

**TWO LINES** S1:2023 Mondays 14:00 - 17:00

**JASON CROW © 2023**

The 2023 **TWO LINES** studies unit engages in a **HUSSERLIAN** critique of computationally assisted architectural representation in order to develop a better understanding of the role of embodiment for projecting architectural futures. The unit focuses on introducing visual scripting and robotic programming in the Grasshopper - Firefly environment to develop simple, realtime control systems for reanimating architectural
