

MASTER OF CRITICAL CARE PARAMEDICINE

BECOME A LEADER IN OUT-OF-HOSPITAL CARE

Are you looking to take your paramedic career to the next level? At Monash, we have a proud history of educating Australia's most specialised paramedics, who provide the highest levels of emergency and out-of-hospital care.

The Master of Critical Care Paramedicine expands your knowledge, skills and clinical decision-making, preparing you for critical care roles. In the Master of Critical Care Paramedicine you'll learn advanced pathophysiology of complex diseases and injuries and contemporary evidence-based treatment pathways. This ensures you are ready to deliver patient-focused care in the prehospital environment. Our course is taught by some of the most experienced clinicians and active researchers and international subject matter experts, so your learning is continually informed by the latest research.

In the Master of Critical Care Paramedicine you will:

- develop autonomous clinical reasoning and decision-making abilities
- learn advanced techniques to provide the highest level of out-of-hospital care
- enhance your professional capabilities in leadership, team work and communication
- build research skills, apply research to practice and complete your own research project.

COURSE STRUCTURE

CLINICAL UNITS	RESEARCH UNITS	ELECTIVE UNITS
Extend your clinical knowledge and practice within the six core clinical units, including advanced airway concepts, trauma care and complex cardiac aetiologies.	Broaden your capacity to conduct research related to either intensive care, community care or aeromedical retrieval.	Electives are available from across the School of MNHS, aimed at broadening your knowledge within the healthcare system. Topics include: Emergency Management, Education, Patient Safety and Quality Improvement, and Healthcare Leadership.

You may be eligible to exit early with a Graduate Diploma if the award requirements have been met.

Study mode

Off-campus

Intakes

First semester: February

Durations

Part time: 3 years

Studying the MCCP through Monash gave me the unique opportunity to expand my clinical knowledge and skills and to connect with a community of specialists who were able to bring the content to life with their real-world experience. The flexibility of the course structure allowed me to undertake meaningful research following my critical care internship.

Julia Massingham

CCP and CSO

CORE CLINICAL UNITS

As part of your core clinical units, you will gain a solid foundation, explore contemporary clinical practice, and learn how to provide high quality pre-hospital critical care in any setting

ELECTIVE UNITS

You will have the option, in your final two semesters to choose from a wide range of pre-approved electives from the Faculty of Medicine, Nursing and Health Sciences.

You will have to opportunity to develop holistically as a clinician, and learn from other allied and emergency health professionals in fields like patient safety, emergency management and clinical education.

RESEARCH ELECTIVES

Monash is recognised globally for research excellence. As part of the Master of Critical Care Paramedicine, you have the opportunity to work on a research project with one of our expert supervisors.

Completing this research project can be used as a pathway to a graduate research degree, such as Doctor of Philosophy.

CAREER OPPORTUNITIES

Completing the Master of Critical Care Paramedicine prepares graduates for an internship or employment in prehospital services as a critical care/intensive care paramedic.

Our course also provides you with transferrable, professional skills including:

- Research
- Patient Safety
- Education and training
- Leadership and management
