MASTER OF ADVANCED HEALTH CARE PRACTICE

MASTER OF ADVANCED CLINICAL MIDWIFERY PRACTICE

Enhance your specialist midwifery knowledge, advance to a leadership position or embark on a research project with the Master of Advanced Clinical Midwifery Practice, one of six specialisations within the Master of Advanced Health Care Practice.

With a contemporary and evidence-based curriculum written by clinical experts, our innovative course will prepare you for leadership roles in midwifery service management and education. Our course explores current national and international issues around maternal and newborn health and professional midwifery education. The curriculum provides tools to shape your future practice and develop new career pathways.

With the choice to study on campus or online, the Master of Advanced Clinical Midwifery Practice offers the quality and recognition of a Monash postgraduate degree with the flexibility required by working professionals. This program also offers a research stream which can be used as a pathway to a PhD.

In the Master of Advanced Clinical Midwifery Practice you will:
- Advance your clinical management and decision-making skills.
- Explore dilemmas in maternal and newborn health in Australian and global contexts.
- Facilitate evidence-based woman-centred midwifery practice in your workplace.
- Demonstrate effective communication in collaborative and interprofessional contexts, inclusive of all members of the maternity care team.

Delivery mode: On-campus (Peninsula) or online
Intakes: First Semester – February Second Semester – July
Fees: Refer to monash.edu/study
Duration: 1.5 years (full-time) or 3 years (part-time) depending on prior qualifications

“After completing the course I’m more confident and equipped with leadership and advanced midwifery skills. In the coming years, I’ll be in a position to manage health projects in my hospital in Vietnam.”

Dai Le
Midwife, Tu Du Hospital, Vietnam
Master of Advanced Clinical Midwifery Practice

COURSE STRUCTURE

<table>
<thead>
<tr>
<th>PART A</th>
<th>PART B</th>
</tr>
</thead>
<tbody>
<tr>
<td>Part A focuses on expanding core discipline skills (24 points)</td>
<td>Part B provides the opportunity to pursue advanced specialist study through either coursework or a research focus (48 points)</td>
</tr>
</tbody>
</table>

All students complete Part B. Depending on your qualifications and experience, you may be eligible to apply for credit of up to 24 credit points towards part or all of Part A. Even if you are eligible for credit, you can elect to do the longer form of the course.

It is anticipated that most midwives will commence this course at Part B. Visit monash.edu/study to learn more about what you'll learn within the midwifery specialisation.
RESEARCH STREAM PROJECTS

Monash is recognised globally for its research excellence. You can choose to undertake a research project or minor thesis in midwifery or maternal health, where you’ll be matched to a supervisor who is an expert in their field. Supported research areas include:

- education
- leadership
- clinical midwifery practice
- inter-professional practice
- maternal wellbeing
- women’s health

Research works best if it arises from a specific practice based challenge. Discuss your proposed research project with the course coordinator and we will endeavour to support your project.

WHY CHOOSE MONASH?

- Ranked #46 in the world for Clinical, Preclinical and Health Sciences (Times Higher Education 2018).
- The Faculty takes a bench to bedside approach; our clinical research is focused on directly improving outcomes for patients.
- We participate in Monash Partners Academic Health Science Centre, one of only four advanced research and translational centres in Australia.
