12,100 2021 fees
  - This is the total 2021 fee for this 24-credit-point course. Published durations apply to full-time study mode.

**Entry requirements**

- Bachelor’s degree (or equivalent) in any field
- Credit (60%)
- 0.5

**Career options**

- Communications advisor
- Journalist
- Running a creative studio
- Cultural consultancy

As a student in the Graduate Certificate of Communications and Media Studies, you’re at once part of this media-saturated world but will also learn how to analyze, critique, and challenge assumptions about the role of the media.

You’ll expand your understanding of the key challenges posed by the new economy of digital media, globalization, and increasing levels of cross-cultural exchange. Skill development in critical thinking, writing, and presentation in multicultural settings are designed to enhance your career capabilities.

This degree is suitable for emerging professionals in communications and media industries, as well as those wishing to expand their knowledge of this dynamic field. Successful completion of this degree can count toward a Master of Communications and Media Studies for those who desire further study.

**Graduate Certificate of CULTURAL AND CREATIVE INDUSTRIES**

Graduate Certificate of FAMILY VIOLANCE PREVENTION

**COURSE CODE:** A4005

**Entry requirements**

- Bachelor’s degree (or equivalent) in any field
  - Credit (60%)
  - 2
- Graduate certificate (or equivalent) approved by the faculty

**Career options**

- Graduate Certificate of Arts
- Graduate Diploma of Arts
- Running a creative studio
- Working within marketing, design and digital media agencies
- Cultural consultancy

This exciting course provides you with an overview of the rapidly growing cultural and creative industry sector, and its many employment opportunities.

You’ll gain a detailed understanding of this dynamic sector from a range of industry professionals and real-world projects in Australia and overseas. Whether exploring creative clusters in Melbourne and Shanghai, or understanding the business models of global digital industries, our agile content will prepare you for a career in this expanding sector.

You’ll gain insight into how to initiate and manage projects, and how to evaluate their success, while maintaining close contact with a range of industry professionals and real-world projects from Australia and overseas.

**Graduate Diploma of FAMILY VIOLANCE PREVENTION**

**COURSE CODE:** A5005

**Entry requirements**

- Bachelor’s degree (or equivalent) in any field
  - Credit (60%)
  - 2
- Graduate diploma (or equivalent) approved by the faculty

**Career options**

- Graduate Certificate of Arts
- Graduate Diploma of Arts

This course delivers specialized expertise in the area of family violence prevention, while providing you with practical experience.

You’ll build skills in a range of practice areas, including child safety, men’s behaviour change, health impacts of family violence, family violence in the criminal justice system, and working with victims and survivors.

On successful completion of this graduate diploma, you may be eligible for admission with credit into the Master of Public Policy which offers a Family Violence Prevention specialist stream.

**Alternative exits**

Graduate Certificate of Family Violence Prevention

**Career options**

- On completion of this degree, you’ll have the expert skills required to successfully work in fields that encounter domestic and family violence issues.

1 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2 Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
3 Or equivalent qualification (for the purpose of entry) approved by the faculty.
4 Related fields include humanities or social sciences.
5 You must have achieved a pass 50% average in both qualification.
6 You’re required to provide a curriculum vitae and a reference from your employer.
Graduate Certificate of GENDER, PEACE AND SECURITY

COURSE CODE: A4008

Clayton
ON-CAMPUS
1 year
PART-TIME → June

$12,700
2021 fees
This is the total 2021 fee for this 24 credit-point course.

Be a part of change and make an impact on the future of your region.

Drawing on the expertise of Monash University’s Gender Peace and Security Centre (Monash GPS), and backed by the strongest international research in the field, the Graduate Certificate of Gender, Peace and Security will enable leaders to better integrate gender perspectives into peace and security policymaking at all levels – local, national, regional and global.

You’ll gain training on the facilitation of women’s participation in peacebuilding and the prevention of conflict, violent extremism and insecurity.

You’ll also have access to industry partners through guest lectures and informal meetings to develop your networks, hear about recent developments in the field, and understand the relationship between research and its application in the field.

Flexible study

Well-suited to working professionals, the course consists of two intensive study days in both July and November, so you can balance study, work, and personal commitments.

Entry requirements

• Policy design, analysis and evaluation
• Program design, implementation and evaluation
• Research

Career options

• Researchers in foreign aid and development sector
• Corporate social responsibility officers
• Project managers in humanitarian and aid delivery

Ever wondered how to combat global poverty and environmental crises?

You’ll explore the complex political, economic, cultural and ecological challenges that contribute to extreme poverty, reduced health, environmental vulnerability and fragile governance affecting the well-being of millions of people worldwide.

This could be your stepping stone to diverse careers in the field within six months full-time or you could continue to develop through the Master of International Development Practice.

Entry requirements

• Bachelor’s degree (or equivalent) in a related field
• Credit (60%)

Career options

• Researchers in foreign aid and development sector
• International institutions such as the Asia Development Bank, the United Nations and Oxfam, Care or Plan

As the only Australian member of the Association of Professional Schools of International Affairs in the southern hemisphere, this course seamlessly blends theory, policy and practice.

You’ll look at key issues in foreign policy, world order, European studies, crisis management and terrorism, as well as the gender, development, migration and governance aspects of global politics.

You’ll learn from leaders in the field who are all highly regarded experts sought after for their expertise to help solve political, humanitarian and ethical issues nationally and internationally.

Specialisations

• Gender, peace and security
• Political violence and counter-terrorism
• International diplomacy and trade
• Advanced international relations

Double masters program

Available as part of the double master’s program with the Master of Arts in Chinese Politics and Economy at the Shanghai Jiao Tong University.

Entry requirements

• Bachelor’s degree (or equivalent) in a related field
• Credit (60%)

Career options

Graduates go on to a broad range of occupations at organisations such as:

• United Nations
• Australian government departments (DFAT, Defence, Attorney General)
• International Red Cross

1 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.

2 Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.

3 Or equivalent qualification (and/or experience, where applicable) approved by the faculty.

4 Related fields include humanities or social sciences.

5 You must have achieved a pass (60%) average in both qualifications.

Graduate Certificate of INTERNATIONAL DEVELOPMENT PRACTICE

COURSE CODE: A4006

Clayton
ON-CAMPUS
1.15 or 2 years
FULL-TIME → February and July

$24,200
2021 fees
This is the total 2021 fee for this 24 credit-point course. Published durations apply to full-time study mode.

Delivered by specialists from the humanities, social sciences, medicine, business, education and law, the Master of International Development Practice offers a broad approach to sustainable development with six specialist streams: democracy, justice and governance; crisis, change and management; gender, peace and security; global migration; sustainable economies; and sustainable resource management.

You’ll learn directly from leading researchers and practitioners, and will combine this academic insight with a high level of industry integration to give yourself a competitive advantage in the workforce.

You’ll also have the opportunity to be matched with an industry mentor in the field through our many sector partnerships and mentoring programs which match students with a development practitioner from around the world based on shared interests.

Entry requirements

• Bachelor’s degree (or equivalent) in any field
• Credit (60%)

Career options

• Researchers in foreign aid and development sector
• International institutions such as the Asia Development Bank, the United Nations and Oxfam, Care or Plan

As the only Australian member of the Association of Professional Schools of International Affairs in the southern hemisphere, this course seamlessly blends theory, policy and practice.

You’ll look at key issues in foreign policy, world order, European studies, crisis management and terrorism, as well as the gender, development, migration and governance aspects of global politics.

You’ll learn from leaders in the field who are all highly regarded experts sought after for their expertise to help solve political, humanitarian and ethical issues nationally and internationally.

Specialisations

• Gender, peace and security
• Political violence and counter-terrorism
• International diplomacy and trade
• Advanced international relations

Double masters program

Available as part of the double master’s program with the Master of Arts in Chinese Politics and Economy at the Shanghai Jiao Tong University.

Entry requirements

• Bachelor’s degree (or equivalent) in any field
• Credit (60%)

Career options

Graduates go on to a broad range of occupations at organisations such as:

• United Nations
• Australian government departments (DFAT, Defence, Attorney General)
• International Red Cross

You will also develop important generic skills valued by employers, such as critical thinking, leadership, communication and team skills.

Many units are offered outside business hours or in block mode, which means you can balance your work and study. But if you choose to do the program full-time, you can graduate with a Graduate Diploma of Business in just 12 months. This program will also give you a taste of graduate study, and can be a pathway to a Master’s degree.

Graduate Certificate of Business

Graduate Diploma of Business

Graduate Certificate of Business (Executive)

Our Graduate Certificate of Business is part of a suite of offerings that will enable you to develop your disciplinary knowledge and skills to advance your career. It requires the completion of only four units from a range of contemporary business themes, including:

- Accounting in business
- Contemporary leadership
- Corporate governance
- Human resources
- Human resource management
- International trade
- Sustainability

There is plenty of choice and it’s a perfect way for business professionals to give their skills a boost, without putting their career on hold.

The Graduate Certificate of Business is a qualification on its own, but it will also bring you a step closer to completing a Master’s if you decide to take your study further.

Additional requirements

Applicants who don’t have an undergraduate degree may be considered for entry and must provide a full curriculum vitae, including details of two referees. Employment and industry experience will normally be evidence by a minimum of five years’ employment experience with at least two years of professional managerial experience.

Flexible in its delivery, we design our leadership and executive education studies to ensure you have the toolkit to answer challenges faced by individuals, organisations and communities. You’ll graduate from this program with an advanced set of professional and technical skills, which will enable you to assist businesses to succeed in complex and dynamic environments.

This program is suited to everyone from early-career professionals to senior leaders who want to extend their leadership and business skills and knowledge.

It’s available for individuals from organisations wanting to undertake executive education at Monash Business School, with programs specifically tailored to encourage better decision making, more creative thinking and staying up-to-date with the latest developments in the field.

This practical course focuses on managing for the future, developing your leadership skills, enhancing your digital-focused skillset and strengthening your professional development portfolio.

You’ll be prepared to become an effective leader in an increasingly agile business environment and you’ll have opportunities to draw on your career and experience throughout your studies. Perfect for those wanting to remain practicing their specialty while leading from the front, the course is a unique opportunity for you to learn and apply key organisational leadership skills within the context of your specialist area or sector. This degree is your opportunity to not only apply transformational knowledge to your current role and organisation, but also be in the strongest possible position to tackle the business challenges of the future.
Entry requirements

**Bachelor’s degree (or equivalent) in any field** Credit (60%) 0.7

A distinction (70%) average in four units (24 credit points) in a relevant discipline at level three is required.

Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.

In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.

Prepare yourself for the next step in your career with the Graduate Certificate of Business Management. Delivered entirely online, this introduction to contemporary business practice frames studies through a digital context, while drawing on your own career and experience. You’ll also learn how organisations can thrive in the context of digital disruption and accelerating technological change.

The flexible delivery allows you to work while you learn and apply course content to your current role or organisation immediately.

Additional requirements

Shortlisted applicants will be invited to attend an interview with a panel constituted by the research director. Admission is a competitive process.

A Graduate Diploma of Economic Analytics will provide you with advanced knowledge of economic policy, data-driven economic decision making, forecasting and econometrics. You’ll have the opportunity to upskill and deepen your understanding of economic analytics to launch or advance your career in this growing area.

This graduate diploma is perfect if you’re new to the field, as you’ll be introduced to economics and econometrics at an advanced undergraduate and graduate level.

You’ll gain insights in data visualisation and data analysis, cost benefit analysis and economic decision making, as well as the application of microeconomics and industry economics, econometrics and economic forecasting. You’ll also be able to take part in in-class coding labs.

As part of this course you’ll be studying master’s level units, which will count towards a master’s level qualification should you want to expand your knowledge further in the future.

Additional requirements

You must have achieved a high-credit (65%) average in both qualifications.

The Global Executive MBA is an intensive 15-month program for experienced managers, featuring international modules and a series of weekend modules. Designed for executives in diverse sectors and professions with a minimum of 10 years’ work experience, the program addresses complex, challenging, strategic issues in organisations. The course aims to develop graduates who are global in orientation and who can lead organisations at a senior level. It emphasises contemporary business and organisational challenges, and provides an integrated approach to discipline-based academic content.

The module themes are globalisation, innovation and transformation. The projects, cases and materials are strategic, global and contemporary, and the program has the active involvement of senior business leaders locally and internationally. The three international modules are taught by leading business schools in Europe, Asia and America. International business consulting projects in high-tech sectors – advanced manufacturing, life sciences, digital industry – are undertaken in these markets.

2. For full-time study only. Unless otherwise stated, fees are per 48 credit points, which represents a standard full-time course load for a year. Published durations apply to full-time study mode.

3. Unless otherwise stated, fees are per 48 credit points, which represents a standard full-time course load for a year. Published durations apply to full-time study mode.

This course addresses the professional learning needs of educators, educational administrators, managers and others interested or involved in learning and education, both locally and internationally.

The Master of Education looks at learning in schools, workplaces and community, and connects research and practice to make you a stronger thinker, an engaged practitioner and an advanced specialist.

This course doesn’t provide a recognised initial teaching qualification. Students seeking an initial teaching qualification should refer to the Master of Teaching.

**Specialisations**

- Digital learning
- Early childhood education
- Inclusive and special education
- General education studies

The degree you’re awarded will reflect your chosen specialisation.

- Graduate Diploma of Education Studies

1. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.

2. You’ll need to have achieved a distinction (70%) in your fourth year of psychology. Admission into the course is competitive and may require a higher overall average than the minimum requirement.

3. Applicants with international qualifications will need to have their qualifications assessed by the Australian Psychology Society.

Educational and developmental psychologists focus on how people develop and learn throughout their lifetime.

They work with individuals, families, groups and organisations, and have varying roles such as school psychologist, guidance officer, and child and adolescent counsellor. They conduct psychological and educational assessments and instructional planning for exceptional children, adolescents and adults.

You’ll apply theory to practice with 1000 hours of supervised professional experience in a range of settings. In a research thesis, you’ll develop an evidence-based approach to psychology, carrying out reviews and scientific investigations relevant to the theory and practice of educational and developmental psychology.

As a graduate, you’ll be qualified to register as a psychologist with the Psychology Board of Australia (PsyBA). You’ll also meet most requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

**Professional accreditation**

Our Master of Educational and Developmental Psychology is accredited by the Australian Psychology Accreditation Council (APAC) as a fifth and sixth-year sequence in psychology that prepares you to practise as an educational and developmental psychologist in settings including schools, health and welfare services, care facilities and businesses.

**Additional requirements**

- Full-time study only. Unless otherwise stated, fees are per 48 credit points, which represents a standard full-time course load for a year. Published durations apply to full-time study mode.

- The Counselling Placement Team sources many placements, and communicates these opportunities to students. Please note most placement providers will require you to submit an application and/or attend an interview to secure the placement. If you’re an interstate, overseas or rural student, you’ll be required to source your own placements, under the guidance of the Counselling Placement Team.

- 2021 fees p.a.

Fees are per 48 credit points, which represents a standard full-time course load for a year. Published durations apply to full-time study mode.

- The degree you’re awarded will reflect your chosen specialisation.

- Working with Children Check before placement.
- Provisional registration with the PsyBA before commencing study, and maintain such registration throughout the period of enrolment.
- You must also meet the English language requirements of Monash and of the PsyBA. Consult the PsyBA website to ensure you meet their requirements: www.psychologyboard.gov.au

Applicant checks:

- You’ll need to:
  - submit proof of your registration with the PsyBA
  - meet the specific security clearances that apply in whichever state/territory your professional experience is being undertaken
  - complete professional experience orientation provided by the faculty.
Master of EDUCATIONAL AND DEVELOPMENTAL PSYCHOLOGY ADVANCED

**Clayton**

**ON-CAMPUS**

1 year

**FULL-TIME**

February

**PROFESSIONAL PLACEMENT: 750 HOURS**

$30,700 2021 Fees p.a.

*Fees are per 48 credit points, which represents a standard full-time course load for a year. Published durations apply to full-time study mode.*

**ELIGIBILITY**

1. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.

2. Applicants with five years of relevant full-time informal learning, with a recommendation letter or reference from an employer, will be considered on a case-by-case basis.

3. Related fields include education and educational management.

This course develops your expertise in the design and implementation of digitally enabled courses across all sectors. It is highly relevant for educators and instructional designers who are seeking to enter into the educational design profession or to build their knowledge in the field.

You’ll explore theoretical and practical models of educational design, content creation, interactive and collaborative learning, as well as assessment and feedback. You’ll investigate how to effectively implement learning technologies, engage with teams and enter into educational design partnerships. As part of this course you’ll have the opportunity to research and develop an instructional project.

**Entry requirements**

**Master of EDUCATIONAL LEADERSHIP**

**COURSE CODE:** D4013

**Clayton**

**ON-CAMPUS**

1.5 or 2 years

**FULL-TIME**

February and July

**RANKED NO. 1 IN AUSTRALIA**

Academic Ranking of World Universities, 2020

**$27,500**

2021 Fees p.a.

*Fees are per 48 credit points, which represents a standard full-time course load for a year. Published durations apply to full-time study mode.*

*Part-time study may not be available to international students studying remotely in Australia who hold onshore student visas. Please check your visa for confirmation.*

In this course you’ll consider various constructs of leadership, including traditional and emergent leadership theories, cultural manifestations of leadership, the role of social justice in educational settings, and the persistent challenges facing leaders. You’ll gain an understanding of how leadership interacts with, and responds to, the dynamics of policy, politics and power in differing contexts, and how this shapes education and learning.

In your final semester, you’ll immerse yourself in a project tailored to your specific interests, which will deepen and enhance your learning, and prepare you for the next step in your career.

**Entry requirements**

**ELIGIBILITY**

- Bachelor’s degree (or equivalent) in any field

**Average requirement**

- Bachelor’s degree (or equivalent) in any field

**Duration**

- 1.5 years

**Additional requirements**

- A curriculum vitae listing qualifications, work experience and the details of two recent referees.
Designed to introduce you to the field of education at a graduate level, this course is suited to those with a first qualification in a discipline other than education. It is also a pathway for those who don’t meet the entry requirements for the Master of Applied Behaviour Analysis, Master of Education, Master of TESOL and Master of Educational Leadership.

This course gives you an understanding of concepts and issues in education, locally and globally, and allows you to build your knowledge of major theoretical and professional debates in specialist areas. Course completion allows you to pursue education-related careers and/or further study in education.

### Entry requirements

- **ELIGIBILITY**
- **Average requirements**
- **Duration**

  | Bachelor’s degree (or equivalent) in any field, OR Pass (50%) | N/A | 0.5 |

- Five years’ relevant full-time relevant professional experience and/or further study in education.
- A fourth year of psychology study from any course accredited by the APAC may be a graduate diploma or a bachelor’s honours degree.

- You’ll also need:
  - A fourth year of psychology study from any course accredited by the APAC, which may be a graduate diploma or a bachelor’s honours degree. Please note qualifications must have been completed within the last 10 years.

- Career options
  - General registration as a psychologist (after additional studies to complete the required path).
  - Private practice, health and welfare services, and business environments.

### Additional requirements

- You’ll also need:
  - To complete a supplementary form that demonstrates evidence of suitability for work as a professional psychologist and includes referee reports (one academic and one professional) and relevant work experience (voluntary or paid).
  - To attend an interview.
  - To meet the English language requirements of the Psychology Board of Australia (PsBA). Consult the PsBA website for these requirements: www.psychologyboard.gov.au

### Special career options

- General registration as a psychologist (after one year of supervised practice outside of the course).
- Private practice, health and welfare services, and business environments.
All primary and secondary education specialisations are accredited by national standards.

Effective Educator

You'll complete a minimum of 60 days’ teaching practice with students of various ages and needs. Of these, at least 20 days will be spent in urban, rural and remote settings. By participating in these experiences, you’ll be able to effectively foster the learning and development of students with various ages and needs.

Specialisations

You can choose to specialise in early childhood, primary or secondary education. This will equip you with the skills and professional values to become an effective educator.

- Early childhood education
- Primary education
- Secondary education

Special requirements for professional experience

To participate in professional experience you must:

- meet specific security clearances relevant to the state/territory/country where the professional experience is undertaken
- meet specific immunisation requirements (for Early Childhood or Early Childhood/Primary specialisation)
- complete professional experience orientation provided by the faculty.
- undergo a Working With Children Check.
- meet specific security clearances relevant to the state/territory/country where you are practising.

Special requirements for professional experience differ for specific specialisations.

- Early childhood educator
- Primary teacher
- Secondary teacher

Career options

- Early childhood educator
- Primary teacher
- Secondary teacher
- Curriculum designer
- ELICOS teacher, director of studies
- ESL educator in international settings
- TESOL teacher
- Specialist areas

Specialisations

- Early childhood education
- Primary education
- Secondary education

Additional requirements

This course is suitable for a wide range of educators, prospective educators and other professionals working in the field of English language teaching, and leads to a graduate qualification in TESOL (Teaching English to Speakers of Other Languages).

This course will assist you in understanding the connections between theory and practice, and the importance of developing strong evidence-based principles in English language teaching and learning.

The Master of TESOL has a professional placement in the final semester. If you choose between a teaching or observation placement, this course doesn’t provide a recognised initial teaching qualification. Students seeking an initial teaching qualification should refer to the Master of Teaching course.

Special requirements

- Working with Children Check.

Alternative exits

- Graduate Certificate of Education Studies
- Graduate Diploma of Education Studies

- ESL educator in international settings
- ELICOS teacher, director of studies
- Curriculum designer

Specialisations

- Teaching English to Speakers of Other Languages
- Curriculum designer
- ESL educator in international settings
At Monash you’ll learn from academics who are the leading experts in their field, and have access to some of the world’s finest facilities that will enhance your personal learning experience.

This course will extend your knowledge in your chosen specialisation area and advance your leadership and complex problem-solving skills in a cross-cultural environment. You’ll be well-positioned to lead and deliver sustainable engineering solutions.

The Master of Engineering provides valuable opportunities to apply your skills through Work-integrated Learning and real-world projects to give you the professional and industry experience that sets you apart.

Entry requirements

**ELIGIBILITY**

- Four-year Bachelor of Engineering for equivalent in a discipline relating to the specialisation to be studied within the master’s course.

**Average requirements**

- High credit (60%) 1

**Duration**

- 1 year

**Career options**

- Specialist engineer or consultant within your chosen professional field
- Engineering management role in private or public sector
- Entrepreneur or CEO of your own company

Specialisations

- Biological engineering
- Civil engineering
- Chemical engineering
- Mechanical engineering
- Materials engineering
- Electrical engineering

1 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.

Our new Monash Makerspace is the state-of-the-art facility that has strong links to industry, and offers the opportunity with its latest interactive learning spaces in the new smart technology enabled Woodside Building for Technology and Design.

Engineers are in demand to deliver sustainable solutions for society’s global challenges: clean water, advances in medical technology, inclusive and sustainable industrialisation, resilient infrastructure, and high quality food production.

At one of Australia’s leading engineering schools, you’ll have access to some of the world’s finest facilities, including the Makerspace and the latest interactive learning spaces in the new smart technology enabled Woodside Building for Technology and Design.

Whether you’ve completed undergraduate studies in engineering or in another science-related field, the Master of Professional Engineering will provide you with the technical knowledge and hands-on experience to practice as an accredited engineer.

In this course, you’ll specialise in engineering technical, research and professional units and undertake real-world projects, blending theory and practice. You’ll be prepared for a successful career through continuous professional development and relevant industry experience in the Work-integrated Learning program. Gain practical experience and develop the professional skills and confidence to create positive change.

Build on your undergraduate experience, change direction or develop expertise in another specialisation to further your career aspirations and become a highly employable Monash engineer.

Career options

- Lead specialist engineer in your field/s of expertise
- Consultant, entrepreneur or CEO of your own company
- Lead specialist engineer in your field/s of expertise

Do you have a Science-related degree?

You can now pursue a career in engineering at Monash if you have a degree in a STEM field, such as science, mathematics or pharmacy. A new foundation year has been introduced to provide you with the skills to become an accredited and in-demand engineer.

Professional accreditation

The Master of Professional Engineering has been designed to meet the stage one competencies for accreditation by Engineers Australia (EA).

The accreditation process for full recognition by EA has commenced and currently has provisional accreditation. The master’s degree will provide an internationally recognised qualification which allows you to work as a professional engineer in Australia and other Washington Accord signatory countries.
Artificial Intelligence (AI) has the ability to transform every aspect of our lives – from cars anticipating themselves to robots performing complex surgery. AI can help to predict the path of bushfires, detect early-stage skin cancers, and counteract false and polarising information on social media. It informs business decisions, optimises operations, and drives outcomes of leading companies. The potential of AI is infinite.

Monash is the only university among the prestigious Group of Eight to offer a comprehensive Master of AI. This course will equip you with the skills and knowledge to achieve innovative outcomes. Under the guidance of internationally recognised experts, you’ll have an opportunity to apply your knowledge to real-world challenges to influence a range of industries including healthcare, agriculture and manufacturing.

**Gain highly sought-after computer science expertise and enhance your career prospects. A broad-based degree, the Master of Computer Science is ideal if you’re looking to change professions or build on an undergraduate study.**

The course starts by developing your knowledge in computer science fundamentals that can be applied in a variety of industries. These include units in java programming, algorithms and architecture and networks. You’ll then have the opportunity to step into either artificial intelligence, software engineering or cybersecurity – all top emerging disciplines around the world.

By completing this course, you’ll graduate ready to take on meaningful work backed by a portfolio of real-world applications and an accreditation.

**Specialisations**

- Software Engineering
- Cybersecurity
- Artificial Intelligence

The Graduate Diploma of Computer Science first develops your core knowledge in computer science and then immerses you in a rapidly-growing, in-demand area such as artificial intelligence, cybersecurity or software engineering.

This degree is your pathway to changing the direction of your career and attaining graduate-level knowledge in technology to make a lasting impact.

**Specialisations**

- Software engineering
- Cybersecurity
- Artificial Intelligence
The Graduate Certificate of Computer Science is designed to develop your core knowledge in programming and algorithms, and prepare you for major advances in the area. It equips you with a deep understanding and practical skills so you can effectively address issues involving the application of computer science in diverse domains and industries.

You'll also learn how to design and construct innovative solutions in at least one of the following areas: artificial intelligence, cybersecurity or software engineering. This course builds on existing professional work experience and is intended for students who have no previous qualifications in this field.

**Entry requirements**
- Bachelor's degree (or equivalent) in any field

**Career options**
- Software developer
- AI specialist
- Cybersecurity specialist

**Alternative exits**
- Graduate Certificate of Cybersecurity
- Graduate Diploma of Cybersecurity

**Career options**
- Blockchain developer
- Cryptocurrency investigator
- Digital forensics analyst
- White hat hacker
- AI security specialist
- Network security administrator

1. Equivalent Monash University grading scale terms: a 70% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2. Even if you're eligible for a shorter course duration, you may elect to complete the longer duration.
3. Or equivalent qualification approved by the faculty.
4. Related fields include computing, computer science, software engineering, computer options, or electrical or communication engineering.

---

The Graduate Certificate of Cybersecurity prepares you for a career as a security systems analyst, systems designer, data security specialist, or security software engineer or administrator.

In your final semesters, you can choose to complete an industry experience project or research thesis. Additionally, you can apply for a scholarship place over summer in the highly regarded Monash Industry Team Initiative.

Graduate Diploma of Australian Law

**Alternative exit**

Graduate Certificate of Laws
Are you looking for a graduate pathway into the study of law? The graduate diploma in law is ideal for law graduates wanting to acquire further legal expertise, and adds value in the workplace as well as providing the opportunity to hone legal knowledge and skills.

The Graduate Diploma in Law enables graduates of law to develop advanced knowledge and skills for legal or professional practice or higher learning, and is a pathway for entry to a masters degree.

### Entry requirements

**ELIGIBILITY**

- Bachelor’s degree (or equivalent) in law or equivalent qualification as approved by the faculty.

**Duration**

1

**Alternative exit**

- Graduate Certificate of Laws

### The Graduate Certificate of Laws is designed to let you advance your skills and knowledge of developments in the principles, practice and scholarship of one or more areas of law. You can focus on a specialised area or select from a broad range of electives for professional practice.

You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex legal issues from theoretical, global and interdisciplinary perspectives.

### Entry requirements

**ELIGIBILITY**

- Bachelor’s degree for equivalent in law or equivalent qualification approved by the faculty.

**Duration**

0.5

### The degree you’re awarded will reflect your chosen specialisation.

### Specialisations

- Commercial and corporate law
- Criminal law and forensics
- Dispute resolution
- Global society and human rights
- Health and community law
- Labour and employment law
- Public sector governance and regulation
- Technology and innovation
- Transnational economic regulation.

### Master of Legal Studies

**COURSE CODE:** LAWS L6013

**RANKED TOP 40 IN THE WORLD**

**QS World University Rankings by Subject 2018**

**RANKED TOP 40 IN THE WORLD**

**Fees are per 48 credit points, which represents a standard full-time course load for a year. Published durations apply to full-time study mode.**

**DEGREE AWARDED**

The degree you’re awarded will reflect your chosen specialisation.

### Entry requirements

**ELIGIBILITY**

- Bachelor’s (hons) degree (or equivalent) in a related field

**Duration**

1

**Additional requirements**

- You’ll also need to submit:
  - a CV that clearly outlines your role—including a description of tasks and responsibilities, as well as any research skills—and details the name of the organisation including the url of the organisation
  - one original employment reference which supports your CV

**Alternative exit**

- Graduate Certificate of Legal Studies
- Graduate Certificate of Legal Systems and Services

---

1 You’ll be assessed on your entire academic record. As a general rule, those who don’t have a credit average will need to have at least two years of relevant work experience, although this required period may be shorter where the work experience has been supplemented by other relevant learning.

2 In equivalent Monash University grading code terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.

3 A related field is discipline study relevant to the specific area of specialisation.

4 An equivalent qualification as approved by the faculty.
The Graduate Certificate of Legal Studies is specifically designed to help non-lawyers take their career further. It does this by providing an in-depth grounding in the variety of areas in law. This course provides you with the legal knowledge that will give you a competitive edge in your chosen career. The Graduate Certificate of Legal Studies is specifically designed to help non-lawyers take their career further. It does this by providing an in-depth grounding in the law that allows better informed decisions. You can complete the qualification in just six months and you may also be able to use the units as credit towards a Monash Master of Legal Studies.

Additional requirements

Each application will be considered on its merit. The following may need to be provided before your application can be assessed:
- A curriculum vitae showing relevant industry experience
- A statement of purpose (maximum one page) outlining reasons for undertaking the course, and your area(s) of interest.

These requirements are dependent on the level of entry for which you’re applying.

Alternative exits
- Graduate Certificate of Addictive Behaviours
- Graduate Diploma of Addictive Behaviours

Career options
- Policy and program development and evaluation
- Treatment and prevention service delivery
- Research, education and training
- Advocacy and community support
The course incorporates the latest evidence in addiction theory and practice, historical and contemporary policies, and public health strategies for managing traditional, new and emerging substance use disorders and process addictions. With the knowledge gained, you’ll make a positive impact on both the health and social wellbeing of individuals, groups, and communities.

Designed for professionals already working in health and social welfare sectors, education, government or policy development (and related disciplines), this course is perfect if you’re interested in broadening your knowledge and skills in treating addictive behaviours.

Delivered part-time (via online learning), the Graduate Diploma of Addictive Behaviours offers the flexibility required by working professionals. You’ll have the opportunity to study via facilitated modules, stream video lectures, and take part in group discussion forums and activities, incorporating innovative educational technologies and new methodologies to enrich your learning experience.

**Additional requirements**

You must be a currently practising health professional with at least two years of full-time experience and hold professional registration to practice (or authority to practice) as a health care professional in a relevant field in the planned location of study.

---

The focus in your initial year will be on research methods and practices to prepare you to carry out independent research. This includes how to conduct research through coursework and research skills training, and engaging in specialist research in theory units. Your second year consists of a full-time research project and internship under the supervision of an academic staff member.

**Specialisations**

- Cardiac disease
- Respiratory disease
- Trauma
- Infections
- Preventive medicine
- Emergency medicine

**Career options**

- Research scientist
- Policy and research officer
- Medical or science writer
- Quality assurance or regulatory affairs associate

---

1 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.

2 A relevant degree is in medical science, psychology, nursing, health sciences, occupational therapy, social work, social and community welfare, sciences, policy, law, criminology, research, teaching, arts (multidisciplinary), and other health and social sciences.

3 Relevant disciplines are paramedicine, nursing and medicine.

---

**Additional requirements**

- A curriculum vitae showing relevant work experience or statement from employer to substantiate period of employment
- A statement of purpose (250 words) outlining reasons for undertaking the course and your area(s) of interest.
This course equips you with a broad range of theory and techniques for extensive upskilling in biostatistical methods. It gives you an understanding of the mathematical background, theory and application of the principles of epidemiology and biostatistics in health and medical research. It also develops the analytical skills you’ll need to make self-sufficient as a statistician.

**Professional accreditation**
Students graduating with the Graduate Diploma of Biostatistics obtain automatic accreditation status as Graduate Statistician (GStat) upon application to the Statistical Society of Australia.

1. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2. Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
3. A bachelor’s degree in one of the following biomedical sciences, biotechnology, biology, developmental biology, human biology, marine biology, human pathology, genetics, pharmacology, dermatology, microbiology, immunology, toxicology, physiology and anatomy, multi-disciplinary, biotechnology, veterinary science, medical engineering, pharmacy, biotechnology, biotechnology, life sciences, clinical medicine, dermatology/immunology or bioinformatics.
4. Areas of study include a bachelor’s degree in one of the following: Biomedical Sciences, Science/Applied Sciences with a major in (biochemistry, biotechnology, developmental biology, human biology, marine biology, human pathology, genetics, pharmacology, dermatology, microbiology, immunology, toxicology, physiology and anatomy), or equivalent qualification in medicine, veterinary science, medical engineering, pharmacy, biotechnology, biotechnology, life sciences, clinical medicine, dermatology/immunology or bioinformatics.
5. Or equivalent qualification from another institution approved by the faculty.
Through our Master of Clinical Master of Clinical Emergency Medicine, you’ll advance your career as you join the next generation of leaders in emergency medicine.

Delivered in partnership with The Alfred Hospital, this course will give you an academic framework to develop a range of advanced problem-solving and decision-making skills to achieve best-practice health outcomes for patients.

Specialisations
- Clinical Emergency Medicine

Entry requirements

Required
Bachelor’s degree (or equivalent) in a related discipline from any health-related qualification 1
AND Registration with the Australian Health Practitioner Regulation Agency or equivalent accreditation professional registration body.
AND Minimum two-point equivalent full-time experience in a related discipline and evidence of current engagement in clinical practice in specialisation.

Specialisations
- Clinical research
- Translational medicine

The only course of its kind in Victoria, our Master of Clinical Research develops the analytical and communication skills necessary to work in the broad domain of clinical research and practice.

Through this program, you’ll develop a detailed understanding of biostatistics, epidemiology, data management, clinical trials, clinical measurement, ethical practice, systematic reviews and meta-analysis, and critical appraisal of the scientific literature for application in research and clinical practice.

Taught by some of Australia’s leading clinical academics and with flexible content delivery, our curriculum is designed to help you balance the demands of a busy workforce with the need to engage in further professional development.

Specialisations
- Clinical research
- Translational medicine

The degree you’re awarded will reflect your chosen specialisation.

Entry requirements

- Bachelor’s degree (or equivalent) in a related field 3
- Minimum two-point equivalent full-time experience in a related discipline and evidence of current engagement in clinical practice in specialisation.

Additional requirements
- Working with Children check
- You’ll also need to meet additional requirements.
- Please visit monash.edu/study/course/M6023

Graduate Certificate of
CLINICAL SIMULATION

This practice-based qualification is suitable for a broad range of health professionals who are, or will be, engaged in simulation-based education.

This includes teaching, assessment, evaluation, mentoring and supervision of health professionals and students in a range of clinical and other contexts.

The qualification is also suited to health professionals who use simulation for healthcare service quality improvement or systems testing.

However, the use of simulation as an educational method is prioritised.

The Graduate Certificate of Clinical Simulation requires the successful completion of a full-time course and two short courses from the Monash Institute for Health and Clinical Education eligible short course offerings.

Entry requirements

- Bachelor’s degree for equivalent in a related discipline from any health-related qualification

1. Equivalent to the first-semester units of the master’s program.
2. For example: food science, nutrition science, lifespan nutrition.
3. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.
4. Science-based fields include biomedical science, science, health sciences, nutrition, food science and exercise science. Your undergraduate degree must have been completed in the past 10 years unless you have been assessed as having exceptional circumstances that the faculty considers exception.
5. For example: food science, nutrition science, human nutrition.
6. In addition, your undergraduate nutrition science degree will need to be assessed as providing equivalent content and assessment to the master’s semester one units which include nutrition and chronic disease, current public health nutrition practice, health education and promotion, nutrition across the lifespan, food systems in Australia, cultural competence and professional development as dietitians.
Master of FORENSIC MEDICINE

COURSE CODE: M6019

Master of HEALTH ADMINISTRATION

COURSE CODE: M6007

ADVANCED HEALTH CARE PRACTICE

COURSE CODE: M6001

Build on your qualification in medicine, dentistry, biomedical science or radiography, and gain the advanced expertise that will make you highly sought-after in the forensic medical, dental or science fields. Designed and delivered by Australia’s leading forensic professionals, you’ll develop sound knowledge of medico-legal principles, gain the skills to clearly communicate medico-legal issues to the justice system, prepare effective and objective medico-legal reports, critically evaluate healthcare organisations and specific healthcare focused domains such as epidemiology, biostatistics and managing the patient care process.

Entry requirements

Specialisations
- Clinical forensic medicine
- Forensic odontology
- Forensic medical science.

Alternative exits
- Graduate Certificate of Health Administration
- Graduate Diploma of Health Administration

1.5
With a contemporary and evidence-based curriculum, this course will keep you up-to-date with advanced and rapidly-changing technologies in the field. Learning from experienced practitioners and leaders in medical imaging research, you’ll explore MRI and its application to clinical diagnostic imaging, and build an advanced understanding of MRI techniques.

You’ll gain the clinical judgement, decision-making and leadership skills to shape your future practice and take the next step in your career – whether that be progressing to a leadership role, engaging in research or developing new career pathways within your workplace.

**Entry requirements**

**ELIGIBILITY**

Bachelor’s degree in radiography or a health science discipline leading to appropriate professional recognition or registration, OR

- A general science degree with specialisation in anatomy, physiology or physics, OR
- A biomedical or medical undergraduate/graduate-entry master’s degree

**Duration**

- 1 year

**To qualify for a place in the course, you must have:**

- A minimum average mark of 60% on Year 12 (or equivalent bridging course 1)
- A minimum average mark of 65% on health sciences 4 (or equivalent bridging course 2)
- Distinction (70%) in the following Monash University degrees:
  - Bachelor of Biomedical Science (including double degree)
  - Bachelor of Pharmacy (Honours)
  - Bachelor of Physiotherapy (Honours)
  - Bachelor of Science with specified units

**Additional requirements**

- You will be ranked on your academic results. If you’re shortlisted, you’ll be invited to attend a Multiple Mini Interview (MMI) and will have to complete a Situational Judgement Test (SJ7) as part of the selection process.

- Note: applicants aren’t required to undertake the GMAT.

**Special requirements**

Upon enrolment you’ll be asked to:

- comply with the mandatory immunisation requirements
- in readiness for clinical/fieldwork placements
- obtain a Police Check (annual requirement)
- obtain a Working with Children Check
- attend a Multiple Mini Interview (MMI)
- attend a Situational Judgement Test (SJ7)
- Attend a Multiple Mini Interview (MMI) and a Situational Judgement Test (SJ7)

If you want to pursue a career as an accredited sonographer, this course is for you. After completing the first two foundational units of the course, you’ll take part in supervised clinical ultrasound training for a minimum of three days a week, or equivalent.

The final year of the course focuses on developing your research skills through an ultrasound research project. This course is fully supported by national recognised academics, sonographers and researchers.

**Professional accreditation**

This course is accredited by the Australian Sonographers Accreditation Registry.

**Entry requirements**

**ELIGIBILITY**

- Bachelor’s degree or equivalent in radiography and medical imaging, OR
- Bachelor’s degree or equivalent in a related science or health science (or equivalent bridging course)

**Average requirements**

- High Pass (55%)

**Duration**

- 3 years

**Alternative exits**

- Graduate Certificate of Medical Ultrasound
- Graduate Diploma of Medical Ultrasound

**Career options**

- Specialist sonographer in vascular, obstetrics and gynaecology, paediatrics or musculoskeletal ultrasound practice
- Applications specialist or commercial ultrasound sales representative
- Management or teaching
- Research careers, managing research projects, clinical trials and workplace audits. You could also complete graduate research, such as a Doctor of Philosophy.

1. Complementary or limited clinical training placements is very high. Applicants from a non-imaging background are strongly advised to secure their clinical placement before undertaking this program. The University does not accept any responsibility for finding clinical placements.
2. All applicants must also have passed Year 12 level physics or equivalent bridging course. Details of equivalent bridging courses in physics and human anatomy and physiology can be obtained from [monash.edu/medsci/physics-bridging-course](http://monash.edu/medsci/physics-bridging-course) and [monash.edu/humananatomy](http://monash.edu/humananatomy).
MENTAL HEALTH SCIENCE

This course develops the professional knowledge and skills for clinicians delivering mental health care. The course can be completed by coursework or, if you're seeking to build your research capability, you can incorporate a research project or minor thesis as part of your studies. Whichever specialisation you choose, you'll graduate with the ability to evaluate research literature, identify research gaps, conduct practice-based research projects, and develop, apply and advocate evidence-based best practice.

Specialisations
- Child psychotherapy studies
- Mental health
- Psychiatry.

The degree you're awarded will reflect your chosen specialisation.

Professional accreditation (Master of Psychiatry only)

Accredited by the Royal Australian and New Zealand College of Psychiatrists, our course is a formal education course for trainees. Our course is purpose-written to follow the curriculum provided by the Royal Australian and New Zealand College of Psychiatrists (RANZCP), and strongly links to their competency-based Fellowship Program. All of our unit coordinators are RANZCP-accredited supervisors, and your assessments are specifically designed to prepare you for your College Fellowship exams.

- Graduate Diploma of Child Psychotherapy Studies ³
- Graduate Certificate of Mental Health Science
- Graduate Diploma of Mental Health Science

ADVANCED CLINICAL NURSING

The Master of Advanced Clinical Nursing prepares you for leadership roles in nursing. In this course you'll develop advanced-practice knowledge and leadership in specialist practice, including skills to plan, implement, coordinate and evaluate healthcare, as well as the ability to formulate policy for a diverse and multicultural society.

The program has flexible teaching delivery options and offers a range of individual career pathways, including nursing, education or management positions within industry, government or independent professional practice.

Specialisations

- Cardiac Nursing (Clayton)
- Emergency nursing (Peninsula)
- Intensive care nursing (Clayton)
- Medical surgical nursing (Clayton)
- Mental health nursing (Peninsula)
- Nurse practitioner (Clayton)⁴
- Paediatric nursing (Clayton)
- Perioperative nursing (Clayton)

Nurse practitioner specialisation only:
- There are highly specific requirements for entry into the nursing practitioner specialisation. Please visit our website and be sure to read all the extra requirements: monash.edu/course-m6031

Medical surgical nursing and Paediatric nursing specialisations only:
- You must be employed as a registered nurse by key healthcare provider Monash Health in paediatric nursing or paediatric intensive care nursing, or paediatric emergency nursing or medical surgical nursing at an industry-partnered organisation.

Alternative exits

- Graduate Certificate of Advanced Clinical Nursing
- Graduate Diploma of Advanced Clinical Nursing

² This applies only if you've chosen the child psychotherapy specialisation.

¹ This is a 48-credit-point course and is only available part-time.
From the very beginning of your course, you’ll be immersed in an intensive program where you’ll develop your clinical experience and skills in an environment that reflects what modern-day healthcare looks, feels and sounds like. These clinical learning environments also use high-fidelity mannequins that react to the treatment you give them, using the same equipment you’d be expected to use in your hospital/clinical placements. Clinical placements will be conducted in metropolitan and regional Victoria, where you’ll put classroom concepts into practice on the wards and really start to explore the science and art of nursing and midwifery practice.

Once graduated, you’ll be skilled in problem-solving and clinical reasoning, competent and safe in your practice of clinical nursing skills, and able to work within legal and ethical standards of practice to provide high-quality nursing care.

Professional recognition

Successful completion of the course will lead to eligibility for registration as a registered nurse with the Nursing and Midwifery Board of Australia (NMBA) provided that you’ve also met the current NMBA Registration standard: English language skills. Registration with the NMBA is a legal requirement for practicing as a registered nurse in Australia.

Master of OCCUPATIONAL THERAPY PRACTICE

COURSE CODE: MG017

Peninsula - 2 years FULL-TIME → July
Notting Hill - 3 years PART-TIME → February

$24,900
2021 fees p.a.

Entry requirements

• Bachelor's degree (or equivalent) Pass (50%) 1.7
• Relevant areas of study MUST include human anatomy, human physiology, and biostatistics.

Additional requirements

• A curriculum vitae showing relevant industry experience
• Registration with the Australian Health Practitioner Regulation Agency

This three-year integrated program will provide you with the knowledge, skills and clinical practice experience required to work as a physiotherapist, with a particular focus on the development of leadership skills.

Building on an undergraduate degree in foundational sciences, and learning from expert physiotherapists and researchers, the Doctor of Physiotherapy will prepare you to work in public and private hospitals, private practice, sports, aged care and community health, both locally and beyond.

Professional accreditation

This course is fully accredited by the Australian Physiotherapy Accreditation Council, providing you with an Australian Psychology Accreditation Council-accredited major in psychology, allowing you to do the further training needed to obtain professional qualifications.

Studies include developmental and biological psychology, research design and analysis, personality and social psychology, abnormal psychology, perception and cognition, psychological testing and ethics, and research methods and theory. You’ll also have a choice of electives covering counselling or neuroscience of cognition and behaviour.

The course is offered purely online, making it the ideal course if you’re currently working, and will include at least one hour each week of participation in live learning activities.

Entry requirements

• Bachelor’s degree (or equivalent) Pass (50%) 1.7

Special requirements

Upon enrolment you’ll be asked to:

• obtain a Police Check (annual requirement)
• obtain a Working with Children Check
• provide the highest level of care in your chosen specialisation.

Alternative exit

Graduate Diploma of Health Studies

Career options

• Cardiorespiratory
• Gerontology
• Management
• Sports and exercise
• Women’s health

1 Applicants who are already registered occupational therapists in Australia or overseas aren’t eligible to be considered for this course.
2 If equivalent Monash University grading scale terms, a 90% scale where 50% is a pass.
3 Full accreditation is in place until 2023, when the first cohort of DPT graduates complete their program, in line with the APC accreditation guidelines.
4 This course runs on a term, rather than semester basis, and comprises of 48 credit points, which represents a standard full-time course load for a year.
5 Full details on the list of health services and agencies, which may include rural or urban placements.
6 This course can be taken in accelerated part-time mode due to the online canvas environment of delivery.

Master of SPECIALIST PARAMEDIC PRACTICE

COURSE CODE: MG015

Peninsula - 3 years FULL-TIME
Notting Hill - 3 years PART-TIME → February

$29,000
2021 fees p.a.

Entry requirements

• Bachelor’s degree in paramedicine (or equivalent) Pass (50%) 1.7
• Relevant areas of study MUST include human anatomy, human physiology, and biostatistics.

Additional requirements

• A curriculum vitae showing relevant industry experience
• Registration with the Australian Health Practitioner Regulation Agency
• A minimum of two years’ experience in the field of paramedic practice post-qualification at the time of commencement of the course.

Alternative exits

• Graduate Diploma of Specialist Paramedic Practice (Intensive Care)^
• Graduate Certificate of Aeronautical Retrieval

Career options

• Flight paramedic
• Intensive or critical care paramedic

1 Applicants who are already registered occupational therapists in Australia or overseas aren’t eligible to be considered for this course.
2 If equivalent Monash University grading scale terms, a 90% scale where 50% is a pass.

^ For most units, the majority of contact hours are facilitated through the University’s online learning platform, with additional face-to-face contact designated during early stage at the Alfred Medical Research and Education Precinct in Melbourne.

1 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.

2 These qualifications must have been completed within the past 10 years. Applicants with international qualifications will need to have their qualifications assessed by the Australian Psychological Society (APS):

3 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.

4 Or an equivalent GPA or qualification and experience approved by the faculty.
Gain broad knowledge and receive practical training in the applications of reproductive biology in animals and humans, and explore the social and ethical issues these raise.

You’ll be learning from an impressive calibre of guest lecturers. All of our presenters are either academics with clinical backgrounds or currently have active clinical roles in IVF and fertility centres across Victoria, and many have internationally recognised careers.

On completion of the course, you’ll be able to show a thorough theoretical understanding of human and animal reproductive sciences, and demonstrate practical techniques in human clinical and veterinary reproductive sciences.

You may also qualify for admission into the Master of Clinical Embryology or into higher degrees by research.

**Entry requirements**

- **ELIGIBILITY**
  - Bachelor’s degree (or equivalent) in nursing or biological, medical, agricultural or veterinary sciences, or equivalent qualifications or experience in the reproductive sciences, passed after completing a pass degree in another field.

- **Average requirements**
  - Credit (60%)

- **Duration**
  - 3 to 5 years

- **Credit**

**Special requirements**

Upon enrolment you’ll be asked to:

- comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements
- obtain a Police Check (annual requirement)
- obtain a Working with Children Check.

**Alternative exit**

- Graduate Diploma of Health Studies

**Career options**

- Mental health
- Community and human service organisations
- Child protection and youth support services

1 In equivalent Monash University grading scale terms, a 75% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2 Bachelor of Science should include a major field of study in biology, biochemistry, genetics, pharmacology, physiology, microbiology, immunology or anatomy.
3 Examples of suitable disciplines include within the Bachelor of Arts or Bachelor of Social Sciences degree that would satisfy this requirement: biology, anthropology, sociology, political science, economics. Examples of suitable degrees that would satisfy this requirement are, but are not limited to: education, health sciences, medical, medical radiation science, occupational therapy, paramedicine, podiatry, psychology, physiotherapy, social work.
4 On equivalent qualification approved by the faculty.
5 Allied health includes: optometry, speech pathology, occupational therapy, physiotherapy, radiography/medical imaging, radiation therapy, medical alimentation, paramedicine, dietetics, chronic care, psychology, social work.
6 Monash University Bachelor of Nursing Students graduates are eligible for direct entry to the Master of Social Work and will receive 24 points of credit, reducing the length of study from 2 to 1.5 years.

- Graduate Certificate of Wound Care
- Graduate Diploma of Wound Care
Offered by Monash’s Department of Medical Imaging and Radiation Sciences, this course is perfect for health professionals wanting to broaden their clinical knowledge and develop skills in the analysis of x-ray images. You’ll enhance your skills in image analysis and the interpretation of x-ray images generated within the context of emergency and trauma.

Specialist units are designed to further develop your ability to distinguish between the appearances of normal anatomy, normal variants, the growing bone and the mature skeleton on x-ray images and those associated with pathological change. We also offer the opportunity for you to complete an elective that is particular to your clinical practice.

Entry requirements

**ELIGIBILITY**

A bachelor's degree in a health discipline leading to registration or accreditation by a recognised professional body.

**Duration**

0.5

Additional requirements

You must be a practising health professional with at least two years’ full-time experience in the health-care sector.

Clinical pharmacy no longer happens only in hospitals. With the growth of patient-centred care, clinical pharmacy is being practiced in a wide variety of healthcare settings.

This course will enable you to advance your skills in the provision of clinical pharmacy services to patients with complex clinical needs, with a focus on evidence-based practice and quality use of medicines.

You’ll have the option of completing the course through either the coursework stream or the coursework and research stream.

In the coursework stream you’ll be able to select units to suit your interest and career aspirations. These studies cover aspects of pharmacy, clinical pharmacy, health-care related economics and second care.

If you’re a pharmacist looking to include a practice-based research project in your study, the coursework and research stream will help you gain specialist clinical knowledge in addition to advanced skills in research and clinical pharmacy practice.

This course is designed to be flexible enough to fit into any pharmacist’s professional development plan. The learning experience is both student-driven and patient-focused.

**Entry requirements**

**ELIGIBILITY**

Bachelor’s degree in pharmacy and registration as a pharmacist

**Duration**

3.5

Bachelor’s (honours) degree or equivalent in pharmacy and registration as a pharmacist

**Duration**

2.4

Alternative exits

- Graduate Certificate of Clinical Pharmacy
- Graduate Diploma of Clinical Pharmacy

1. Your registration or accreditation by a recognised professional body must be as either a general practitioner, radiography, optometry, podiatry, physiotherapy, parametric practitioner, or a course with an advanced qualification leading to registration and/or recognition as a nurse practitioner.

With continued improvements in DNA sequencing technology, genome-based diagnosis and health management, the healthcare system stands at the gateway to a future where diseases are diagnosed early and precise treatments provided. However, in the absence of enough specialist genome analysts, we cannot translate and expand the discoveries from genome sequencing to the healthcare system, and ultimately improve health.

At Monash, we’ll train you in specific technical and professional skills so that you’re equipped to help the world take the next crucial steps in diagnostics and genomic medicine.

  - February and July

- **$36,000**
  - 2021 fees p.a.
  - Fees per 48 credit points, which represents a standard full-time course load for a year.
  - Published durations apply to full-time study mode.

The Master of Green and Sustainable Technologies recognises the increasing demand for graduates with expertise in green chemistry to lead the transformation of chemical and other industries where the chemistry and chemical engineering play a crucial role, in delivering the products coming from those industries.

As a student in this program, you’ll have the opportunity to design and implement new products and processes that will highlight the role that chemistry has to play in addressing the UN Sustainable Development Goals.

Graduate Certificate of Green and Sustainable Technologies

Mathematics underpins our way of life and our prosperity. Its importance ranges from fundamental developments enabling new technologies, to theories backing up scientific research, to analyses of our physical and societal environments.

This course is designed for graduates with a bachelor’s degree and a strong foundation in mathematics. You’ll acquire advanced knowledge and skills in mathematics, and the capacity to use them to tackle complex problems in a variety of situations.

1. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2. Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
3. Or equivalent qualification and experience approved by the faculty.
4. A high credit (65%) average is required in the science discipline you intend for your master’s.

The degree you’re awarded will reflect your chosen specialisation.
ADMISSIONS AND APPLICATIONS

Applications for graduate coursework programs can be made online via monash.edu/study/apply

All applicants for coursework programs must meet the minimum entry requirements and English language requirements.

For details, visit:
monash.edu/admissions/entry-requirements/minimum
monash.edu/admissions/english-language-requirements
monash.edu/study/apply

FEES

We’re committed to providing you with an ever-evolving, modern student experience where you can take charge of your studies while being guided by highly qualified educators who are informed by, and engaged with, industry and the community.

We’re investing in innovative learning environments to deliver collaborative, contemporary and flexible learning opportunities. We embrace the opportunities offered by technology and innovation, and embed those in our teaching, in order to prepare you for any career you pursue, including those that aren’t yet created.

Our blended learning environment – physical, digital and virtual – prepares you for the workplace, and makes your time at Monash both satisfying and transformative. This underpins our philosophy that the Monash experience extends far beyond university.

In setting our fees, we take into account various factors, including the Consumer Price Index, teaching costs, market trends, demand for expertise, and competitor pricing. We acknowledge that gaining an internationally recognised qualification comes at a cost, but we ensure that the price of our degree programs mirror the true cost of delivering a premium educational experience where you’ll learn from some of the finest minds in the world.

Tuition fees

Graduate coursework courses are generally offered as full-fee paying places with a limited few available with Commonwealth Supported Places (CSP). All tuition fees and course durations specified in this guide are in Australian dollars and apply only to courses studied at Australian campuses. The tuition fees quoted are for 48 credit points and are applicable to courses commencing in 2021. Tuition fees for courses commencing in 2022 will be different.

Monash University reserves the right to adjust the annual tuition fees in future years of your course. Any adjustment will be applied on the first day of January each year for teaching periods with a census date thereafter.

1. Rates specified are those for an equivalent full-time student load.

At Monash, we’re committed to attracting academic high achievers and producing internationally competitive graduates.

SCHOLARSHIPS TO UNLOCK YOUR TALENT

Commonwealth Supported Place (CSP)

Each unit of study is classified into a student contribution band, depending on the study area of the unit (this may be different from the study area of your course). The amount you pay for your unit of study is usually the maximum allowed by the government for that band.

The below table outlines the annual student contribution amount for a full-time student who’s enrolled in a standard full-time course where all units are in the same band. The rates specified are those for an equivalent full-time student load, typically 48 credit points.

COURSEWORK SCHOLARSHIPS

If you’re a prospective or continuing coursework graduate student, there’s a variety of scholarships and grants available.

Academic scholarships

Our Monash scholarships aim to attract academically gifted students.

Accommodation scholarships

We offer scholarships to help cover the costs of your accommodation, and there are even scholarships to support any relocation costs.

Indigenous students

We offer many scholarships for Indigenous students, with each of our faculties also offering opportunities to attend Monash through their own scholarship programs.

Equity scholarships

We recognise that sometimes your personal circumstances can impact on your studies. If you’re from a low-income background, have a disability or medical condition, live in a regional or remote area, from an asylum-seeking background, or have experienced difficult circumstances, we offer scholarships to ensure that none of these factors prevent you from pursuing your dreams.

We offer many scholarships for Indigenous students, with each of our faculties also offering opportunities to attend Monash through their own scholarship programs.

SCHOLARSHIPS

The Australian Government’s Research Training Program (RTP) covers your research course fees if you’re an Australian or New Zealand citizen or an Australian permanent resident. There are various other scholarships available to assist with other costs.

For details, visit monash.edu/graduate-research/future-students/scholarships

At Monash, we believe in giving our students the best chance to achieve their potential and our range of scholarships reflect this commitment.

The number of scholarships and grants offered each year varies. So find the right scholarship for you at monash.edu/scholarships
