

## 2019 Completions - Medicine, Nursing and Health Sciences

### **Dr. Tanveer Ahmad**

(Specialisation: Biochemistry and molecular biology) (Conferred: 20-Jan-2019)

Large cytoplasmic megakaryocytes are responsible for platelet production and play a critical role in HSC maintenance

### **Dr. Tess Samantha Bartlett**

(Specialisation: Social work) (Conferred: 20-Jan-2019)

Imprisoned primary carer fathers in Victoria and their experiences of arrest and imprisonment

### **Dr. Ruby Biezen**

(Specialisation: General practice) (Conferred: 20-Jan-2019)

Knowledge, attitude and practice of parents and primary care providers in the prevention and management of respiratory tract infections in young children

### **Dr. Miranda Ruth Cavanough Blake**

(Specialisation: Public health general) (Conferred: 20-Jan-2019)

Pricing strategies to reduce population sugar-sweetened beverage consumption

### **Dr. Douglas Andrew Blank**

(Specialisation: Obstetrics and gynaecology) (Conferred: 20-Jan-2019)

Umbilical Cord Management at Birth

### **Dr. Alicia Chenoweth**

(Specialisation: Immunology) (Conferred: 20-Jan-2019)

Novel Approaches for the Generation of Human Antibody Therapeutics by IgG Hinge and Fc Engineering

### **Dr. Catherine Roberta Cochrane**

(Specialisation: Biomedical science) (Conferred: 20-Jan-2019)

Investigation into Ligand-Dependent Hedgehog Signalling in Development and Cancer

### **Dr. Kristina Maree Haebich**

(Specialisation: Clinical neuropsychology) (Conferred: 20-Jan-2019)

Very preterm goal setting deficits and associated neural substrates at 13 years of age

### **Dr. Claire Agnes Harris**

(Specialisation: Health - other) (Conferred: 20-Jan-2019)

Sustainability in Health care by Allocating Resources Effectively (SHARE). An investigation of disinvestment in the local healthcare setting

### **Dr. Jay John Hocking**

(Specialisation: Haematology) (Conferred: 20-Jan-2019)

Investigating MEK inhibition in the treatment of multiple myeloma

### **Dr. Kevin Huynh**

(Specialisation: Biomedical science) (Conferred: 20-Jan-2019)

Improving targeted lipidomics to elucidate lipid pathways in Type 2 diabetes and Alzheimer's disease

### **Dr. Sophie Nancy May Lee**

(Specialisation: Biomedical science) (Conferred: 20-Jan-2019)

Smooth Muscle Contractility in the Normal and Diseased Human Prostate

### **Dr. Carole Ann Lunny**

(Specialisation: Epidemiology) (Conferred: 20-Jan-2019)

Methodological Issues in Conducting Overviews of Systematic Reviews

**Dr. Fatima Fanna Mairami**

(Specialisation: Public health general) (Conferred: 20-Jan-2019)  
The Experience of stroke in Malaysia

**Dr. Fiona Constance Mccook**

(Specialisation: Rural health) (Conferred: 20-Jan-2019)  
Going off the beaten track: An emerging model for precipitating change in regional aged-care preceptors' teaching practice

**Dr. Jade Mary Murray**

(Specialisation: Psychological medicine) (Conferred: 20-Jan-2019)  
Characterising Circadian Timing, Sleep Variability and Functional Outcomes of Delayed Sleep-Wake Phase Disorder for Improvement of Screening and Diagnostic Approaches

**Dr. Margaret Stuart Murray**

(Specialisation: Nutrition science) (Conferred: 20-Jan-2019)  
A novel investigation of the anti-hyperglycaemic and anti-hyperlipidaemic effects of a polyphenol-rich Fucus vesiculosus extract

**Dr. Thi-Nhu-Ngoc Nguyen**

(Specialisation: Psychology) (Conferred: 20-Jan-2019)  
Developmental Trajectories and Brain Markers of Language in Very Preterm Children

**Dr. Leona Pascoe**

(Specialisation: Psychology) (Conferred: 20-Jan-2019)  
Intrinsic motivation in children born extremely preterm: Neuroanatomical and cognitive associations and role in cognitive training

**Dr. Paulo Cesar Pinares-Garcia**

(Specialisation: Neuroscience) (Conferred: 20-Jan-2019)  
The regulation and function of the Y chromosome gene, SRY, in experimental and clinical PD

**Dr. Bradley Alan Spicer**

(Specialisation: Biochemistry and molecular biology) (Conferred: 20-Jan-2019)  
A biochemical characterisation of the MACPF/CDC pore assembly

**Dr. Nathan Chad Stam**

(Specialisation: Public health - other) (Conferred: 20-Jan-2019)  
Clinical and Forensic Aspects of Heroin-Related Deaths: Prevalence, Contributors and Opportunities for Prevention

**Dr. Maryam Tabesh**

(Specialisation: Epidemiology) (Conferred: 20-Jan-2019)  
Diabetes management in low and middle income countries

**Dr. Sarah Trudi Van Dam**

(Specialisation: Psychology) (Conferred: 20-Jan-2019)  
Components Of Cognitive Impulsivity And The Association Between Impulsivity And Social Networking Site Use

**Dr. Parisa Vidafar**

(Specialisation: Psychology) (Conferred: 20-Jan-2019)  
Sex Differences in the Response of the Circadian System to Light

**Dr. Kate Jaclyn Young**

(Specialisation: Public health general) (Conferred: 20-Jan-2019)  
Partners not patients: Healthcare for endometriosis from the perspectives of women and clinicians

**Dr. Mitchell Brian Batty**

(Specialisation: Microbiology) (Conferred: 06-Feb-2019)

Role of Casein Kinase 1 of Plasmodium falciparum in parasite biology and as a target for novel anti-malarial drugs

**Dr. Stephen Daniel Bloom**

(Specialisation: Internal medicine) (Conferred: 06-Feb-2019)

Community Approach Targeting Cirrhosis and Hepatocellular carcinoma - CATCH

**Dr. Vincent Jasper Cornelisse**

(Specialisation: Epidemiology) (Conferred: 06-Feb-2019)

Epidemiology of gonorrhoea, chlamydia and HIV in men who have sex with men, and evaluation of new prevention strategies.

**Dr. Claire Dendle**

(Specialisation: Immunology) (Conferred: 06-Feb-2019)

Immune biomarkers and infections in kidney transplant recipients

**Dr. Gregory John Hapgood**

(Specialisation: Haematology) (Conferred: 06-Feb-2019)

The molecular characterisation of peripheral T cell lymphomas

**Dr. Farrah Shafeera Ibrahim**

(Specialisation: Physiology) (Conferred: 06-Feb-2019)

Identification Of Early Potential Biomarker For Early Diabetic Nephropathy

**Dr. Goma Kumari Khatri**

(Specialisation: Public health - other) (Conferred: 06-Feb-2019)

An Investigation of the Relationships among Women's Experiences of the 2015 Earthquakes, Mental Health Status and Pregnancy Outcomes in Nepal

**Dr. Robert Laird**

(Specialisation: Physiotherapy) (Conferred: 06-Feb-2019)

Does movement matter? Exploring the relationship between lumbo-pelvic movement and back pain using wireless inertial motion sensors

**Dr. Jodi Woan-Fei Law**

(Specialisation: Biomedical science) (Conferred: 06-Feb-2019)

Diversity And Biosystematics Of Novel Streptomyces From Mangrove In Sarawak

**Dr. Loh Teng Hern Tan**

(Specialisation: Biomedical science) (Conferred: 06-Feb-2019)

Bioprospecting of Streptomyces species derived from mangrove soil for chemopreventive properties

**Dr. Siew Li Teoh**

(Specialisation: Nutrition) (Conferred: 06-Feb-2019)

Clinical Evidence Synthesis and Consumer Preferences on Nutraceuticals

**Dr. Guojie Wu**

(Specialisation: Biochemistry and molecular biology) (Conferred: 06-Feb-2019)

Structural and Functional Studies of Plasmin Inhibitors

**Dr. Si Han Yeoh**

(Specialisation: General medicine) (Conferred: 06-Feb-2019)

Diabetes Prevention: An Investigation of Health Knowledge, Beliefs, Lifestyles and Its Motivating Factors and Barriers among Malaysians

**Dr. Shalini Arunogiri**

(Specialisation: Psychiatry) (Conferred: 19-Feb-2019)  
Methamphetamine and psychosis: risk and vulnerability factors

**Dr. Annette Davis**

(Specialisation: General medicine) (Conferred: 19-Feb-2019)  
Footwear, falls and older adults

**Dr. Holly Lucinda Hutton**

(Specialisation: Immunology) (Conferred: 19-Feb-2019)  
Mechanisms of Renal Injury and Autoimmunity in ANCA Vasculitis

**Dr. Supreet Kaur**

(Specialisation: Biochemistry and molecular biology) (Conferred: 19-Feb-2019)  
Role of Hepatic ROS in the Development of Obesity, Steatosis and NAFLD.

**Dr. Emilia Maria Marijanovic**

(Specialisation: Biochemistry) (Conferred: 19-Feb-2019)  
Engineering serpin stability and function

**Dr. William Aidan Poole**

(Specialisation: Microbiology) (Conferred: 19-Feb-2019)  
Identification and characterisation of exported Babesia bovis proteins

**Dr. David John Robinson**

(Specialisation: Radiography) (Conferred: 19-Feb-2019)  
The Application of Ultrasound in the Imaging of Impingements of the Shoulder and Native and Post-Arthroplastic Hip

**Dr. Alexander Joseph Rodriguez**

(Specialisation: Epidemiology) (Conferred: 19-Feb-2019)  
Musculoskeletal and vascular ageing: Points of intersection

**Dr. Jayalaxmi Shetty**

(Specialisation: Pharmacology) (Conferred: 19-Feb-2019)  
Development of improved pH sensitive nanocrystals for super-efficient delivery of therapeutic gene and anticancer drug to breast cancer

**Dr. Mehdi Youssefi Matak**

(Specialisation: Biochemistry and molecular biology) (Conferred: 19-Feb-2019)  
Interaction between Poly (C)-Binding Protein 2 and Poliovirus Stem-loop IV RNA as the primary step in poliovirus IRES-dependent translation

**Dr. Nurul Mardhiah Abdul Satar**

(Specialisation: Neuroscience) (Conferred: 06-Mar-2019)  
Role Of Habenular Kisspeptin In Dopaminergic Modulation

**Dr. Dhaniel Dias Baraldi**

(Specialisation: Pharmacology) (Conferred: 06-Mar-2019)  
Non-Classical Ras Therapeutic Targets For Hypertensive Cardio-Renal Fibrosis

**Dr. Emma Maureen Gearon**

(Specialisation: Epidemiology) (Conferred: 06-Mar-2019)  
The epidemiology of socioeconomic inequalities in obesity among Australian adults

**Dr. Annette Graham**

(Specialisation: Psychiatry) (Conferred: 06-Mar-2019)  
The delivery and receipt of mental illness information in Australia

**Dr. Rebecca Isobel Johnson**

(Specialisation: Microbiology) (Conferred: 06-Mar-2019)  
Characterisation of novel paramyxoviruses isolated from pteropid bat urine

**Dr. Katrina Maree Long**

(Specialisation: Psychology) (Conferred: 06-Mar-2019)  
The pragmatic implementation and evaluation of a mental healthcare decision support intervention

**Dr. Brooke Anne Pereira**

(Specialisation: Biomedical science) (Conferred: 06-Mar-2019)  
Modelling the three-dimensional prostate cancer microenvironment in vitro to study tumour-stroma interactions in localised disease

**Dr. Ari Pinar**

(Specialisation: Neuroscience) (Conferred: 06-Mar-2019)  
Genome-wide Analysis of the Genetic Correlates of Response Time Variability and Response Inhibition

**Dr. Jey Sern Tan**

(Specialisation: Biomedical science) (Conferred: 06-Mar-2019)  
Zinc oxide nanoparticles induce necrotic-like cell death and energy depletion on SH-SY5Y cells

**Dr. Chuin Hau Teo**

(Specialisation: Neuroscience) (Conferred: 06-Mar-2019)  
GnIH Cellular Signalling under Social Isolation

**Dr. Tharshanah Thayabaranathan**

(Specialisation: Health - other) (Conferred: 06-Mar-2019)  
Improving care and outcomes after stroke: a focus on hospitals and community-based interventions

**Dr. Md Mahbub Ullah**

(Specialisation: Physiology) (Conferred: 06-Mar-2019)  
Renal Oxygenation and its Determinants in Chronic Kidney Disease

**Dr. Ammar Ahmed Abdulwahid**

(Specialisation: Physiology) (Conferred: 20-Mar-2019)  
Maternal obesity-induced hyperactivity in the hippocampus: Adverse impacts on long term brain function

**Dr. B Saatheeyavaane Bhuvanendran Pillai**

(Specialisation: Neuroscience) (Conferred: 20-Mar-2019)  
Neuroprotective Effect Of Embelin In Experimental Models Of Alzheimer's Disease

**Dr. Michael Park Chae**

(Specialisation: Surgery) (Conferred: 20-Mar-2019)  
Developing Image-Guided, Bedside 3D Printing Practice in Plastic & Reconstructive Surgery

**Dr. Andrew William James Dawson**

(Specialisation: Psychology) (Conferred: 20-Mar-2019)  
Medication-induced addictive behaviours in Parkinson's disease: Scientific, clinical and legal implications of neurocognitive advances

**Dr. Tra-III Kristian Dowie**

(Specialisation: Psychiatry) (Conferred: 20-Mar-2019)  
In Search of a Redefined Ontology for Psychological-Practice

**Dr. Pei Kee Goh**

(Specialisation: Biomedical science) (Conferred: 20-Mar-2019)  
The role of TCPTP in Mammary gland development and tumorigenesis

**Dr. Liriye Kurtovic**

(Specialisation: Immunology) (Conferred: 20-Mar-2019)

The role of complement in antibody-mediated immune mechanisms against malaria

**Dr. Maggie Lieu**

(Specialisation: Pharmacology) (Conferred: 20-Mar-2019)

An investigation into the contribution of B cell activating factor, antibodies and complement in the pro-hypertensive actions of B cells

**Dr. Elise Maree Mcglashan**

(Specialisation: Psychology) (Conferred: 20-Mar-2019)

Sensitivity of the human circadian system to light in depression

**Dr. Paris Clarice Papagianis**

(Specialisation: Physiology) (Conferred: 20-Mar-2019)

Anti-inflammatory therapies for bronchopulmonary dysplasia

**Dr. Mae Amber Proudley**

(Specialisation: Social work) (Conferred: 20-Mar-2019)

Language, loss and time: 2009 Black Saturday bushfires in Victoria

**Dr. Pamela Zhe Sun**

(Specialisation: Clinical psychology) (Conferred: 20-Mar-2019)

Investigating the Relationship Between Childhood Trauma, Dissociation and Psychotic Symptoms in First Episode Psychosis

**Dr. Thomas Dean Watts**

(Specialisation: Microbiology) (Conferred: 20-Mar-2019)

Analysis of plasmid maintenance, incompatibility and conjugation in *Clostridium perfringens*

**Dr. Natasha Frances Franklin**

(Specialisation: Nursing - intensive care) (Conferred: 09-Apr-2019)

The Indigenous Australian Malnutrition Project: Comparing the burden and impact of malnutrition in Indigenous and non-Indigenous Australian patients, and validation of a malnutrition screening tool

**Dr. Beverly Giam**

(Specialisation: Biomedical science) (Conferred: 09-Apr-2019)

Roles of Nitric Oxide and Oxidative Stress on Cardiorenal Syndrome Type 2

**Dr. Emily Laura Gulliver**

(Specialisation: Microbiology) (Conferred: 09-Apr-2019)

The exploration of small RNA regulation in *Pasteurella multocida*

**Dr. Sebastian Rupert Hobson**

(Specialisation: Obstetrics and gynaecology) (Conferred: 09-Apr-2019)

PREECLAMPSIA: A THESIS EXPLORING PATHOPHYSIOLOGY, CLINICAL CORRELATIONS, NOVEL THERAPIES AND FUTURE DIRECTIONS

**Sultana Mehbuba Hossain**

(Specialisation: Biomedical science) (Conferred: 09-Apr-2019)

Anti-Cancer Drug Delivery to Breast Cancer Cells utilizing Biodegradable Salt Nanoparticles

**Dr. Stacey Nicole Keenan**

(Specialisation: Physiology) (Conferred: 09-Apr-2019)

The Role of Perilipin 5 in Regulating Liver Lipid and Glucose Metabolism

**Dr. Mageswary Sivalingam**

(Specialisation: Neuroscience) (Conferred: 09-Apr-2019)

Habenula Kisspeptin Suppresses Morphine Mediated Fear Memory Consolidation

**Dr. Matthew Snelson**

(Specialisation: Nutrition science) (Conferred: 09-Apr-2019)

The effects of dietary advanced glycation endproducts on gut homeostasis and chronic kidney disease

**Dr. Sharifa Mohamad M Alasiry**

(Specialisation: General nursing) (Conferred: 17-Apr-2019)

Modelling Cardiac Rehabilitation Programs in Saudi Arabia

**Dr. Sebastian Sven Broendum**

(Specialisation: Biochemistry and molecular biology) (Conferred: 17-Apr-2019)

Characterisation and engineering of the streptococcal C1 phage lysin, PlyC

**Dr. Katarzyna Anna Gajewska**

(Specialisation: Biochemistry and molecular biology) (Conferred: 17-Apr-2019)

Role of the Bidirectional Nuclear Transporter Importin 13 in Stress

**Dr. Min Joung Kim**

(Specialisation: Neuroscience) (Conferred: 17-Apr-2019)

Developing novel therapeutic strategies to promote neuroprotection and neurorepair in progressive MS

**Dr. Uday Praful Kundap**

(Specialisation: Pharmacology) (Conferred: 17-Apr-2019)

Pharmacological evaluation of embelin in epilepsy induced cognitive impairment in zebrafish

**Dr. Jessica Emilie Manousakis**

(Specialisation: Psychology) (Conferred: 17-Apr-2019)

Sleep, circadian timing, and cognition in older adults with subjective cognitive decline

**Dr. Richard Ofori-Asenso**

(Specialisation: Epidemiology) (Conferred: 17-Apr-2019)

Disease Burden and Dynamics of Preventive Medication Use within the context of an Ageing Population

**Dr. Zhaoen Pan**

(Specialisation: Social work) (Conferred: 17-Apr-2019)

Social Work's Intervention into Rural Women's Empowerment in Australia and China

**Dr. Shuyu Zhu**

(Specialisation: Neuroscience) (Conferred: 17-Apr-2019)

The encoding of vocalisation pitch in the marmoset auditory cortex

**Dr. Kai Lin Cham**

(Specialisation: Neuroscience) (Conferred: 01-May-2019)

Role Of Ring Finger Protein 38 In Social Defeat Of Nile Tilapia, *Oreochromis Niloticus*

**Katharine Elizabeth Day**

(Specialisation: Social work) (Conferred: 01-May-2019)

Family intervention in early psychosis

**Anna Joy Scovelle**

(Specialisation: Psychology) (Conferred: 01-May-2019)

Associations between Sleep and Attentional Control on the Anti-Saccade Task in 'Cognitively Vulnerable' Adults

**Dr. Ruth Elizabeth Walker**

(Specialisation: Nutrition and dietetics) (Conferred: 01-May-2019)  
Weight management in pregnancy: bringing the conversation to life

**Dr. Leah Matteau Zelencich**

(Specialisation: Clinical psychology) (Conferred: 01-May-2019)  
Traumatic Brain Injury Adapted Cognitive Behaviour Therapy: Role of Therapy Process Variables

**Dr. Maeirah Afzal Ashaie**

(Specialisation: Biomedical science) (Conferred: 19-May-2019)  
Perturbation of cell-cell and cell-macromolecule interactions and their associated signalling cascades by biodegradable nanoparticle-assisted delivery of siRNA and study of consequential chemosensitization of breast cancer

**Dr. Sarah Elizabeth Ashton**

(Specialisation: Psychology) (Conferred: 19-May-2019)  
Young Women and Pornography: A Qualitative Investigation in Australia

**Dr. Aidan John Cobb Burrell**

(Specialisation: Medical studies - other) (Conferred: 19-May-2019)  
Extracorporeal and Mechanical Circulatory Therapy for Patients with Advanced Heart and Lung Disease

**Dr. Yann Ying Chye**

(Specialisation: Psychology) (Conferred: 19-May-2019)  
Brain Alterations in Cannabis Use and Dependence: A Cannabis Multisite MRI Study

**Dr. Rouve Jan Forbes**

(Specialisation: Rural health) (Conferred: 19-May-2019)  
Stories from the Ashes: Exploring young rural adults' psychosocial recovery beyond the 2009 Gippsland bushfires

**Aparna Dasunmalee Ganhewa**

(Specialisation: Surgery) (Conferred: 19-May-2019)  
The Morphology of an Ideal Trapezial Implant for Base of Thumb Arthritis

**Dr. Yuki Higuchi**

(Specialisation: Neuroscience) (Conferred: 19-May-2019)  
Regulation of Monoamine Oxidase A during Social Defeat Stress

**Dr. Nitesh Nerlekar**

(Specialisation: Internal medicine) (Conferred: 19-May-2019)  
The Association Between Epicardial Adipose Tissue and Coronary Plaque Characteristics: Insights from Computed Tomography Coronary Angiography

**Dr. Laura Helen Porter**

(Specialisation: Biomedical science) (Conferred: 19-May-2019)  
Pathological and genomic features of high-risk prostate cancer

**Dr. Mitchell Nicholas Sarkies**

(Specialisation: Physiotherapy) (Conferred: 19-May-2019)  
Effectiveness of research implementation strategies for evidence informed healthcare policy and practice

**Dr. Samantha Teague**

(Specialisation: Psychiatry) (Conferred: 19-May-2019)  
Investigating the role of attachment in the behaviour and emotional problems of children with Autism Spectrum Disorder

**Dr. Fraser Lomas Tull**

(Specialisation: Public health general) (Conferred: 19-May-2019)

Exploring Habit Theory in Sugary Drink Consumption

**Edmund Pei Yi Wee**

(Specialisation: Epidemiology) (Conferred: 19-May-2019)

Anatomicdistribution of melanoma - relationship with patient characteristics, subtype, thickness and hypomelanosis

**Dr. Sultan Mohammed A Alhayyani**

(Specialisation: Molecular immunology & oncology) (Conferred: 29-May-2019)

Oncogenic dependency on STAT3 serine phosphorylation in Kras mutant lung cancer and cachexia

(Specialisation: Physiology) (Conferred: 29-May-2019)

Gonadotropin Releasing Hormone Secretion Is Regulated by Gut Peptides at the Level of the Median Eminence

**Dr. Laura Andrea Galvis Vargas**

(Specialisation: Biomedical science) (Conferred: 29-May-2019)

Modulation of Muscle Regeneration and Repair

**Dr. Christopher Charles Karayiannis**

(Specialisation: Neuroscience) (Conferred: 29-May-2019)

Blood pressure, Aortic Stiffness, Haemodynamics, and Brain Health in Type 2 Diabetes Mellitus

**Dr. Lucia Michailidis**

(Specialisation: Podiatry) (Conferred: 29-May-2019)

Comparison of healing rates in diabetes-related foot ulcers with low frequency ultrasonic debridement

**Dr. Thi Thu Trang Nguyen**

(Specialisation: Health promotion) (Conferred: 29-May-2019)

Comprehensive care for people with severe mental illness in rural Vietnam: Addressing policy evidence gaps

**Dr. Kristopher Charles Magnus Nilsen**

(Specialisation: Biomedical science) (Conferred: 29-May-2019)

Assessment of the reactance lung volume relationship from the forced oscillation technique

**Dr. Sebastian Alonso Quezada**

(Specialisation: Neuroscience) (Conferred: 29-May-2019)

Cortical Plate Gene Expression During Gyrification in Sheep

**Dr. Thomas Alan Ranger**

(Specialisation: Epidemiology) (Conferred: 29-May-2019)

Investigating structural and non-structural risk factors for low back pain and disability

**Dr. Mohamed Ibrahim Mohamed Ahmed Saad**

(Specialisation: Biomedical science) (Conferred: 29-May-2019)

Uncovering the Protumourigenic Role of the ADAM17 Protease in Lung Cancer

**Dr. Maria Soloveva**

(Specialisation: Clinical neuropsychology) (Conferred: 29-May-2019)

Brain Compensation in Premanifest Huntington's Disease

**Dr. Julia Eileen Stone**

(Specialisation: Psychology) (Conferred: 29-May-2019)

Measuring and Predicting Inter-Individual Variability in Circadian Response to Shift Work

**Dr. Haralampia Varsamis**

(Specialisation: Physiology) (Conferred: 29-May-2019)

Sugary Drinks, Sitting and Glucose Control: Evidence in the Australian Context

**Dr. Nabilah Ibnat Baby**

(Specialisation: Biomedical science) (Conferred: 12-Jun-2019)

Breast Cancer-Targeted Delivery of Tumor Suppressor Genes, Oncogene-Specific siRNAs and Anti-Cancer Drug Using Inorganic Nanoparticles

**Dr. Xianwei Che**

(Specialisation: Neuroscience) (Conferred: 12-Jun-2019)

Examining the Role and Neurophysiological Mechanisms of Social Support in Pain Experience

**Dr. Marietta Rushika John-White**

(Specialisation: Biochemistry and molecular biology) (Conferred: 12-Jun-2019)

Isolation and functional characterisation of microbial Beta-aminopeptidases

**Md Emranul Karim**

(Specialisation: Biomedical science) (Conferred: 12-Jun-2019)

Fabrication and evaluation of biodegradable inorganic-organic hybrid nanoparticles as potential tools for targeted delivery of genes and small interfering RNAs into breast cancer cells

**Dr. Lachlan Brian Mcmillan**

(Specialisation: Medical technology) (Conferred: 12-Jun-2019)

Wearable Devices for the Measurement of Osteogenic Activity  
May the Force be with You

**Dr. Eileen Grace Merriman**

(Specialisation: Clinical haematology) (Conferred: 12-Jun-2019)

Isolated Distal Vein Deep Vein Thrombosis: Diagnosis and Management Strategies

**Dr. Riya Palchaudhuri**

(Specialisation: Biomedical science) (Conferred: 12-Jun-2019)

Towards a point-of-care test for sepsis- Biomarkers of inflammation

**Dr. Linden Michael Parkes**

(Specialisation: Psychiatry) (Conferred: 12-Jun-2019)

A transdiagnostic examination of cortical-striatal-thalamic-cortical circuits in obsessive-compulsive disorder and gambling disorder

**Dr. Claire Louise Rankin**

(Specialisation: Clinical psychology) (Conferred: 12-Jun-2019)

Perspectives of Hospital Emergency Department Staff on Paediatric Medical Traumatic Stress and Trauma-informed Care

**Dr. Thaarvena Retinasamy**

(Specialisation: Neuroscience) (Conferred: 12-Jun-2019)

Evaluation of neuroprotective activity of standardized ethanolic Orthosiphon stamineus extract to ameliorate cognitive alterations in Alzheimer's disease

**Dr. Blake Riley**

(Specialisation: Biochemistry and molecular biology) (Conferred: 12-Jun-2019)

Direct and indirect inhibition of kallikrein family proteases

**Dr. Sj Sijie Shen**

(Specialisation: Immunology) (Conferred: 12-Jun-2019)

Neutrophils in colitis: the role of the gut microbiota

**Dr. Yao Wang**

(Specialisation: Reproductive biology) (Conferred: 12-Jun-2019)  
HtrA4-induced endothelial dysfunction in early-onset preeclampsia

**Dr. Mary Aida Ajamian**

(Specialisation: Medical studies - other) (Conferred: 26-Jun-2019)  
Investigating Markers of Intestinal Barrier Dysfunction in Gastrointestinal Diseases

**Dr. Geraldine Jia-Ping Ooi**

(Specialisation: Surgery) (Conferred: 26-Jun-2019)  
Clinical and pathophysiological aspects of nonalcoholic fatty liver disease in bariatric surgery

**Dr. Maria Vasantha Selvadurai**

(Specialisation: Haematology) (Conferred: 26-Jun-2019)  
Examining PI3KC2alpha as an anti-thrombotic drug target

**Dr. Stella Talic**

(Specialisation: Public health general) (Conferred: 26-Jun-2019)  
Recovery after transport-related injuries: insights into the Victorian compensable injured population

**Dr. Aurina Arnatkeviciute**

(Specialisation: Neuroscience) (Conferred: 10-Jul-2019)  
Genetics of brain network hubs

**Dr. Sarah Jane Arnup**

(Specialisation: Epidemiology) (Conferred: 10-Jul-2019)  
Improving the design, reporting and statistical methods used in cluster randomised crossover trials

**Dr. Sabine Lilamani De Silva**

(Specialisation: Microbiology) (Conferred: 10-Jul-2019)  
Differentiating between the forms of Mycobacterium tuberculosis disease through immune markers: a translational study through treatment of active and latent tuberculosis infections

**Dr. Carina Dexter**

(Specialisation: Microbiology) (Conferred: 10-Jul-2019)  
Community-Acquired Acinetobacter baumannii: Bacterial Pathogenesis and Host Predisposition

**Dr. John-Paul Fuller-Jackson**

(Specialisation: Physiology) (Conferred: 10-Jul-2019)  
Significance of brown adipose tissue in sheep and humans

**Eloise Grace Harrison**

(Specialisation: Physiotherapy) (Conferred: 10-Jul-2019)  
Non-pharmacological management and the lived experience of restless legs syndrome

**Matthew David Howard**

(Specialisation: Medicine) (Conferred: 10-Jul-2019)  
Analysis of survival of patients with cutaneous melanoma by location including investigation of desmoplastic and nodular melanoma subtypes

**Dr. Nadira Sultana Kakoly**

(Specialisation: Epidemiology) (Conferred: 10-Jul-2019)  
PCOS and Cardiometabolic Health over the Reproductive Years

**Dr. Nilakshi Dhananjani Dhanushika Ratnayake**

(Specialisation: Biomedical science) (Conferred: 10-Jul-2019)  
Stem Cell-Macrophage Interactions Regulate Vertebrate Muscle Regeneration: Insights from Zebrafish

**Christie Lee Sun**

(Specialisation: Reproductive biology) (Conferred: 10-Jul-2019)

Effect of Pre-maturation of Immature Oocyte with a C-type Natriuretic Peptide (CNP) on Maturation and Subsequent Embryo Production from Unstimulated Mice

**Dr. Maciej Szarek**

(Specialisation: Reproductive biology) (Conferred: 10-Jul-2019)

Identification and functional evaluation of activin A target genes in the normal and neoplastic mammalian testis: clues to gonocyte fate choice

**Dr. Qi Zhao**

(Specialisation: Epidemiology) (Conferred: 10-Jul-2019)

Ambient temperature and hospitalizations in Brazil: Addressing measurement indicators, geographical variation, temporal change, and demographic difference

**Dr. Yaping Zhong**

(Specialisation: Nursing-other) (Conferred: 10-Jul-2019)

The identity construction of Chinese migrant nurses in Australia

**Dr. Jasna Aleksova**

(Specialisation: Medicine) (Conferred: 24-Jul-2019)

Bone Health Across the Spectrum of Chronic Kidney Disease and Renal Transplantation

**Dr. Matthew James Davidson**

(Specialisation: Neuroscience) (Conferred: 24-Jul-2019)

Spatial and temporal analysis of qualia as evidence of conscious perception

**Brett Andrew Frenkiel**

(Specialisation: Surgery) (Conferred: 24-Jul-2019)

Follistatin and the breast implant capsule

**Dr. Lauren Annissa Hansen**

(Specialisation: Social work) (Conferred: 24-Jul-2019)

Self-as-mother: the role of a relational self in the development and support of maternal identity and wellbeing in the early years of parenting

**Dr. Hui Liew**

(Specialisation: Internal medicine) (Conferred: 24-Jul-2019)

Changes in the Endothelial Glycocalyx in Kidney Disease

**Dr. Alan James Mccubbin**

(Specialisation: Nutrition and dietetics) (Conferred: 24-Jul-2019)

Dietary sodium intake practices of endurance athletes, and implications for sodium status during exercise

**Dr. Sarah Jane Meiklejohn**

(Specialisation: Nutrition and dietetics) (Conferred: 24-Jul-2019)

Implementation of the Health Promoting Schools Framework - a policy analysis in Victoria, Australia

**Dr. Ella Peta Ottrey**

(Specialisation: Nutrition and dietetics) (Conferred: 24-Jul-2019)

Exploring mealtimes on subacute care wards using an ethnographic approach

**Dr. Maithri Haeshan Peiris Goonetilleke**

(Specialisation: Public health general) (Conferred: 24-Jul-2019)

An exploration of structural factors involved in the HIV epidemic in Swaziland

**Dr. Shreya Rana**

(Specialisation: Neuroscience) (Conferred: 24-Jul-2019)

Structural changes during fetal development of the gyrified brain: clues on determinants of cortical folding

**Dr. Sarah Alyce Revitt-Mills**

(Specialisation: Microbiology) (Conferred: 24-Jul-2019)

Functional and genetic characterisation of T<sub>cp</sub> plasmid maintenance and conjugation systems in *Clostridium perfringens*

**Dr. Clifford Connell**

(Specialisation: Nursing - emergency) (Conferred: 07-Aug-2019)

Escalating Deteriorating Patients' Care in the Emergency Department: Characteristics and Safety Culture

**Dr. Weili Gao**

(Specialisation: Nursing - perioperative) (Conferred: 07-Aug-2019)

The lived experiences of international operating room nurses in organ procurement surgery: A phenomenological study

**Andrew Ginn-Ming Hardley**

(Specialisation: Surgery) (Conferred: 07-Aug-2019)

ERCP, sphincterotomy and immediate vs delayed balloon sphincteroplasty for extraction of large biliary stones - a randomised controlled trial

**Dr. Haylee Marie Lane**

(Specialisation: Health - other) (Conferred: 07-Aug-2019)

Equity and Decision making in Allied Health

**Dr. Samuel John Rodgers**

(Specialisation: Biochemistry and molecular biology) (Conferred: 07-Aug-2019)

The role of INPP4B overexpression in breast cancer pathogenesis

**Dr. Andre Leao Rodrigues**

(Specialisation: Epidemiology) (Conferred: 07-Aug-2019)

Psychological determinants of risk behaviours and cardio-metabolic health in a higher risk regional cohort

**Dr. Ya-Lan Ying**

(Specialisation: Biomedical science) (Conferred: 07-Aug-2019)

Identification and Characterisation of Novel Therapeutic Targets Associated with Atherosclerotic Plaque Instability

**Dr. Edward Zimbudzi**

(Specialisation: Public health general) (Conferred: 07-Aug-2019)

Optimising Self-Management Interventions to improve Health-Related Quality of Life in patients with co-morbid Diabetes and Chronic Kidney Disease

**Dr. Talal Mamdouh M Alshammari**

(Specialisation: Paramedical studies) (Conferred: 21-Aug-2019)

The Development of Empirically Based Core Competencies for Emergency Medical Services in Saudi Arabia

**Dr. Aminath Azhan**

(Specialisation: Neuroscience) (Conferred: 21-Aug-2019)

Myelination deficits in fetal growth restriction: Understanding mechanisms for novel therapies

**Dr. Vera Golder**

(Specialisation: Medicine) (Conferred: 21-Aug-2019)

Treat to target in systemic lupus erythematosus: validation of the lupus low disease activity state

**Dr. Shaminka Natalya Mangelsdorf**

(Specialisation: Psychology) (Conferred: 21-Aug-2019)

Naturalistic Observations of Parent-Child Interactions Following Paediatric Injury

**Dr. Joanna Kate Schwarzman**

(Specialisation: Health promotion) (Conferred: 21-Aug-2019)

Evaluation in health promotion: Gathering evidence to improve effectiveness

**Dr. Shenpeng Zhang**

(Specialisation: Biomedical science) (Conferred: 21-Aug-2019)

Understanding Stroke Pathology for Better Treatment

**Dr. Mohammed Ibrahim A Alasseiri**

(Specialisation: Haematology) (Conferred: 04-Sep-2019)

The Role of Integrin-Linked Kinase (ILK) in Acute Myeloid Leukaemia

**Dr. Marris George Dibley**

(Specialisation: Biochemistry and molecular biology) (Conferred: 04-Sep-2019)

Functional characterisation of a subset of mitochondrial complex I accessory subunits and interacting partners

**Dr. Chee Yoong Foo**

(Specialisation: Medicine) (Conferred: 04-Sep-2019)

A Study on Coronary Intervention Door-to-balloon Time and Myocardial Infarction Outcomes: Quantitative Evidence Synthesis and Patient-level Data Analysis

**Dr. Keren Grynberg**

(Specialisation: Medicine, nursing and health sciences) (Conferred: 04-Sep-2019)

The JNK signalling pathway in renal ischaemia reperfusion injury

**Dr. Maggie Lam**

(Specialisation: Pharmacology) (Conferred: 04-Sep-2019)

Assessing the role of relaxin as a novel treatment opposing lung fibrosis and airway contraction

**Dr. Chun Wang Jason Lao**

(Specialisation: Paediatrics) (Conferred: 04-Sep-2019)

T cell polarisation in the Preterm Infant and its Impact on Bronchopulmonary Dysplasia

**Shingo Nakajima**

(Specialisation: Medicine, nursing and health sciences) (Conferred: 04-Sep-2019)

Association between Repressor Element 1 Silencing Transcription factor (REST) and Serotonin during Social Stress in the Nile Tilapia

**Dr. Siok Shen Ng**

(Specialisation: Public health general) (Conferred: 04-Sep-2019)

Clinical and Economic Evaluation of Anticoagulant Interventions for Stroke Prevention in Patients with Atrial Fibrillation

**Dr. Irene Papageorgiou**

(Specialisation: Obstetrics and gynaecology) (Conferred: 04-Sep-2019)

The Interplay of Cytokines in the Pathogenesis of Female Reproductive Cancer

**Dr. Monica Ruth Peddle**

(Specialisation: Health professions education) (Conferred: 04-Sep-2019)

Virtual patients, non-technical skills and undergraduate health professionals

**Dr. Ke Tang**

(Specialisation: Biomedical science) (Conferred: 04-Sep-2019)

Investigation of the Mechanistic Roles of TLR2 and TLR9 in Gastric Cancer

**Dr. Ravindranath Tiruvoipati**

(Specialisation: Internal medicine) (Conferred: 04-Sep-2019)

CLINICAL EFFECTS AND MANAGEMENT OF HYPERCAPNIA IN MECHANICALLY VENTILATED CRITICALLY ILL PATIENTS
