- Caulfield 
- 1, 1.5 or 2 years 
- Full time or part time 
- Day classes 
- February and July 

CRICOS: 0101964
COURSE CODE: B6019

A forward-thinking course that integrates the knowledge needed to manage projects and programs across multiple sectors.

A forward-thinking course designed to escalate your industry experience with new adaptive methodologies. Learn to critically analyse problems and manage key dependencies across complex programs, projects and business transformations.

You'll work on live projects to gain unique insights into project leadership practice in a range of fields. Multiple industry engagement opportunities will be offered throughout the course and you will also have the opportunity to be supported by a mentor.

The degree is tailored for flexibility, giving you the option to study part time, full time or in block mode.

You can focus on one discipline or take advantage of our curated themes and choose from a range of discipline-specific electives including entrepreneurship.

This course will provide the opportunity to work alongside professionals from a range of industries and build a network of like-minded colleagues.

Course structure

The course is structured in three parts. Part A. Advanced preparatory, Part B. Mastery knowledge and Part C. Application studies. All students complete Part B. Depending upon prior qualifications, you may receive credit for Part A or Part C or both.

Part A. Advanced preparatory (24 credit points)	Part B. Mastery knowledge (48 credit points)	Part C. Application studies (24 credit points)
<ul style="list-style-type: none"> – Principles of managing projects – Managing the project context – Techniques for managing projects – Delivering projects 	<p>Four units (24 points):</p> <ul style="list-style-type: none"> – Organising the project function – Project as a social system – Innovation in the project context – Managing project knowledge <p>And either b. or c. below:</p> <p>b. Professional pathway:</p> <ul style="list-style-type: none"> – Industry project (12 points) – Professional development – an additional elective unit as detailed in Part C. “I chose to study project management to further my career and it’s definitely educated me on various industries and how to work collaboratively with people from different professional backgrounds.

Being challenged by varied perspectives has helped me grow professionally and has advanced my problem-solving and creative abilities, while also enhancing my communication and leadership skills.

What I’ve enjoyed the most is interacting and learning from the guest lecturers, who are all pioneers and thought leaders in their respective fields.

Project management skills are essential in today’s competitive and progressive world. When I graduate, I hope to work in HR and change management roles in the business consulting industry.”

SHAMBHAVEE MANJUNATH

Entry requirements

Applicants must have completed an Australian bachelor degree (or equivalent) with a Weighted Average Mark (WAM) of 60 or an equivalent GPA as determined by the School. Applicants must also have completed a minimum of 6 months relevant work experience.
