NOTE: The entry requirements listed on the course pages are for domestic students only. International student entry requirements are located on pages 42-44.

MONASH UNIVERSITY recognises that its Australian campuses are located on the unceded lands of the people of the Kulin Nations, and pays its respects to their Elders, past and present.

YOUR LIFE AT MONASH A WORLD OF OPPORTUNITY

University life is the start of an adventure, and with Monash Arts you'll be inspired by the people you meet, the discoveries you make and the places you can go.

Find out more: monash.edu/arts/be-supported

VIBRANT CAMPUS LIFE

Feel the vibe with live music performances, amazing food options and student activities, and focus on your wellbeing at our sporting centres and swimming pools.

CLUBS AND SOCIETIES

With over 100 groups to choose from, you'll be sure to find your tribe.

Learn more: monash.edu/students/campus-life/clubs

WORLD LEADING ACADEMICS

Our academics might be global change makers, but they're just as famous for being approachable, friendly and keen to help you succeed.

BACHELOR + MASTER'S PROGRAM

Plan ahead and graduate with a bachelor and a master's degree in as little as four years.

See page 11.

STUDY IN STYLE

Late night hours in our stunning libraries at Clayton and Caulfield campuses make studying a breeze.

EASY RIDER

Our free campus-to-campus shuttle makes getting to class simple.

PEER MENTORING

We match every first-year student with a peer mentor from Arts to ease your transition to university life and help you build friendships.

Learn more: monash.edu/access-inclusion-success/peer-mentoring

INTERNSHIPS AND INDUSTRY PARTNERSHIPS

All of our courses offer Industry Experience internships either in Australia or overseas. Build your networks and unlock a world of career opportunities.

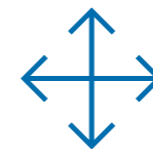

See page 5.

STUDENT ACADEMIC SUCCESS

Student Academic Success offers personalised support, workshops and online resources to help you develop the skills you need to succeed both in your studies and your future career, including academic and professional writing skills.

Learn more: monash.edu/student-academic-success

FLEXIBILITY

With over 30 areas of study, you can build yourself a degree that both makes the most of the amazing opportunities on offer and turns your passion into a career.

See page 28.

DOUBLE DEGREE OPTIONS

You're spoilt for choice with more than 40 double degree combinations to select from.

See page 9.

FREE

Enrich your degree to hone your academic and professional skills with a range of Flagship Rich Educational Experiences (FREE).

UNDERSTANDING THE TERMINOLOGY

COMPREHENSIVE DEGREE

At Monash Arts, this refers to the Bachelor of Arts. A comprehensive degree gives you the choice and flexibility to select your units (subjects), and requires you to complete 24 units in three years, including specific requirements such as completing an Arts major and Arts Professional Futures units.

SPECIALIST DEGREE

At Monash Arts, this refers to the Bachelor of Criminology, Bachelor of Criminology and Policing, Bachelor of Global Studies, Bachelor of International Relations, Bachelor of Media Communication, Bachelor of Music, and Bachelor of Politics, Philosophy and Economics. You need to complete 24 units in three years and meet the core requirements of the degree, for example, completing one of the nominated specialisations, studying the prescribed minor, studying overseas, or undertaking a professional project.

UNITS

Sometimes called a subject, units are usually worth six credit points each. You need to complete 144 credit points in a three-year degree. Some second-year and third-year units are worth 12 credit points, and are counted as two units – these units have a higher workload.

AREAS OF STUDY

An 'area of study' is a field of knowledge – for example, literary studies or sociology. Areas of study are sometimes called 'disciplines'. See pages 28-35.

MAJOR

A major is eight units from the same area of study. In the Bachelor of Arts, you don't have to decide on your major straight away, and you can explore up to four different areas of study in your first semester of your first year.

SPECIALISATION

An Arts specialisation is a feature in some of the specialist degrees. These units will deepen your knowledge in a specific area, providing you with the practical and theoretical skills needed to critically analyse, communicate and apply your disciplinary knowledge.

FREE ELECTIVE

There are eight free elective units in all single Arts degrees. These can be taken from Arts or from another teaching area of the University such as Information Technology, Science or Business.

BACHELOR'S DEGREE

A bachelor's degree is also referred to as an undergraduate degree and is generally your first degree out of high school.

MASTER'S DEGREE

A master's degree is also referred to as a postgraduate or graduate degree and is a higher qualification to a bachelor's degree, usually taken after you've completed a bachelor's degree.

GET CAREER READY

The future of work is changing. And you need to keep up. It's vital you learn how to thrive in a competitive and tech heavy professional landscape. Lucky for you, Arts, Humanities and Social Sciences graduates get jobs that are at low risk of automation.

GRADUATE WITH AN EDGE

Within one to three years of graduation, 90% of humanities, culture and social sciences graduates are in full-time employment,¹ and the employment outcomes and starting salaries of Arts graduates are on par with graduates from other disciplines.

Not only do they power two thirds of Australia's workforce, they shape the direction of our world.² Arts graduates include:

- 65% of chief executives in Australia's biggest public companies³
- 44% of world leaders.⁴

Our graduates have helped build a healthy democracy, regional security, a strong economy, accountable media, ethical industry, a booming tourism sector and so much more.⁵

BE IN DEMAND

Arts graduates have the expertise employers want:

- Strong communication
- Leadership
- Creative problem-solving
- Intercultural competence and global experience
- Cognitive agility
- People skills.

If you're looking to get job-ready as you hone the creative and critical skills needed for a meaningful career, you belong at Monash Arts.

DISCOVER WHERE A MONASH ARTS DEGREE CAN TAKE YOU...

monash.edu/arts/jobs-and-careers

ARTS INDUSTRY EXPERIENCE

Develop hands-on experience and industry connections as you earn credit towards your degree with an Industry Experience (IE) internship.

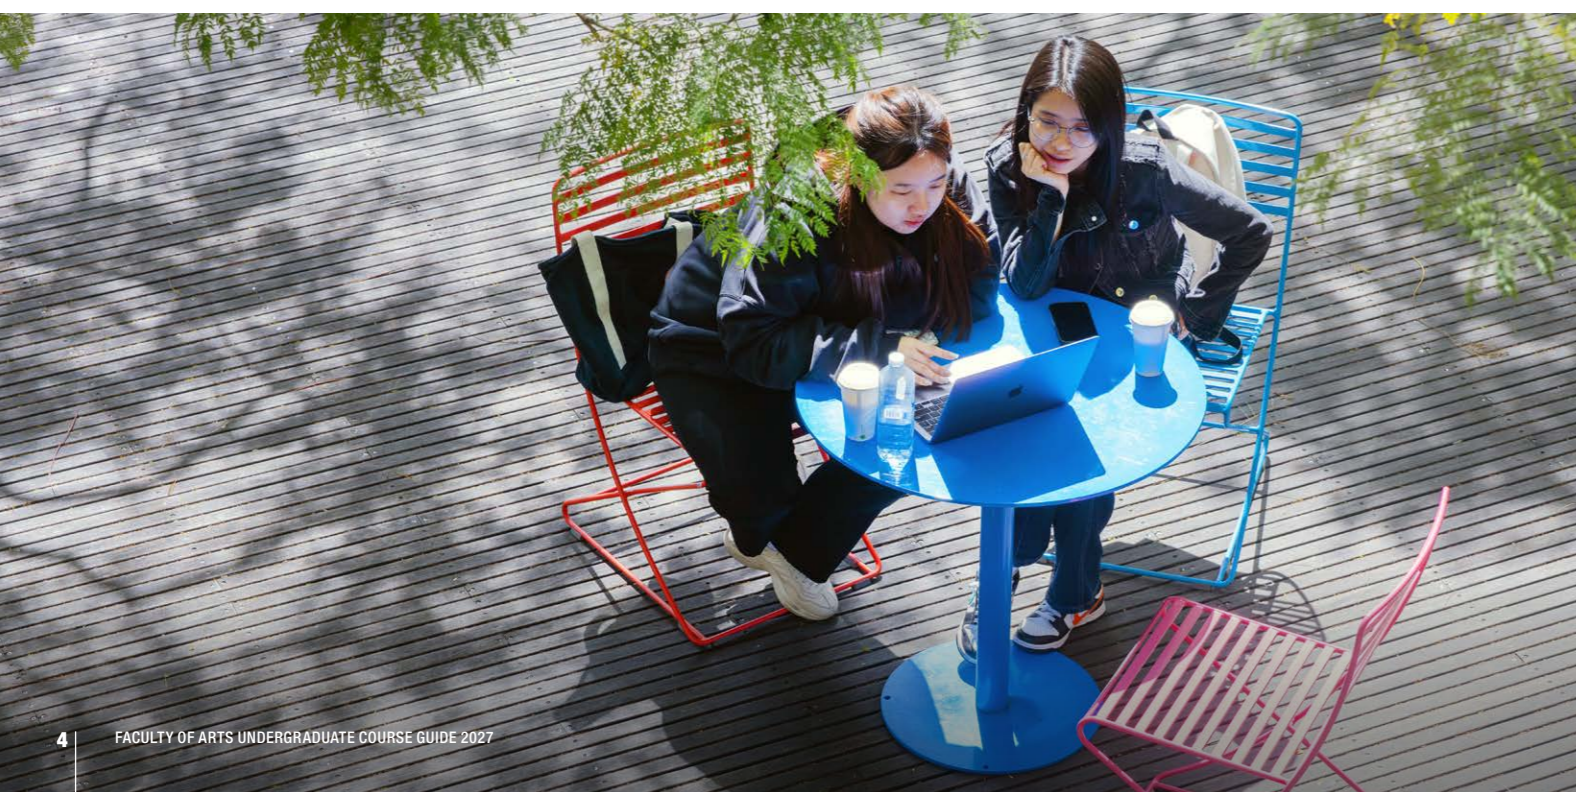

Internships can cover a multitude of work placements. For example, if you're majoring in communications you could be working in a media or events organisation, and with a language major you could intern at an international non-government organisation (NGO). History students could work in museums, galleries or libraries, criminology studies could open up opportunities with the local council, government or the Department of Justice, and politics students can access the Victorian Parliamentary Internship program.

ADVANTAGES OF DOING AN INTERNSHIP

- Get valuable work experience that counts towards your degree
- Apply what you're learning in class to a real-world context
- Gain valuable networking opportunities
- Get an idea of what kind of career you'd like to have
- An overseas internship builds your intercultural skills at the same time.

PLACES WHERE OUR STUDENTS HAVE INTERNED

- Australian Broadcasting Corporation (ABC)
- Consulate General of the Republic of Korea
- Department of Justice and Community Safety Victoria
- Ernst & Young
- Ethnolink Language Services
- Mango Communications
- Melbourne Writers Festival
- Oxfam
- Penang House of Music in Malaysia
- Royal Historical Society of Victoria
- The Age
- UN Global Compact Network Australia
- Willum Warrain Aboriginal Association Incorporation.

If there's one thing to look out for, it's a place with good internships, and genuinely Monash was great at supplying those. I did five internships all up and two of those internships led to a job."

MATILDA BOSELEY

Bachelor of Arts graduate
Student Journalist of the Year winner,
2019 Walkley Young Australian Journalist Awards
Innovation in Journalism winner, 2021 Quill Awards
Cross-platform New Media Reporter and Presenter, The Guardian

LEARNING ABROAD

AMAZING EXPERIENCES OUTSIDE THE CLASSROOM

Monash Arts has some of the most extensive overseas study opportunities of any university in Australia. Whether you go for two weeks or two semesters, there's a program to suit your interests, curiosities and study needs.

We have partnerships with over 100 universities in more than 30 countries, a study centre in Prato, Italy, and campuses in Malaysia and Indonesia. As a first-year Monash Arts student, you'll also have access to Monash's ground-breaking Global Immersion Guarantee (GIG).

STUDYING OVERSEAS GIVES YOU AN EDGE

- Improve your employability
- Increase your earning potential
- Become more culturally literate and explore new ways of thinking
- Learn more about yourself and your capabilities
- Build your self-confidence and adaptability
- Make new friends and broaden your networks.

WHERE CAN I GO?

MONASH ARTS STUDY TOURS

We offer short-term study programs around the world. Varying from two to six weeks, and taught intensively, the tours run between semesters (June-July and November-January), which means you can continue to travel afterwards and/or potentially finish your degree sooner.

Examples of previous tour opportunities include:

- recognising and assessing the nature of consumption practices in Japan
- formulating practical and innovative approaches to global challenges in Borneo
- exploring the dynamics that shaped interactions between Europe's Jews and their neighbours prior and during the Holocaust in Poland, the Czech Republic and Germany
- receiving formal and applied training in qualitative and ethnographic field research methods in Malaysia.

Offerings change from year to year, please check the University Handbook for current availability.

ARTS SEMESTER IN PRATO

Spend a semester in Monash Prato with Monash Arts students, live and learn in a beautiful Italian city, and enjoy long weekends to travel and explore Europe. With everything organised and supported by Monash, it's a unique overseas study experience without the complexity of a traditional exchange.

SEMESTER IN MALAYSIA (GLOBAL INTERCAMPUS PROGRAM)

Located in Bandar Sunway (close to Kuala Lumpur), Monash Malaysia was Monash's first international campus. The campus has close to 11,000 students from more than 85 countries and a vibrant, inclusive atmosphere.

Monash Malaysia makes available a wide-ranging selection of units, all taught in English. Intercampus exchange is available to all Monash Australia students, provided they have room within their course. Generous funding is available for this program to eligible students.

SHORT TERM PROGRAMS – PRATO

Make the Monash Prato Centre your European study base. Close to Florence in the picturesque landscape of Tuscany, the Monash Prato Centre is located in the beautiful 18th-century Palazzo Vaj right in the centre of Prato.

The Prato short term program is open to students in their second year and beyond, and you can choose from a range of interdisciplinary and discipline-specific subjects. Divided into three-by-four-week intensive blocks, you can study for the full 12 weeks or take the option of including some travel time and study for four or eight weeks.

INTENSIVE LANGUAGE PROGRAMS

Studying overseas as part of your language major is a great way to immerse yourself in your chosen language and culture. Monash Arts offers a variety of faculty-led and endorsed language programs available to language students for credit.

GLOBAL IMMERSION GUARANTEE

Monash's Global Immersion Guarantee (GIG) is an award-winning initiative that enables you to explore first-hand the relationships between society, technology and the environment. It's a two-week, funded study trip available to all first-year Monash single or double degree students to one of a variety of destinations.

The GIG is about innovating and putting your degree into practice by responding to some of the world's biggest challenges. You'll engage with people and organisations already working on these issues, and you'll have the opportunity to gain an understanding of the complexities and challenges involved in implementing sustainable and innovative solutions – all skills your future employers will look for.

Destinations have included: Fiji, Vanuatu, Indonesia, Italy, India, China, Malaysia, Vietnam and Samoa.

I was lucky enough to be able to do two study abroad trips in my second year of PPE – in Italy and in India. I would say that these two experiences were the highlight of my degree – not just because I got to go overseas for the first time while earning credit (though that definitely contributed!), but also for the genuine growth and valuable professional experience it enabled me. It was exciting to be able to deepen what I had learned so far and apply my knowledge in a different context, particularly the political elements for me but also the philosophical and the economic developments as well."

NATALIA REICH

Bachelor of Politics, Philosophy and Economics graduate

SEMESTER EXCHANGE

An exchange program involves studying with one of our partner universities around the world. You can go on exchange for one or two semesters and your overseas study is credited to your Monash degree. Financial assistance is available and there are no extra tuition fees.

STUDY ABROAD

If your preferred overseas destination is not a Monash partner university, you can still choose to go there on Study Abroad. You'll pay the host university's tuition fees for the time you're there, and you're still able to access financial assistance to support your travel.

FUNDING YOUR OVERSEAS STUDY

Monash's goal is for every student to have an overseas experience and to enable this there are many funding opportunities for you, including the Arts Equity Travel Grant. For information on the various grants and scholarships on offer, see:

monash.edu/study-abroad/outbound/financial

Find out more about learning abroad at:
monash.edu/arts/learning-abroad

EXPAND YOUR KNOWLEDGE STUDY A DIPLOMA

DIPLOMA OF LANGUAGES

The Diploma of Languages allows you to study Chinese Mandarin, Indonesian, Japanese, Korean or European languages (French, German, Italian, Spanish). There are different entry levels so you can commence as a beginner in the language or with a language background. If your language ability is higher than beginner level, you'll sit a language entry level test to determine the best place for you to continue with your language.

Learning a language has many benefits:

- gives you a real edge in future careers
- increases your cross-cultural understanding and communication skills
- improves your problem-solving abilities and memory
- enhances mental flexibility which improves creativity
- opens up international internships and study abroad opportunities.

Further information on the Diploma of Languages:
✔ monash.edu/arts/diploma-of-languages

Further information on the Diploma of Liberal Arts:
✔ monash.edu/arts/diploma-of-liberal-arts

DIPLOMA OF LIBERAL ARTS

The Diploma of Liberal Arts allows you to expand your studies by choosing any Arts area of study available as a major¹, except for languages which you can take in a Diploma of Languages.

WHY STUDY A DIPLOMA?

By studying a Diploma of Languages or a Diploma of Liberal Arts, you'll:

- Diversify and deepen your skills and knowledge in another area of study
- Expand your career options
- Continue with an area of study you have a keen interest in, or
- Try something completely different, like a new language.

WHO'S ELIGIBLE?

Monash students who are studying an eligible bachelor's single or double degree.

APPLYING FOR ENTRY

You can apply for entry to either of these diplomas only after you've accepted your offer into your main Monash Bachelor degree.

¹ Not available with Economics or Psychology areas of study.

Through my Diploma of Languages, I gained valuable insights into culture, language, how to read literature, and even how to analyse film.

When combined, each course has really given me a wide breadth of knowledge and skills that I can use in my career and my future as well."

HAMAH HOSEN

Diploma of Languages (French Studies) graduate
Bachelor of Global Studies (International Relations and Human Rights) graduate
Deputy Humanitarian Advisor and Third Secretary, Australian Department of Foreign Affairs and Trade, Bangladesh

MONASH ARTS DOUBLE DEGREES

Dreaming of a career that blends your many interests? Want to save time and money while simultaneously broadening your skills? Take a double degree.

Monash University has one of the largest offerings of double degree combinations in Australia, and more than 50% of Monash Arts students are enrolled across our 40+ double degree combinations.

Craft a unique path to your dream profession, whether it's an international development lawyer (Arts + Laws), an environmental journalist (Arts + Science), an e-security policy specialist (Criminology + Information Technology), or a music teacher (Music + Education).

Double degree students study towards two degrees at the same time, allowing you to keep your options open and develop expertise in different but complementary areas. But it doesn't mean double the work

— an undergraduate double degree course takes two years less to complete than studying the two degrees separately. So not only will you save time, you'll also save two years of course fees.

For admission into a double degree, generally the higher entry requirements apply of the two single degrees and you'll need to meet the subject prerequisites for both courses and satisfy any additional requirements. Some double degree combinations may require you to study across two campuses in order to complete your studies.

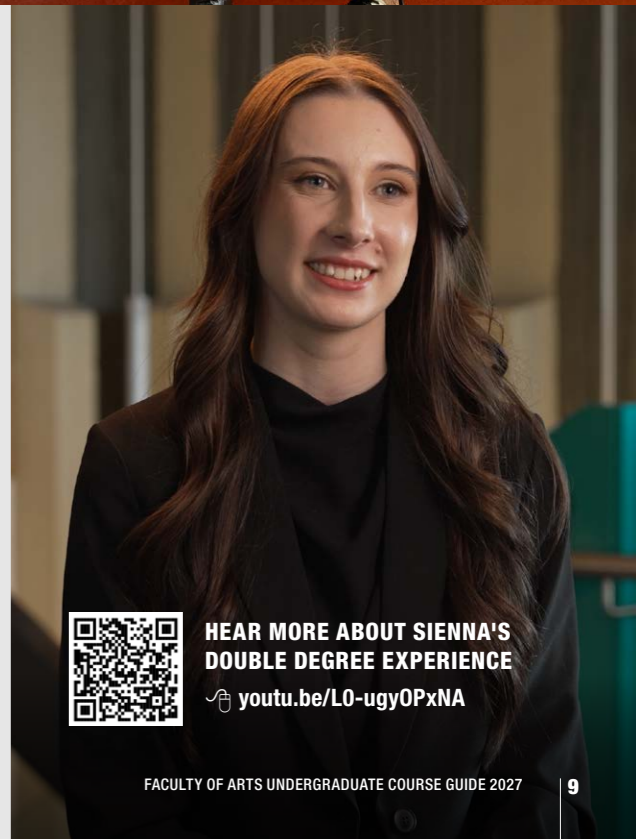

Having an interdisciplinary mindset is vitally important in my work. Financial crime does not exist in a vacuum. It sits at the intersection of human behaviour, technology and cyber.

There are a lot of issues in our day-to-day world now that are very complex and we have to look at them through multiple lenses. We cannot just think of them through technical lenses. We have to understand that this impacts humans as we are and not just think about how it works in processes.

Through different research projects and case studies, I learned a lot about critical thinking and problem-based solutions, data-based evidence, and ways of analysing things, which I use every day in my job at the moment."

SIENNA CHALONER

Bachelor of Criminology and Bachelor of Information Technology double degree graduate
Executive Analyst, KordaMentha

DOUBLE DEGREE EXPERIENCE

✔ youtu.be/L0-ugyOPxNA

BACHELOR OF ARTS DOUBLE DEGREES

Combining a Bachelor of Arts with another degree will give you versatile and transferable skills that are relevant to any industry. The combination will also give you the skills that employers are looking for, such as communication, teamwork, research, critical thinking and cultural sensitivity – and you'll be able to draw on cross-disciplinary perspectives to thrive in a broad range of settings.

² This degree is only available with select Engineering specialisations and select Arts areas of study.

WHAT ARE THE BENEFITS OF A DOUBLE DEGREE?

Hear from current students:
youtu.be/hHzFebQF8nE

BACHELOR + MASTER'S PROGRAM

With Monash Arts you can graduate with a bachelor's degree and a master's degree in just four¹ years. After completing two years of your bachelor's degree, and providing you're a high-achieving student, you can take master's-level units as your electives in third-year.

Fast-track your studies and graduate with an undergraduate and postgraduate degree in just four years¹ – instead of five.

- Take advantage of the most extensive Bachelor + Master's offering in Australia
- Make yourself more employable with two degrees and specialist knowledge
- Save on fees by continuing to pay bachelor degree fees when you start your master's in third year, leaving you with only one year of master's fees.

You can match your Monash Arts bachelor's degree² with a master's degree in:

- Applied Linguistics
- Bioethics
- Communications and Media Studies
- Cultural and Creative Industries
- International Development Practice
- International Relations
- International Sustainable Tourism Management
- Interpreting and Translation Studies¹
- Journalism
- Public Policy
- Strategic Communications Management.

DOUBLE DEGREES

For the full list of Bachelor of Arts double degree options, see page 10.

1 The scores provided are to be used as a guide only, and are the lowest selection rank to which an offer was made in 2026.
2 Refer to pages 28-35 for a comprehensive listing of areas of study available in your Arts degree.

BACHELOR OF ARTS

Workplaces of the future need innovative leaders who can see the bigger picture, and who have the human-focused and transferable skills you'll gain in a humanities and social sciences degree.

The Bachelor of Arts is designed to give you maximum flexibility and choice. With over 30 areas of study² to choose from, our comprehensive arts degree allows you to design a unique course structure aligned with your worldview and career objectives. The course is built around deeply enriching experiences: you can choose from local and international internships, professional engagements and entrepreneurial opportunities, and the choice of more than 50 global immersion programs, preparing you to live and work in complex and culturally diverse environments, while building a network of like-minded peers.

THE MAJOR

Your major is made up of eight units. These units are from the same area of study² – for example, sociology, behavioural studies or history. There are many units to choose from but there are also some compulsory units. These are called gateway, cornerstone and capstone units, which have been designed to help you consolidate your learning so you can get the most out of your major.

Gateway: a first-year foundation unit introducing you to the major.

Cornerstone: a second-year unit that focuses on making sure you have a solid grasp of your major.

Capstone: a third-year unit where you demonstrate advanced knowledge of your major, for example a supervised research project or an internship with an industry partner.

DISCIPLINE ELECTIVES

These units will expose you to several arts disciplines (areas of study) contributing breadth to your knowledge of the arts, humanities and social sciences. This means you have the flexibility of learning about several areas of study before finalising your choice of major.

Your discipline electives help you to build a unique graduate profile, preparing you to live and work in complex and culturally diverse environments.

ENTRY REQUIREMENTS

COURSE	🕒	INDICATIVE ATAR ¹	INDICATIVE IB ¹	MONASH GUARANTEE
Arts (Caulfield)	3	72.05	27	70
Arts (Clayton)	3	75	28	70

PROFESSIONAL FUTURES

Professional Futures is a distinct, career-oriented program. Customise your own professional journey according to your career interest across four areas, and build the skills and abilities employers value and seek.

Global immersion: Broaden your knowledge and life experience by participating in an overseas study program, such as the Global Immersion Guarantee (GIG), or a semester abroad.

Intercultural expertise: Learn to recognise your own cultural values and biases, and build skills to thrive in globalised workplaces and communities.

Professional experience: Through industry internships and placements, create networks and skills for your career development.

Innovation capability: Cultivate an innovation mindset as you develop your creative and enterprising abilities.

FREE ELECTIVES

There are eight free elective units with which you can study units from Arts or from another area such as Information Technology, Science or Business. You could also use these electives to engage in industry experience or study overseas.

EXAMPLE COURSE STRUCTURE

The Bachelor of Arts is a three-year course with 24 units. Check out a sample course map below.

INTERNSHIPS

An internship is often the first step of your career. You'll have the opportunity to undertake an internship for course credit in the final year of your course through our Industry Experience (IE) program.

We'll help match you to a role that's aligned with your skills and interests, giving you the chance to build networks and make contacts for your career development.

Learn more at:

📄 monash.edu/arts/industry-experience

For as long as I could remember I've always had really big questions about the world and a lot of curiosity about why things are the way they are.

The study of arts, social sciences, and humanities is so integral today because we're seeing really big social issues that really need to be tackled. We are seeing a climate crisis. We're seeing a cost-of-living crisis and the arts are so integral to understanding why and how.

I think the most valuable thing I gained from my Arts degree was really strong writing skills that I use in all aspects of my life. I also learned a lot of theoretical knowledge that practically applies to my work now. I learned a lot about communications theories that I use every single day. I learned a lot about complex human rights issues."

BACHELOR OF CRIMINOLOGY

Improve responses to crime and criminality.

Criminology is the study of crime and social control. Crime – how we define it, how we understand its causes, and the ways we respond to it – provides a window into society's challenges, values and aspirations.

In this world-leading program you'll consider the local, national and global aspects of crime and justice, and become familiar with a range of lenses for understanding and assessing the impact of society's changing responses to crime and justice. You'll gain an understanding of victimisation and perpetration, inequality and its impacts, and approaches to understanding crime. Throughout the course you'll develop your capabilities via the key themes of expert knowledge, global reach and focus, and collaboration and innovation.

Your units will cover crime committed by individuals, groups, organisations and states, and the mechanisms of the criminal justice system, including police, courts and corrections.

Options are available to develop knowledge of specific criminal concerns, such as sexual violence, gendered violence, punishment, criminal justice processes, marginalisation, drugs, cybercrime, risk and surveillance, victimisation and perpetration, youth crime, and crime prevention and transnational justice practices.

EXPERT KNOWLEDGE

With its own advisory board, the Bachelor of Criminology brings into play the advice and dynamic perspectives of industry experts, meaning you'll benefit from current insights into industry developments.

GLOBAL REACH AND FOCUS

Throughout the course you'll be challenged to apply abstract knowledge to real-world problems of crime and justice, and develop solutions.

You'll also have the opportunity to travel internationally and meet criminal justice experts from across the world through a selection of exclusive field trips. The trips offer a truly immersive learning experience to complement the academic knowledge you'll gain in class, allowing you to engage in context and gain a genuine understanding of the human realities behind the study of criminology.

COLLABORATION AND INNOVATION

Through multiple opportunities for engagement with industry, you'll gain the experience needed to be workplace ready. In the final year unit *Being a Criminologist: Research and professional practice*, you'll work closely with our industry partners, opening up new pathways and opportunities for your career. The unit features real-life scenarios, and your work will be assessed by both academics and industry experts.

Further opportunities and internships are available to you through our Industry Experience internships, both in Australia and around the world, so you can get hands-on experience while you gain study credit.

FREE ELECTIVES

There are eight free elective units which can be taken from Arts or from another area such as Information Technology, Science or Business. You could also use these electives to engage in industry experience or study overseas.

ENTRY REQUIREMENTS

CAREER OPTIONS INCLUDE:

- Community development and outreach officer
- Corrections officer
- Court clerk
- Criminal justice policy advisor
- Customs and border protection officer
- Cybercrime investigator
- Diplomatic security officer
- Fraud investigator
- Human rights advocate
- Intelligence analyst
- International crime prevention advisor
- Probation officer
- Victim support worker
- Youth worker.

My criminology degree helped me build strong research, analytical, and communication skills. More than that, it gave me a deeper understanding of social systems and human behaviour, which has been so valuable in my work within the criminal justice system. Having my degree enabled me to complete a student placement at Community Corrections which led me to a job as a case manager. Without my degree, I would not have the qualifications for these roles. On a personal level, it made me more open-minded and adaptable, things that are just as important as practical skills in any career."

ADDITIONAL SELECTION REQUIREMENTS

¹ The scores provided are to be used as a guide only, and are either the lowest selection rank to which an offer was made in 2026 or an estimate (E).

RC – Range of Criteria.

BACHELOR OF CRIMINOLOGY AND POLICING

Crime is a complex phenomena, which requires it to be viewed from various perspectives. In a joint-venture with Victoria Police, the Bachelor of Criminology and Policing is the only course of its kind in Australia.

In this three-year program, you'll complete the core requirements of Monash's Bachelor of Criminology, and have the opportunity to apply to undertake a Diploma of Policing, to be commenced at the Victoria Police Academy in your third year.

The breadth and depth of our Bachelor of Criminology is a great foundation for anyone considering a career in policing or criminal justice. You'll gain an understanding of crime, the broader context in which crime occurs, the drivers of criminal behaviour, and the limits of formal and informal responses to crime.

Throughout your study you'll consider the local, national and global aspects of crime and justice, and become familiar with a range of lenses for understanding and assessing the impact of society's changing responses to crime and justice. You'll gain an understanding of victimisation and perpetration, inequality and its impacts, and approaches to understanding crime. Throughout the course you'll develop your capabilities via the key themes of expert knowledge, global reach and focus, and collaboration and innovation.

EXPERT KNOWLEDGE

Your study will address crime committed by individuals, groups, organisations and states, and the mechanisms of the criminal justice system, including police, courts and corrections.

Options are available to develop knowledge of specific criminal concerns, such as sexual violence, gendered violence, punishment, criminal justice processes, marginalisation, drugs, cybercrime, risk and surveillance, victimisation and perpetration, youth crime, and crime prevention and transnational justice practices.

DIPLOMA OF POLICING

The Bachelor of Criminology and Policing is a pathway to your policing career. During the course you will be provided with information which outlines the Victoria Police application process. If you want to pursue a career in policing you will be required to apply to Victoria Police at the start of your second year of the course (Note: as part of the application process, you will be exempt from the Victoria Police Entrance Examination).

If accepted, during the third year of your course, you will undertake studies which will allow you to complete your bachelor degree and concurrently commence a Diploma of Policing with Victoria Police. You will also take part in an exclusive series of events designed specially to give you a deeper insight into life at the Academy and prepare you for your Victoria Police application. While studying at the Victoria Police Academy you'll also receive mentorship from Monash Criminology staff to support you in completing your Monash units. As a police recruit, you are paid from your very first day of training.

Successful students will complete two separate qualifications, the Monash Bachelor of Criminology and the Victoria Police Diploma of Policing, increasing your employability.

For more information, see our FAQs at monash.edu/arts/undergraduate-courses/bachelor-of-criminology-and-policing

ADDITIONAL SELECTION REQUIREMENTS

Entry into this degree also requires you to submit a supplementary form as part of the application process and complete a police check, as well as applying for entry into the Diploma of Policing at the start of your second year of studies.

If you decide not to pursue a career in policing, or if you are unsuccessful in your attempts to enter the police force, you will be transferred into the Bachelor of Criminology degree (see page 14), where you will continue to extend your knowledge of criminology and develop skills and expertise which will allow you to engage necessary stakeholders to effectively formulate, influence and evaluate crime and justice policies and practices in a variety of professional contexts.

HEAR HOW THIS DEGREE HELPED JONATHAN ACHIEVE HIS CAREER GOALS

🔗 bit.ly/3XqymzK

When I started the Bachelor of Criminology and Policing, speaking up wasn't something I was confident in. The hands-on learning and supportive environment helped me find my voice. The mentorship provided was especially valuable, while coupling policing training with a criminology degree gave a deeper understanding of the impact of police work. I gained skills in communication, critical thinking and teamwork, which transitioned into the academy. Placement experiences at police stations let me apply my knowledge in real-life situations — giving me the confidence to step into the field and make a difference.”

BACHELOR OF GLOBAL STUDIES

Do you aspire to become a leader in creating social change? Learn how to critically analyse global challenges facing cultures and communities around the world, and how to devise imaginative and well-informed solutions to help solve them.

The Bachelor of Global Studies is a unique course tackling the most important challenges that the world's communities face including: climate change; peace and conflict; the rich-poor gap; and crime and justice. Global studies is an interdisciplinary field drawing on politics, economics, sociology, history, medicine and science. You'll apply your knowledge and skills to real life scenarios through leadership, culture and globalisation core units; and an overseas study component.

CORE STUDIES

You will study four core units on 'Leadership, culture and globalisation', exclusive to the Bachelor of Global Studies. You'll learn about forms of leadership, drivers of social change and how to apply your learning in practical and professional real-life contexts.

Classes are mainly workshops, where you'll engage in problem-based learning and develop skills in creativity, teamwork, cross-cultural collaboration, critical thinking, self-learning and analytical writing.

SPECIALIST KNOWLEDGE

Throughout your degree you'll gain in-depth knowledge of a specific aspect or aspects of global studies through units grounded in a wide variety of humanities and social science disciplines. These units will provide you with the practical and theoretical skills needed to critically analyse, communicate and formulate innovative solutions to global challenges. The units are grouped into the following streams:

SOCIAL JUSTICE

Tackle critical issues of power and inequality through an exploration of historical and contemporary struggles against racism, colonialism, and economic disparity. Understand the roots of injustice and contribute to a more equitable world.

SUSTAINABILITY

Explore global environmental challenges and solutions through units on climate history, urban sustainability, and the intersection of climate change with social justice. Evaluate the past, understand the present, and design a sustainable future for our planet.

CULTURE AND IDENTITY

Explore how social identities are formed through global circulation of cultural beliefs and practices. Understand the role of culture in creating meaningful, and sometimes contested, worldviews.

GLOBAL COMMUNICATION

Understand how language shapes our engagement with a diverse and interconnected world. Develop the strategies and skills of communication needed to thrive in internationalised workplaces.

There is also the option to take the unit *Developing research literacy* if you are interested in pursuing research related to global studies after graduating.

LANGUAGE STUDIES

The world is multilingual. Studying other languages will help you understand your own place in the global landscape as well as improving your resilience and capacity to embrace uncertainty and complexity. You may continue with a language you have studied previously, or experiment with beginner's level units in any of the eight Asian and European languages on offer. Alternatively, explore units focusing on Indigenous languages, literary cultures and global varieties of English.

GLOBAL MOBILITY

Integral to this course is overseas study that can be completed across a full semester or taken intensively. You could take units offered at a Monash international location, join one of our many study tours, or study at one of our prestigious partner universities. It's compulsory to take at least three overseas study units, but you can take more if you want.

FREE ELECTIVES

There are eight free elective units which can be taken from Arts or from another area such as Information Technology, Science or Business. You could also use these electives to engage in industry experience or further overseas study.

ENGAGING WITH INDUSTRY

With its own advisory board, the Bachelor of Global Studies is in a unique position to draw on the advice and perspectives of industry experts. The board consists of professionals from diverse backgrounds with direct links to business, government and the social sector. They provide vital guidance, advice and feedback to inform our program development and to ensure the course delivers the best outcomes for you.

FIND OUT HOW TO ADDRESS
'PROBLEMS WITHOUT
PASSPORTS'

youtu.be/uvYNXrMjVMA

DID YOU KNOW?

You can further develop your field of expertise and enhance your career prospects through continuing your study with Monash's Master of International Relations. The master's degree can be combined with your bachelor's degree as part of the Bachelor + Master's program, meaning you can complete both degrees in just four years, see page 11 for more information.

BACHELOR OF INTERNATIONAL RELATIONS

Trade agreements, diplomatic alliances and territorial disputes, cooperation and conflict are all consistent themes on the global stage.

The Bachelor of International Relations is a three-year specialist degree that allows you to concentrate on studying the dynamics of power, governance, conflict, and cooperation at local, national and international levels.

Taught by experts in international relations and politics, this course helps you understand how politics impacts our lives; teaches you to analyse power dynamics; giving you the skills to make positive changes in the world.

Throughout your study you'll be encouraged to develop your skills of critical and analytical thinking, teamwork, communication, intercultural competence, and applied research skills and to use them to address the pressing challenges in international relations.

WHAT YOU'LL STUDY

Throughout your degree you'll study foreign policy, security studies, international political economy, and global governance. You'll uncover how national and global political institutions operate, how and why conflict and cooperation occur, and the role that power, political ideas, material resources, civil society, and historical legacies play in shaping the opportunities and the constraints for political actors, institutions, states and the wider structure of the international system.

FIRST-YEAR CORE STUDIES

INTRODUCTION TO INTERNATIONAL RELATIONS

Engage with key issues in international relations including international security, arms control, violence and terrorism, migration and the climate crisis. Examine the role of states and supra-state organisations; nations and nationalism; world order and global governance; and globalisation and the international political economy.

GEOPOLITICAL SECURITY IN THE INDO-PACIFIC

Explore the core geopolitical challenges in the Indo-Pacific region, including great power competition; emerging and middle powers; competing regional and international organisations; democratic versus authoritarian states; liberal versus illiberal values; developmental and human security challenges; climate change; and migration and refugee flows.

POLITICAL THEORY IN A CHANGING WORLD: CONCEPTS, ISSUES AND DEBATES

Consider key political theory concepts such as freedom, democracy, equality and justice and apply them to cases and controversies central to public debate and policymaking in a rapidly changing world.

ISSUES IN AUSTRALIAN POLITICS AND GOVERNMENT

Investigate the politics, government and key issues that challenge the Australian liberal democratic state. You'll unpack the key theoretical issues and debates in Australian politics and governance and interrogate the ideas about power that underpin them.

ELECTIVE STREAMS

In addition to your core units of study, you will have access to five elective streams:

- Peace, conflict and security
- Policy and governance
- Comparative politics
- Development, rights and gender
- Climate futures.

These elective streams are designed to deepen your expertise on those areas of international relations and politics in which you plan to pursue your future career. You will also have the opportunity to use your free electives to pick up an additional stream.

FREE ELECTIVES

There are eight free electives in the course. This means you'll have the flexibility to take units from another discipline within Arts, such as history or a language, or from another faculty such as Business, Information Technology or Science. These electives will add diversity to your knowledge and skill set, making you stand out from your peers.

OVERSEAS STUDY

During your second or third year, you will have the opportunity to take the study tour unit *The European Union: Challenges, crises and opportunities*, at our Prato, Italy campus.

This unit gives you the opportunity to gain a deep understanding of the origins of today's European Union, what is driving it forward and what is pulling it apart. Using inter-disciplinary approaches incorporating science, law and economics you'll simulate policy paths and come to understand the forces shaping the EU's relations with Australia and the world.

BACHELOR OF MEDIA COMMUNICATION

Be part of a new generation of thinkers and future-driven media and communication professionals who'll challenge convention and devise solutions that will take us into the next century.

A degree for today's dynamic media world, the Bachelor of Media Communication addresses the growing demand for graduates with new and diverse skills in communication, and a critical understanding of the role of media in all aspects of our lives.

GRADUATE WITH A PORTFOLIO TO SHOW EMPLOYERS

From day one, you'll develop practical experience and work-ready skills to build a portfolio of real work throughout your course. This could be projects such as a documentary, short film or digital marketing campaign, depending on your interest area. The result is a collection of tangible pieces of work you can showcase to potential employers.

CORE STUDIES

MEDIA CHALLENGES

In this era of unprecedented levels of media change and power you'll work with others in formal and informal teams to link content knowledge and practical skills in an investigation of a global 'real-world' media challenge of our times.

COMMUNICATING IN THE DIGITAL ERA

This hands-on project-based unit builds your knowledge in the evolving digital language of video production, broadcasting, news reporting, advertising, and social media – a powerful literacy that is essential for media communication professionals of the future.

MEDIA PRACTICE LABS

Learn what it's like to work in a professional media environment in our Media Lab. Experiment with different kinds of technology in lab units that include audio, video, emergent media production technologies, social media, visual communication, and media entrepreneurship.

PROFESSIONAL PLACEMENT

In your final year you'll have the opportunity to bring together your in-depth knowledge and skills with either an internship or professional project. If applying for an internship you will have access to our extensive network of industry partners within Australia and around the world.

SPECIALISATIONS

There are four specialisations to choose from. You'll start first year with two specialisations and decide in second year which one to pursue as your primary specialisation, with the option to pursue both specialisations using your free elective space.

JOURNALISM

Make the news that matters. Spanning digital, audio, video and print media, you'll gain practical experience alongside a strong academic foundation in journalism theory, research, and advanced communication skills. You'll explore the ethical considerations, global trends, and evolving landscape of modern journalism, preparing you for a rewarding career in investigative reporting, content creation, broadcasting, or digital media.

MEDIA

You'll become a true media expert in today's fast-evolving world, building skills and knowledge in media research, management, communication and policy. You'll develop skills in media analysis that have applications across a wide range of professional contexts – from social media strategy in organisations to media management and communication, and media policy.

PUBLIC RELATIONS

You'll learn how to research, develop, apply and then evaluate communication strategies. You'll develop global perspectives, understand the importance of the management of stakeholder relationships and reputation, acquire skills in public opinion analysis, learn to identify and manage organisational issues, and develop a crisis management plan.

SCREEN

Screen industries, technologies and cultures are changing faster than ever. This specialisation gives you the knowledge to understand these transformations, navigating how film, television and newer screen formats have led to and function within contemporary media ecologies.

Looking at global and local film cultures, you'll examine the power and influence screen has to share stories, and its ability to influence and change society. You'll also develop your practical video production skills relevant to a broad range of media platforms and screen cultures.

FREE ELECTIVES

There are eight free electives in the course. That means you'll have the flexibility to take units from another discipline within Arts, such as politics or a language, or from another faculty such as Business, Information Technology or Science. These electives will complement your specialisation and add diversity to your skill set, making you stand out from your peers.

BACHELOR OF MUSIC

The Sir Zelman Cowen School of Music and Performance has one of the most comprehensive music programs in the country. The School excels in classical, jazz and popular music performance, with vibrant programs in composition, improvisation and creative music technology.

The Bachelor of Music is focused on your music journey and on your career development. You'll have weekly one-to-one lessons, collaborate with students in other specialisations, learn from accomplished music staff and engage with international artists.

The course comprises 24 units. These units work through three themes and electives.

In your second or third year you have the opportunity to take part in the *Music in Culture* study tour at Monash Prato, Italy.

THEMES

MUSIC SPECIALIST STUDY

You will choose one of the three specialisations offered: Music performance (classical or jazz and improvisation), Popular music, or Composition and music technology.

MUSIC THEORY AND EAR TRAINING

These units integrate the development of aural skills with the theoretical understanding of music through listening, analysis, performance, notation and composition.

CONTEXT STUDIES

Learn about music and music-making in a variety of cultural, historical, social and professional settings.

SPECIALISATIONS

MUSIC PERFORMANCE (CLASSICAL OR JAZZ & IMPROVISATION)

Available to those with strong musical ability in classical or jazz music, in the music performance specialisation you'll acquire an assured instrumental or vocal technique and demonstrate specific performance practice skills by participating in a variety of ensembles and styles. Throughout the program, you'll undertake both solo and ensemble work, with regular performance and feedback opportunities, as well as engagement with industry guests.

POPULAR MUSIC

Designed for future popular music performers, musicians and creators, this specialisation builds practical performance skills, stagecraft and creative expertise across contemporary styles. You'll develop techniques and self-directed practice strategies on your principal instrument or voice, applying them in solo and ensemble contexts through songwriting, live performance

and recording. Alongside performance training, you'll gain skills in music production and creative collaboration, engaging with diverse tools, styles and industry contexts. Guided by expert teachers, you'll create and deliver a live performance and recording project within your chosen style, connecting with current industry practice while shaping the future of contemporary popular music.

COMPOSITION AND MUSIC TECHNOLOGY

In this specialisation you'll develop skills in composition and music technology for acoustic and electronic instruments, song-writing and music for other media such as film and video games. You'll have the opportunity to collaborate with performance students, write for visiting international artists and make your own recording projects. Through our partnership with the Melbourne Electronic Sound Studio (MESS), you'll have access to vintage electronic equipment.

Our ongoing program of local, national and international visiting artists and workshops means you'll create established contacts with industry and be prepared for global career opportunities.

FREE ELECTIVES

There are eight free elective units which can be taken from Arts or from another area such as Information Technology, Science or Business. For example, you could complement your studies with a language from Arts or marketing units from the Business school.

PERFORMANCE OPPORTUNITIES

Monash is renowned for its performance opportunities and we have a diverse range of small and large ensembles. The 2026 ensembles included Latin Jazz, Big Band, Theatre Orchestra, Chamber Orchestra, Musical Theatre Chorus, Contemporary Voice, Monash Funk, Pop/Rock, R&B and Percussion. You can also audition for the Monash Academy Orchestra and be hired to perform at various Monash events.

SCHOLARSHIPS

Monash University, the Faculty of Arts and the Sir Zelman Cowen School of Music and Performance offer an extensive scholarship and grants program to support both local and international students. For more information, visit monash.edu/arts/music-performance/about/scholarships-and-prizes

HEAR ABOUT THE SUPPORTIVE AND COLLABORATIVE EXPERIENCE TOM'S DEGREE PROVIDED HIM

youtu.be/pLHgAgH82oE

“

Studying Classical Voice at Monash gave me the technical foundation and artistic discipline to forge a diverse career in music. Through classical recitals, masterclasses, and ensemble performances, I honed my skills as both a soloist and collaborator. Since graduating, I've performed internationally, taken the stage at televised events, worked alongside some of the country's most celebrated stage performers, and toured with the internationally acclaimed group The Ten Tenors.

My studies also equipped me with the skills to build a thriving music school, passing on my passion and knowledge to the next generation of musicians.”

BACHELOR OF POLITICS, PHILOSOPHY AND ECONOMICS

Developed by Monash's world-renowned politics, philosophy and economics professors, this course is designed for deep thinkers who want to have a real impact on shaping our society.

Throughout the Bachelor of Politics, Philosophy and Economics (PPE) you'll develop your ability to think critically about analysis, strategy and leadership and you'll learn how to transform big ideas into tangible results. You'll engage with researchers and global leaders to hone the industry relevant abilities needed to thrive in a world defined by constant technological, environmental, political and population change.

An Industry Advisory Board guides the direction and development of the course, ensuring that all units are informed by expert insider knowledge.

COURSE STRUCTURE

You'll be required to complete six foundation (introductory) units from all three specialisations in your first year of study, and nominate one specialisation at the end of your first year. You'll complete four units in Analysis, Strategy and Leadership and you'll have eight free electives which can be taken from Arts or from another area such as Information Technology, Science or Business.

CORE STUDIES

BIG IDEAS IN POLITICS, PHILOSOPHY AND ECONOMICS

Engage with the big ideas that have shaped the world and the emerging ideas that seek to alter it. This unit introduces major ideas in politics, philosophy and economics in an innovative multidisciplinary learning environment. You'll comprehend and analyse the inter-relationships between politics and the good life, freedom and the economy, and how we know what we know in order to behave ethically in a globalised society.

POLICY ANALYSIS IN POLITICS, PHILOSOPHY AND ECONOMICS

Tackle real-world contemporary policy challenges by examining statistical and data-driven evidence and practical policy responses. Adopting the role of policy-maker, you'll learn how to address concerns like economic efficiency, justice and fairness, and political feasibility.

STRATEGIC REASONING IN POLITICS, PHILOSOPHY AND ECONOMICS

Refine your structured and strategic ways of thinking about – and beyond – contemporary issues. Taking uncertainty and disruption as

enduring elements of our world, you'll identify risks and opportunities and advance reasoned and evidence-based arguments to achieve concrete outcomes.

LEADERSHIP AND CHANGE IN POLITICS, PHILOSOPHY AND ECONOMICS OR PPE STUDY TOUR

Apply your multidisciplinary knowledge to real-world scenarios in real-world locations. After completing this unit, you'll have proven your ability to transition into the workplace by demonstrating your capacity to identify emerging issues and articulate ways beyond current impasses.

Alternatively, you can opt to take the PPE global study tour.

OVERSEAS STUDY

From your second year, you'll have the opportunity to embark on a study tour designed exclusively for PPE students. You'll be immersed in the political, philosophical, and economic issues of a major society in the Indo-Pacific region, and come away with a comprehensive understanding of the political and economic forces shaping the coming century, and the diverse ideas emerging to interpret this change.

SPECIALISATIONS

POLITICS AND GOVERNANCE

The study of politics addresses important questions about the nature of power, authority and governance: who gets what, when and how. Politics also encompasses the study of notions of freedom and agency in situations of social choice.

PHILOSOPHY

Philosophy is the study of fundamental ideas about the world we live in. It questions the nature of our world, asks what constitutes a good life in such a world, and asks what could be done to make it better. In this specialisation you'll be introduced to areas central to philosophy, including political philosophy, ethics and logic.

ECONOMIC ANALYSIS

Economic analysis provides an advanced understanding of the theories explaining and analysing the production, distribution, and consumption of goods and services, with a focus on how individuals, households, firms and governments interact and how economies work.

INDUSTRY EXPERIENCE (IE) PROGRAM

IE internships form a valuable element of this course, empowering you to gain real-world experience and shape your professional networks.

FIND OUT HOW THE PPE DEGREE HELPED MAYA START HER PUBLIC SERVICE CAREER

youtu.be/PUxNrDrx6ql

Studying Politics, Philosophy, and Economics at Monash gave me the skills and confidence to step into the workforce ready to make an impact. The countless essays, policy briefs, and presentations helped sharpen my critical thinking and writing skills—things I now use every day at the Department of Treasury and Finance. Beyond the classroom, networking nights, mentorship programs, and a study tour to India opened doors I never expected. The PPE degree challenged me to see the world from different perspectives and empowered me to create opportunities for myself and my community.”

If you're studying a degree other than the Bachelor of Arts, in most cases you can still take units from Arts areas of study by using your free electives. Alternatively, you could add a Diploma of Languages or Diploma of Liberal Arts, see page 8.

ANTHROPOLOGY

Available as a major, minor or electives

 Clayton

Anthropology compares different ways of life, considering human behaviour by observing the lives of others, living with them, sharing their experiences and discussing their perspectives. Anthropologists specialise in analysing, documenting and creating social changes, and can assist in areas such as climate change, mining, social policy, Indigenous issues and development aid.

CAREER OPTIONS

- Conservation and heritage work
- Indigenous affairs
- International development
- Social research.

BIOETHICS

Available as a minor or electives

 Clayton & Caulfield

Bioethics is concerned with controversial topics that have profound implications for the future of humanity and society. We draw on philosophy, science, sociology, history, economics, law and other disciplines in the attempt to answer some of society's most difficult and interesting questions around the ethics of things, such as, human cloning and enhancement, prolonging life, genetic discrimination, stem cell research, buying and selling human organs, and the publication of dangerous scientific discoveries.

CAREER OPTIONS

- Clinical and research ethics
- Law
- Public health
- Public policy.

ARCHAEOLOGY AND ANCIENT HISTORY

Available as a major, minor or electives

 Clayton

Archaeology and ancient history focuses on the ancient Mediterranean world and Indigenous Australian studies. You'll examine historical texts, literature and material records – such as ancient sites, monuments, art and objects – to understand how people lived, how their culture developed and what their beliefs were.

CAREER OPTIONS

- Conservation
- Heritage management
- Museum/gallery curating
- Tourism.

CHINESE STUDIES

Available as a major, minor or electives

 Clayton

China is a powerhouse of the world economy and is increasingly important to Australia within government and private sectors. Majoring in Chinese means you'll be proficient in Mandarin, conversant in the culture, history and politics of China and will broaden your career options. We offer the most comprehensive Chinese Mandarin language program available in Australia with six distinct entry points, from introductory to advanced proficiency including a translation stream.

CAREER OPTIONS

- Cultural economy
- Foreign affairs
- International business
- Tourism.

BEHAVIOURAL STUDIES

Available as a major, minor or electives

 Clayton

Explore human behaviour from social, cultural and psychological perspectives to better understand why humans behave the way they do and the social issues that arise as a consequence.

You'll learn how to apply social psychological principles to important problems, such as domestic violence, cyberbullying, euthanasia, eating disorders, climate change and terrorism.

CAREER OPTIONS

- Behavioural research
- Human resource management
- Media and communications
- Policy.

COMMUNICATIONS AND MEDIA STUDIES

Available as a major, minor or electives

 Clayton & Caulfield

Whether it's in our relationships, professions or political and cultural engagement, our lives are increasingly played out in and through media. As the world becomes more connected, there's an important need for people who can navigate the complexities of the dynamic media landscape.

Areas we explore include new media, youth media, communications ethics, policy and law, climate change communication, video games, sex and the media, and digital literatures.

CAREER OPTIONS

- International consultancy
- Marketing and communications expert
- Public relations
- Social media manager.

CRIMINOLOGY

Available as a major, minor or electives

 Clayton & Caulfield

Criminologists investigate power, knowledge and justice domestically and internationally. We explore crime and social control, and analyse the causes of crime based on how we relate to it, as well as how we should respond.

Some of the topics we cover include policing, punishment, gender, race, victimisation and barriers to accessing justice within local and international contexts.

CAREER OPTIONS

- Anti-corruption organisations
- Attorney-General's departments
- Department of Justice
- Human rights organisations.

FILM AND SCREEN STUDIES

Available as a major, minor or electives

 Clayton & Caulfield

Explore film and screen through historical, textual, and critical lenses, covering Australian, Asian and European cinemas, Hollywood, gender in media, documentary film, Australian and popular television genres, and online content.

You'll develop advanced critical, writing, and audio-visual skills, while applying screen theory to analyse film and TV within digital culture. You'll produce traditional essays as well as different forms of media, such as audio-visual essays and audio commentaries.

CAREER OPTIONS

- Criticism and reviewing
- Festival work
- Film and television production
- Screen media research and development.

ECONOMICS

Available as a major, minor or electives¹

 Clayton

Economics is the analysis of how people and societies choose to use their resources, and is at the centre of how our world operates.

A strong understanding of how decisions affect individuals, organisations and governments means you'll be in a better position to influence change at all levels of society. The latest economic theories and analytical tools will also allow you to identify and communicate the impact of government policies, both domestically and on a global scale.

CAREER OPTIONS

- Banking
- Consulting
- Government
- Policy analysis.

¹ This Area of Study requires you to have Level 3 maths (see page 39 for details).

Don't have maths? See your options here:
 monash.edu/arts/math-prerequisite

GENDER STUDIES

Available as a major, minor or electives

 Clayton

Gender studies explores how social processes and institutions are shaped by gender. You'll examine the connections between sex, gender, sexuality, and global issues like gender inequality, sexual health, and reproductive rights.

Through feminist and queer frameworks, you'll develop critical thinking and problem-solving skills. Your expertise in gender analysis and commitment to equality will be valuable in fields like NGOs, industry, community organisations, and civil movements.

CAREER OPTIONS

- Community sector agencies
- International development
- Media, communications and advertising
- Social welfare organisations.

EUROPEAN LANGUAGES

(French and Francophone, German, Italian, Spanish and Latin American Studies)

Available as a major, minor, extended major or electives

 Clayton

Employers look for candidates with excellent language skills, intercultural literacy, and the ability to communicate and translate across languages, cultures and societies. You'll graduate with knowledge and skills that are applicable across a huge range of sectors. Designed with three entry points for beginner, intermediate and proficient speakers, this area of study will see you specialise in one or more of French and Francophone, German, Italian or Spanish and Latin American Studies.

CAREER OPTIONS

- Diplomacy
- International relations
- Interpreting and translation
- Marketing and communications.

GLOBAL ASIA

Available as a major, minor or electives

 Clayton

Taking a multidisciplinary approach, you'll examine a range of issues relating to the history, politics, society, economy and culture of Asian countries, as well as individual experiences. You'll focus particularly on China, Japan, Indonesia, Korea, Malaysia and South Asia.

In your first year you'll be introduced to a relevant language (either Chinese, Indonesian, Japanese or Korean), together with a broad overview of major developments in Asia across the past 500 years.

CAREER OPTIONS

- Government
- International diplomacy
- Non-government agencies
- Tourism.

HEALTH HUMANITIES

Available as a major, minor or electives

📍 Clayton

Health Humanities explores health and illness beyond biology, looking at how culture, history, ethics, society and power shape our experiences of wellbeing and healthcare. It combines humanities and social sciences with medicine to better understand patient experiences and how healthcare systems work.

You'll consider the experiences of health and illness of past and present, urban and rural, local and migrant, in peace and conflict, preparing you in particular for careers in health, NGO and governmental sectors.

CAREER OPTIONS

- Health communications specialist
- Health policy officer
- Historian
- NGO program coordinator.

HUMAN GEOGRAPHY

Available as a major, minor or electives

📍 Clayton

Human geography examines the relationship between people and their environment, addressing challenges like rapid urbanisation, climate change, environmental degradation, and global inequality. You'll explore the causes, consequences, and solutions to issues such as poverty, social inequity, and natural disasters, and gain insights into how to analyse and deconstruct urban and regional development, environmental policy, and management.

CAREER OPTIONS

- Infrastructure agencies
- International aid agencies
- Research organisations
- Sustainable policy development and practice across industry sectors in state and federal government departments.

HISTORY

Available as a major, minor or electives

📍 Clayton & Caulfield

History at Monash is one of the largest programs in Australia, covering American, Medieval and Renaissance, European, Australian, Asian, global history, Jewish and contemporary histories. You'll learn how history can inform the present and the future based on wise and unwise decisions made in the past.

History majors are sought after by employers for their fine analytical, research, and writing skills. Whatever your career path, learning to think like a historian – critically and empathically – sets you up for a lifetime of engaged citizenship.

CAREER OPTIONS

- Archiving and records management
- Education
- Media and communications
- Museum curatorship.

HUMAN RIGHTS AND SOCIAL JUSTICE

Available as a major, minor or electives

📍 Clayton & Caulfield

We explore human rights law, practice and activism, which are among the most widely accepted approaches to addressing harms suffered by humans worldwide. We look at issues such as torture, hunger, military aggression, ethnic violence, political corruption and discrimination.

You'll examine the nature and legitimacy of human rights' claims and the role of human rights and social justice in the broader context of international affairs.

CAREER OPTIONS

- Advocacy
- Government bodies and diplomacy
- Non-government organisations (NGOs)
- Politics.

HOLOCAUST AND GENOCIDE STUDIES

Available as a minor or electives

📍 Clayton & Caulfield

The 20th century has been called 'the century of genocide', but genocidal violence continues into the new millennium. This area of study asks you to reflect on why genocides happen and how people come to participate in mass violence.

You'll explore the Holocaust as a turning point in human history, along with the causes and effects of modern genocides all over the world and what's being done to prevent them. You'll examine themes such as trauma and testimony, the limits of representation, the survivor experience across generations and cultures, the role of the law in adjudicating war crimes, media coverage of atrocity and the failure to prevent genocide.

CAREER OPTIONS

- Education
- Government
- Humanitarian organisations
- Museum and memorial conservation.

INDIGENOUS STUDIES

Available as a major, minor or electives

📍 Clayton

Explore Indigenous peoples, culture, history, and experiences through anthropology, archaeology, history, and heritage studies. Study the origins, transformation and 50,000-year history of Australia's 600 Indigenous groups. You'll critically examine constructions of indigeneity and 'Aboriginalism,' be able to recognise traditions in Indigenous studies in national contexts, and apply knowledge to real-world issues. You'll also be given opportunities to gain hands-on experience through internships with Indigenous organisations across Australia.

CAREER OPTIONS

- Aboriginal-controlled organisations in health
- Consultancy with heritage companies
- Land councils
- Policy in government agencies and the public service.

INDONESIAN STUDIES

Available as a major, minor or electives

📍 Clayton

Indonesia is one of the world's largest and most diverse nations, and one of Australia's nearest and most important neighbours. Through this study you'll develop strong cultural literacy and intercultural communication skills, and examine the interaction of language and culture with reference to history, performing arts, journalism, literature and translation. Flexible entry points ensure you'll study at a level that suits your language proficiency, and we have one of Australia's largest Indonesian library collections.

Monash is a member of the Australian Consortium for In-Country Indonesian Study (ACICIS), which has specialist in-country programs in language, journalism, development studies and education.

CAREER OPTIONS

- Commerce
- Environmental management
- Tourism
- Trade.

JEWISH STUDIES

Available as a minor or electives

📍 Clayton & Caulfield

You'll gain an understanding of Jewish civilisation in its many aspects – language, literature, history, theology, philosophy, rabbinic, law, politics and sociology. Jewish studies is taught by the Australian Centre for Jewish Civilisation (ACJC), an interdisciplinary centre within Monash Arts whose mission is to research and teach the significance and evolution of Jewish culture and its contributions to the world.

Our units can be studied through other areas of study such as history and religion.

CAREER OPTIONS

- Education
- Government
- Humanitarian organisations
- Museum and memorial conservation.

INTERNATIONAL RELATIONS

Available as a major, minor or electives

📍 Clayton & Caulfield

International relations is the largest subfield of political science and at Monash we focus on the major challenges of global politics, including war, security and development.

You'll gain a comprehensive understanding of the key global debates, international conflicts and global institutions. Governance, poverty and human rights are central issues alongside policy implementation within the fields of security studies, international political economy, foreign affairs and global governance. You'll apply your critical-thinking skills to analyse innovative, problem-solving solutions to major global challenges.

CAREER OPTIONS

- Foreign affairs
- Humanitarian agencies
- National and international diplomacy
- Trade.

JOURNALISM

Available as a major, minor or electives

📍 Caulfield

Journalism will teach you the skills to write succinctly, to a word limit and to a deadline. It'll teach you to question ideas, and to question people face-to-face. You'll learn to think on your feet and quickly gain an understanding of an issue. It'll also teach you to be accurate, check your sources, dig deeper and analyse data to find the next big story in the field that most interests you. You'll learn to use the very latest technologies in our multi-million-dollar Monash Media Lab, one of the most advanced of its kind in Australia.

CAREER OPTIONS

Many of our graduates fulfil their aspiration to become a journalist. They've joined metropolitan papers, the ABC and SBS, along with commercial radio, TV and digital-only outlets. Others have gone on to careers in communications, speech writing and other professions where the skills of journalism are in demand.

JAPANESE STUDIES

Available as a major, minor or electives

📍 Clayton & Caulfield

We have one of the most extensive Japanese study programs in Australia, engaging you with Japanese language, culture and society. Flexible entry points (beginners, intermediate and proficient) ensure language study at a level that suits your background.

We're cross-disciplinary which means we study Japanese from a variety of perspectives – historical, artistic, religious, political, international – especially within the broader Asian context.

CAREER OPTIONS

- Corporate and tourism sectors
- Government
- International relations
- Trade.

KOREAN STUDIES

Available as a major, minor or electives

📍 Clayton

Language teaching at Monash uses interactive and multimedia resources to bring Korean culture and language to life. You'll be introduced to Hangul, the Korean phonetic writing system, which will enable you to type in Korean from beginner's level onwards.

Korea is one of Australia's largest trading partners, and the close political and strategic relationship between the two countries is constantly developing and expanding in a number of sectors, including trade, education and tourism. Developing a high level of linguistic and intercultural competence will give you a clear advantage when applying for jobs and it will diversify your career options.

CAREER OPTIONS

- Commerce
- International relations
- Trade
- Tourism.

LINGUISTICS AND ENGLISH LANGUAGE

Available as a major, minor or electives

📍 Clayton

Linguistics explores how we understand, acquire, and use language, both spoken and written. You'll study multilingualism, language and globalisation, language learning and teaching, and language endangerment, with an option to specialise in English as an international language. You'll analyse the relationship between language, society, identity, and culture, and improve your ability to communicate across cultures while exploring how language shapes thought and expression.

CAREER OPTIONS

- Audiology
- Professional and creative writing
- Foreign affairs
- Journalism.

PHILOSOPHY

Available as a major, minor or electives

📍 Clayton & Caulfield

Philosophy is the study of fundamental questions about existence, knowledge, ethics, and reasoning through critical thinking and logical analysis. Philosophy students become excellent communicators, forming clear and persuasive arguments, conceiving complex ideas and developing as independent thinkers. Philosophy studies are very popular with Arts/Laws students. You'll be inspired to think outside the square and look at the world in a different way.

CAREER OPTIONS

- Journalism
- Law
- Non-government organisations (NGOs)
- Policy and government departments.

LITERARY STUDIES

Available as a major, minor or electives

📍 Clayton & Caulfield

Literary studies covers contemporary and historical literature, including novels, poems, and non-fiction. You'll develop an advanced understanding of literature's impact on society, informed by literary movements, themes, genres, and theory. Upon completing core units in cultural and historical contexts, you'll then have the option to either take further electives in literary studies or creative writing.

CAREER OPTIONS

- Commercial publishing
- Creative industries
- Government and cultural policy
- Professional and creative writing.

POLITICS

Available as a major, minor or electives

📍 Clayton & Caulfield

Politics is the study of power relations in society. It helps you understand essential issues about how societies are organised and their key institutions, including government, parliament and political parties.

Politics offers you a way of engaging in vital questions about power and authority, how people govern communities and the relationship between ideas and practice. You'll learn how contemporary political systems emerged and the fundamental ideas that propelled their development. You'll learn to evaluate and compare different political systems and their key institutions.

CAREER OPTIONS

- Government administration
- Lobbying and advocacy
- Non-government organisations (NGOs)
- Politics.

MUSIC

Available as a major, minor or electives

📍 Clayton

At Monash, you can study music through the Bachelor of Music or as part of other degrees like Arts or Science. Studying music as a major, minor or electives helps you to develop critical, analytical, and interpretive skills in areas like western art music, popular music, song writing, and improvisation. These are non-practical units, and no prior experience is required. There's also an opportunity to join a range of small and large ensembles, some of which require an audition.

CAREER OPTIONS

- Archiving
- Journalism
- Media and communications
- Music reviewing.

PSYCHOLOGY

Available as an Australian Psychology Accreditation Council (APAC) accredited extended major, minor or electives

📍 Clayton

Psychology is concerned with a wide range of phenomena, including remembering and forgetting, thinking, problem-solving, learning, acquiring skills, language, seeing and hearing, verbal and non-verbal communication, social interactions and emotions. It focuses on understanding biological, social and environmental influences on people and societies.

You'll benefit from one of the best scientist practitioner models of psychological education Australia has to offer, emerging with a deep insight into the human mind, and a suite of highly valued professional skills that can be applied to any field of work.

CAREER OPTIONS

- Government departments
- Health and welfare services
- Law courts and prisons
- Private practice and training.

SOCIOLOGY

Available as a major, minor or electives

📍 Clayton & Caulfield

Sociologists investigate the key social and global issues of our time. We examine class, gender, ethnicity, power and culture to understand how societies work and how social problems can be solved.

Our sociology program is among the most highly-ranked sociology programs in Australia, with your lecturers being leaders in the discipline. On graduation you'll have the capacity to critically assess major social problems, social design, undertake and assess research – ranging from broad scale statistical studies to small scale qualitative research – with diverse communities.

CAREER OPTIONS

- Community sector agencies
- International development
- Media, communications and advertising
- The public service.

THEATRE AND PERFORMANCE STUDIES

Available as a minor or electives

📍 Clayton

Engage in hands-on practical learning as you explore all aspects of creating and performing theatre. You'll learn from theatre professionals, gain exposure to the world of Australian and international theatre, and rapidly develop your craft as a performer, director, stage manager or producer. Our staff includes academics who are active and award-winning actors and playwrights, directors and dramaturges, as well as scholars who've published on a range of theatre and performance topics.

CAREER OPTIONS

Theatre and performance studies will open up many doors for you on and off the stage. Our graduates hold positions in:

- Acting
- Directing
- Stage management
- State, local and community groups.

PATHWAYS INTO MONASH ARTS

Monash Arts has a number of pathway options to help you gain entry into our courses. You'll need to meet both the academic and English language requirements. It's important to be aware that not all pathways lead to all courses.

ENTRY PATHWAYS FOR DOMESTIC STUDENTS

📄 monash.edu/study/courses/entry-pathways-domestic

ENGLISH LANGUAGE REQUIREMENTS

📄 monash.edu/admissions/english-language-requirements

PATHWAY OPTIONS INCLUDE:

TAFE

Complete a certificate IV or diploma. Graded results are required.

MONASH COLLEGE

Complete a Diploma of Arts or Monash University Foundation Year (MUFY).

MONASH ACCESS PROGRAM

Mature age learning enabling program; study four units part time.

📄 monash.edu/study/why-choose-monash/study-options/mature-age/monash-access-program

INDIGENOUS PATHWAYS AND ENTRY SCHEMES

📄 monash.edu/study/how-to-apply/indigenous-student-applications

SINGLE UNIT PATHWAY

You can apply to study single units if you don't meet minimum academic entry requirements for the degree you want to do. Once you've completed two university units, you can apply for a large range of undergraduate courses.

INSTITUTIONAL TRANSFER

Transfer from another university.

MENZIES BUILDING

PREREQUISITE SUBJECT LEVELS

Before starting your Monash course, it is important to make sure you have completed the right subjects to prepare for your studies. Each undergraduate course has specific prerequisite subjects that you must have studied in your previous qualification at an equivalent Australian level. Different prerequisite subject levels apply to each undergraduate course and can be located in the Entry Requirements tables (pages 40–44) of this guide.

For any English prerequisite, you can meet this requirement by completing an approved English subject. The table below outlines approved English subjects for common global qualifications.

ENGLISH			
■ Level 1 – English (Australian Year 12 equivalent)		■ Level 2 – Higher score in English (Australian Year 12 equivalent)	
VCE			
Units 3 and 4: a study score of at least 25 ¹ in either English (EAL) or English other than EAL		Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL	
IB			
At least 4 in one of the following SL subjects: • English A: Literature • English A: Language and Literature • Literature and Performance, OR	At least 5 in one of the following SL subjects: • English AB • English B, OR At least 4 in the following HL subject: • English B	At least 5 in one of the following SL subjects: • English A: Literature, or • English A: Language and Literature • Literature and Performance, OR At least 4 in one of the following HL subjects: • English A: Literature • English A: Language and Literature, OR	At least 6 in one of the following SL subjects: • English AB • English B, OR At least 5 in the following HL subject: • English B
GCE A LEVELS			
C grade or score of 4 in one of the following IGCSE subjects: • Literature in English • Literature (English) • English Literature • Cambridge First Language English 0522/0627/0990 • World Literature • English Language • English Language A • English Language B, OR	C grade in one of the following GCE AS Level subjects: • General Paper • General Studies • English General Paper • English language • Language and Literature in English (previously known as Language and Literature) • Literature in English • English Literature • English Language and Literature, OR	B grade or score of 5 in one of the following IGCSE subjects: • Literature in English • Literature (English) • English Literature • Cambridge First Language English 0522/0627/0990 • World Literature • English Language • English Language A • English Language B, OR	B grade in one of the following GCE AS Level subjects: • General Paper • General Studies • English General Paper • English language • Language and Literature in English (previously known as Language and Literature) • Literature in English • English Literature • English Language and Literature, OR
B grade or score of 5 in IGCSE English as a Second Language, OR C grade in Cambridge IGCSE First Language English 0500 with a grade 3 or lower in Speaking and Listening, OR C grade or score of 4 in one of the following GCSE/GCE O Level subjects: • English Language • Literature in English • English Literature • English • English Language (Syllabus B)	E grade in one of the following GCE A Level subjects: • General Studies • English General Paper • English language • Literature in English • English Language and Literature • English Literature, OR • GCE A Level English Rich subject ²	A grade or score of 7 in IGCSE English as a Second Language, OR B grade in Cambridge IGCSE First Language English 0500 with a grade 2 or lower in Speaking and Listening, OR B grade or score of 5 in one of the following GCSE/GCE O Level subjects: • English Language • Literature in English • English Literature • English • English Language (Syllabus B)	D grade in one of the following GCE A Level subjects: • General Studies • English General Paper • English language • Literature in English • English Language and Literature • English Literature, OR • GCE A Level English Rich subject ²
ADVANCED PLACEMENT			
AP examination score of 3 in one of the following: • AP English Language and Composition, OR • AP English Literature and Composition		AP examination score of 4 in one of the following: • AP English Language and Composition, OR • AP English Literature and Composition	
SCHOLASTIC APTITUDE TEST			
Refer to Advanced Placement and American High School Diploma to locate other ways on how to satisfy English prerequisite requirements ³			
SCHOLASTIC APTITUDE TEST SUBJECT TESTS			
Refer to Advanced Placement and American High School Diploma to locate other ways on how to satisfy English prerequisite requirements ³			
AMERICAN HIGH SCHOOL DIPLOMA (MUST BE REGIONALLY ACCREDITED)			
Pass average in Grade 12 English or Grade 12 English Rich subject ²	100% scale (60% pass): 70% average in Grade 12 English or Grade 12 English Rich subject ² 100% scale (65% pass): 75% average in Grade 12 English or Grade 12 English Rich subject ² 100% scale (70% pass): 80% average in Grade 12 English or Grade 12 English Rich subject ²		

¹ This applies to all courses except the Bachelor of Education (Honours) and associated double degrees, the Bachelor of Occupational Therapy (Honours), and the Bachelor of Paramedicine, where a study score of at least 30 in English (EAL) or 25 in English other than EAL is required.
² The acceptance of English Rich subjects is subject to faculty approval (other guidelines also apply).
³ Monash University does not accept SAT Subject Test in Literature as meeting English prerequisite requirements.

ASSUMED KNOWLEDGE

COURSES WITH MATHS AND SCIENCE PREREQUISITE SUBJECTS

Some undergraduate courses require maths and/or science as prerequisite subjects. You can meet these requirements in the following ways:

- **Australian Year 12 or International Baccalaureate Diploma Programme** You must meet the maths and/or science prerequisite subject level requirements for your chosen course as specified in the table below. The maths and/or science levels for each course are listed on the course specific pages (12–35) of this guide under 'assumed knowledge.'
- **Other qualifications recognised by Monash** If you have completed maths and/or science subjects in the relevant discipline at the required grade level, it is assumed that you have the knowledge equivalent to the Australian Year 12 (VCE equivalent) prerequisite subject required for your chosen course. It is strongly recommended that you check that you have covered the assumed knowledge required for your course by completing the Assumed Knowledge Skills Analysis at go.monash.edu/assumed-knowledge

This online activity includes multiple-choice questions based on your prior studies and helps you identify areas for revision, so you can start your course feeling confident and prepared. Once you accept your Monash offer and set up your student account you can complete the 'Assumed Knowledge Skills Analysis' before starting your course. These guidelines do not apply to the Bachelor of Medical Science and Doctor of Medicine.

MATHS			SCIENCE
■ Level 1 ^{1,2} Mathematics (Australian Year 11 equivalent)	■ Level 2 ² Mathematics (Australian Year 12 equivalent)	■ Level 3 Higher level mathematics (Australian Year 12 equivalent)	■ Science (Australian Year 12 equivalent)
AUSTRALIAN YEAR 12			
VCE: Units 1 AND 2: Satisfactory completion in 2 units (any study combination) of General Mathematics or, Mathematical Methods or Specialist Mathematics, or Australian interstate equivalent.	VCE Units 3 AND 4: a study score of at least 22 in Mathematical Methods or Specialist Mathematics, or a score of at least 25 in General Mathematics, or Australian interstate equivalent.	VCE: Units 3 and 4: a study score of at least 25 in one of Mathematical Methods or Specialist Mathematics, or Australian interstate equivalent.	VCE: Units 3 and 4: a study score of at least 25 in one of Biology, Chemistry, Environmental Science, Geography, Mathematical Methods, Specialist Mathematics, Physics or Psychology, or Australian interstate equivalent, unless otherwise stated.
INTERNATIONAL BACCALAUREATE (IB) DIPLOMA PROGRAMME			
At least 3 in any mathematics subject at SL or HL level.	At least 4 in the following SL subject: • Mathematics: Application and Interpretations	At least 4 in the following SL subject: • Mathematics: Analysis and Approaches, OR At least 3 in the following HL subjects: • Mathematics: Applications and Interpretations, OR • Mathematics: Analysis and Approaches.	At least 4 at SL or 3 at HL in Biology, Chemistry, Environmental Systems and Societies (SL only), Geography, Mathematics: Analysis and Approaches, Mathematics: Applications and Interpretations (HL only), Physics or Psychology, unless otherwise stated.

¹ Maths subjects listed in the Level 2 and Level 3 columns can also be used to satisfy Level 1 maths prerequisite requirements.
² Maths subjects listed in the Level 3 column can also be used to satisfy Level 1 and Level 2 maths prerequisite requirements.

M Master's accelerated pathway **I** Indigenous entry pathway

CL – Clayton | CA – Caulfield | PE – Peninsula | PA – Parkville.
RC – Range of criteria.

E – Estimated: the provided score is estimated and is to be used as a guide only.

¹ Duration is based on a standard full-time load of 48 credit points per annum.

² Science approved list: **VCE:** Biology, Chemistry, Environmental Science, Geography, Mathematical Methods (any), Specialist Mathematics, Physics or Psychology. **IB (SL or HL):** Biology, Chemistry, Environmental Systems and Societies (SL only), Further Mathematics (HL only), Geography, Mathematics, Mathematics: Analysis and Approaches (HL only), Mathematics: Applications and Interpretations (HL only), Physics or Psychology.

³ Indicative – The provided score is the 2026 lowest selection rank to which an offer was made, or an estimate (E), and is to be used as a guide only.

⁴ Depending on your Arts major, you may take the Arts component at Clayton or Caulfield.

⁵ This course has additional selection requirements; monash.edu/study

⁶ Media Communication subjects will be taken at Caulfield campus.

⁷ The Bachelor of Education (Honours) is an accelerated course where you'll be required to undertake more than the standard annual load of 48 credit points in year two and/or year three in order to complete the course in four calendar years.

⁸ The Bachelor of Laws (Honours) is an accelerated course where you'll be required to undertake more than the standard annual load of 48 credit points in year two and/or year three in order to complete this double degree course in six calendar years.

CA – Caulfield | CI – City | CL – Clayton | PA – Parkville | PE – Peninsula.

¹ For all double degree courses codes and CRICOS codes, visit: [monash.edu/study](https://www.monash.edu/study)

² Duration is based on a standard full-time load of 48 credit points per annum.

³ Fees are quoted in Australian dollars; each is the annual average fee per 48 credit points of study in this course for 2026. Fees are adjusted annually. For updates, visit: [monash.edu/students/admin/fees/course/international-full-fee](https://www.monash.edu/students/admin/fees/course/international-full-fee)

⁴ Science approved list (unless specified otherwise): **VCE:** Biology, Chemistry, Environmental Science, Geography, Mathematical Methods (any), Specialist Mathematics, Physics or Psychology. **IB (SL or HL):** Biology, Chemistry, Environmental Systems and Societies (SL only), Further Mathematics (HL only), Geography, Mathematics: Analysis and Approaches, Mathematics: Applications and Interpretations (HL only), Physics or Psychology.

⁵ Depending upon your Arts major, you may take the Arts component at Clayton or Caulfield.

⁶ This course is completed within four years but has a 4.25-year duration due to an overload in year two and/or year three of the course. As a result, fees in year two and/or year three will reflect 1.25 times the standard 48 credit point fee.

⁷ This course has additional selection requirements. [monash.edu/study](https://www.monash.edu/study)

⁸ This course is an accelerated course where you'll be required to undertake more than the standard annual load of 48 credit points in order to complete the course in two calendar years.

⁹ The entry requirements published in this guide apply to specific Diploma programs only and are for students commencing their studies in 2027 where applicable credit exemptions are located on our website. For more information, visit: [monash.edu/study](https://www.monash.edu/study)

HOW TO APPLY

DOMESTIC AND ONSHORE INTERNATIONAL STUDENTS

APPLY THROUGH VTAC

If you're an Australian or New Zealand citizen, an Australian permanent resident, or an international student studying an Australian Year 12 or IB in Australia or New Zealand, apply through the Victorian Tertiary Admission Centre (VTAC). Visit: www.vtac.edu.au
