

PROFESSIONAL COURSES IN MRI FOR MEDICAL RADIATION PRACTITIONERS

INTERESTED IN UPSKILLING?

Whether you'd like to learn a new modality, update your skills, or advance your career pathways, our MRI course offerings make it easy for you to pursue your professional interests.

Delivered fully online, our courses are ideally suited for working professionals, offering the quality of a Monash qualification with the flexibility to choose where and when you study. You'll learn from experienced practitioners and complete assessments relevant to your practice.

DEEPEN YOUR KNOWLEDGE

Study a single unit to develop your MRI experience, or boost your credentials with additional electives including:

- Basics of MR including Safety
- Musculo-skeletal Imaging
- Neurologic and Body Imaging
- Advanced Methods and Techniques

If you're interested in further study, you have the option to either complete the full Master of Advanced Medical Imaging Practice or Master of Advanced Radiation Therapy Practice or exit early with a Graduate Certificate.

ADVANCE YOUR CAREER

Progress to a leadership position or develop new career pathways with the Master of Advanced Medical Imaging Practice and the Master of Advanced Radiation Therapy Practice. With a contemporary and evidence-based curriculum, this course will keep you up-to-date with advanced technologies and develop your clinical judgement, decision making and leadership skills to shape your future practice.

With recognition for your previous experience and learning, you can complete this postgraduate qualification in as little as one year (full-time) or over three years (part-time).
