MAKE A DIFFERENCE TO THE LIFE OF OTHERS

The Bachelor of Psychology (Honours) is designed to help you work towards registration as a psychologist or pursue postgraduate studies.

Learn from game-changing researchers who are transforming the way we think about the brain.

You’ll need to complete a minimum of five years of university training to become a registered psychologist in Australia. This can be achieved by completing our fourth year Bachelor of Psychology (Honours) followed by a Masters qualification in psychology.

Our psychology honours degree puts you at the forefront of new discoveries in cognitive neuroscience and clinical psychology.

In the Bachelor of Psychology (Honours) you will:

■ Undertake advanced psychological research.
■ Advance your skills in interpersonal communication, research, statistics, and project management.
■ Further explore complex biopsychosocial factors that influence human thoughts, feelings and behaviour.
■ Critically evaluate and communicate research using a variety of sources.
■ Engage in research inquiry and develop critical and innovative thinking to investigate the science and practice of psychology.

COURSE STRUCTURE

YEAR 1

| Psychology Honours Research Project |
| Ethics, legal and professional issues |
| Statistics and data science |
| Psychological assessment and intervention |
| Digital innovations and their applications to cognitive and mental health OR Advanced data science |

On-campus (Clayton)

Intakes
February

Durations
Full time: 1 year

Danielle Amiet
Bachelor of Psychology (Honours) graduate

“Monash specifically has great connections with industry and non-for-profit organisations out in the community to really help you build your skill set, and professional connections.”

Group of Eight Australia
HONOURS IN PSYCHOLOGY

Honours introduces you to advanced psychological research by completing a research project supervised by one of our experts. Projects are available across these themes:

- Addiction and mental health
- Ageing and neurodegeneration
- Brain injury and rehabilitation
- Brain mapping and modelling
- Neurodevelopment
- Sleep and circadian rhythms.

CAREER OPPORTUNITIES

Many opportunities exist for our graduates, including academic and industry research, clinical psychology, clinical neuropsychology, educational psychology, developmental psychology, organisational psychology, teaching, and many other related careers.

BECOMING A PSYCHOLOGIST

To be eligible for provisional registration as a psychologist in Australia you must meet the requirements of the Psychology Board of Australia. The first step is to complete five years of approved study in psychology. The honours year of the Bachelor of Psychology (Honours) provides the fourth year. To be eligible for general registration as a psychologist, further study must be undertaken at masters or doctoral level, or completion of fifth year and supervised practice.

PROFESSIONAL RECOGNITION

The Bachelor of Psychology (Honours) covers the fourth year of study in psychology that will be accredited by the Australian Psychology Accreditation Council (APAC) (Monash University is currently seeking APAC accreditation).

"Essentially being the leader of my own project, from recruitment to analysis, quickly enabled me to develop invaluable research skills under the guidance of an excellent supervisor and a very supportive group."

Ria Jumabhoy
Bachelor of Psychology (Honours) graduate
