"MONASH ON THE MOVE" IS OPEN DAY SLOGAN

Forty departments and organisations throughout the university, along with a larger than usual number of Clubs and Societies, have agreed to take part in Open Day on Saturday, August 12.

The university will be officially open to the public from 10 a.m. to 5 p.m. and the event is expected to draw record crowds.

This year we have adopted the slogan "Monash on the Move" as our Open Day theme and this tag will be used in advance publicity as well as in association with displays and exhibits on the day itself.

Departmental organisers are reminded that details of their activities to be included in the official program should be forwarded to the Information Office, 1st floor, University Offices, before July 14. Lecture theatre bookings should be arranged with Miss Caroline Piesse (Union – extn. 3101) as soon as possible, and requests for attendants, removal of furniture and cleaning of areas on the morning of August 12 should be directed to Mr. D. Newton (Central Services – extn. 2082). Miss Vicki Molloy (Activities Officer – 3180) has undertaken to co-ordinate student activities, and Mr. Paul Jenes (assistant sports administrator – 2099) is in charge of sporting fixtures.

It is hoped that full catering facilities will be available, and as in 1971 the engineering students will provide a barbecue lunch in the Engineering Lecture Theatre foyer. Last year, visitors to the physics department availed themselves of tea and coffee in the staff tea-room and Mr. A.J. O'Brien, laboratory manager, has suggested that other departments with similar facilities could make informal arrangements to serve visitors.

Inquiries or suggestions regarding Open Day should be directed to the Information Office, extensions 2087-3087.

POLLUTION: COURSE BY CHEMICAL ENGINEERS

The Monash department of chemical engineering has arranged an intensive course of lectures, tutorials and practical work in air and water pollution, to be held from Wednesday, July 5, to Wednesday, July 12.

The course will be open to graduates within the university and in industry, and will comprise three sections. Fees will be \$140 for the full course, or \$95 for two of the three sections.

Course lecturers from the department of chemical engineering will be: Professor O.E. Potter, Dr. K.N. Han, Dr. G.A. Holder, Dr. F. Lawson, Mr. I.H. Lehrer and Dr. P.H.T. Uhlherr. Guest lecturers will be Dr. W.H. Melbourne, department of mechanical engineering; Dr. N.E. Norman, Australian Paper Manufacturers; Mr. J. O'Heare, SECV; Mr. E.J. Swift, SECV.

ASPAC FELLOWSHIP FOR EDUCATION LECTURER

Dr. F.J. Hunt, senior lecturer in education, has been awarded an Asian and Pacific Region Fellowship to study social science and intercultural education in schools in several East and South-East Asian countries. During the coming semester break he expects to visit Korea, the Philippines, Thailand and Malaysia.

Dr. Hunt will consult social science educators on current work in these countries and will explore possibilities for co-operative work in curriculum development and teacher education.

POLISH COUPLE'S MONEY TO "BENEFIT YOUNG PEOPLE"

Mrs. Syma Buxton, an elderly Polish-born widow, has given Monash University \$5000 to be held in perpetuity and the income to be applied towards scholarships named after her late husband.

Mr. and Mrs. Buxton, who had no family, came to Australia about 40 years ago. They decided that they wished to leave their estates to be used for the benefit of young people in Australia, but Mrs. Buxton has decided to advance \$5000 from the proceeds of the sale of their Noble Park home. She is now living in the Montefiore Homes for the Aged, St. Kilda Rd.

Details of the scholarships have not been finalised, but in accordance with Mrs. Buxton's wishes, they will be known as the "Max Buxton Scholarships".

THEFTS CAUSE CONCERN

Thirty-nine thefts, involving a considerable amount of university and personal property, were reported to the Central Services office between February 1 and May 3 this year.

Of the items stolen, 36 have been valued at \$1428, but many other items of indeterminate value have been stolen, including a late-model car, and purses and wallets containing driving licences, bank pass books, airline tickets and other personal effects.

The university's Security Committee has expressed concern that many of the thefts involved forcible entry to offices, desks and drawers and were apparently systematic and pre-planned. Previously there had been a pattern of largely unpremeditated offences, committed as opportunities presented themselves.

MODERN SCIENCE IN CHINA

Professor Ho Peng-Yoke, director of the Department of Chinese Studies, University of Malaysia, is visiting Monash today to lecture on "Modern Science in China". The lecture, arranged by the history department, will be held in R1 at 5.15 p.m.

Professor Ho is currently Asian Fellow in the Department of Asian Studies, ANU, and is a collaborator with Sir Joseph Needham in the "Science and Civilisation of China" series.

On Thursday, June 15, at 8 p.m. Professor Ho will lecture in the Lyle Theatre, Redmond Barry building, University of Melbourne. His subject will be "The Search for Perpetual Youth in China, with special reference to Chinese Alchemy".

bas and 2 of "STORK" RETURNS TO MONASH To sel like vales with ad 1

STORK, the Australian-made film written by Monash engineering graduate David Williamson, will play a one-week season at the Alexander Theatre, beginning on Monday, June 19.

Apart from the author, the film has a number of links with the university: several scenes were shot on campus, using students from the Monash Players, and the star — Bruce Spence — appeared on the Alexander stage in the 1970 production of "Rozencrantz and Guildenstern are Dead".

STORK will be shown nightly at 8 p.m., Monday to Saturday, with a matinee at 2 p.m. on Wednesday, June 21. Prices: Adults, \$1.50; students, 80c.

PIANO RECITAL IN RBH

Pianist Kathleen Brady will perform works by Beethoven, J.S. Bach, Haydn and Schumann at a public concert in Robert Blackwood Hall on Thursday, June 15, at 8.15 p.m.

Miss Brady, who is well-known as a private tutor to Monash students, has studied at the University of Melbourne and the Quebec Provincial Conservatoire de Musique. She has given many recitals in Melbourne and overseas.

Tickets may be obtained at the MAS office in the Union or at the door. Prices: Adults, \$2; students, \$1.

STUDENT ARTISTS SHOW THEIR WORK

A display of paintings and prints by senior art students of the Royal Melbourne Institute of Technology opened in the Law Faculty today. The exhibition — in the basement of the Law building — will be open for 10 days.

FREE FORUM ON "DANTON'S DEATH"

A free public forum — Revolution and Terror — will be held in lecture theatre R6 on Tuesday, June 20, at $8\ p.m.$

The forum — a discussion of Buchner's "Danton's Death" — will be chaired by Dr. Alan Roberts.

Principal speakers will be Professor Leslie Bodi, Miss Margaret Rose, Dr. David Roberts, Mr. Max Teichmann and Mr. Graham Worrall.

Authorised by K.W. Bennetts, Information Officer.
