BECOME A MEMBER
The Festival of Fresh Ideas is a digital festival taking place over a fortnight in September designed to inspire, educate and engage early career engineers.

With a jam-packed calendar of events, workshops, industry site tours, webinar, podcasts, networking and HEAPS more to inspire and develop your skills, this festival will definitely ignite an engineering spark within you.

All of the activities, events and content have been created around 3 key themes; Life, Career and Inspiration, to ensure you will end the fortnight with a wide variety of new skills and knowledge for your job, your personal life and your future.

**LIFE**

These activities have been designed to tap into your interests as engineers, relevant issues and aspirations. Through interesting pieces of content, activities and helpful advice, this stream will build your confidence and give you a feeling of okay, I’ve got this. View all of the ‘Life’ activities here.

**CAREER**

These activities are designed to assist you in taking your next big step, whether that’s into the workforce, getting a promotion, up-skilling yourself or finding a new role. We’ve got heaps of tips and tricks to set you apart from your peers. View all of the ‘Career’ activities here.

**INSPIRATION**

This stream is all about opening your minds, showcasing what industry leaders are doing and getting you to think about different pathways and approaches to engineering. You will leave these sessions feeling inspired and ready to take the engineering world by storm. View all of the ‘Inspiration’ activities here.
