

2012 MOCZYDLOWSKA, M., AGIĆ, H., Algal affinities of the Ediacaran organic-walled microfossils with reproductive internal bodies. 34<sup>th</sup> International Geological Congress, Australia 2012, Brisbane 2-10 August 2012, Abstracts.

2012 MOCZYDLOWSKA, M., WESTALL, F., FOUCHER, F., Affinity of the earliest organically-preserved Ediacaran metazoan Sabellidites revealed by its microstructure and biogeochemistry. 34<sup>th</sup> International Geological Congress, Australia 2012, Brisbane 2-10 August 2012, Abstracts.

My activity was the attendance to the 34th IGC, Brisbane:

Invited presentation at Symposium 23.4 Proterozoic Life (I was the co-convenor with Kath Grey), (Moczydlowska and Agic, 2012, abstract)

oral presentation at Symposium 35.3 International Subcommittee on Neoproterozoic Stratigraphy (Moczydlowska et al., 2012, abstract)
