IF YOU DON’T LIKE IT, CHANGE IT.

For 60 years, we’ve been working to change the world, and we’re not about to stop. At Monash, we see challenges as opportunities to make things better.

It’s hard to imagine a time when the need to make positive change has been greater than now.

We want you to help us do it.

Whether you want to change your life, your career, your community or the world, your journey starts at Monash.

As a university with a global footprint, we know we have to play our part in solving the problems facing the world.

That’s why all Monash students, lecturers, researchers, professional staff, alumni and supporters contribute to making real change.

You, too, have the opportunity to step up and make a difference.

Are you ready?

Ready to make a change?
Click here to learn more.
Monash University is truly a global university. Our main base is in Australia, but our presence extends to locations in China, Malaysia, Indonesia, Italy and India. We also deliver awards in partnership with many international teaching institutions. Through our shared values, experiences and goals, we are more connected now than ever.

Each Monash campus has its own personality, and all are friendly, welcoming communities where you’ll feel at home.

India
Mumbai
Bustling Mumbai is home to the IITB-Monash Research Academy, a collaboration that gives PhD students opportunities to work closely with industry to find solutions to global problems.

China
Suzhou
The Southeast University-Monash University Joint Graduate School offers masters and PhD study options in areas ranging from industrial design and IT to business.

Malaysia
Kuala Lumpur
Monash University Malaysia is our third-largest campus, with more than 8000 students undertaking courses offered across seven schools.

Indonesia
Jakarta
Research intensive and industry engaged, Monash Indonesia is a postgraduate campus for future leaders – those seeking master’s and PhD degrees, as well as executive programs and micro-credentials.

Italy
Prato
In the heart of Tuscany and close to Florence, Prato is our European base where eight of our faculties offer units covering design, law, business and more.

Australia
Clayton
Our Clayton campus, home to 38,000 students and nine of our ten faculties, is surrounded by a vibrant student community in an easily accessible location.

Caulfield
Our Caulfield campus hosts 19,000 students and is our base for Art, Design and Architecture, and Monash Business School as well as some Arts and IT courses.

Parkville
Our dedicated Pharmacy and Pharmaceutical Sciences campus hosts 2000 students and is part of Australia’s leading health and biomedical precinct.

Peninsula
A coastal home to approximately 4000 students, our Peninsula campus offers courses from the Faculty of Education and select courses from Monash Business School. Partnering with leading players in primary and allied healthcare, we also offer a number of courses from the Faculty of Medicine, Nursing and Health Sciences.

LIFE-CHANGING RESEARCH

Monash research strives to make a positive difference in the world.

Even before we became the global university we are today, our researchers looked beyond traditional boundaries, discovering ways of approaching the fields in which they worked. It’s why a Monash education is so respected around the world. Things that we now take for granted wouldn’t exist without the initial work of Monash researchers.

Today, our ambition and optimism are stronger than ever. We have a clear vision of what we want our research to achieve and how we’ll help our researchers make it happen.

Breakthrough blood test detects positive COVID-19 results in 20 minutes

Monash University led the charge in combating COVID-19 with the development of blood tests that could detect positive COVID-19 case in approximately 20 minutes.

This breakthrough aided governments and health experts with contact tracing and limiting community spread.

Monash researcher named Australian Young Water Professional of the Year

Dr Paul Satur, from the Monash Sustainable Development Institute, has worked to progress the water sector beyond best-practice goals. His passion and focus lie in helping remote, local communities, both in Australia and around the world, to develop the knowledge, tools and influence to ensure access to clean, drinking water.

eBikes pedal up on safety with EEG technology

As more cyclists take to the streets, the risk of accidents also increases. Research from Monash University, IBM Research - Australia and the University of Southampton, have developed an eBike prototype that has the ability to “read” a cyclist’s mind and respond to a potentially dangerous situation, providing a much safer and enjoyable ride.

Professor Florian ‘Floyd’ Mueller, Director of the Exertion Games Lab in the Faculty of Information Technology at Monash University and co-creator of this technology, sees this ground-breaking research as an opportunity to further human-computer interaction experiences in real-time, where the rider and the eBike “fuse” together to support each other.

When to send an ambulance

Triple-0 calls can be intense conversations. The caller is often stressed and unsure about what they’re witnessing. And it can be difficult for the triple-0 operator to collect and sort through all of the key information. This can sometimes cause delays in making the decision to send an ambulance.

AI can help speed things up. Professor Ann Nicholson is working with Monash IT’s Associate Professor Burak Turhan to develop AI technology to improve response times to cardiac arrest. Accordingly to Ambulance Victoria, the development of such a system, could help save up to 185 lives per year.
We know that when, where, how and what you study is critical to progressing your career, skills and knowledge.

You might be a professional looking to gain expert knowledge in your current field, or you might be looking for a career change. Or maybe you want to complement your existing knowledge and experience by tackling study in a new discipline so that you develop a competitive edge in your career.

We offer a comprehensive graduate coursework portfolio that includes graduate certificates, graduate diplomas and master’s programs. Our range of graduate course options allows you to choose the qualification level and course duration that suits your needs.

Depending on which path you take, you may be eligible for credit for your prior qualifications and/or experience. This could reduce the duration of your course and lower the overall cost.

**Graduate certificates**

These are our six-month courses, and provide a way to broaden your knowledge base within a shorter period of time. They can give you a sense of what’s involved with graduate coursework studies.

Completing your graduate certificate not only provides you with a qualification, it can also create an opportunity for you to pursue further studies in either a graduate diploma or a master’s degree, and can shorten your study time should credit be available.

**Graduate diplomas**

Through our one-year graduate diploma courses, you could develop a broader understanding in your chosen area of study. Completion of a graduate diploma can also provide a pathway to further studies at a master’s or doctorate level. If you decide to pursue further studies in your chosen field, you may be eligible for credit which would reduce the overall duration.

**Master’s by coursework**

We offer a broad portfolio of master’s by coursework programs, with options available in each of our faculties. These master’s courses can run from two to four years, and you may receive credit for prior studies and/or experience which would allow you to complete your studies in a shorter time.

Our master’s courses provide opportunities for professionals to further develop specialist knowledge in their chosen field, or for individuals to change their career direction entirely and undertake study in a new discipline.

You can see the full list of our graduate coursework offering on pages 12-13.

Whatever your ambition, Monash can help you get there.
From day one, a Monash education sets you on the path to future career success.

**WORK-INTEGRATED LEARNING**

Our programs and platforms offer work-integrated learning experiences and engagement with industry. You’ll develop an enterprising mindset, hone your employability skills and gain a competitive edge in the graduate employment market.

Incorporate professional experience into your studies through clinical placements, fieldwork, study tours, placements, or internships. Each of our ten faculties offer work-integrated learning options. We’ve listed just a few.

### IT and Engineering
Both our IT and Engineering faculties have specific Work-integrated Learning opportunities throughout their graduate offering.

### Monash Business School
Monash Business School offers practical experience with many of their courses, with many of their courses providing accreditation and professional recognition.

### Medicine, Nursing and Health Sciences
Our school of Medicine, Nursing and Health Sciences have created placement requirements through many of their graduate courses, all designed to maximise your professional development.

---

**I undertook a clinical placement with Tradelab, a Geneva based non-profit organisation that assists developing countries with trade-related legal matters.**

This internship was valuable as it gave me an opportunity to gain practical working experience and at the same time make a meaningful contribution to the future of sustainable infrastructure development.”

**PRATIK AMBANI**  
Master of Laws (Juris Doctor), 2019

---

**I chose Monash specifically, because unlike similar programs in other universities, this program offered internship opportunities where we learn to apply our knowledge and skills in a real-life settings. My internship with Janssen enabled me to seek guidance from people with years and years of experience within the pharmaceutical industry. Janssen arranged an intern engagement program where I had the opportunity to talk with people from different parts of the company each week. They also involved me in meetings where I could observe how different roles work together in a cross-functional team. I gained an understanding of how much science is involved and how it fits within a pharmaceutical company. This experience opened my eyes to a wide range of roles where science is highly utilised.”**

**ASSIFA NUR HISANA**  
Master of Biomedical and Health Science, 2020
At Monash we offer a mix of both in-person and online learning.

Some Monash courses are offered fully online, while others provide the opportunity to undertake some studies online and some on campus.

Online learning at Monash can look different depending on what course and units are studied. For example, in some units, you’ll be listening to livestreams of lectures, and attending virtual tutorials via Zoom; in others you’ll be watching chemistry pracs recorded by our lecturers and teachers.

At Monash, we want you to get the most out of your education experience. To achieve this, we use a variety of tools and platforms to support and enable online learning.

These include Moodle, Echo360, Panopto, and Zoom.

Moodle
Moodle is an essential go-to point for:
- Course content
- Reading lists
- Assessment and study requirements
- Assignment uploads
- Discussion forums
- Contact information for tutors and lecturers

Echo360 and Panopto
You may use Echo360 to watch lecture recordings or Panopto to upload video assignments.

Zoom
Zoom is a technology used to facilitate meetings and online classes. These platforms and tools are the main systems in use by Monash to support day-to-day online learning, and are easy to use with plenty of support available to ensure you have access at all times.

Whether you’ve completed undergraduate studies in architecture or another field, the Master of Architecture meets the academic requirements necessary to register as an architect. At Monash, we develop graduates with a vision to design architecture that responds to the dynamic needs of society while also speculating about our future built environment.

In this project-based studio course, you’ll be guided by industry experts and award-winning Monash academics. This integrated program of study allows you to select from a range of design studios in conjunction with advanced architectural studies.

**Professional accreditation**
This course meets the academic requirements for professional recognition by the Architects Accreditation Council of Australia and the Australian Institute of Architects. Two years of professional experience is required for registration.

**Entry requirements**
- **Eligibility**
  - Bachelor’s degree (or equivalent) in any field
- **Average requirements**
  - First (35%) 1
- **Duration**
  - Full-time 2

**Additional requirements**
- Three-year duration
  - Must also provide:
    - A compilation of evidence of creative work and a statement of intent.
- Two-year duration
  - Must also provide:
    - A design folio
    - A curriculum vitae
  - Shortlisted applicants may be invited to attend an interview.

**Career options**
- Registered architect
- Drafting and design work
- Government policy advisor
- Project management
- Property or community development

---

In a rapidly transforming world, designers need to constantly develop their skills, strategic thinking and knowledge to respond with innovative solutions to the developments in their field.

Ideal for both designers and non-designers, this course focuses on four core design studios that will engage you with design systems, services, processes, environments and objects.

Guided by Monash academics and industry practitioners you’ll build technical capabilities and knowledge in design thinking and strategy while developing research capabilities and an entrepreneurial mindset.

**Specialisations**
- Collaborative design
- Interaction design
- Advanced studies in design.

**Professional recognition**
The Master of Architecture is a ‘recognised course’ by the Design Institute of Australia – the peak industry body for professional design.

**Entry requirements**
- **Eligibility**
  - Bachelor’s degree for equivalent in any field
- **Average requirements**
  - Credit (60%) 1
- **Duration**
  - Full-time 2

**Additional requirements**
- All applications must provide a current academic and professional curriculum vitae.
- If you’re applying for either the 1.5-year or 1-year program, you’re required to also provide 10-15 images of recent original work, clearly numbered with a corresponding list of details attached, and to identify your preferred specialisation.

**Alternative exits**
- Graduate Certificate of Design
- Graduate Diploma of Design

**Career options**
- Interdisciplinary collaborative designer
- Multimedia designer
- Web, UX, UI, animation, or interaction designer

---

Public Art is a significant international field of practice that has an influence on forming our perception of place.

Working closely with Monash Arts Projects and Monash University Museum of Art, you’ll be guided by Monash academics, experienced artists and designers and drawn on their extensive experience to gain invaluable insights and information on commissioning, tendering, collaborating and installing major sculpture commissions locally and internationally.

You’ll work on simulated and real project briefs to gain theoretical and technical skills, detailed knowledge of processes and techniques for tendering submissions, as well as understanding of historical and theoretical contexts in engaging public art. Architects and designers undertake this study to further enhance their careers in their existing field or to boost their career prospects.

**Entry requirements**
- **Eligibility**
  - Bachelor’s degree (or equivalent) in any field
  - At least two years’ relevant work experience
- **Average requirements**
  - Credit (60%) 0.5

**Additional requirements**
You’ll also need to provide:
- A statement of intent (300-500 words)
- Compilation of evidence of creative work (images, text, photos, drawings etc) – 10 pages maximum.

**Career options**
- Practising artist
- Major cultural projects manager
- Public or visual arts curator
- Art director
- Public art/programs officer

---

Our Master of Urban Planning and Design places you ahead of the competition by integrating design with policy-based knowledge.

You’ll develop the technical capabilities and creative capacity to address the big challenges facing our cities.

Guided by Monash academics and industry professionals you’ll focus on four project-based learning themes: the compact city, the ecological city, the inclusive city, and planning for metropolitan growth areas. You’ll study in real-world environments and engage in lectures, workshops, seminars, field visits, and have the option for international study tours.

**Professional accreditation**
Master of Urban Planning and Design is accredited by the Planning Institute of Australia (PIA).

**Entry requirements**
- **Eligibility**
  - Bachelor’s degree (or equivalent) in any field
- **Average requirements**
  - High Credit (85%) 2

**Additional requirements**
You’ll be required to attend an interview.

**Career options**
- Strategic planning: private and public sector
- Statutory planning
- Urban design
- Sustainable development
- Community development
- Transport planning

---

*1 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2 Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
3 If you’ve successfully completed the Bachelor of Architectural Design at Monash, you automatically progress to the Master of Architecture, provided successful completion is within five years of the proposed commencement date of the master’s program.
4 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
5 Relevant work experience includes working in art, design (communication, interior, exhibition), architecture, planning, urban theory, arts planning, landscape architecture, or related fields that work in the public space.
Create a master’s degree that suits you
Our courses offer a unique and nuanced approach to their industry and subject matter, and are underpinned by our guiding principles to be innovative, interdisciplinary, and engaged. There are many ways you can create the master’s degree that best suits your interests and career needs:

• Tailor your program by taking specified electives from any other coursework master’s degrees offered in the faculty.
• Accelerate your studies, taking units over the winter and summer, and complete your degree in less than one year.
• Apply for professional internships to develop your professional experience and networks.
• On-campus study, thesis and gain practical, on-the-ground experience both in Australia and abroad.
• Create a pathway to a PhD — by completing a research thesis as a prerequisite for future enrolment into a PhD or master’s by research development workshorps.
• Take advantage of leadership opportunities through our Arts Graduate Leadership Program and gain access to professional development workshops.

For students meeting the above requirements, and commencing in semester one. Only available for students completing the 1.5-year option, and commencing in semester one.

Master of COMMUNICATIONS AND MEDIA STUDIES
COURSE CODE: A6003

Bachelor’s (hons) degree (or equivalent) in any field7
Graduate Certificate of Communications and Media Studies
Graduate Diploma of Arts

Career options
• Journalist
• Public relations consultant
• Media advisor
• Social media manager

1 Published durations apply to full-time study mode. Fees are per course (48 credit points, which represents a standard full-time course load for a year).
As a student in the Graduate Certificate of Communications and Media Studies, you’re at once part of this media-cultivated world but will also learn how to analyse, critique and challenge assumptions about the role of the media.

You’ll expand your understanding of the key challenges posed by the new economy of digital media, globalisation and increasing levels of cross-cultural exchange. Skill development in critical thinking, writing and presentation in multicultural settings are designed to enhance your career capabilities.

This degree is suitable for emerging professionals in communications and media industries, as well as those wishing to expand their knowledge of this dynamic field. Successful completion of this degree can count toward a Master of Communications and Media Studies for those who desire further study.

**Entry requirements**

- **Average requirements**: Pass (50%)
- **Duration**: 6 months

**Career options**

- Journalist
- Brand marketing manager
- Communications advisor

**Master of CULTURAL AND CREATIVE INDUSTRIES**

**COURSE CODE**: A6004

**RANKED TOP 100 IN THE WORLD**

**US World University Rankings by Subject 2019**

- **Caulfield**: 1.15 or 2 years
- **ON-CAMPUS**: February and July
- **FULL-TIME**: February and July
- **PART-TIME**: February and July

**COURSE CODE**: A6004

- **Duration**: 1 year (in full-time or part-time)
- **Fees**: Calculated at $24,200 per 30 credit points.

This exciting course provides you with an overview of the rapidly growing cultural and creative industry sector, and its many employment opportunities.

You’ll gain a detailed understanding of this dynamic sector from a range of industry professionals and real-world projects in Australia and overseas. Whether exploring creative clusters in Melbourne and Shanghai, or understanding the business models of global digital industries, our agile content will prepare you for a career in this expanding sector.

You’ll gain insight into how to initiate and manage projects, and how to evaluate their success, while maintaining close contact with a range of industry professionals and real-world projects from Australia and overseas.

**Entry requirements**

Be a part of change and make an impact on the future of your region.

Drawing on the expertise of Monash University’s Gender Peace and Security Centre (Monash GPS), and backed by the strongest international research in the field, the Graduate Certificate of Gender, Peace and Security will enable leaders to better integrate gender perspectives into peace and security policymaking at all levels – local, national, regional, and global.

You’ll gain training on the facilitation of women’s participation in peacebuilding and the prevention of conflict, violent extremism and insecurity.

You’ll also have access to industry partners through guest lectures and informal meetings to develop your networks, hear about recent developments in the field, and understand the relationship between research and its application in the field.

**Flexible study**

Well-suited to working professionals, the course consists of two intensive seven-day units in both July and November, so you can balance study, work, and personal commitments.

**Entry requirements**

**ELIGIBILITY**

- Bachelor’s degree (or equivalent) in any field

- **FULL-TIME:**
  - **$24,200**
  - **2021 fees**

This is the total 2021 fee for this 24 credit point course. Published durations apply to full-time study mode.

Delivered by specialists from the humanities, social sciences, medicine, business, education and law, the Master of International Development Practice offers a broad approach to sustainable development with six specialist streams: democracy, justice and governance; crisis, change and management; gender, peace and security; global migration; sustainable economies; and sustainable resource management.

You’ll learn directly from leading researchers and practitioners, and will combine this academic insight with a high level of industry integration to give yourself a competitive advantage in the workforce.

You’ll also have the opportunity to be matched with an industry mentor in the field through our many sector partnerships and mentoring programs which match students with a development practitioner from around the world based on shared interests.

1. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2. Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
3. Or equivalent qualification (and/or experience, where applicable) approved by the faculty.
4. Related fields include humanities or social sciences.
5. You must have achieved a pass (50%) average in both qualifications.

---

Develop a greater understanding of the dynamic world of global politics in the 21st century.

You’ll develop foundational knowledge of international affairs, grounded in the key debates framing global politics, and address the big questions about global justice, war, peace, social movements and interstate relations.

This course builds essential skills in global leadership, intercultural communication and facilitating positive change in a context characterised by significant levels of global complexity and connectivity.

Successful completion of this degree can count towards a Master of International Relations for those who desire further study.

### Career options
Graduates go on to a broad range of occupations at organisations such as:
- Australian Trade Commission
- Australian Federal Police
- ASEAN Ministry of Foreign Affairs

### Alternative exits
- Graduate Certificate of Arts
- Graduate Diploma of Arts

---

Keen to further focus your international interests and aspirations? This double-degree could be for you.

You’ll complete one of the specialisations offered within the Master of International Relations and you’ll also take on the main components of the Master of Journalism, giving you the chance to enter the journalism industry or, if you’re already part of the media, to extend your expertise.

This course’s national and international orientation means you’ll use a full range of media technologies and gain insights into approaches to international relations.

---

By completing Australia’s most innovative industry-focused tourism program you’ll develop specialised skills in all aspects of the international tourism industry, including tourism marketing and destination management.

This course explores tourism’s potential to be compatible with the development of sustainable organisations, urban and rural regeneration, natural resource management and wildlife conservation, and the diversification of benefits from international and domestic tourism.

This truly global program will see you undertake international field trips, investigate best practice international precedents and study alongside students from around the globe – helping to build the cross-cultural skills that underpin a successful career path in tourism.

---

Studying a degree in sustainable tourism allows you to work in one of the fastest-growing industries, while simultaneously knowing how to reduce the impact of travel on local economies and environments.

You’ll develop an understanding of the industry in a global setting, before delving into industry-relevant areas such as marketing and tourism economics for the digital age.

On completion of this course, you’ll be prepared for work in the government or private-sector tourism industry. If you prefer delving deeper into the field through further study, you can use this course as an entry point to the Master of International Sustainable Tourism Management.

The Global Executive MBA is an intensive 15-month program for experienced managers, featuring international modules and a series of weekend modules. Designed for executives in diverse sectors and professions with a minimum of 10 years' work experience, the program addresses complex, challenging, strategic issues in organizations. The course aims to develop graduates who are global in orientation and who can lead organisations at a senior level. It emphasises contemporary business and organisational challenges, and provides an integrated approach to discipline-based academic content.

The module themes are globalisation, innovation and transformation. Are you an Australian Aboriginal and/or Torres Strait Islander professional wanting to develop your business leadership skills, or an employer who wants to foster leadership in your Indigenous staff? The Master of Indigenous Business Leadership is a cross-disciplinary program with leading units delivered by Monash Business School, complemented by a tailored offering in design thinking and mastery of leadership skills, and collaboratively explore the different cultural, political and economic contexts in which business is experienced by Indigenous communities, exchanging ideas on how to best steer change as emerging Indigenous leaders.

Additional requirements
Applicants reaching the final application stage will be required to attend an interview with a member of the selection panel.

Counselling Placement Team

You are required to secure a professional placement in your chosen specialisation.

Entry requirements

A fourth year of psychology study from any course accredited by the APA, which may be a graduate diploma or bachelor’s honours degree. Please note that qualifications need to have been completed within the past 10 years.

Additional requirements

You’ll also need to:
• complete a supplementary form that demonstrates evidence of suitability for work as a professional psychologist and includes referee reports (one academic and one professional) and relevant work experience (voluntary or paid).

- attend an interview.

Applicant checks:
• Working with Children Check (before placement).
• Provisional registration with the PsyBA (before commencing study, and maintain such registration throughout the period of enrolment).
• You must also meet the English language requirements of Monash and of the PsyBA. Consult the PsyBA website to ensure you meet their requirements: www.psychologyboard.gov.au

EdCational and developmental psychologists focus on how people develop and learn throughout their lifetime.

They work with individuals, families, groups and organisations, and have varying roles such as school psychologist, guidance officer, and child and adolescent counsellor. They conduct psychological and educational assessments and instructional planning for exceptional children, adolescents and adults.

You’ll apply theory to practice with 1000 hours of supervised professional experience in a range of settings. In a research thesis, you will develop an evidence-based approach to psychology, carrying out reviews and scientific investigations relevant to the theory and practice of educational and developmental psychology.

As a graduate, you will be qualified to register as a psychologist with the Psychology Board of Australia (PsyBA). You will also meet most requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

Professional accreditation

Our Master of Educational and Developmental Psychology is accredited by the Australian Psychology Accreditation Council (APAC) as a fifth and sixth-year sequence in psychology that prepares you to practise as an educational and developmental psychologist in settings including schools, health and welfare services, care facilities and businesses.

The Counselling Placement Team sources many placements, and communicates these opportunities to students. Please note most placement providers will require you to submit an application and/or attend an interview to secure the placement. If you’re an interstate, overseas or rural student, you’ll be required to source your own placements, under the guidance of the Counselling Placement Team.

Providing you with a professional qualification, and offering a combination of theory and professional experience, this course exists with you all need to start a rewarding career as a counsellor.

This highly practical course draws on the latest thinking and approaches to counselling and psychotherapy to develop your understanding of the mental health issues that arise across a lifetime. You’ll explore the various forms of professional counselling, including online and distance counselling, child and adolescent counselling, and individual, couples and group counselling.

This course includes 250 hours of placement to help you develop your counselling and interpersonal skills with clients and colleagues.

Accreditation and professional recognition

This course is accredited in Australia by the Australian Counselling Association (ACA) and Psychotherapy and Counselling Federation of Australia (PACFA).

### Career options

- Instructional designer
- Educational designer in higher education
- Developer in online education
- Coursework specialist in the school sector.

### Professional accreditation

The Master of Advanced Educational and Developmental Psychology course is accredited by the Australian Psychology Accreditation Council (APAC). With a further two years of supervised practice in educational and developmental psychology, graduates are currently eligible for endorsement as Educational and Developmental Psychologists with the Psychology Board of Australia (PsyBA). Graduates also qualify for membership of the Australian Psychological Society, and meet requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

### Additional requirements

- A curriculum vitae listing qualifications, work experience, and at least one referee report.
- A Working with Children check.

### Course description

This course develops your expertise in the design and implementation of digitally enabled courses across all sectors. It is highly relevant for educators and instructional designers who are seeking to enter into the educational design profession or to build their knowledge in the field. You’ll explore theoretical and practical models of educational design, content creation, interactive and collaborative learning, as well as assessment and feedback. You’ll investigate how to effectively implement learning technologies, engage with teams and enter into educational design partnerships. As part of this course you’ll have the opportunity to research and develop an instructional project.

### Graduate Certificate of EDUCATIONAL DESIGN

### Career options

- Instructional designer
- Educational designer in higher education
- Developer in online education
- Coursework specialist in the school sector.

### Professional accreditation

The Master of Educational Leadership course is accredited by the Australian Psychology Accreditation Council (APAC). With a further two years of supervised practice in educational and developmental psychology, graduates are currently eligible for endorsement as Educational and Developmental Psychologists with the Psychology Board of Australia (PsyBA). Graduates also qualify for membership of the Australian Psychological Society, and meet requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

### Additional requirements

- A curriculum vitae listing qualifications, work experience, and at least one referee report.
- A Working with Children check.

### Course description

In this course you’ll consider various constructs of leadership, including traditional and emergent leadership theories, cultural manifestations of leadership, the role of social justice in educational settings, and the persistent challenges facing leaders. You’ll gain an understanding of how leadership interacts with, and responds to, the dynamics of policy, politics and power in differing contexts, and how this shapes education and learning.

In your final semester, you’ll immerse yourself in a project tailored to your specific interests, which will deepen and enhance your learning, and prepare you for the next step in your career.

### Career options

- Early childhood education centre manager.
- Educational consultant.
- Year-level or subject coordinator.
- School principal or vice-principal.

This is the total full time fee for this 2 credit point course, which represents a standard full-time course load for a year. Published fees apply to full-time study mode.

Our Graduate Diploma of Professional Psychology is designed to meet the requirements of the Australian Psychology Accreditation Council (APAC) for a generalist fourth-year in psychology. This course is suited to those who want to pursue advanced graduate study in psychology at master's or doctoral level, or to undertake supervised psychological practice.

By studying our Graduate Diploma of Professional Psychology, you’re offered advanced study of psychology, research training and an introduction to psychological practice. You’ll be able to choose an elective from topics including developmental psychology and wellbeing, or positive psychology in professional practice. After graduating, you can undertake further training and study needed for professional registration in psychology.

**Professional accreditation**

Our psychology courses are accredited by the Australian Psychology Accreditation Council (APAC). Professional accreditation ensures those graduating from the courses hold degrees recognised by employers, and adhere to state and national accreditation standards.

**Entry requirements**

<table>
<thead>

</tr>
</tbody>
</table>

**Career options**

- General registration as a psychologist (after additional studies to complete the required pathway).
- Private practice, health and welfare services, and business environments.

1. In equivalent Monash University grading scale terms, a 65% scale when 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2. These with international qualifications will need to have qualifications assessed by the Australian Psychological Society (APS) at www.psychology.org.au.
3. You’ll need to have achieved a distinction (70%) in your third year of psychology.
4. You’ll need to have achieved a high credit (85%) in fourth-year psychology. Admission into the courses hold degrees recognised by employers, and adhere to state and national accreditation standards.

**ELIGIBILITY**

- Bachelor’s degree or equivalent + a major in psychology from any course accredited by the APAC, or a graduate diploma or a bachelor’s honours degree. Please note qualifications must have been completed within the past 10 years.

**Additional requirements**

- To complete a supplementary form that demonstrates evidence of suitability for work as a professional psychologist and includes reference reports (one academic and one professional) and relevant work experience (voluntary or paid).
- To attend an interview.
- To meet the English language requirements of the Psychology Board of Australia (PsyBA), Consult the PsyBA website for these requirements: www.psychologyboard.gov.au.

**Special requirements**

- Working with Children Check (before placement).
- Provisional registration with the PsyBA (before commencing study, and maintain such registration throughout the period of enrolment).

**Career options**

- General registration as a psychologist (after one year of supervised practice outside of the course).
- Private practice, health and welfare services, and business environments.

2022 GRADUATE COURSE GUIDE

DEGREE AWARDED

You have an undergraduate degree in any discipline, and want a career as a global educator and teacher?

Our curriculum combines theory and professional experience, giving you the skills and professional values to become an effective educator. You can choose to specialise in early childhood, primary or secondary education – or a combination. Through engagement with the latest thinking and practices, you’ll be able to effectively foster the learning of students with various ages and needs.

Do you have a minimum of 60 days’ teaching practice with opportunities in urban, rural, remote and international settings and schools?

Professional recognition

Specialisations in early childhood education are accredited by the Victorian Institute of Teaching (VIT), using the national accreditation standards.

All primary and secondary education specialisations are accredited by the Victorian Institute of Teaching (VIT) using the national accreditation standards.

Additional requirement

Applicants must sit the CS/Per test. CS/Per is a requirement for many primary and secondary education courses in Victoria. It’s a non-cognitive online test designed to assess your aptitude with specific specialisations.

Enrolment considerations

• All students enrolled in Australian initial teacher education courses must ‘achieve the standard’ in the National Literacy and Numeracy Test prior to graduating4.

Alternative exits2

• Graduate Certificate of Educational Leadership
• Graduate Diploma of Educational Leadership

Special requirements for professional experience

To participate in professional experience you must:

• meet specific security clearances relevant to the state/territory/country where the professional experience is undertaken
• meet specific immunisation requirements (for Early Childhood or Early Childhood/Primary specialisation)
• complete professional experience orientation provided by the faculty,
• undergo a Working With Children Check.

Career options

• Early childhood educator
• Primary teacher
• Secondary teacher

1. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table. Students who have a higher degree (or equivalent) may require a lower minimum average than the requirements identified.

2. If you’re applying to the dual or combined early childhood and primary education specialisation, you must have at least one year of full-time equivalent study relevant to one or more teaching areas of the primary school curriculum. Most dual or combined degrees cover one or more of required teaching areas, requiring this requirement.

3. If you’re applying to the specialisation in primary or secondary education, you need to have at least one year of full-time equivalent study relevant to one or more teaching areas of the primary school curriculum and at least major subject in one secondary/teaching area. Most combined bachelor degrees cover one or more of the primary school curriculum required teaching areas, removing this requirement. See the faculty website for more information about secondary teaching areas.

4. This can include studies in an accredited course, where you’re required to undertake more than the standard enrolment load of 40 credit points in one year in order to complete the course in 1-3 calendar years. The fees quoted based on full credit points of study for one standard year. You’ll therefore be required to pay a higher fee in your first year rather than the full fees in subsequent years.

5. If you’re applying for the specialisation in secondary education, you need to have appropriate discipline studies to supply for two teaching special areas or one discipline teaching special area and at least a major area in one secondary/teaching area and a second teaching area comprising at least a minor area. See the faculty website for more information about secondary teaching areas.

6. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.

7. Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.

8. Related fields include linguistics and language studies.

Master of TESOL

COURSE CODE: D4005

RANKED NO. 1 IN AUSTRALIA
Academic Ranking of World Universities.

Clayton ON-CAMPUS 1, 1.5 years FULL-TIME
February and July

PROFESSIONAL PLACEMENT + TEACHING OR OBSERVATION

This course is suitable for a wide range of educators, prospective educators and other professionals working in the field of English language teaching, and leads to a graduate qualification in TESOL (Teaching English to Speakers of Other Languages).

This course will assist you in understanding the connections between theory and practice, and the importance of developing strong evidence-based principles in English language teaching and learning.

The Master of TESOL has a professional placement in the final semester. You’ll choose between a teaching or observation placement.

This course doesn’t provide a recognised initial teaching qualification. Students seeking an initial teaching qualification should refer to the Master of Teaching course.

Special requirements

Working with Children Check.

Alternative exits

• Graduate Certificate of Education Studies
• Graduate Diploma of Education Studies

Artificial Intelligence (AI) has the ability to transform every aspect of our lives – from cars adapting themselves to robots performing complex surgery. AI can help to predict the path of bushfires, detect early-stage skin cancers, and counteract false and polarising information on social media. It informs business decisions, optimises operations, and drives outcomes of leading companies. The potential of AI is infinite.

Monash is the only university among the prestigious Group of Eight to offer a comprehensive Master of AI. This course will equip you with the skills and knowledge to achieve innovative outcomes. Under the guidance of internationally recognised experts, you’ll have an opportunity to apply your knowledge to real-world challenges to influence a range of industries including healthcare, agriculture and manufacturing.

- This course can be taken in accelerated part-time mode due to the online casual mode of delivery.

Data scientists play a major role in solving real-world business problems. From data curation and management to processing and analysis, data scientists help organisations harness information.

Our Master of Data Science prepares you for a career in the field, giving you skills in data management, analytics, data analytics, big data management and processing.

In this course you will cover statistical and exploratory analysis, data formats and languages, processing of massive data sets, and management of data and its effects in an organisation and the community.

Entry requirements

- Bachelor’s degree (or equivalent) in any field
- Credit (60%) 1.4

Alternative exits

- Graduate Certificate of Data Science
- Graduate Diploma of Data Science

Career options

- Chief data officer
- Data analyst
- Data architect
- Data engineer
- Data scientist
- Quantitative analyst

Accredited by the Australian Computing Society.

Master of DATA SCIENCE

**COURSE CODE:** C6004

**Clayton**

- On-campus
- Full-time: 1.5 or 2 years
- February and July

**Fees:**

- 2021 fees: $33,600 (2021 fees
- Fees are per 48 credit points, which represents a standard full-time course load for a year.
- Published durations apply to full-time study mode.

Our Graduate Diploma of Data Science puts you at the forefront of this exciting field.

Learn about statistical and exploratory analysis, data formats and languages, processing of massive data sets, and manage data and its effects in an organisation and the community.

Offered online, the course allows you to take one unit every two months, equivalent to half-time study, giving you the flexibility to combine study with work and family.

Entry requirements

- Bachelor’s degree (or equivalent) in a related field
- Credit (60%) 1.4

Career options

- Data scientist
- Data engineer

Graduate Diploma of DATA SCIENCE

- Enterprise data architect
- Systems analyst
- App developer
- Solutions architect
- Chief technology officer

Study this course for a pathway to higher-level research in IT. Our Graduate Certificate of Information Technology Research is suited to high-achieving students who've completed a relevant undergraduate and coursework master's degree but don't have a research component in order to progress.

You'll undertake research methodology training and carry out an independent research project on a selected topic, working closely with a supervisor who'll provide you with guidance and academic counseling.

### Entry requirements

**ELIGIBILITY**

- Bachelor's degree (or equivalent) in a related field
- Or equivalent approved by the faculty.

**Average requirements**

- Distinction 75% (70% for a full-time course load)
- 0.5

### Additional requirements

You'll also need to provide:

- a research proposal (500-1000 words)
- a detailed curriculum vitae listing your qualifications, work experience and details of two recent referees.

The Master of Digital Law will develop your knowledge and skills in law as it adapts to a digital and borderless world. This degree is a unique opportunity for students of all industry backgrounds to upskill in a legal specialisation that is key to our dynamic digital world. As new technologies present industries with new challenges, this degree will allow you to tackle these issues with authority.

When you study the Master of Digital Law through Monash Online, you'll join a faculty with a prestigious history in research that has a demonstrated positive influence in law reform and policy development.

This degree satisfies the academic requirements for admission to practice as an Australian lawyer.

Our Juris Doctor (JD) is an intensive, graduate-entry law degree designed for non-law graduates. It develops advanced professional skills in problem-solving, critical thinking, research, communication, collaboration, self-management, ethical awareness and professional judgement.

The JD recognises the specific needs of graduate entrants and teaches the skills available only from one of Australia’s leading law schools. Small class sizes and innovative teaching promote interactivity and in-depth learning.

**Clinical education experience**

Monash Law now offers a guaranteed clinical education experience for all students who wish to incorporate a practical component credited towards their Monash Law degree.

**Entry requirements**

- Bachelor’s degree (or equivalent) in any field¹
- Average (GPA) of 5.0 on a 7-point scale (or equivalent credit average)²
- You must satisfy one of the following three options:
  - Bachelor’s degree (or equivalent) in any field with at least a Grade Point Average (GPA) of 5.0 on a 7-point scale (or equivalent credit average)²
  - Incomplete studies in a law admission degree course, a minimum GPA of 5.0 on a 7-point scale in the law studies, with no fail result in the final year²

**Alternative exit**

Graduate Diploma of Legal Studies

A JD or a bachelor (hons) degree (or equivalent) in law, or an equivalent postgraduate qualification OR A bachelor degree (or equivalent) in law + a graduate diploma in law or graduate certificate in law, or an equivalent postgraduate qualification OR A bachelor degree (or equivalent) in law + sufficient relevant work-based or other learning that together constitute the equivalent of one of the above qualifications OR A bachelor degree (or equivalent) in law + admission to practice as an Australian lawyer

**Specialisations**

- Commercial and corporate law
- Criminal law and forensics
- Dispute resolution
- Global society and human rights
- Health law and community
- Labour and employment law
- Public sector governance and regulation
- Technology and innovation
- Transnational economic regulation

The degree you’re awarded will reflect your chosen specialisation.

---

¹ You’ll be assessed on your entire academic record. If you haven’t completed any formal study in the last eight years, you’ll be required to submit a current curriculum vitae and a completed Monash JD personal statement.

² In equivalent universities grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.

³ You’ll also need to supply a letter of proof of admission to practice law in Australia.

---

**Juris DOCTOR**

**COURSE CODE:** L6005

**RANKED TOP 40 IN THE WORLD**

**Master of LAWS**

**COURSE CODE:** L6004

**Entry requirements**

- Bachelor’s degree (or equivalent) in law from a non-Australian jurisdiction + a letter of assessment from the Victorian Legal Admissions Board (VLAB)²
- A JD or a bachelor (hons) degree (or equivalent) in law, or an equivalent postgraduate qualification OR A Juris Doctor (JD) degree (or equivalent) in law + a graduate diploma in law or graduate certificate in law, or an equivalent postgraduate qualification OR A Juris Doctor (JD) degree (or equivalent) in law + sufficient relevant work-based or other learning that together constitute the equivalent of one of the above qualifications OR A Juris Doctor (JD) degree (or equivalent) in law + admission to practice as an Australian lawyer

**Alternative exit**

- Graduate Diploma of Australian Law
- Graduate Certificate of Laws
Are you looking for a graduate pathway into the study of law? The graduate diploma in law is ideal for law graduates wanting to acquire further legal expertise, and adds value in the workplace as well as providing the opportunity to hone legal knowledge and skills. The Graduate Diploma in Law enables graduates of law to develop advanced knowledge and skills for legal or professional practice or higher learning, and is a pathway for entry to a masters degree.

**Entry requirements**

- Bachelor’s degree (or equivalent) in law or equivalent qualification as approved by the faculty.

**Alternative exit**

- Graduate Certificate of Laws

The Graduate Certificate of Laws is designed to let you advance your skills and knowledge of developments in the principles, practice and scholarship of one or more areas of law. You can focus on a specialised area or select from a broad range of electives for professional practice.

You’ll investigate contemporary issues in law, practice and scholarship, and evaluate complex legal issues from theoretical, global and interdisciplinary perspectives.

**Entry requirements**

- Bachelor’s degree in law or equivalent qualification approved by the faculty.

**Specialisations**

- Commercial and corporate law
- Criminal law and forensics
- Dispute resolution
- Global society and human rights
- Health and community law
- Labour and employment law
- Technology and innovation
- Public sector governance and regulation
- Technology and innovation
- Transnational economic regulation.

The degree you’re awarded will reflect your chosen specialisation.

**Additional requirements**

You’ll also need to submit:

- a CV that clearly outlines your role – including a description of tasks and responsibilities, as well as any research skills – and details the name of the organisation including the url of the organisation
- one original employment reference which supports your CV.

**Alternative exit**

- Graduate Certificate of Legal Studies
- Graduate Certificate of Legal Systems and Services

1 You’ll be assessed on your entire academic record.

2 In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualification/s must be accredited to the equivalent Australian level specified in the eligibility requirements table.

3 A related field is discipline study relevant to the specific area of specialisation.

4 Or equivalent qualification as approved by the faculty.

Graduate Diploma of BIOSTATISTICS

COURSE CODE: MG017

This course equips you with a broad range of theory and techniques for extensive upskilling in biostatistical methods. It gives you an understanding of the mathematical background, theory and application of the principles of epidemiology and biostatistics in health and medical research. It also develops the analytical skills you’ll need to become self-sufficient as a statistician.

Professional accreditation

Students graduating with the Graduate Diploma of Biostatistics obtain automatic accreditation status as Graduate Statistician (GStat) upon application to the Statistical Society of Australia.

Entry requirements

- Bachelor’s degree (or equivalent) in mathematics, statistics, science, psychology, medicine, nursing, health sciences or a quantitative discipline OR
- Graduate Certificate of Biostatistics from another university in the Biostatistics Collaboration of Australia, or equivalent qualification as approved by the faculty.

Additional requirements

- a curriculum vitae showing relevant work experience, or statement from an employer to substantiate period of employment
- a statement of purpose (250 to 300 words) outlining reasons for undertaking the course and your areas of interest.

Alternative exit

Graduate Certificate of Biostatistics

Master of BIOSTATISTICS

COURSE CODE: MG030

The Master of Biostatistics integrates biostatistics and entrepreneurship through a range of multidisciplinary coursework, research and work-integrated units in modern areas of studies that pave the way to myriad employment prospects.

This new course integrates biotechnology and entrepreneurship, and equips you with the skills and knowledge to work in one of Victoria’s fastest-growing sectors.

In addition to the industry placement program and research project, there are a range of coursework electives in interdisciplinary fields of pioneering developments in biotechnology research and enterprise.

Graduate Diploma of Clinical Embryology
**Clinical Medicine**

**Course Code:** M6023

- **Alfred Hospital**
- **Duration:** 2 years
- **Start Date:** February and July
- **Fees:** $28,000

The only course of its kind in Victoria, our Master of Clinical Research develops the analytical and communication skills necessary to work in the broad domain of clinical research and practice. Through this program, you'll develop a detailed understanding of biostatistics, epidemiology, data management, clinical trials, clinical measurement, ethical practice, systematic reviews and meta-analysis, and critical appraisal of the scientific literature for application in research and clinical practice.

**Specialisations**
- Clinical Emergency Medicine
- Translational medicine

**Entry Requirements**

**Eligibility**

- Bachelor's degree in a related field 3 + a minimum of two years’ relevant work experience or a statement from an employer to validate relevant work experience.

**Entry Requirements**

- Bachelor’s degree equivalent in a related field from any health-related qualification

**Additional Requirements**

- Relevant work experience or a statement from an employer to substantiate your period of employment.

**Alternative exits**

- Graduate Certificate of Clinical Research
- Graduate Diploma of Clinical Research (Translational Medicine)
- Graduate Diploma of Clinical Research (Translational Medicine)

**Graduate Certificate of Clinical Simulation**

- **Course Code:** M6018
- **Duration:** 1 year
- **Start Date:** February and July
- **Fees:** $14,500

This practice-based qualification is suitable for a broad range of health professionals who are, or will be, engaged in simulation-based education. This includes teaching, assessment, evaluation, mentoring and supervision of health professionals and students in a range of clinical and other contexts.

**Entry Requirements**

- Bachelor’s degree equivalent in a related field from any health-related qualification

**Specialisations**

- Clinical research
- Translational medicine

**Additional Requirements**

- Relevant work experience or a statement from an employer to substantiate your period of employment.

**Alternative exits**

- Graduate Certificate of Clinical Research
- Graduate Diploma of Clinical Research (Translational Medicine)
- Graduate Diploma of Clinical Research (Translational Medicine)

**Master of Dietetics**

**Course Code:** M6022

- **Clayton**
- **Duration:** 1.5 or 2 years
- **Start Date:** July
- **Fees:** $29,000

This course integrates academic teaching and learning with clinical, population health, food, service research and management experience, and is carried out in both academic and professional practice placement settings. You'll complete supervised placements in both clinical and community settings, gaining a breadth of professional experience.

**Program overview**

- **Eligibility**
  - Bachelor’s degree (or equivalent) in nutrition science 6 + Credit (60%) 1.5 (a second food/nutrition subject at any level is desirable) 5

This is the total 2021 fee for this 24-credit-point course. However you'll receive 12 credit points for specified credit courses, reducing the fee to $17,450 for 2021. (For fees for the short courses are charged separately.)

**Entry Requirements**

- Bachelor's degree equivalent in a science-based field 1 + a second food/nutrition subject at any level 4 (tailored to the student’s needs)

**Special requirements**

- Upon enrolment you'll be asked to:
  - comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements
  - obtain a Police Check (annual requirement)
  - obtain a Working with Children Check.

**Career options**

- Consultancy or private practice
- Food industry
- Food service and management
- Patient care

---

1 Your undergraduate degree must include: four units in chemistry/biochemistry, four units in human biology and human physiology, one unit in human nutrition and one unit in research methods. Your undergraduate degree must have been completed in the past 10 years unless you have been assessed on having work experience that the faculty considers equivalent.

2 Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.

3 Relevant fields include public health science and medicine.

4 Or an equivalent GPA as approved by the faculty.

5 In equivalent Monash University grading scale terms, a 50% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.

6 Science-based fields include biostatistics, epidemiology, data management, clinical trials, clinical measurement, ethical practice, systematic reviews and meta-analysis, and critical appraisal of the scientific literature for application in research and clinical practice.

7 For the most part, the majority of clinical face are facilitated through the University’s online learning platform, with additional face-to-face contact during designated study days at the Alfred Medical Research and Education Precinct in Melbourne.
Master of FORENSIC MEDICINE

COURSE CODE: M6009

Off-campus: $29,000 2022 fees (for 48 credit points of study)

The fee quoted is an annual fee based on 48 credit points of study (which represents a standard full-time course load for a year). To calculate an approximate per semester fee for this course, please multiply the annual fee listed by 0.5.

Your tuition will be completed at the Victorian Institute of Forensic Medicine, Department of Forensic Medicine, Sandbelt, Melbourne.

Build on your qualification in medicine, dentistry, biomedical science or radiography, and gain the advanced expertise that will make you highly sought-after in the forensic medical, dental or science fields.

Designed and delivered by Australia’s leading forensic professionals, you’ll develop sound knowledge of medico-legal principles, gain the skills to clearly communicate medico-legal issues to the justice system, prepare effective and objective medico-legal reports, critically evaluate the ethical and legal issues arising in forensic medical practice, and interpret wounds and injury patterns.

Specialisations

- Clinical forensic medicine
- Forensic odontology

Entry requirements

Entry eligibility

- Bachelor of Medical Science and Doctor of Medicine (or equivalent) + current employment in clinical practice with a minimum of three years' experience + satisfactory proof of appropriate current professional registration in your current country of residency and practice
- Bachelor of Forensic Science (Hons) + current employment in clinical practice with a minimum of three years' experience + satisfactory proof of appropriate current professional registration in your current country of residency and practice
- Bachelor of Biomedical Science (Hons) + current employment in a relevant laboratory setting with a minimum of two years' experience, OR
- Bachelor of Science (Hons) + current employment in a recognised forensic institute with a minimum of two years' experience.

Additional selection requirements

Proof of medical or dental registration, or registration as a radiographer with relevant registration board.

Alternative exits

- Graduate Certificate of Health Administration
- Graduate Diploma of Health Administration

Master of HEALTH ADMINISTRATION

COURSE CODE: M6007

Monash Online: $29,000 2022 fees (for 48 credit points of study)

The fee quoted is an annual fee based on 48 credit points of study (which represents a standard full-time course load for a year). To calculate an approximate per semester fee for this course, please multiply the annual fee listed by 0.5.

Your tuition will be completed at the Peninsula campus of Monash University, Sandbelt, Melbourne.

This course provides the academic preparation for managers in healthcare and public health, and those aspiring to such roles. You’ll receive structured learning in key management disciplines, including policy, organisational theory, financial management, human resources management, economics and marketing, with an emphasis on healthcare organisations and specific health-focused domains such as epidemiology, biostatistics and managing the patient care process.

Entry requirements

Entry eligibility

- Bachelor of Medical Science and Doctor of Medicine (or equivalent) + current employment in clinical practice with a minimum of three years' experience + satisfactory proof of appropriate current professional registration as a healthcare and public health manager or practitioner

Alternative exits

- Graduate Certificate of Health Administration
- Graduate Diploma of Health Administration

ADVANCED HEALTH CARE PRACTICE

COURSE CODE: M6001

NOTTING HILL, PENINSULA, MELBOURNE

1 or 1.5 years full-time
February and July

Monash Online: $34,900 2022 fees (for 72 credit points of study)

The fee quoted is an annual fee based on 72 credit points of study (which represents a standard full-time course load for a year). To calculate an approximate per semester fee for this course, please multiply the annual fee listed by 0.5.

Your tuition will be completed at the Peninsula campus of Monash University, Sandbelt, Melbourne.

Are you a medical practitioner, nurse, midwife, occupational therapist, physiotherapist, radiographer, radiation therapist, paramedic, primary healthcare practitioner or manager?

The Master of Advanced Health Care Practice is a pathway for professionals like you to gain a master’s-level qualification that enhances your qualifying course/unit-level course – and provides the widest range of career options for the future. This course is interdisciplinary, and you’ll complete a common module – Essentials of advanced healthcare practice and research – that reflects the collaboration required in practice to deliver the highest-quality healthcare.

Specialisations

- Generalist
- Midwifery
- Medical imaging
- Occupational therapy
- Paramedicine
- Primary health care
- Radiation therapy
- Paediatric physiotherapy

The degree you’re awarded will reflect your chosen specialisation.

Entry requirements

Entry eligibility

- Bachelor’s degree (or equivalent) in a related field + registration with the Australian Health Practitioner Regulation Agency (AHPRA) + completion of a four-year entry-to-practice undergraduate degree in a related field
- Bachelor’s degree (or equivalent) in a related field + registration with the Australian Health Practitioner Regulation Agency (AHPRA) + completion of a four-year entry-to-practice undergraduate degree in a related field

Credit (60%) and (60%) are required in both qualifications.

Selection is based on previous academic achievement. There are specific requirements for each specialisation; for further details, visit monash.edu/study.
Graduate Certificate of Health Management

COURSE CODE: M4006

Alfred Hospital
1 year
February and July

$14,500
2021 fees

This certificate targets professionals working within the healthcare sector who are keen to expand their knowledge in the management of health services.

It will give you the core competencies in health services management, including leadership, human resource and financial management of health services. The course is a pathway to further study in the Master of Health Management and the Master of Public Health.

Professional accreditation

This course is accredited by the Australasian College of Health Service Management (ACHSM).

Graduate Certificate of Health Management

Master of Health Management

COURSE CODE: M6008

Alfred Hospital
1.5 years
February and July

$29,000
2021 fees

If you’re working, or planning to work, in middle or senior management roles in healthcare, the Master of Health Management is for you.

Your core units cover law for health systems, clinical leadership and management, improving healthcare quality, financial issues in healthcare management, foundations health policy, epidemiology and biostatistics, reform and development of health services, and a health services management case study.

You can choose your electives from units offered in our Master of Public Health or other approved master-level management units.

You can also exit the course early with a Graduate Certificate of Health Management or a Graduate Diploma of Health Management, if you meet the requirements.

Professional accreditation

This course is accredited by the Australasian College of Health Service Management (ACHSM).

Graduate Certificate of Health Professions Education

COURSE CODE: M4009

Off-campus
1 year
February and July

$14,500
2021 fees

The Graduate Certificate of Health Professions Education will qualify you to apply principles and theories that inform educational practice in a range of clinical and other relevant contexts, and to undertake professional and highly skilled work and as a pathway for further learning.

This practice-based qualification is suitable for a broad range of health professionals who are, or will be, engaged in the teaching, assessment, evaluation, mentoring and supervision of health professionals in a range of clinical and other contexts.

The Graduate Certificate of Health Professions Education requires the successful completion of a foundation unit and two short courses from the Monash Institute for Health and Clinical Education eligible short course offerings.

Entry requirements

ELIGIBILITY
Bachelor’s degree (or equivalent) in a related field from any health-related qualification

Average requirements
1
With a contemporary and evidence-based curriculum, this course will keep you up-to-date with advanced and rapidly-changing technologies in the field. Learning from experienced practitioners and leaders in medical imaging research, you’ll explore MRI and its application to clinical diagnostic imaging, and build to an advanced understanding of MRI techniques.

You’ll gain the clinical judgement, decision-making and leadership skills to shape your future practice and take the next step in your career – whether that be progressing to a leadership role, engaging in research or developing new career pathways within your workplace.

**Entry requirements**

**ELIGIBILITY**

Bachelor’s degree (or equivalent) in a related field or a health science discipline leading to appropriate professional recognition or registration, OR

A general science degree with specialisation in anatomy, physiology or physics, OR

A biomedical or medical undergraduate/graduate-entry master’s degree

**Duration**

1 year

**Fees**

$12,450 2021 fees

This is the total 2021 fee for this 24 credit point course.

Our graduate-entry medical program is designed as an integrated, interdisciplinary curriculum. It will prepare you to graduate with the knowledge, skills and attributes of a beginning medical practitioner. You’ll use the discoveries of our renowned researchers put into clinical practice and benefit from our links with the largest healthcare provider network in Australia, which includes the Monash Medical Centre, The Alfred (Melbourne’s major casualty hospital), Eastern Health, and Victorian health services in rural, regional and outer metropolitan Melbourne.

**Professional accreditation**

This course is professionally accredited by The Australian Medical Council.

**Entry requirements**

**ELIGIBILITY**

Successfully completed (or be in the final year of) one of the following Monash University degrees:

- Bachelor of Biomedical Science
- Bachelor of Pharmacy
- Bachelor of Physiotherapy
- Bachelor of Science with specified units

**Average requirements**

Distinction (70%)

**Duration**

4 years

**Fees**

$11,300 2021 fees

Fees are per 48 credit points, which represents a standard full-time course load for a year.

If you want to pursue a career as an accredited sonographer, this course is for you.

After completing the first two foundational units of the course, you’ll take part in supervised clinical ultrasound training practice for a minimum of three days a week, or equivalent.

The final year of the course focuses on developing your research skills through an ultrasound research project. This course is fully supported by national recognised academics, sonographers and researchers.

**Professional accreditation**

This course is accredited by the Australian Sonographers Accreditation Registry.

**Entry requirements**

**ELIGIBILITY**

Bachelor’s degree (or equivalent) in radiography and medical imaging, OR

High Pass

**Average requirements**

High Pass (50+)

**Duration**

3 years

**Fees**

$7,950 2021 fees

Full fee: $29,000 2021 fees p.a.

The fee quoted is an annual fee based on 48 credit points of study, which represents a standard full-time course load for a year.

You will complete your first year of study at the Monash School of Rural Health on the Churchill campus of Federation University in Gippsland. From second-year onwards, you’ll be on clinical placement.

Commonwealth Supported Places (CSP)^ are available to eligible applicants. The corresponding Student Contribution Amount rates published in this guide is indicative and can vary depending on unit enrolment.

1. All applicants must also have passed Year 12 level physics or equivalent bridging course. Details of equivalent bridging courses in physics and human anatomy and physiology can be obtained from monash.edu/medicine/physics-bridging-course

2. Graduate Diploma of Medical Ultrasound, Graduate Certificate of Medical Ultrasound

3. Specialist sonographer in vascular, obstetrics and gynaecology, paediatrics or musculoskeletal ultrasound practice

Gain the skills to deliver collaborative and optimal perioperative care to patients presenting with complex, chronic and acute medical conditions requiring surgical intervention.

Our Master of Medicine takes an evidence-based and risk-informed approach to the graduate-clinical medicine interventions in modern surgical settings. You’ll also develop skills in research and clinical leadership in this emerging medical discipline.

**Entry requirements**

**ELIGIBILITY**

M4019 or an equivalent basic medical degree recognised by the Medical Board of Australia or equivalent qualification approved by the faculty + completion of two years’ clinical hospital medicine

**Duration**

1 year

**Fees**

$6,290 2021 fees

Fees are per 48 credit points, which represents a standard full-time course load for a year.

If offered a place in the course, there is no guarantee that you will be offered CSP. The corresponding Student Contribution Amount rates published in this guide is indicative and can vary depending on unit enrolment.

1. Competition for limited clinical training placements is very high. Applicants from a non-imaging background are strongly advised to secure their clinical placement before undertaking this program. The University does not accept any responsibility for finding clinical placements.

2. Applicants must have passed Year 12 level physics or equivalent bridging course. Details of equivalent bridging courses in physics and human anatomy and physiology can be obtained from monash.edu/medicine/physics-bridging-course

3. You will complete your first year of study at the Monash School of Rural Health on the Churchill campus of Federation University in Gippsland. From second-year onwards, you’ll be on clinical placement.

4. This degree must include “full body” human anatomy and physiology.
This course develops the professional knowledge and skills for clinicians delivering mental health care. The course can be completed by coursework or, if you’re seeking to build your research capability, you can incorporate a research project or minor thesis as part of your studies.

Whatever specialisation you choose, you’ll graduate with the ability to evaluate research literature, identify research gaps, conduct practice-based research projects, and develop, apply and advocate evidence-based best practice.

Specialisations
- Child psychotherapy studies
- Mental health
- Psychiatry.

The degree you’re awarded will reflect your chosen specialisation.

Professional accreditation
(Master of Psychiatry only)
Accredited by the Royal Australian and New Zealand College of Psychiatrists, our course is a formal education course for trainees.

Our course is purpose-written to follow the curriculum provided by the Royal Australian and New Zealand College of Psychiatrists (RANZCP), and strongly links to their competency-based Fellowship Program. All of our unit coordinators are RANZCP-accredited supervisors, and your assessments are specifically designed to prepare you for your College Fellowship exams.

The Master of Advanced Clinical Nursing prepares you for leadership roles in nursing.

In this course you’ll develop advanced-practice knowledge and leadership in specialist practice, including skills to plan, implement, coordinate and evaluate healthcare, as well as the ability to formulate policy for a diverse and multicultural society.

The program has flexible teaching delivery options and offers a range of individual career pathways, including nursing, education or management positions within industry, government or independent professional practice.

Specialisations
- Cardiac Nursing (Clayton)
- Emergency nursing (Peninsula)
- Intensive care nursing (Clayton)
- Medical surgical nursing (Clayton)
- Mental health nursing (Peninsula)
- Nurse practitioner (Clayton)
- Paediatric nursing (Clayton)
- Perioperative nursing (Clayton)
The Master of Advanced Nursing prepares you for leadership roles in management and education.

You’ll develop advanced-practice knowledge and leadership in specialist practice, including skills to plan, implement, coordinate and evaluate healthcare, as well as the ability to formulate policy for a diverse and multicultural society.

The program has flexible delivery options, and offers a range of individual career pathways, including nursing, education or management positions within industry, government or independent professional practice. Most specialisations can be taken by coursework, or a combination of coursework and research.

Specialisations
- Advanced nursing studies (Clayton, Peninsula)
- Disaster nursing (Peninsula)
- Nursing leadership and management (Clayton)
- Trauma nursing (Clayton)

Additional requirements
- You’ll also need to submit:
  - an application letter advising specialisation
  - certified evidence of current nursing registration.

Special requirements
- Upon enrolment you’ll be asked to:
  - comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements
  - obtain a Police Check (annual requirement)
  - obtain a Working with Children Check.

Alternative exits
- Graduate Certificate of Advanced Nursing
- Graduate Diploma of Advanced Nursing

From the very beginning of your course, you’ll be immersed in an intensive program where you’ll develop your clinical experience and skills in an environment that reflects what modern-day healthcare looks, feels and sounds like. These clinical learning environments also use high-fidelity mannequins that react to the treatment you give them, using the same equipment you’d be expected to use in your hospital/clinical placements. Clinical placements will be conducted in metropolitan and regional Victoria, where you’ll put classroom concepts into practice on the wards and really start to explore the science and art of nursing and midwifery practice.

Once graduated, you’ll be skilled in problem-solving and clinical reasoning, competent and safe in your practice of clinical nursing skills, and able to work within legal and ethical standards of practice to provide high-quality nursing care.

Professional recognition

Successful completion of the course will lead to eligibility for registration as a registered nurse with the Nursing and Midwifery Board of Australia (NMBA) provided that you’ve also met the current NMBA Registration standard: English language skills. Registration with the NMBA is a legal requirement for practicing as a registered nurse in Australia.

</table>

Special requirements

- Upon enrolment you’ll be asked to:
  - comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements
  - obtain a Police Check (annual requirement)
  - obtain a Working with Children Check.

Extra requirements

To be considered for a place in a nursing course which leads to registration, it is an Australian Nursing and Midwifery Accreditation Council accreditation requirement that an entry into the course you meet the Nursing and Midwifery Board of Australia (NMBA) English Language requirements for registration. This is in addition to Monash University’s course-specific academic admission requirements. You’ll be required to upload a self-declaration form with their application.

1 There are limited places available in this course. The entry score is only indicative. All applicants must have completed either one 6-credit-point unit of study in human anatomy/physiology or related area from any recognised tertiary institution, or the Monash Human Biology short course for equivalent.
2 In equivalent Monash University grading scale terms, a 75% scale where 50% is a pass. Your prior qualifications must be equivalent to the specified Monash University level for eligibility requirements.
3 Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
4 Discipline study relevant to the specific area of specialisation.
5 Applicants who are already registered nurses in Australia or overseas aren’t eligible to be considered for this course.

You’ll learn to systematically control related hazards and exposures within a broad range of workplace and community environments.

You’ll be equipped to take responsibility for high-level independent judgements, and initiate, implement and evaluate risk management interventions within varied occupational and environmental contexts.

This course is particularly suited to medical practitioners, nurses, allied health personnel, scientists, and occupational health and safety managers. It’s offered by off-campus learning, however compulsory block attendance is required each semester.

Professional Accreditation

This course is professionally accredited by the Australian OHS Education Accreditation Board.

Master of OCCUPATIONAL THERAPY PRACTICE

COURSE CODE: M6017

Peninsula
ON-CAMPUS
2 years
FULL-TIME → July

$29,000
2021 fees p.a.
Fees are per 48 credit points, which represents a standard full-time course load for a year.

FIELDWORK: 1,000 HOURS

This course offers advanced education and training in pre-hospital care in an intense care, extended care or aeromedical and retrieval specialisation. You’ll extend your clinical practice by initially undertaking specialist paramedic-focused training in advanced clinical leadership and decision-making, as well as advanced techniques, in order to provide the highest level of care in your chosen specialisation. You’ll also explore clinical practice within an integrated emergency medical system, and consider the issues and trends that influence scope of practice and service delivery.

The Master of Specialist Paramedic Practice includes a residency graduate certificate for the aeromedical and retrieval specialisation, as well as a graduate diploma for the intensive care and extended care specialisations.

Specialisations
- Aeromedical retrieval
- Intensive care

Offered by Monash’s Department of Medical Imaging and Radiation Sciences, this course is perfect for health professionals wanting to broaden their clinical knowledge and develop skills in the analysis of x-ray images. You’ll enhance your skills in image analysis and the interpretation of x-ray images generated within the context of emergency and trauma.

Specialist units are designed to further develop your ability to distinguish growing bone and the mature skeleton on x-ray images and those associated with pathological change. We also offer the opportunity for you to complete an elective that is particular to your clinical practice.

### Entry requirements

**ELIGIBILITY**

A bachelor’s degree in a health discipline leading to registration or accreditation by a recognised professional body.

**Duration**

0.5

**Additional requirements**

You must be a practising health professional with at least two years’ full-time experience in the health-care sector.

---

Clinical pharmacy no longer happens only in hospitals. With the growth of patient-centred care, clinical pharmacy is being practiced in a wide variety of healthcare settings.

This course will enable you to advance your skills in the provision of clinical pharmacy services to patients with complex clinical needs, with a focus on evidence-based practice and quality use of medicines.

You’ll have the option of completing the course through either the coursework stream or the coursework and research stream.

In the coursework stream you’ll be able to select units to suit your interest and career aspirations. These studies cover aspects of pharmacy practice, clinical pharmacy, economics and wound care.

If you’re a pharmacist looking to include a practice-based research project in your study, the coursework stream and research stream will help you gain specialist clinical knowledge in addition to advanced skills in research and clinical pharmacy practice.

This course is designed to be flexible enough to fit into any pharmacist’s professional development plan. The learning experience is both student-driven and patient-focused.

### Entry requirements

**ELIGIBILITY**

Bachelor’s degree in pharmacy and registration as a pharmacist.

**Duration**

3.5

### Alternative exits

- Graduate Certificate of Clinical Pharmacy
- Graduate Diploma of Clinical Pharmacy

---

Clinical pharmacy no longer happens only in hospitals. With the growth of patient-centred care, clinical pharmacy is being practiced in a wide variety of healthcare settings.

This course will enable you to advance your skills in the provision of clinical pharmacy services to patients with complex clinical needs, with a focus on evidence-based practice and quality use of medicines.

You’ll have the option of completing the course through either the coursework stream or the coursework and research stream.

In the coursework stream you’ll be able to select units to suit your interest and career aspirations. These studies cover aspects of pharmacy practice, clinical pharmacy, economics and wound care.

If you’re a pharmacist looking to include a practice-based research project in your study, the coursework stream and research stream will help you gain specialist clinical knowledge in addition to advanced skills in research and clinical pharmacy practice.

This course is designed to be flexible enough to fit into any pharmacist’s professional development plan. The learning experience is both student-driven and patient-focused.

### Entry requirements

**ELIGIBILITY**

Bachelor’s degree in pharmacy and registration as a pharmacist.

**Duration**

2.4

### Alternative exits

- Graduate Certificate of Clinical Pharmacy
- Graduate Diploma of Clinical Pharmacy

---

1. Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
Humanity is developing at a rate that’s giving rise to widespread environmental, economic and social challenges. If you’re future-conscious and want to transform society through sustainable solutions, this is your chance to learn the skills you’ll need. This course will give you the training, language and tools to be a leader in a rapidly growing field.

Get hands-on, real-world experience through an internship, or an interdisciplinary industry or research project or thesis to help drive innovation, and be taught by experts from multiple disciplines and sectors who are leading the environment and sustainability agenda in Australia and internationally.

Specialisations
- Corporate environmental and sustainability management
- Environment and governance
- Environmental security
- International development and environment
- Leadership for sustainable development.

Do you have an aptitude and passion for mathematics and statistics, a keen interest in finance and insurance, and want to work for a major institution in finance, insurance or the money market? Our Master of Financial Mathematics gives you a deep understanding of the finance world, and the ability to speak its language. Combining theory with hands-on practical skills via an industry placement or research project, the program ensures you’ll graduate with the skills increasingly sought-after by banks and other financial institutions.

This degree recognises the urgent need to address the future of human food supply in the face of global population and environmental pressures, and the dependence of human welfare and geopolitical stability on food supply adequacy and accessibility.

The Master of Food Science and Agribusiness is a forward-thinking, interdisciplinary degree, involving the faculties of Science, Engineering, Medicine, Nursing and Health Sciences, and Business, as well as the Monash Food Innovation Centre.

The Master of Food Science and Agribusiness integrates the knowledge needed to recognise and address these future global challenges.

With continued improvements in DNA sequencing technology, genome-based diagnosis and health management, the healthcare system stands at the gateway to a future where diseases are diagnosed early and precise treatments provided. However, in the absence of enough specialist genome analysts, we cannot translate and expand the discoveries from genome sequencing to the healthcare system, and ultimately improve health.

The Master of Green and Sustainable Technologies recognises the increasing demand for graduates with expertise in green chemistry to lead the transformation of chemical and other industries where the chemistry and chemical engineering play a crucial role, in delivering the products coming from those industries.

As a student in this program, you’ll have the opportunity to design and implement new products and processes that will highlight the role that chemistry has to play in addressing the UN Sustainable Development Goals.

Mathematics underpins our way of life and our prosperity. Its importance ranges from fundamental developments enabling new technologies, to theories backing up scientific research, to analyses of our physical and societal environments.

This course is designed for graduates with a bachelor’s degree and a strong foundation in mathematics. You’ll acquire advanced knowledge and skills in mathematics, and the capacity to use them to tackle complex problems in a variety of situations.

**Specialisations**

- Astrophysics
- Atmospheric science
- Earth science
- Physics

The degree you’re awarded will reflect your chosen specialisation.

**Degree awarded**

- Bachelor’s degree (or equivalent) in mathematics
- Bachelor’s degree (or equivalent) in a related science discipline
ADMISSIONS AND APPLICATIONS

Applications for graduate coursework programs can be made online via monash.edu/study/apply
All applicants for coursework programs must meet the minimum entry requirements and English language requirements.
For details, visit:

FEES

We’re committed to providing you with an ever-evolving, modern student experience where you can take charge of your studies while being guided by highly qualified educators who are informed by, and engaged with, industry and the community.
We’re investing in innovative learning environments to deliver collaborative, contemporary and flexible learning opportunities. We embrace the opportunities offered by technology and innovation, and embed them in our teaching, in order to prepare you for any career you pursue, including those that aren’t yet created.
Our blended learning environment – physical, digital and virtual – prepares you for the workplace, and makes your time at Monash both satisfying and transformative. This underpins our philosophy that the Monash experience extends far beyond university.
In setting our fees, we take into account various factors, including the Consumer Price Index, teaching costs, market trends, demand for expertise, and competitor pricing.
We acknowledge that gaining an internationally recognised qualification comes at a cost, but we ensure that the price of our degree programs mirrors the true cost of delivering a premium educational experience where you’ll learn from some of the finest minds in the world.

Tuition fees
Graduate coursework courses are generally offered as full-fee-paying places with a limited few available with Commonwealth Supported Places (CSP). All tuition fees and course durations specified in this guide are in Australian dollars and apply only to courses studied at Australian campuses. The tuition fees quoted are for 48 credit points and are applicable to courses commencing in 2021. Tuition fees for courses commencing in 2022 will be different. Monash University reserves the right to adjust the annual tuition fees in future years of your course. Any adjustment will be applied on the first day of January each year for teaching periods with a census date thereafter.

monash.edu/fees

Eligible fee-paying students may use a FEE-HELP loan to pay for all or part of their tuition fees.
monash.edu/domestic-full-fee

Commonwealth Supported Place (CSP)
Each unit of study is classified into a student contribution band, depending on the study area of the unit (this may be different from the study area of your course). The amount you pay for your unit of study is usually the maximum allowed by the government for that band.
The below table outlines the annual student contribution amount for a full-time student who’s enrolled in a standard full-time course where all units are in the same band. The rates specified are those for an equivalent full-time student load, typically 48 credit points.

SCHOLARSHIPS TO UNLOCK YOUR TALENT

At Monash, we’re committed to attracting academic high achievers and producing internationally competitive graduates.

COURSEWORK SCHOLARSHIPS
If you’re a prospective or continuing coursework graduate student, there’s a variety of scholarships and grants available.

Academic scholarships
Our Monash scholarships aim to attract academically gifted students.

Accommodation scholarships
We offer scholarships to help cover the costs of your accommodation, and there are even scholarships to support any relocation costs.

Indigenous students
We offer many scholarships for Indigenous students, with each of our faculties also offering opportunities to attend Monash through their own scholarship programs.

Equity scholarships
We recognise that sometimes your personal circumstances can impact on your studies. If you’re from a low-income background, have a disability or medical condition, live in a regional or remote area, from an asylum-seeking background, or have experienced difficult circumstances, we offer scholarships to ensure that none of these factors prevent you from pursuing your dreams.

For more information, please visit monash.edu/graduate-research/future-students/scholarships

At Monash, we believe in giving our students the best chance to achieve their potential and our range of scholarships reflect this commitment.

The number of scholarships and grants offered each year varies. So find the right scholarship for you at monash.edu/scholarships
